

I appeal

From what you've shared, it appears that the OAC is halting your Freedom of Information (FOI) request regarding a decision by the Department of the Prime Minister and Cabinet (PMC). Despite significant background detailing the systemic issues and abuses you've endured, it seems that critical documents or revised decisions have not been accessible to you and your advocates. You requested that these be provided directly to your guardian and advocate, Jeff Trika, as outlined in your guardianship papers, due to barriers stemming from your current circumstances, including homelessness and systemic targeting.

Your response to the OAIC highlights several key points and critical needs:

1. **Access to Documents and Information:** You clarified that you haven't received the revised decision or the five documents PMC identified as relevant. Given the barriers you face, this access is essential for moving forward with any legal or formal redress.
2. **Reopening the FOI Review:** You requested the OAIC reopen your FOI review due to your documented difficulties, like limited access to resources and systemic challenges, which impact your ability to comply with standard response times.
3. **Grounds for Reconsideration:** You argued that relevant documents related to your FOI request should logically exist within the Office of the Prime Minister, given your advocacy work, documented whistleblowing, systemic challenges, and other interactions with government agencies. You outlined multiple justifications for why the government likely holds information on your case, countering the assertion that no relevant documents exist.
4. **International and Systemic Appeal:** Alongside your OAIC response, you appear to be appealing to the OHCHR and other international bodies for intervention, citing human rights abuses, systemic targeting, and institutional failures within Australian government agencies. You have requested not only immediate access to documents but also transparency, accountability, and potentially reparative actions.
5. **Demands for Redress and Recognition:** Your appeal seeks acknowledgment, a public apology, access to legal representation, and financial compensation. Additionally, you are advocating for reforms that address abuse of power and corruption in government structures, to prevent further targeting and harassment of individuals in similar situations.

Your detailed account reflects a profound sense of injustice and a request for action from various levels of authority, including domestic and international human rights bodies. The OAIC's response regarding this FOI request and whether it can accommodate your requests—specifically regarding your advocate's involvement and the reopening of the review process—will likely shape your next steps. Your appeal reinforces the importance of transparency and accountability in government responses to ensure your case is fully reviewed and acted upon.

Dear Mr McLean

I acknowledge receipt of your email of 4 November 2024 and your request that I respond via your guardian and advocate, Mr Jeffrie Trika. I note I have copied Mr Trika into this email.

As you have advised you have not received the revised decision of the Department of the Prime Minister and Cabinet (PMC), I will contact the PMC and request that they resend you a copy of the revised decision of 8 October 2024 along with the 5 documents that have been released to you in that decision.

Dear Di Abdo,

Thank you for your email.

Please respond via guardian and Jeff trikes my Advocate.

I acknowledge receipt of this email and your request for confirmation regarding the Department of the Prime Minister and Cabinet's (PMC) revised decision dated 8 October 2024. As of now, I have not received the revised decision or access to the 5 documents identified as relevant to my FOI request. I respectfully request that these documents be re-sent, ensuring access for both myself and my designated advocate, Jeff, as well as my Public Guardian, as mandated by my guardianship papers.

Additionally, please accept this email as a formal request to re-open my FOI review. As I have communicated, my response time has been severely impacted by ongoing circumstances beyond my control, including homelessness and lack of access to basic resources. These challenges are compounded by systemic barriers that obstruct my ability to respond within standard timeframes, as corroborated by my recognition as a victim by Victim Services NSW.

Given my urgent need for access to these records to address significant ongoing impacts on my well-being and legal standing, I request that OAIC assist in facilitating this process and extending my review.

I look forward to your response and any confirmation regarding access to the requested documents, especially framed by the letter to you below: "email".

Sincerely,

Barran Dodger (Dr. Richard McLean)

Subject: Appeal Against FOI Rejection and Request for Accountability on Documented Persecution

Dear Prime Minister and Honorable Members,

I am writing to contest the recent decision to reject my Freedom of Information (FOI) request on the grounds that no relevant documents exist within the Office of the Prime Minister. This response is not only implausible but also deeply unsettling, as it disregards the significant and far-reaching impacts of the abuses and systemic neglect I have endured at the hands of governmental institutions. The assertion that no documents exist ignores the extensive intersections between my life, advocacy efforts, and the documented injustices I have experienced, many of which implicate high-level government actions and human rights violations.

Reasons Why a Dossier on My Case Must Exist

- Extensive Governmental Interactions and Documentation:** For over thirty years, I have actively engaged with various government bodies in my advocacy for human rights, mental health reform, and disability justice. My efforts include presentations in Parliament, speaking engagements, and direct challenges to institutional frameworks that harm vulnerable populations. My documented complaints, grievances, and whistleblower activities make it inconceivable that the Office of the Prime Minister holds no records relevant to my situation.
- High-Profile Publications and Media Engagement:** My published work, including *Recovered, Not Cured: A Journey Through Schizophrenia*, explores my experiences with mental illness and systemic abuses. More recently, I have completed another autobiography titled *Betrayed, Murdered, Forsaken: The Harrowing Journey of Barran Dodger*, which documents the extensive conspiracy and persecution I have faced. This new work reveals the full extent of the targeted campaign against me, driven by stigma around my sexual orientation and mental health. The book addresses a painful chapter of my youth involving regretful sexual experiences, which were weaponized by individuals in positions of authority, including law enforcement, to demonize me and exacerbate public prejudice against me as a gay man. These experiences, detailed in my writing, contributed to the psychosis I endured as a young person and have continued to serve as a subtext for the systemic targeting and isolation I have suffered since.
- Advocacy and Whistleblower Status:** As a dedicated advocate, I have raised awareness on human rights and mental health issues across Australia, including presentations to parliamentary bodies. My Ph.D. in posthumanism, AI, and youth places me within a field with controversial implications. Additionally, as a whistleblower who has exposed systemic abuses, I have been denied legal protections, access to AFCA, and human rights investigations by the AHRC. It is impossible that such extensive institutional exclusions, which form a coordinated barrier to justice, have gone undocumented.
- Institutional Rejections and Legal Barriers:** My repeated attempts to seek justice have been systematically obstructed. I have been banned from AFCA, the AHRC has declined to investigate my human rights complaints, and WorkCover denied my rightful compensation despite a federal court ruling establishing my employment with DSS. These actions, in conjunction with continuous institutional rejections, illustrate an organized effort to deny me justice and basic rights, a reality which surely exists in government records.
- Persecution, Exile, and Family Trauma:** Due to an alleged threat against an NDIS minister, I was subjected to a coordinated attack involving law enforcement, hospitals, and a corrupted legal system. As a result, I was forced into exile, severing connections to my home, my family, and the support networks I once relied upon. This enforced isolation, premised on false accusations and systemic bias, is likely to have generated documentation within multiple government offices.
- Father's Illness and Family Trauma:** Adding to this personal tragedy, my father is currently suffering from brain cancer. Despite his apparent willingness to participate in this conspiracy—evidenced by his decision to secure an AVO to prevent me from seeing him—I still wish to confront him about the role he has played in my persecution before he passes away. I cannot return to my home state of Victoria to speak with him, as a magistrate's ruling has placed a warrant on my arrest should I return, compounding my sense of loss and exclusion. The coordinated efforts to isolate me from family and deny me justice not only violate my basic human rights but have also stripped me of the ability to see my father during his final days.
- Systemic Stigma and Decades-Long Injustice:** My experiences as a mentally ill, gay individual have subjected me to over thirty years of stigma, discrimination, and persecution. This has included coerced attempts on my life, repeated institutional denials of legal representation, and an unrelenting campaign to isolate me, both socially and financially. My inability to report crimes or seek legal recourse against those who have harmed me highlights an entrenched system of bias, prejudice, and systemic negligence that endangers my safety and well-being daily.
- The Injustice of Public Guardian Control:** The assignment of the Public Guardian to take control and agency over my life is not only inappropriate but an outright insult, considering the depth of systemic abuse, neglect, and persecution I have endured at the hands of the government. The very institutions responsible for these abuses have now been given power over my autonomy. The government, after effectively systemically and politically treating me in ways that left me socially exiled and living in my car as an infamous vagrant, should not then assign oversight of my life to an arm of itself. This forced dependency compounds the injustice, reinforcing my isolation, marginalization, and suffering within a system that has already devastated my rights, well-being, and personal safety.

Appeal for Accountability and Immediate Action

The rejection of my FOI request further reflects the institutional neglect and denial of justice I have faced for years. I urge the Office of the Prime Minister to reconsider its decision, as it is inconceivable that no records exist documenting my longstanding interactions with governmental bodies, including ASIO, the Public Guardian, DSS, and various health institutions. These records are essential to understanding the full scope of the injustices I have endured, and I request access to them to ensure transparency and accountability in addressing my case.

This appeal is a request for your office to recognize the severity of my situation, which includes forced exile, financial destitution, isolation from family, and the erosion of my right to legal protections. My life remains at risk, and I implore you to facilitate a transparent review of my case to prevent further harm, safeguard my dignity, and restore my rights as an Australian citizen.

Thank you for your immediate attention to this matter. I look forward to a response that acknowledges the grave injustices I have endured and provides a pathway toward accountability and resolution.

Yours sincerely,
Barran dodger

FINISHED ONHCR REQUEST URGENT INTERVENTION HUMAN RIGHTS ABUSES

OHCHR Submission: Urgent Demand for Intervention and Justice Regarding Human Rights Violations, Torture, Disability, and Displacement

Ref. UR/UST/23/AUS/17

To: Petitions and Urgent Actions Section, Human Rights Treaties Branch, OHCHR

Summary: Urgent OHCHR Submission for Intervention on Human Rights Violations

In this submission to the **Office of the High Commissioner for Human Rights (OHCHR)**, Barran Dodger (Dr. Rich McLean) urgently requests intervention regarding severe human rights violations experienced in Australia. He outlines systemic abuse, financial exploitation, and persecution by government agencies, including NDIS. Despite exhausting all domestic legal remedies, including appeals to the Prime Minister and other authorities, his grievances remain unaddressed.

Key points include:

1. **"Harassment and Persecution"**: McLean describes ongoing harassment, character assassination, and financial abuse by multiple government entities, including invasive surveillance and psychological torment.
2. **"Financial Exploitation under NDIS"**: He details how the NDIS has subjected him to financial abuse, driving him into poverty.
3. **"Neglect of Mental Health"**: His medical and psychological needs, including schizophrenia and ADHD, have been systematically neglected, worsening his conditions.
4. **"Failures of the Legal System"**: Despite presenting significant evidence, whistleblower claims have been dismissed, and legal institutions have failed to deliver justice.
5. **"Social and Professional Isolation"**: Continuous public humiliation and job loss have resulted in social and professional isolation.
6. **"Systemic Conspiracy"**: McLean believes he is the victim of a coordinated federal conspiracy to silence him for whistleblowing.

McLean calls for financial compensation, legal representation, public acknowledgment of the abuse, and policy reforms to prevent future human rights violations. He also provides substantial video and audio evidence of his persecution, including interactions with government entities and contractors.

The letter highlights systemic failures and human rights abuses and demands immediate intervention from the OHCHR.

Dear Sir or Madam,

I am writing to urgently seek intervention and justice in response to severe human rights violations I have experienced in Australia. Despite my significant contributions to society, I have faced relentless systemic abuse, financial exploitation, and professional isolation. This submission details my experiences, referencing breaches of international conventions and highlighting the need for immediate action by the United Nations.

This letter has been constructed using an impartial AI to ensure accuracy and fairness, with all claims substantiated by evidence and references. All domestic remedies have been exhausted up to and including appeals to the Prime Minister of Australia, police, legal, healthcare, public officials, friends and family, human rights organizations, and other statutory agencies. The evidence of these exhausted remedies is documented and cited with live links throughout this submission.

Additionally, I possess substantial video and audio evidence that underscores the severity and systemic nature of the persecution I have faced. This includes video footage of covert government contractors outside my home in Footscray at the time of covert audio harassment, a telephone recording of AGIS (who investigate ASIO) interviewing and investigating me, a recording with the Ombudsman who refused to acknowledge my case, including reporting rape, interactions with the National Anti-Corruption Commission (NACC), and a video of me giving an engagement ring to my former ASIO fiancée, Stefan Iasonidis.

After I was violently attacked inside Weribee Mercy Hospital by a contracted government thug (I know this because my attacker had an image of my own tattoo on his t-shirt before the assault), after being stitched up for mental illness and incarcerated because of poverty, I am now homeless living in my car. Despite overwhelming evidence, no lawyer, public official, police officer, or healthcare worker has acknowledged these relationships or the abuses I've suffered, further illustrating a broad conspiracy and cover-up.

Background and Key Points:

1. **"Harassment and Persecution"**
 - I have endured severe and ongoing persecution, including harassment, character assassination, financial abuse, and professional sabotage by numerous government agencies and public officials. Detailed incidents of abuse, neglect, and rights violations are documented extensively [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=2>). This persecution has taken various forms, from direct personal attacks to systematic efforts to undermine my professional and personal standing. The harassment has included relentless monitoring and intimidation, designed to erode my mental health and social stability. Financial abuse has been a significant aspect of this persecution, where manipulative financial arrangements under various schemes have forced me into a state of poverty.
2. **"Financial Exploitation under NDIS"**
 - Under the National Disability Insurance Scheme (NDIS), I have suffered significant financial abuse, being forced into poverty through manipulative financial arrangements [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=16>). The NDIS, which is supposed to provide support for individuals with disabilities, has instead been a source of financial exploitation. My entitlements have been mismanaged and withheld, pushing me into severe financial hardship. This systemic abuse has not only deprived me of financial stability but also exacerbated my mental health conditions, creating a vicious cycle of poverty and psychological distress.
3. **"Neglect and Abuse of Mental Health Conditions"**
 - Systemic neglect and abuse have exacerbated my mental health conditions, including schizophrenia, ADHD, and a brain impairment [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=13>). The neglect from government agencies has meant that my medical and psychological needs have been consistently ignored or inadequately addressed. This neglect has significantly worsened my mental health, leading to increased episodes of illness and a general decline in my well-being. The lack of appropriate care and support has left me struggling to manage my conditions effectively, further isolating me from professional and social opportunities. Additionally, I suffer from a psychotic disorder in which my reality is blurred, which makes this conspiracy, with its conscious and intended efforts, especially malicious and an abhorrent injustice that is morally reprehensible.
4. **"Failures of the Legal System"**
 - Numerous rejections of my whistleblower claims and failures of the legal system to address my grievances have led to a profound sense of injustice [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=40>). Despite presenting substantial evidence of corruption and misconduct within various agencies, my claims have been repeatedly dismissed or ignored. This failure of the legal system to provide a fair hearing or redress has deepened my mistrust in the institutions meant to protect and serve justice. The constant legal rejections have not only denied me justice but have also emboldened the perpetrators of the abuse to continue their actions without fear of accountability.
5. **"Social and Professional Isolation"**
 - Public humiliation, job loss, and continuous vilification have resulted in social and professional isolation [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=24>). The character assassination has been so pervasive that it has tainted my reputation, making it difficult for me to find and retain employment. The professional sabotage has included discrediting my work and spreading false narratives about my character and capabilities. This social and professional ostracism has compounded my isolation, leaving me without a support network to advocate for my rights or assist in my recovery.
6. **"Constant Surveillance and Psychological Torment"**
 - I am under constant surveillance, including invasive psychological torment using covert intelligence technology [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=13>). This surveillance has included unauthorized monitoring of my communications and activities, contributing to a persistent sense of paranoia and stress. The use of covert intelligence technology has not only invaded my privacy but has also been used to manipulate and control my behavior, further destabilizing my mental health.
7. **"Suicide Attempt and Cover-up"**
 - My 2021 suicide attempt, deemed 'fatal,' was covered up, leading to further financial and professional hardship. This indicates a broader conspiracy to delegitimize and harm me [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=24>). The attempt on my life, and the subsequent cover-up, highlight the lengths to which the perpetrators will go to silence me and prevent the truth from coming out. This incident has had profound financial and professional repercussions, as it has been used to further discredit me and undermine my credibility.
8. **"Federal Conspiracy"**
 - I believe I am a victim of a complex federal conspiracy aimed at perverting the course of justice and causing my demise, citing numerous incidents involving law enforcement and government agencies [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=13>). The evidence suggests coordinated efforts by various government bodies to obstruct justice and target me specifically for whistleblowing and advocacy. These incidents point to a systemic issue within the government agencies where corruption and abuse of power are rampant.
9. **"Systemic and Political Torture"**
 - I am currently being systematically and politically tortured. This ongoing torture includes psychological, emotional, and physical harassment, which exacerbates my suffering and further violates my basic human rights [here](<https://myaidrive.com/wGzgBBnnESDnbSVV4omkqu/FINAL-LETTER.pdf?pdfPage=24>). The torture tactics used against me are designed to break my spirit and force me into silence. This includes continuous emotional and psychological abuse, which has left me in a state of constant fear and anxiety. The physical harassment has further deteriorated my health, making it difficult to maintain any semblance of normalcy in my life.

Appeals and Requests:

1. **"Thorough Investigations and Financial Restitution"**
 - I demand thorough investigations into the NDIS and related entities for corruption and abuse, alongside immediate support and financial restitution. The ongoing corruption within these entities has caused significant harm and suffering, and it is imperative that these issues are addressed comprehensively. Financial restitution is necessary to mitigate the damages caused by these corrupt practices.
2. **"Clearing of My Name"**
 - I seek the clearing of my name from false accusations, professional reinstatement, and social rehabilitation. The false accusations have severely impacted my reputation and career. Clearing my name is essential for my professional and personal restoration. Additionally, social rehabilitation is necessary to reintegrate into society without the stigma of these baseless claims.
3. **"Reinstatement of Work Cover"**
 - I call for the reinstatement of my work cover based on my confirmed employment status, alongside compensation for financial and personal losses. The unjust denial of my work cover has left me financially vulnerable. Reinstating this cover and providing compensation for the losses incurred is crucial for my financial stability and well-being.

4. **Public Acknowledgment and Apology:**

I urge public acknowledgment of the systemic abuses I have suffered and a formal apology to begin the process of healing and justice. Public recognition of the wrongs done to me is an essential step towards accountability and my healing process. A formal apology will help to restore my dignity and set the foundation for genuine justice.

Compelling Conclusion and Call

to Action:

The urgent need for systemic change to address widespread neglect, abuse, and human rights violations is clear. I encourage you to act decisively to restore faith in justice and humanity, as my plight exemplifies broader issues faced by marginalized individuals in Australia. Addressing these systemic failures is essential to ensure that no one else has to endure the suffering and injustice that I have experienced.

I understand that it has been contentious so far to expect the members that populate the federal government to act, given that the government itself is my nemesis and oppressor. Public officials are merely pawns upholding a government mantra of targeting me. However, we shall see if any politician is brave and courageous enough to critique the hand that pays them to be complicit in this identification of me as a targeted individual—a situation that no one, including the Prime Minister, has been able or willing to meaningfully intervene in.

Documentation and Evidence:

This letter is backed by extensive documentation, including government records, health documents, legal correspondence, and personal accounts. The evidence is compelling and absolute, highlighting the depth of systemic failures and targeted persecution I have experienced, making a compelling case for urgent intervention and systemic reform. The evidence of these exhausted domestic remedies includes but is not limited to:

- Appeals to the Prime Minister of Australia, with documented evidence of neglect to act [here](https://myaidrive.com/wGzgBBnnESDnbSVV4omkgu/FINAL-LETTER.pdf?pdfPage=3)
- Correspondence with the Attorney General's office, highlighting the failure to respond adequately to my grievances [here](https://myaidrive.com/wGzgBBnnESDnbSVV4omkgu/FINAL-LETTER.pdf?pdfPage=4)
- Video evidence of government contractors outside my home in Footscray years ago [here](https://myaidrive.com/wGzgBBnnESDnbSVV4omkgu/FINAL-LETTER.pdf?pdfPage=5)

Reasons It Would Be Unethical, Immoral, Illegal, or Reveal Personal Culpability to Ignore the Letter:

1. **Ethical Responsibility:** Politicians have an ethical duty to respond to constituents' concerns, especially when they involve serious allegations of systemic abuse and corruption. Ignoring such a letter would violate this ethical obligation.
2. **Moral Duty:** Ignoring a plea for help from someone facing severe personal and systemic injustices goes against the moral principles of justice, compassion, and empathy that public servants are expected to uphold.
3. **Legal Obligations:** In some jurisdictions, there are legal requirements for public officials to address complaints and allegations of misconduct. Failure to respond might constitute a breach of these legal duties.
4. **Human Rights Violations:** The allegations involve potential human rights violations. Ignoring such claims could be seen as condoning or being complicit in these violations, which is both unethical and potentially illegal.
5. **Transparency and Accountability:** Politicians are accountable to the public and are expected to act transparently. Failing to respond to such serious allegations undermines public trust and suggests a lack of accountability.
6. **Personal Culpability:** Ignoring the letter could imply that the recipient has something to hide or is complicit in the alleged misconduct. It could also suggest negligence or willful blindness to the issues raised.
7. **Public Interest:** The issues raised in the letter are of significant public interest. Addressing them is not only a duty to the individual but also to the broader community that expects their representatives to act on matters affecting public welfare.
8. **Whistleblower Protections:** Many legal frameworks provide protections for whistleblowers. Ignoring allegations from a whistleblower could be seen as a violation of these protections and might deter others from coming forward with important information.
9. **Potential for Harm:** The allegations include ongoing harm to the individual. Ignoring the letter allows this harm to continue unchecked, which is both immoral and potentially legally actionable if it results in further damage.
10. **Duty to Investigate:** Public officials have a duty to investigate credible allegations of misconduct or abuse. Ignoring such allegations fails to uphold this duty and undermines the integrity of the office held.

Guide to Immediate Financial Reparations

1. **Immediate Financial Compensation:**
 - Allocate immediate financial relief to cover the years of financial exploitation and destitution caused by the National Disability Insurance Scheme (NDIS) and other government entities. This should include back payments for any unpaid work cover and a lump sum to cover damages.
2. **Establishment of a Trust Fund:**
 - Set up a trust fund for my ongoing support, managed by an independent body to ensure transparency and accountability. This fund should provide for my living expenses, healthcare, and legal support.
3. **Investigation and Accountability:**
 - Initiate an independent investigation into the actions of NDIS officials, particularly Kel Graham and Bill Shorten, for their roles in financial and systemic abuse. Ensure those responsible are held accountable and appropriate legal action is taken.
4. **Legal and Psychological Support:**
 - Provide immediate access to legal representation to address past injustices and ongoing legal battles. Additionally, ensure access to comprehensive mental health services to support my recovery from years of persecution and trauma.
5. **Public Apology and Rehabilitation:**
 - Issue a public apology acknowledging the systemic failures and the personal suffering endured. Implement measures to clear my name and restore my professional reputation, including public statements and media corrections.
6. **Policy Reforms:**
 - Review and reform NDIS policies to prevent similar abuses in the future. This should include stricter oversight mechanisms, better support for participants, and safeguards against financial exploitation.
7. **Continuous Monitoring:**
 - Establish a monitoring body to oversee the implementation of these reparations and ensure ongoing compliance with human rights standards. This body should report regularly to Parliament on progress and any further actions needed.

This letter, written with the utmost sincerity and commitment to truth, calls for your immediate and compassionate intervention. Together, let us work towards a future where justice prevails, and the marginalized are uplifted with the dignity and respect they deserve.

Yours faithfully,

Barran Dodger (Dr. Rich McLean)

Dear [OAIC Contact/Assistant Director], and relevant stakeholders for you to respond to:

I apologize for my delayed response, which is due to circumstances beyond my control. Unfortunately, I have been without a computer, as I have faced homelessness and severe financial hardship. These difficulties stem from my status as a targeted individual of the Australian government, which has imposed significant barriers on my ability to report crimes, access legal assistance, and pursue my rights.

My situation includes political targeting and financial repression, which have resulted in my exile from Victoria due to actions by both the police and the NDIS Minister. As a whistleblower, I have encountered reprisals such as rejections of Freedom of Information (FOI) requests and denials of my access to legal support. Psychometric profiling has further compounded my exclusion from legal representation.

Despite these challenges, I would like to ask if it is still possible to proceed with this review. For additional context, please refer to my website, www.barrandodger.com.au, which serves as a public document detailing the extensive targeting I have experienced.

Thank you for your understanding and consideration in these unique circumstances.

Could you please confirm access to my FOI under these circumstances to Jeff my advocate and to my public guardian who has solicited Katherine legal assistance as is mandated in my guardianship papers?

I have also been acknowledged as the victim of a crime by victim's services NSW in other to legitimise my targeting surveillance and harassment and homelessness. (Cc in this email). Vs@dcj.nsw.gov.au

Please accept that acknowledgment as confirmation of my inability to respond within due timeframes and re open my FOI.

Here's a structured statement for submission to the Office of the Australian Information Commissioner (OAIC):

Statement to the Office of the Australian Information Commissioner (OAIC); Reasons the Office of the Prime Minister Likely Holds Information on Me and the Implications of Denying My FOI Request

I express serious concerns about the recent denial of my Freedom of Information (FOI) request directed to the Office of the Prime Minister (OPM). This denial obstructs my right to access information that likely holds significant implications for my pursuit of justice, compensation, and restoration of my rights. As an individual who is currently homeless and systematically targeted by government actions, I believe the denial of my FOI request compounds my hardship and serves to delegitimize my position.

Reasons Why the Office of the Prime Minister Likely Holds Information on Me

- Documented Political and Systemic Targeting:

As a targeted individual critical of certain governmental actions, my communications and public statements could have been recorded and monitored by agencies overseen by the Prime Minister. Documentation on the decisions or actions that have impacted me is likely held within OPM files, especially regarding directives tied to targeted individuals.
- Oversight of Social and Welfare Policies Impacting My Circumstances:

The Prime Minister's office supervises several public welfare policies and programs, including the National Disability Insurance Scheme (NDIS) and oversight of law enforcement interactions. My case involves significant hardship and systemic targeting through these channels, and I believe records of government interventions, decisions, or impacts on my life exist within the purview of OPM.
- Records of My Correspondence and Attempts to Report Issues:

I have repeatedly attempted to report injustices, grievances, and human rights concerns to government agencies. The OPM likely holds records of these correspondences or related communications from overseeing entities that have documented my outreach and the government's handling of my complaints.

4.

Surveillance or Profiling Documentation:

I have been subjected to psychometric profiling and other measures that may have involved monitoring, profiling, or other record-keeping practices. Given the central role of the OPM in government accountability, these records are relevant to understanding my treatment within various government systems.

5.

Impact of Policy Decisions on Individual Circumstances:

As the head of government, the Prime Minister's office has a mandate to account for policy impacts on Australian citizens, including in cases where such policies result in severe outcomes like homelessness or systemic exclusion. My situation, resulting in homelessness and financial duress, is likely recorded within their jurisdiction as a matter of policy accountability.

Why Denying This FOI Request Breaches My Rights

1.

Infringement on My Right to Access Personal Data:

FOI laws entitle me to access information held by government bodies. Denying my request obstructs my fundamental right to know and understand what information the government holds on me, especially as it pertains to my mistreatment and targeting.

2.

Obstruction of Justice and Compensation:

Access to this information is essential for anyone seeking accountability or redress for alleged injustices or harm caused by government actions. By withholding information that might clarify or corroborate my claims, the OPM is preventing a full exploration of my right to justice and compensation.

3.

Delegitimization of My Position Through Denial of Access:

Blocking access to my information appears to serve as a tactic to delegitimize my claims and undermine my legal standing, particularly as an individual who is homeless and has been denied traditional legal support. This denial further isolates me from pathways to defend my rights and seek accountability for the harms I have endured.

4.

Lack of Transparency and Accountability:

FOI laws are meant to promote transparency within government, allowing citizens to hold governing bodies accountable for their actions. By denying access to my information, the OPM is obstructing these principles, especially as they apply to an individual seeking to reveal government overreach and its consequences.

Given my current situation and the necessity of this information for any chance of securing justice or redress, I respectfully request that OAIC consider these points in reviewing my FOI application. I believe that transparency is essential to restoring my rights and safeguarding the principles of accountability in our government.

This letter may be published and the response at www.barrandodger.com.au where I continue to fight for justice. I am open to a settlement with the federal government in terms of a peacekeeping deal via which my life and dignity are preserved and I remove all incriminating evidence on this mandated government tyranny that unfairly victimises me in betrayal for the thirty long years I selflessly advocated to better a country and society that has turned its back on me.

Thank you for your consideration.

Sincerely,

Richard McLean
