I thought you would act in congruence with every government agency paid by then to tow the party line...and I feel sorry for you pathetic and cowardly reply

This case could highlight with a publicly known figure the desecration one can face though proxy attacks of government agencies (of which you are one).

I survived a murder by the government because I was accidentally found

I barely have a GP and no psychologist or psychiatrist twelve months after my death in a hospital with a duty of care

...but that was covered up too

I have been systemically local state and commonwealth government rejected a voice, denied my human rights and dignity, I have been robbed of prosperity and also heinously framed and ostracised

I now live with not only mental illnesses, but an squired brain injury in which I have thought disorder and memory loss from being found unresponsive and with no blood or pulse

It was deemed in the hospital FOI a “fatal” injury and a “lethal” attempt: it was only via chance I was discovered then revised from certain death

I have not only been discriminated against in healthcare, having

not my medication or specialist, but I have through systemic attack rendered a vagrant squatting in my shell if a rental with no money no food no hope no family and no freinds

Advocates that come to assist inevitable leave because they are framed and prejudiced against me for what I assume must be a taboo reason

I have been the victim of oppression from AHPRA NHPOPC INAC the police the federal police incorrectly diagnosed and also demonised by my insure another super company and Comcare, AHRC, AAT, work cover, work safe, AFCA are holding on to over a million in determinations

The plan is I have realised to render life so hard for me I kill myself via my own hand before justice

The government is elongating the time and amplifying the abject desolation that is occurring in order to aid and abet my death before I gain my voice justice or compensation

I am banned from reporting crime to the police

I am a failed whistleblower at IBAC and the state and commonwealth ombudsman's as well as AFSA and APRA

In addition I have an NDIS plan but they have banned me from claiming a cent, I don't have a local area co ordinator or LAC or even a contact

I am homeless NOW literally HUNGRY and SQUATTING with No HEALTHCARE

It is a heinous utter and total malicious movement that is:

1. A co slushy to pervert the course of justice

2. Heinous targeted victimisation of a former public figure now framed and infamous

3. Libel and slander

4. They were not satisfied with not killing me and only maiming me

This is victory or death

There is no more time

They will kill me

I don't plan on it: but they cannot have my soul

And you will never ever be exonerated from the public shaming of rejecting coldly and with cowardice the existential survival of a public figure who spent twenty five plus years in altruism

Helping people more marginalised than myself

You will be identified if I live, and identified if I'm killed

For your cowardly and gutless rejection of this incredibly life and death issue you will be rewarded and shamed publicly as implicit within and from within...

That condone my murder

The cover up

And act as one of the dozens of systemic institutions organisations and statutory authorities acting on resonance

In order to with intentional malice render a brain damaged and marginalised man so utterly disrespected...

There can be no other logical conclusion

That you consciously act in order to aid and abet my death via proxy attacks that are committed with cowardice and believing how I was framed

...and you are the Royal commission onto violence and neglect and the I'll treatment of individuals like me

Whether I live or die; the person who was

I'm out and about

Dear Mr McClean,

Thank you for contacting the Disability Royal Commission on the 10th January 2022.

We note that the Royal Commission's role under the Terms of Reference (found on the website [here](#)) is to conduct its inquiry with a focus on systemic issues. Personal experiences inform the

work of the Royal Commission by highlighting systemic issues, and provide the Royal Commission with an extremely valuable insight into how systemic issues impact on people with disability. However it is not the role of the Royal Commission to deliver individual outcomes; it cannot decide or resolve individual cases, or award compensation. It is also not the Royal Commission's role to investigate every allegation made, nor would it be possible or appropriate to do so.

We appreciate that preparing information for the Royal Commission, may cause you and or your family distress, and we would encourage you to talk with those close to you, your GP, other health professionals.

Free counselling support from **Blue Knot Foundation** is also available for people with disability, their families and carers, and anyone affected by the Disability Royal Commission. Call the National Counselling and Referral Service on **1800 421 468** or **02 6146 1468** to find:

- support for your emotional wellbeing
- support for making choices about telling your story
- information on other practical supports available to you.

The Service is open **9am to 6pm weekdays** or **9am to 5pm weekends AEDT**.

Commonwealth-funded advocacy support services are available under the National Disability Advocacy Program (NDAP). NDAP advocates will be able to:

- protect your rights
- help you say what you want to say
- provide advice in your best interest
- act on your behalf to get the supports you need.

Information about the program can be found at [National Disability Advocacy Program](#).

You can find out more about the supports available on the [Disability Royal Commission](#) and [Blue Knot Foundation](#) websites.

Other services

You may also be interested in the following services:

- The **National Disability Abuse and Neglect Hotline**, a free, independent and confidential service for reporting abuse and neglect of people with disability, which can be contacted by:
 - telephone on 1800 880 052
 - email at hotline@workfocus.com
- Free assistance is also available from **IDEAS**, who provide access to information and opportunities for people with disabilities, their supporters and carers in the community.
 - telephone on 1800 029 904
 - text on 0458 296 602
 - email on info@ideas.org.au between Monday and Friday 8am-8pm
 - search their website on <https://www.ideas.org.au/what-we-do/info-on-services.html>
- The **NDIS Quality and Safeguards Commission**, available to those in New South Wales, South Australia, the Australian Capital Territory, the Northern Territory, Queensland, Victoria and Tasmania, for complaints about services or supports not provided in a safe and respectful way or not delivered to an appropriate standard, which can be contacted by:
 - telephone on 1800 035 544
 - completing a complaint contact form through the website at www.ndiscommission.gov.au/about/complaints-feedback/complaints

Thank you for supporting the Disability Royal Commission.

Kind regards

Louisa
