I have received your request for documents in relation to victim Richard MC LEAN (8/4/1973) of 2 Cubbin Street, Footscray

Please find enclosed a copy of the following documents:

- Summary of incident extracted from LEAP, including other victim's details, witness details and location of incident
- Victim's statement which was taken at scene
- 2 x photographs of the Victims injuries
- Medical records from the Western Hospital, relating to the Victim's attendance on the evening of the assault

Please note that at this point in time the offender's have not been identified. Unfortunately the quality of the CCTV at the licenced premises where the assault occurred is very poor however the images have been circulated to local police members in the hope of identifying the offender's.

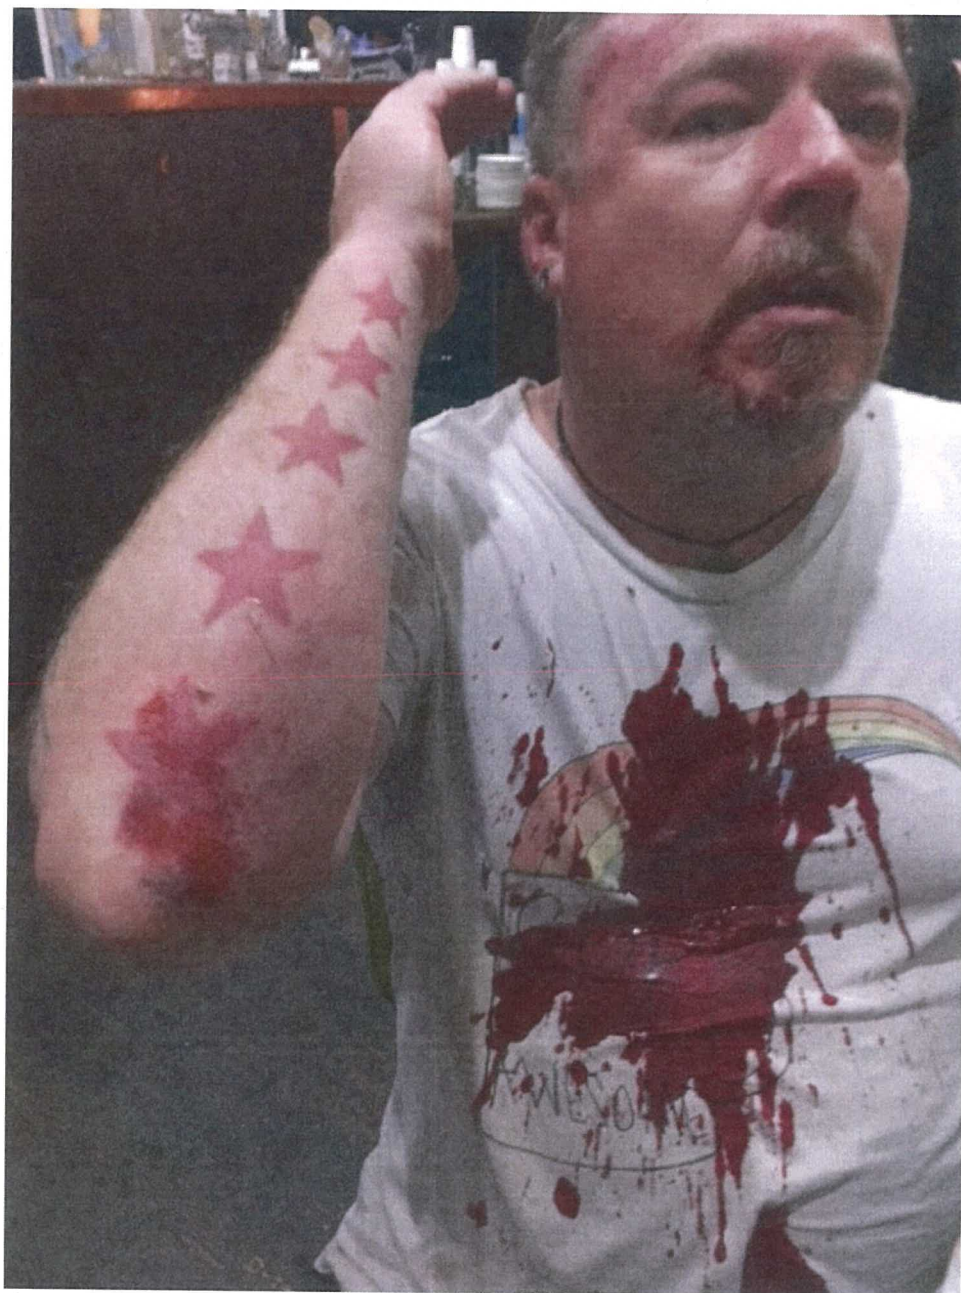

If anything further is required or any clarification needed, then please contact me.

Richard MCLEAN (8/4/73)
 2 McCUBBIN ST NFC
 0400 639 248.
 rich@richmclean.com.au

✓ ERef 227499935

At approximately 1345hrs on 05/01/20
 was working watch house @ Footscray police
 station w/ C/F [33(1)] + SGT [33(1)]

Richard MCLEAN (details above) attended
 with allegations of 'Doctor Malpractice'.
 He stated that over a year ago
 he had attended 'Millenium Medical Centre'
 to see Dr. [33(1)]

During this consult MCLEAN states he told
 the Dr that he was suicidal and
 begged to be sent to a psychologist
 or psychiatrist. According to MCLEAN
 the Dr said he was 'too smart' and
 would slip through the cracks' and that
 he did not know anyone.

McLEAN claims that the Dr was dismissive and should have taken better care. The Dr then prescribed some opioids to McLEAN that McLEAN later used in trying to OD. McLEAN survived the OD and later wrote to the Australian Health Practitioners Regulation Agency (AHPRA), with the evidence of 'malpractice' by Dr McLEAN also stated that he had an audio recording of the conversation with the Dr. which he ^{said he} would provide to me via email. At this point I asked for all of the information that McLEAN could provide, and he gave me the Response letter from AHPRA, the written transcript of the audio recording he took, 2 x stat decs from his friends about his suicidal state during that period, and the suicide note he wrote on 24/9/18. as well as a copy of an email he sent to a generic footscray police email address on 27/12/19, which he had obtained from the footscray police web site. I asked McLEAN if he needed immediate mental health assistance, and he stated that he was doing ok now and had been seeing new health professionals. He said he was in a much better place and did not need to go to the hospital today, but that he was only chasing up the 'malpractice' allegations with police today because he was not satisfied

with the response from AHPRA, which stated that the Dr had not done anything wrong. I told MCLEAN that I would listen to his recording and that I would contact AHPRA to ask for their side of the story. To this MCLEAN seemed satisfied and was about to leave but before he left I again double checked if he needed any mental health assistance and MCLEAN again assured me that he was going OK today and declined any immediate assistance. I explained that there would be no harm in submitting referrals, to which he accepted and provided his phone number. I was satisfied with this as MCLEAN presented to me as well spoken and level headed, he did not appear to be in any distress or mention any mental health concerns that were affecting him at this time. I also spoke to DSC [redacted] 33(1) who told me that based on the letter from AHPRA there was no real evidence of malpractice but that I could speak to them for more information. He also stated that it did not constitute a criminal offence and was not a police matter but rather an internal investigation for AHPRA.
