TV recording — audio harassment through the speakers

My account. Not a court finding. Same publication: <https://youtu.be/eHpndGD-imQ>

Here is YouTube publication recording the TV. Listen to the end last minute or so you hear the audio harassment through the speakers proving live monitoring surveillance and audio harassment and slander character assassination akin to entrapment and torture.

Significance of this YouTube publication. Channel: Dr Rich McLean AKA Barran Dodger. Title as published: "Live audio harassment via wifi on tv under music surveillance at very end TI tes". I published this recording as proof of live monitoring and audio harassment through the TV speakers inside the house.

The slanderous blasphemy aimed at me is part of a coordinated humiliation ritual as a confirmed attribute of psychological warfare.

The mechanism to block my testimony I have experienced is false allegations of rape and pedophilia which is a vile distortion of my gay identity which also aligns and reflects police homophobia and the accusations I experience in this house at Able Point via V2K electronic harassment the manipulation of the wifi with subtle audio slurs blaspheming me 24/7 if I have the TV on and also interferes with my phone via the wifi. Drugs are covertly supplied to me which amplifies my sexuality for which if I watch legal porn the V2K narrates degrading comments inside the house: "have a wank pedo" "pedo" "raped Deb" "faggot" "they know" (referring to Able Point staff shaming me with a blaspheme I never deserved as a part of psychological warfare and a public humiliation ritual). The harassment occurs all day long and penetrates the home in a covert and often subsonic way difficult to record but I have managed to record the TV being audio affected with harassment via the wifi and I published it to YouTube. I have demanded arrest even hypothetically admitting to rape pedophilia extortion and terrorism but no police came no arrest charge or legal process.
