Oh really?

That was YOU Joanne Kelly who responded to me?

How lovely that you did it had a personal touch

I wish to say that you are utterly aware of the framing of me and my work cover rejection from a corrupt paul Fowler and workcover where he was the old boss and also a lawyer

Smells like corruption doesn't it?

As public service authorises, such as yourself and paul Fowler and while we are at it even the prime ministers office of cabinet who rejected my FOI: you are well aware it is not permissible to act outside the charter of human rights and the charter of human rights for a person with a disability.

That is ratified by the government in 2008 and is a foundation of our democracy

You would especially know bring in the position of the junction between a half percentage of the NDIA/S being of lived experience employees themselves as a goal and model the commission is based on ethically to give voice and perspective to participants within the service and engaging

That being said,

Your nameless and signature-less email seemed to come in a delayed way that came across as innocuous and meaningless with a few links

And then I saw your name shine like a cyan blue electricity on my screen (because I am a homeless vagrant and my computer broke)

I mean tge screen of my phone

So please excuse the dodgy screen shots if you will indulge me

The funny thing is and as suspicious as it is:

Your links about what should have been acknowledged to me leads me to an online Microsoft portal

How astounding

Further

I have a log in of my email:

rich@richmclean.com.au

So even though at first

It seemed like you obviously are well aware of my plight as even the prime minister is and the death threats at my local and people threatening to kill me (right at my window-in the shell of a basically unliveable house where I "squat")

And the police yes they're not very nice to me

They kicked the door in after I tried to push it shut because they were using the mental health act to incarcerate me for the third time - they had keys would you believe as I was silent inside

One coo says "I don't care just open it" and I pushed it shut however they then kicked it in

Anyway I guess I won't be calling the police about that

Nor the millions of dollars in detriment I have suffered and the illogically insane vertigo of oppression I face as a scapegoat

Anyway they locked me up for having "delusions of persecution " with legislation in the mental health act

I protested that

They trespassed

They kicked in the door

Scared my dog

They intimidated me for days

I had advance warning they were going to frame me with a crime and be at her majesties pleasure

The law I tried to fight them with was

I the psychiatrist who had diagnosed me as delusional (you know none of this is real), I had never even met!

That was the very issue the first time I went in when sadly I had proven veins readonable doubt not one person was on my side

I had recorded the take down

Anyway after I killed myself with an agreed illegal contraband that utterly abandoned the duty of care and trashed the charter of human rights, let alone my heart, when my dog was locked for four days alone in my house pining (my soul hears hers), it was deemed "fatal"

I forget what I was on about but they accidents revived me from certain death

And misdiagnosed me and pumped me full of drugs

—

They savaged my life consistently and with a constant ous and malicious methodology for so long over so many years that it was in godly in its approach

The sun is that

Thousands of people were in on this public officials who acted via ommission in a deliberate and intentional way to aid and abet my death

And I was sad the whole time and unwell from work because of my client abuse ing me and triggering me with his child rape and incest stories

I consciously remembered and collated his narrative over two years and had it signed by a justice of the peace

But at the same time as working I was fighting a silent battle and tge say the magistrate waited until my own sexual abuse case was out of time for appeal

She wrote to me I was "doomed to fail"

And I went blank and I didn't go to work that day

That was I guess the apex of the beginning of the end of a 30+ year career mostly in altruism helping otger people

I had already survived an overdose and complained about it in a rational valid and by the book way which free kicked the solution to tgr GP asking a simple atonement and a knowledgement of the issue

But it's been years and years on now, I literally was murdered and then dumped and the government condoned that as ok

And not one person stood for me

And that was really hard

That no one has ever had my back

So I set to work with now what I realise is an ABI that I've never had treatment for

Let alone a single psychologist in over a year

They will lock me up and incarcerate me though

That not because I'm mentally I'll that's because the intelligently designed vagrancy that has robbed me of all prosperity and human worth value and dignity and left me on 22k for over a year and 18k of that went on rent

I've barely even existed

Or had the capability to exist

Such is the movement to destroy me

I know it

Because my soul resonates it

And they did

And then they covered it up

Then they dumped me

Then they rejected my medication

They dumped me from the service

Then engaged again when I held people tightly to account

You see they are confusing abject vagrant poverty

With illness

And if there was any justice

I would never need welfare or eat stale bread whilst my husky gets the sardines

I forgot what I was saying

Hang on

I'm on a phone

I'm on a phone

...I've been framed as an extortionist and utterly catastrophically character assassinated

By the GPs lawyer

That was years ago

I don't find that out until after I was basically murdered

Let's face it it was not 100% my liability

It was a systemic government oppression that was decades long

...they admitted they got it wrong too.

I was neither delusional nor psychotic

I was right and that didn't surprise me but left a joke of hopelessness in my heart

Especially in the ten months after that where I saw a psychiatrist only twice

The second time was boot me off

My dog is a healer

And tge zephyrs are my joy because I live in isolation and that can drive you neurotic with a life that's been one a fight and everyone is sick of you complaining and ranting and it makes you seem crazy

Alas

I'll be homeless in four days

I've 64 cents

An ABI

Minister reynolds-fo you know her?

I wrote to her and asked why. My last 60 invoices were not paid

She sent me to a shelter via a proxy of another psa I'd never heard of

My issue apart from vagrancy then death or being framed for a crime I've never done but the result of libel and slander is

I lost my faith in people

I've learned. To live isolated

Just with my dog

It's funny they call me an extortionist

But when I was doing my PHD a man gifted me 100000

And he said it was a mistake so I gave it back

My former partner tge asio agent owners me \$500000 from our engagement together

However. It was gods plan I was tge empath and he was a cunning killer and narccist

Wrll that was a soul lesson learned I tell you

The detriment has been denied by the attorney general

AHRC one million

AFCA 1-2 million

Comcare

ASIC

APRA

The commonwealth ombudsman

I cannot report rape murder fraud or anything at all or be a whistleblower

I've no voice

I know it is delusional to say

Bit sometimes I giggle to myself at the end of the anthropocene and joke to myself in Jesus or tge 🙄 by Buddha in tgr end times lol

I'd love to transform this

I do subscribe to holistic shamanism

I live hell and heaven as a duality

Parallel

All the time

And the psychotic drowns on the same seas the mystics sail on

And that's the original reason I overdosed because my friend killed himself and he was the music but the cosmic ballet took him but I know he's content

And free of being an earth monkey

My soul lit up with a million subs when I felt him behind me

He was my friend

Sorry I'm a writer I get lost

Anyway as the cosmic valley had it

My sexual abuser dies a day after I'm saved

My parents are quite toxic people neurotic and consciously chooses ignorance

I'm the scapegoat

And without a hint of remorse

As ifI didn't exist

They honoured his life two days later at his funeral

The archetypal parents are important and I've yet to 100% value my own inner anima and animus and be born

But I'm this side of the grass

And it's a good start

And I'm very grateful

And i want to turn this...what would you call it...?

Into something extra ordinary

I don't even want money

I'm into sex getting drunk going past the event horizon my higher god self the divine and banal - and enjoying my companion dog

And umm oh yeah

Tge finance minister Birmingham knows he is causing great detriment

Money is not my currency

That's what I was trying to say

I just wanted enough to survive

Just to be free of death threats

And have a little dignity

If any other detriment came

I'm gifting it to people

Sadly there's no one much left to help

That's why I'm hungry

And don't use heating or cooling

Hey if you could even put on a word about my Comcare claim

Seeings I was

Paid by the government

Had a contact

Advance payments for covid

Got paid on a government portal

Pay my taxes

Am nice helping people and want to help people

Despite the obvious many who forsake me

If I could just get ONE person a PSA like you to advocate within the law

Within the charter

And I had a lawyer at AAT with workcover

About definition of an employee

Because I'm light and soul and my head in the clouds

And the move to that killed me then covered it up now is not only suing me they are further going to destroy me

And they have all the emotional depth of a spliced sideways credit card lol

That's why I blew the whistle on

www.killhim.info

Because I'm multi dimensional

I've the energy of my past loves and lives

The invisible currencies

We are not. People who have spirits

We are esoteric resonances trapped in monkey suits having human experiences

Anyway I'm ranting

I want to hood in the world

I know what I'd die for

I trusted that

And I'm supposed to be here

And maybe send you this letter

Jesus who says letter any more lol

Email

Justice or death!

I chant

They can't kill me now

Too many people know

But I'm in pain suffering against impossible odds

It's an obligation

And would be a great gift to abide by that

To the meek the ones without voice and the colourful angels and marginalised

What the hell

I'll say

Love Dr Rich

I'm out and about

Whistleblower
