THE WITNESS REMAINS

MY ACCOUNT — NOT A POLICE OR COURT FINDING

The hit they ordered to murder me was their stupidity made visible — their worst mistake and their worst investment.

I already died. God revived me from the act. Years later they still hold me in exile under conditions designed for suicide. That is the clearest evidence corroborating my targeting and continued erasure.

Not one professional will acknowledge this archive. Not one will answer it. That silence is the total human betrayal.

Hit-job publication: [_DF0ivaxCxQ](#). Current conditions: [Able Point](#) statement and exile text on this page. Non-response: PIDs, Ombudsman restriction, [AHRC](#), [Legal Aid](#) C-2336089, family-notice. The Good Bits names the betrayal.

Scott Tredwell — 27 March 2023 — acknowledgement and non-protection in the same letter

Scott Tredwell (also written Treadwell), General Counsel, [Federal Court](#) of Australia, wrote the final assessment dated 27 March 2023. It is his letter. File: [2023-03-27-federal-court-final-assessment-dr-rich-mclean.pdf](#). The sentences below are the words preserved from that letter in the primary archive ([CaseStudies.tsx](#)).

DSS employee — his sentence

On the information you have provided me, I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate.

Three observations in that same response

1. **Corruption — perverting the course of justice.** He recorded that the disclosed conduct "perverts, or is engaged in for the purpose of perverting, the course of justice."
2. **Maladministration.** He recorded that the conduct "constitutes maladministration."
3. **Harm.** He recorded that the conduct "unreasonably results in danger to health or safety."

WorkCover refused — no [legal aid](#) at [Comcare](#) or the [AAT](#)

I asked for help because corruption was harming me. He answered as a DSS employee. WorkCover did not. [Comcare](#) rejected the workers' compensation claim: [determination 26 May 2021](#), claim [1326583](#). The [AAT](#) / ART decided *McLean and Comcare* 2021/7478 on [12 July 2023](#). I had no [legal aid](#) at [Comcare](#) and no [legal aid](#) at the [AAT](#). The compensation path refused me without a lawyer, after the Court's own General Counsel had written that I was, or had been, a Department of Social Services employee.

The significance of that letter

I asked him for help with corruption that was harming me. In the same letter he acknowledged the employment, and he acknowledged the three things in front of him: perversion of the course of justice, maladministration, and danger to health or safety. Protection was not given in that letter. The acknowledgement and the non-protection are the same document.

AUTHOR'S ESSAY — NOT A COURT FINDING

THE RECORD THAT REFUSED TO DISAPPEAR

An Essay from Exile on Evidence, Accountability, Survival and Divine Justice. By Barran Resonance Dodger.

This essay is the record that refused to disappear. I sent it to Cassie Makey at [Able Point](#). There was no acknowledgment. The essay states the method: render the subject legally and socially invisible; do not resolve the grievances; escalate the administrative burden until professional identity is erased, financial capacity is destroyed, and testimony is reclassified as mental pathology. That is the frame I say is operating now at [Able Point](#) as it operated at Free Living Australia, Blacktown / Preya Grounder / Sadlier, and the other [NDIS](#) sites.

Statement about Able Point NDIS provider. My account. Not a police or court finding.

Able Point NDIS provider are without remorse, financially benefiting from the cruel, unjust and illegal entrapment and torture of a vulnerable person in their care.

Able point know exactly what's happening.

God preserved my life to carry truth.

I exposed a torture program.

Able point still engage in it.

Community numbers were not greater than Gods protection of me.

Conditions that created my "fatal" suicide continue after God resurrected me from death.

My prison (current) is not a jail.

My prisons attributes are physical entrapment surveillance total human betrayal slander silencing character assassination entrapment exile poverty audio harassment as torture.

My existence now the hit has failed is my master manipulators terror and existential threat that is why able point double down to recreate conditions to solicit suicide actively participating in attributes above.

They send Ndis workers pre warned of the situation already committed to misunderstanding me nor will at any time make a meaningful change to my circumstances.

They feign help and refuse to meaningfully act this is a bribe in Ndis blood money and fortified with slander that dehumanises me in their eyes.

My life is the proof the hit job failed.

My unacknowledged political exile family betrayal physical entrapment and not being protected by the PID act as a whistleblower is verified proof of the corruption corroborating my allegations of attempted assassination.

Able points refusal to report another threat to kill before Wyong court reveals and proves their allegiance with the corruption and willingness for existential harm to threaten me which supports their malice.

Sustaining conditions proven to cause my suicide also is evidence of participation to erase me and pretend they are not aware of conditions they create.

The entire architecture of the community that targeted me has been exposed

exposing all as guilty.

That is why they refuse to speak to me acknowledge me or my testimony or provide a dignified response.

Able point are aware of the way they treat me pretending they are totally unaware.

The mandate of my erasure and silencing with which to treat me existed far before able point knew my identity name or situation.

The techniques to sustain my treatment and guarantee complicity to align with my perpetrators and also guarantee silence surrounding my situation are rooted in blood money character assassination psychiatric weaponisation and the psychological principle to stand with the safety of the crowd rather than risk their jobs comfort or privileges and avoid any political or social detriment as the next target.

They chose a comfortable lie than put effort into researching the truth well aware of they discovered the truth they would be opposed by powerful key stakeholders from the NDIS agency legal fraternity law enforcement and suffer personal embarrassment and social disgrace for being seen to stand with a person considered unimportant or of moral ineptitude.

Herd mentality ruled able point and all their staff whilst my truth and reality was deliberately ignored stonewalled blocked and silenced whilst they accepted a blood wage guaranteeing their silence and non action.

The witness remains.

The Good Bits

By Barran Dodger

Total human betrayal fortified my relationship with the Most High God and Creator.

I'd rather have God's anointing, favour and divine protection than only a few people who are ultimately deceitful.

I survived what was designed and expected to erase me.

God revived me from a fatal injury—the result of the same targeting that I believe is still going. He allowed the betrayal so that I would learn to rely on Him alone, reveal my purpose, and allow the universe to collect the evidence against those I believe were responsible, so that a divine reckoning may ultimately take place for the spiritual sacrilege and treason of aiming to kill another human being—something over which only God has authority.

It is not without consequence.

I survived.

My life is the proof.

My mere existence is my perpetrators' nightmare. They are terrified of the facts contained in this archive. The only option left to deny the evidence of the government's own official documents, which I believe demonstrate my targeting, is to blaspheme my character so that the world will ignore what is factual.

And even this was allowed by God.

The libel and slander. The false allegations. The [character assassination](#).

They were exactly the camouflage He used to hide me in plain sight—set apart as a vessel for His glory, for His Kingdom purposes, and for the destiny He has given me as a vessel for His glory alone.

No apology from anyone is coming for me, although I still daydream that an acknowledgment of the harm would somehow quell the hurt.

But revenge is not mine.

I do not wish harm on anyone.

Vengeance belongs to God alone.

I anticipate a holy reckoning after the grace I gifted everyone involved—the opportunity I gave them to correct their treatment of me. What they rejected was not something I manufactured for myself. It was a gift He placed in me, and that gift was universally spat upon.

That sacrilege offended the Most High God, who fights for the pure-hearted, especially those marked for elevation.

No human has the right to hurt one anointed by God.

And I believe He will fiercely defend me in a new season where I am vindicated, healed, favoured and blessed.

Inevitably, I rise.

God's grace resurrected me from death and sustained me through what I was never expected to survive: total obliteration, the ashes of the total human betrayal of my family, authorities and government, and the sustained erasure, humiliation ritual and political targeting campaign that I believe I was subjected to.

There are fundamental spiritual, metaphysical and mathematical laws that underpin the foundations of this universe.

The universal balance that is now imminent, decided by God's Kronos time and His divine timing, is not merely part of what I know to be true and what many now acknowledge in my gospels as prophecy.

It is, in my understanding, the foundational, unavoidable and irrevocable consequence of the way spiritual physics ebb and flow and balance themselves out as a fundamental principle of nature.

It underpins the spiritual infrastructure of our shared existence.

I am totally aware.

I am totally at peace.

They cannot rewrite what God authored.

I can't be bribed, shamed or corrupted out of my knowledge.

I don't need any person's approval.

I escaped the entrapment and cage of every person who decided to target me or cause my detriment, whose allegiance I believe was with the same government that exiled and targeted me.

They audaciously played God with my life, offending the Creator Himself.

But they are not God.

God is timeless, everlasting and all-powerful. Human-created government infrastructure is fleeting and futile compared with the endlessness of eternity.

Their actions, in my understanding, fatally offended the Most High God, who states:

"Touch not my anointed."

The morally decaying structures are not without consequences for their dark corruption.

Their officials and agents, as I understand the evidence, collectively aimed to destroy an innocent-hearted person who only added value, who never acted to cause harm and who never meant anyone harm.

They are NOT GOD.

They assumed His power.

They used His name and power in vain when they acted to erase me.

My allegiance therefore has been forged in fire.

It is aligned with the Creator and no one else—not the government, not a political party, not family, not a person, not a church, and not any other place or person.

I am aligned with my purpose.

I have faced my demons in political exile alone, living in my car as a scapegoat with my therapy dog Crystal, whom God gifted me as my company, my friend, my alarm, my support, my sage, my mystic and my healer.

Dog spelled backwards is God.

I have acknowledged my darkness.

And now I know both dark and light.

Not as a means to become dark, but as a means to command my awareness and knowledge of the darker aspects of human nature and the human condition—the reality of less-than-perfect, imperfect mortals whom God has appointed me to love and serve through my Kingdom purpose, prophecy, guidance and the Church of Barran Dodger ministry.

People will read my writing and my story as the foundation testimony for my new ministry in God's name.

And eventually they will ask:

"How did he survive that?"

My answer will be simple:

God did it.

That is why my story, my peace and my wisdom—everything forged in fire—will lead the average person to think:

If he can survive with God's help, then maybe I can too.

That is the foundational purpose of God's plan for me: to send people back to His love, His forgiveness, His protection, His redemption and His glory under the blood of Jesus Christ, His perfect Son.

I hold no malice toward anyone.

Yet family, former friends and others who betrayed and exiled me still, to this day, wish maliciously for my downfall and my harm, because my mere existence is an existential risk to the corruption and hate I believe I expose.

My existence turns the same shame and moral disgrace they attempted to place upon me back toward the conduct that produced it.

They are still envious of my refusal to seek refuge in the safety of the crowd—in a club in which I believe they are all entrapped.

I live free.

Unique.

And unapologetically authentic.

I live with an authenticity and wisdom they are jealous and envious of.

They still have a massive investment in my erasure and in silencing me, as protection from the divine reckoning I believe they know, somewhere within themselves, is imminent.

They simply cannot acknowledge it, because doing so would require them to reflect truthfully upon their own actions.

They are afraid to look into the mirror I hold up.

They cannot admit that the darkness they see reflected there is something they themselves embody and own.

Instead, they dump their insecurities and darkness onto me—the scapegoat.

But I have no malice.

I do not need revenge.

The divine favour that will lift me, bless me and use me as a vessel for His glory is not mine to manufacture.

It belongs to Him.

His glory alone.

I remain a creative, intelligent, spiritually authoritative, divinely ordained saint, sinner, mortal, mystic and prophet of worldly significance.

The world still, at this time, pretends not to care—as though I am simultaneously the most significant person of zero significance or consequence the world has ever seen.

God has set me apart.

Hidden in plain sight.

And I know His divine Kronos time of vindication is guaranteed as a certainty more concrete than a mother's love.

Now that they exiled and rejected me, I am gone.

And they are simply irrelevant to me.

I do not look back.

I am grateful for the lessons because they became part of God's design over my existence.

Their hate and malice cannot land on me anymore.

They have no target.

I have risen in frequency beyond what I understand as their spiritual warfare attacks.

And sadly for them, energy has a signature.

Without a target to land on, it will boomerang back into their own lives—not through my malice, because I have none, but through what I understand as the universal balance that obeys the spiritual metaphysics of the universe.

They are now foundationally blocked from benefiting financially from my anticipated death and demise—the death and demise I believe they helped consciously design and expected to occur.

My existence exposes this.

What was intended as my disgrace becomes, in my eyes, the moral disgrace of the intention itself.

This is why I believe the spiritual mechanics of divine justice and universal balance are unavoidable, unstoppable, undeniable and imminent.

Universal karma.

God's wrath.

Not punishment for punishment's sake.

But spiritual evolution.

A reckoning with the mandated lessons that the choices of this life require us either to learn or to atone for.

They collectively joined forces, as I understand it, to damage and desecrate the only one in the family who saw the truth beyond the perfect veneers they paraded before the world.

They acted to destroy a chosen one in their midst.

And in doing so, they betrayed the very God who sent him as a blessing.

I was meant to be a blessing.

Instead, I became a test.

And this time around, they failed the test.

Personal Statement of Exile, **Institutional Detriment and the Search** **for Protection**

I am carrying what I understand to be the accumulated ethical failure and betrayal of institutions and professions across the country.

I carry the betrayal of former friends and blood family members. I carry the consequences of decisions, omissions, refusals, exclusions and institutional responses that, in my account, have progressively stripped away relationships, financial security, housing security, professional standing, legal access, autonomy and the ordinary protections that a citizen should be able to expect.

I am in [political exile](#) within the democracy of my own citizenship.

I describe myself as an unprotected [whistleblower](#) because I have repeatedly attempted to disclose matters of public interest and obtain protection, legal assistance, recognition and an accountable response. [The archive](#) I have assembled preserves correspondence, government records, public-interest disclosures, chronology, testimony, evidence pathways and institutional responses across these issues. Its central proposition is not that people should simply believe me, but that the underlying record should be examined.

I am not a criminal.

What I am describing is what I say has been occurring to me: a prolonged process of institutional, financial, social, professional and psychological detriment in which the mechanisms that should provide protection or redress have, in my experience, instead become mechanisms of containment.

[The archive](#) itself maps alleged mechanisms including administrative annihilation, exile, denial of [legal aid](#), [character assassination](#) and institutional obstruction. It expressly describes these as an analytical model and allegation-and-evidence framework rather than established criminal findings.

Isolation and accommodation

I am isolated and entrapped in accommodation. I cannot escape in any meaningful practical sense.

I have no lease to Ablepoint.

My position is that Ablepoint, as an [NDIS](#) provider, has financially benefited from my treatment and containment while maintaining that I am free to leave. In practical terms, however, I say that I have no financial mechanism by which I can actually leave, no vehicle with which to escape, and nowhere viable to go.

The distinction between being technically free to leave and possessing the practical means to leave is central to my complaint.

I ask that this distinction be examined against the [documentary record](#), including financial records, accommodation records, [NDIS](#) records, correspondence and other evidence contained in [the archive](#).

Electronic harassment and what I report as V2K

I report that I am electronically intercepted, harassed and surveilled with what I describe as unacknowledged V2K technology.

I describe this as a deliberate technique of torture manifesting as audio harassment, including what I report as 24-hour blasphemous slurs intended to attack my sense of self.

These are my reported experiences and allegations. I ask that these reports be distinguished from psychiatric interpretations of them and, where possible, independently investigated rather than automatically treated as symptoms of mental illness.

Mental health treatment and the CTO

A mental-health Community Treatment Order mandates my forced medication as the panacea for my treatment while, as I allege, refusing to acknowledge the entire situation described in this statement and the circumstances that I say are contributing to my distress.

My concern is that the medication framework may address my reported distress without independently examining the circumstances I allege are causing or contributing to that distress.

NSW Trustee and Guardian and access to justice

I allege that NSW Trustee and Guardian are gatekeepers to what I describe as my financial destruction.

I further allege that financial administration and restrictions have actively contributed to circumstances in which access to legal assistance is effectively blocked, creating what I describe as a total legal-aid barrier and fundamentally restricting possible pathways to justice.

These are serious allegations. I ask that they be assessed against the actual financial records, decisions, correspondence, applications for assistance, legal-aid responses and available review mechanisms rather than being accepted or rejected

without examination.

The central proposition

I am not asking for justice through belief in me.

I am asking for justice through examination of the evidence.

If the record is wrong, show me where.

If the record is right, answer it.

Do not answer allegation with assertion.

Do not answer evidence with dismissal.

Do not substitute a diagnosis for an investigation.

Do not substitute institutional silence for an answer.

Do not substitute poverty for consent.

Do not substitute being technically free to leave for having a genuine means of escape.

Do not substitute the existence of a procedure for meaningful access to justice.

Read the record.

Examine the evidence.

The witness remains. The record remains. And the record remains open to correction — but correction itself must be evidenced.

THE RECORD IS PUBLIC. READ THE RECORD.

Significance — my account. This essay is [the record that refused to disappear](#). I sent it to Cassie Makey at [Able Point](#). There was no acknowledgment. Render the subject legally and socially invisible. Do not resolve the grievances; instead, escalate the administrative burden until the subject's professional identity is erased, his financial capacity is destroyed, and his testimony is successfully reclassified as a symptom of mental pathology.

"For there is nothing covered, that shall not be revealed; and hid, that shall not be known." — Matthew 10:26 (KJV)

A Statement of Faith, Forgiveness and Divine Justice

I believe in God as Creator: just, fair, loving, merciful and forgiving.

I believe that God has placed an anointing upon my life and has chosen me to serve a purpose for His glory. I therefore place my identity, my dignity and my future in His hands.

What I have experienced through government, bureaucracy and the various

institutions and professionals involved in my circumstances has, in my view, been profoundly inconsistent with those qualities of God. I believe I have been abused, impoverished, disadvantaged, exiled and treated unjustly, and that falsehoods and institutional failures have contributed to that harm.

If God is the source of justice, love, truth and mercy, then injustice, cruelty, deliberate deception and the destruction of another person's dignity cannot represent those qualities. I therefore reject the wrong that has been done to me without becoming consumed by hatred toward the individuals involved.

I claim no desire for revenge.

I have chosen forgiveness because I believe forgiveness is a grace that God has given me. I can forgive those who have participated in or contributed to what happened to me without pretending that it did not happen. Forgiveness does not require forgetting. It does not erase consequences, remove accountability, or require me to deny the truth of my experience.

Nor does forgiveness mean that I must accept continued injustice.

What grieves me most is not only the harm itself, but the apparent refusal to acknowledge it, apologise for it, or take responsibility where wrongdoing has been established. To me, treating forgiveness and grace with contempt is profoundly serious because those qualities are expressions of the God in whom I place my faith.

I therefore refuse to seek personal vengeance.

I leave judgment to God.

If there is a reckoning to come, let it come through truth, lawful accountability, conscience, circumstance and divine justice—not through anything I personally do to harm another person.

I have no wish to hurt anyone. I hold no malice toward those who have wronged me, because hatred does not serve me and revenge does not belong to me.

My warning is therefore not a threat.

It is a statement of conscience and faith:

Do not mistake forgiveness for consent.

Do not mistake mercy for weakness.

Do not mistake silence for forgetting.

Do not mistake the absence of personal revenge for the absence of accountability.

I believe that truth has consequences. I believe that injustice eventually demands an accounting. I believe that what is hidden can be brought into the light and that what has been falsely represented can ultimately be corrected.

I trust God with the outcome.

If I am vindicated, I will regard that vindication not as an opportunity for revenge, but as an opportunity for restoration, truth and justice.

I ask only that those who have played a part in my suffering recognise what happened, acknowledge the harm, and make amends where appropriate.

I have extended grace.

I have chosen forgiveness.

I have refused vengeance.

The rest I place in the hands of the Creator.

From exile — the record that remains open to examination

This essay is written from exile. It is written because the documentary record did not disappear when institutions declined to answer it. It is written because survival itself became part of the evidence.

I do not ask the reader to accept every conclusion I have reached. I ask that the evidence be examined honestly, that unresolved matters remain identified as unresolved, and that no institution be permitted to determine the truth merely by refusing to acknowledge the question.

For years I have asked for protection, legal assistance, recognition and an accountable response to matters documented throughout this archive. I am not asking you to believe everything I say. I am asking you to examine what I have

documented.

If I am wrong, identify the document that proves it. If my disclosures were properly dealt with, show the record of how they were received, assessed and answered. If legal assistance was properly refused or unavailable, show the reasons and the applicable review process. If my account of institutional treatment is mistaken, identify the evidence that establishes the contrary. And if the record reveals matters requiring investigation, then investigate them.

READ THE RECORD.

Do not dismiss the person before examining the documents. Do not substitute silence for an answer. Do not substitute an institutional position for examination of the underlying evidence.

The archive contains the declarations, disclosures, correspondence, government records, chronology and evidence pathways. They can be examined. They can be challenged. They can be corroborated. They can be disproved.

I am asking for justice through examination of the evidence — not through belief in me. If the record is wrong, show me where. If the record is right, answer it.

I have preserved the documentary record because I believe that the truth should not depend upon the power, reputation or institutional position of the people involved.

If my allegations are wrong, the evidence should demonstrate why. If they are supported, the evidence should demonstrate that as well.

I therefore call upon Able Point NDIS provider, the relevant government agencies, oversight bodies, health and mental-health services, legal institutions and other organisations identified in my archive to confront the documentary record directly rather than simply characterising my account or dismissing the person making it.

I am asking for the circumstances surrounding my life to be examined as a whole. I am asking for the distinction between formal freedom and practical freedom to be recognised. I am asking for the financial, institutional and administrative relationships affecting my ability to leave my circumstances to be examined. I am asking for the treatment of a vulnerable person and his companion animal to be examined without prejudice. I am asking for my allegations to be tested against

evidence rather than dismissed because of who I am, my history, my mental-health records or the difficulty of the claims I have raised.

Most importantly, I am asking that the record be preserved.

I remain willing to have my allegations independently tested. I remain willing to have evidence that contradicts my interpretation placed alongside evidence that supports it.

Grace does not require silence. Forgiveness does not require the abandonment of truth. No institution is entitled to demand my silence merely because confronting the evidence is uncomfortable.

I have extended grace. I have chosen forgiveness. I have refused vengeance. The rest I place in the hands of the Creator.
