

Dear Parliamentarians of Australia,

RE: Dr Rich McLean's intelligently designed vagrancy and his systemic deadly abuse and systemic oppression.

I expect this issue will be dealt with swiftly.

I am reporting the human rights abuse, victimisation, and torture, of a formerly internationally recognised author and advocate, Dr Richard McLean. He wants olive, and give, but that is currently impossible with the power structures that have persecuted him, and the world; forsaken him.

Dr McLean is owed millions of dollars yet he has been categorically character assassinated.

After reviewing his documents I am convinced that a whitewashing and blacklisting of his many injustice issues is endemic in the Australian Government and a clear injustice is awaiting another route other than state sanctioning him medication and incarceration which is absolutely unnecessary and a methodology to further oppress and torture Dr Mclean

This could not be more apparent than the Office of Prime Minister & Cabinet at first acknowledging that his FOI was 'voluminous' then denying he exist s.

This was via proxy reply from OAIC who's identity does not exist anymore.

Every Australian parliamentarian has the responsibility to act within the remit the charter human rights of people with disability.

Dr McLean has identified with having a disability, and further after he was moved by systemic government oppression and his catastrophic character assassination to attempt suicide in Feb, 2018, identifies with further serious detriment

He suffers from memory issues and he 'can't feel his feet'.

Dr McLean is formerly nationally awarded human rights activist and campaigner.

His vulnerability and brave direct and authentic descriptions of his experience have left him exploited and taken advantage of

Simply, this movement to oppress him has him experiencing:

- Homelessness,

- Hunger,
- A vile victimisation that is systemic,
- Persecuted by police,
- Re-Traumatized by being incarcerated again (in the place the 'fatal' injury occurred),
- Physically beaten and left in isolation,
- Misdiagnosed,
- Medicated for 'delusions' which are real,
- Malpractice,
- systemic vilification victimisation and gaslighting,
- Suffered broken bones and fingers,
- Savagely attacked inside hospital in another obtuse incarceration,
- Banned from reporting crime to police,
- Banned from any lawyer,
- A rejected whistleblower.

The Government is well aware of his identity and he is under investigation as he well knows, because who wouldn't rather a vulnerable person do away with themselves rather than admit murder and or pay him multi millions dollars - which he would gift to the most vulnerable and voiceless anyway

This makes an extremely vulnerable person rationally paranoid which amplifies his already designed distress and the maliciously designed destitution he lives with.

This blockage of any prosperity coming his way or with the potential to, is systemic endemic anti is an abhorrent abuse of power audit is against the law.

It is the radio silence that is most torture for him, in an entire world with zero traction, just prejudice. He continues to fight, before my intervention.

The intervention is critical order to demonstrate the Governments commitment to atone for demonising him, and he has a clean criminal record although he has been burdened with accusations via suggestion which exploit his brave pro feminist pro drug and positive sex stance

This conspiracy to pervert the course of justice is fuelled by key political stakeholders.

They have one thing in common; they have money and reputations to protect and political privilege.

It is almost cosmic that not one person has intervened in this years long battle he endured until Feb 2021 when he took his life; only surviving by pure chance and avoiding a certain death.

Only to survive and be forsaken

The tragedy happened inside public hospital for which he has zero recourse today

What needs occur, is an immediate acknowledgement of the actual money owed to him and the enormous detriment burdened to him in other ways

This will immediately cease his vagrancy

It will afford him food and basic pleasures and needs

Apart from that it is owed to him and people institutions and statutory authorities have an obligation for traction to they are in debt for

Try as you might now I am on board to try and oppress him systemically and in such a cowardly way - his enemy has no face and that is the height of audacious conceited privilege

Lets be blunt:

NDIS Minister Bill Shorten could intervene to acknowledge his 18 month overdue work cover claim

The Attorney General could intervene to address systemic injustice and the perversely heightened need for Dr Mclean's litigation

This was after being framed by Mr ball of Ball and Partners, for a valid GP complaint

Mr Steve, Stefen, Stefan, Stefanos Iasonidis (11/12/1971), bolted on his engagement with Dr Mclean leaving him homeless.

Mr Iasonidis, having hidden his assets, is instrumental in being able to incarcerate Dr Mclean via proxy every time an attempts a legal separation that is legal and equitable and fair

The deceit of leaving a person with a disability homeless when you are apparently a millionaire, and seems legitimate backed by the fact he worked for ASIO with multi properties, and before he left Dr Mclean high and dry edited his tax statements to his money

Owing is extremely approximate below:

\$50000 Failed VOVAT case

\$25000 Failed VOCAT case (Police redacted evidence from FOI identifying Dr McLean as 'principal aggressor')

\$500000 + Mr Iasonidis (Dr McLean only asked for \$100000 to settle).

\$500000 + TPD work Cover, (Cover up at Work Safe then Comcare then NDIA and AAT) then attorney general).

\$75000 Income assist HCF, (Sheena Jack caught fraudulently editing documents).

\$1000000 + AHRC free kicking an apparently impartial conciliation to opposition

\$1-200000 lost in detriment at AFCA who banned Dr Mclean From the service - for being conspiratorial and threatening to call out corruption

\$150000 - a valid impairments claim from 2007 with Melbourne Health - still at work cover insurer AIA

\$830000 x 3 + interest from 2007 - extra units of cover from 2008, (Still at AIA but Dr Mclean cannot go to AFCA)

\$500000 + Suing Hospital for abandonment of duty of care in his injury that was 'fatal' and 'a lethal attempt.'

If an offer of atonement his not made in the immediate term for the erroneous and malicious movement to destroy him financially via proxy, via all Government agencies...

I will instruct my contacts to engage the issue in the high court

We will find out, how crazy Dr McLean is for the pleasure of forced medication for his 'delusions.'

It is an abhorrent and evil appropriation of identifying illness - when society has rendered him a vagrant - that would distress anyone and the financial abuse is systemically documented.

It is within your remit to action human rights abuses, violence, neglect, and a victimisation so vile and gutless I salute the courage of Dr McLean for even blessing me with his presence today.

As it currently stands, Dr McLean has been oppressed to death, revived by chance, then the Government covered it up.

The Government further acted to financially maim Dr McLean, and even threatened to sue him.

The Office of Prime Minister & Cabinet now silence his FOI.

- After the tragedy he was placed on JobSeeker, when he was already ill from work and had been on a disability pension before.
- He then begged for a DSP which was unnecessarily delayed of which he says is approximately \$1400 per month
- However his rent is nearly \$1700 per month
- That has left him for 18 months without a chance to exist, and in this way the systemic is actively encouraging Dr McLeans hopelessness

The Government willingly consciously and maliciously designed his vagrancy in order to aid and abet his death to protect those with money power and privilege.

It is a situation way too hard to pack back into the box.

The Government must take action via me - or Dr Mclean directly - or I will instruct my contacts to overthrow the Government in defence of Dr McLean and his bravery, and his simple reason to live with enough to keep his body going and have food and dignity; and gift the rest to charity.

Dr McLean deserved so much more, and for the sake of a currency of money - a malicious injustice has illustrated how easy to exploit Dr Mclean was, with his brave and unwavering heart led voice that was taken advantage of

You can see his website (which was destroyed intentionally and without warning by Micron 21 who are Government linked) at:

www.richmclean.com.au

You may see his whistleblowing website at:

www.killhim.info

The world has forsaken him; it will be a cold day on earth if he no longer inhabits the manifestation on this planet.

It will be us left to carry the collective guilt of killing in the name of abandoning what is light and heartfelt and what is right and good

He's not afraid to die, and if he was - you're rendering him to die afraid and tortured and bereft of worth or dignity in a way that exhibits your hatred of him

But be afraid of not living in a world without Dr McLean,

Indeed, if you aid and abet his likely death by elongating his suffering via financial detriment with zero intervention your omissions of guilt will be the cessation of light

A conspiracy to pervert the course of justice already exists and the victimisation of him; is vile

I await a representative of the Governments response to his website by Tuesday 19th of July.

I remain yours anonymously for now.
