13.09.2024

Dear AAT, NDIS, IBAC, ICAC, NCAT

I know its CC'd but please accept this all of you.

Please treat this as an official complaint that needs addressing by all.

I am not sure where out how to do this I am staring down the barrel of victimisation conspiracy and homelessness as a disabled person under the ndis obliged to care for me but who have proven to be abusing me

Regarding this SILS rejection by Kel Graham, a proven corrupt public official, I request an urgent review of Thi decision unable to be made before now because I was either homeless or incarcerated in a hospital

Richards Decline Letter (1)

.pdf
400 KB

I would like to note for the appeal:

The rejection of your Supported Independent Living (SILS) request from the National Disability Insurance Scheme (NDIS) outlined in the attached letter reveals critical gaps in how your support needs have been assessed and addressed. Here's a summary of the key points from the letter that Thrive, your new support coordinator, should understand:

1. Rejected SILS Request:

- The NDIS declined your request for Supported Independent Living (SILS) with 24-hour 1:1 support despite evidence from an Occupational Therapist (OT) report highlighting that you require full-time support due to your disability and high-risk behaviors.
- The NDIS deemed the request for 24/7 support unnecessary and stated that four hours per day for self-care assistance, along with social and community participation support, was reasonable and necessary.
- The decision was made despite the OT report indicating that without such support, you are at high risk for harmful behavior toward yourself and others.

2. Lack of Specialist Disability Accommodation (SDA) Approval:

- Your request for SDA was also rejected, with the NDIS stating there was insufficient evidence that you had an extreme functional impairment or very high support needs, which are typically required for SDA eligibility.
- The NDIS determined that standard housing solutions represented better value for money compared to SDA and did not see SDA as necessary to improve your life outcomes.

3. Misalignment of Supports with Needs:

- The NDIS acknowledged that you need some level of supervision and prompting to perform daily tasks but argued that this does not justify 24/7 support.
- They also rejected the notion that you require constant supervision to avoid risky behaviors, citing that restricting such behaviors would infringe on your dignity of risk.

4. Denial of Additional Supports:

- Other requested supports, such as emergency respite, financial counseling, physiotherapy, drug and alcohol counseling, and art therapy, were also declined. The NDIS viewed these as outside their funding scope or better suited to other service systems (e.g., health or social housing services).

5. Review Options:

- The letter outlines your options for an internal review or appeal if you disagree with the decisions. You can request a review from the NDIS within three months or escalate the issue to the Administrative Appeals Tribunal (AAT) if necessary.

Given these rejections, it is crucial for Thrive to gather more robust evidence regarding your functional impairments and support needs, especially as it relates to safety and daily living, to challenge the NDIS decision and advocate for the appropriate level of care.

This summary should serve as a foundation for discussions with Thrive and for preparing your case for further review.

I attach the two reports recommending SILS and note that the NDIS had said there would be no change to my SILS before these reports were completed which mean the decision to deny me this was pre determined in line with the federal conspiracy documented at www.barrandodger.com.au

I am just wondering why upscale care Alex Aboss' email is 'ssc' at upscale as he refers Kel Graham as part of my 'team' and I wonder what it stands for?

You're all pissing in each others pockets.

\$73000 dollars is a lot for upscale and aligned to care for a guy keeping him in poverty entrapping him financially then evicting him anyway.

73000.pdf

183 KB

The other obvious thing being bill shorten running me out of town and me having sex with Tony Riddell an ndis investigation of fraud and that I recorded and published it.

Lastly, the corruption at ndis complicit in a conspiracy to deny me justice.

My providers and the ndis are supposed to care for me and call out neglect and abuse - NOT be an active participant in abusing and neglecting me.

Please get back with what steps to do next as im squatting homeless and my dog s sick and neither Alex nor aligned have offered to help and are sacrificing the dog as an intimidation method for me to suffer and leave and their conduct is beyond mortally reprehensible, and also for allowing the time to pass in which I needed medication to prevent HIV.

Thats criminal negligence and I want it reported to police, IBAC and ICAC
