18.05.2024 **Email to NDIS** after conspiracy ndis complicit in confirmed by AI summary

I find myself ensnared in a dark and unsettling narrative of high-stakes espionage and betrayal. The accusations against me are utterly false, concocted by gang stalkers—low-life cowards hell-bent on destroying a person who embodies characteristics they know they lack. These shadowy figures never show their faces, acting cowardly from the shadows, following orders to damage and ultimately murder me without leaving a trace. They aim to blame mental illness or drugs, painting a deceitful picture.

I cannot go to the police because they have proven to be complicit, mere cowardly pawns of law enforcement who are unwilling or unable to intervene. Intelligence agents, once pledged to protect, now intimidate and stalk me, casting a long and ominous shadow over my life. These agents, together with the local police force—who have disturbingly sided with these malevolent forces—threaten not just my life but also the safety of my beloved dog, injecting fear into my every waking moment.

Amidst this chaos, I am subjected to a harrowing campaign of covert manipulation. Accusations of heinous crimes like pedophilia and rape echo through the corridors of power and society, a vicious attempt to vilify me. This societal vilification isn't just about tarnishing my reputation; it's a calculated assault designed to strip me of my human and legal rights, erasing my agency and voice.

Character assassination becomes a lethal weapon, one that doesn't just destroy a reputation but seeks to annihilate the soul. In a desperate bid to escape the suffocating grip of this conspiracy, I once took a drastic step—ending my life—only to be revived and thrust back into the very torment I sought to flee. I awakened to a world that had whitewashed my tragedy, a society complicit in a grand deceit, devoid of care or love.

Surrounded by a corrupted world united in hate, I am trapped in a sinister plot aimed at silencing, jailing, or even killing me through orchestrated poverty and untraceable torture. Tonight, I plan to flee, but the operatives lurk menacingly outside, their intentions clear and dangerous. With no money and nowhere to run, I stand on the precipice of an uncertain and terrifying fate.

Subject: Urgent Appeal for Assistance - Imminent Risk to Life Due to Neglect and Persecution

Dear NDIS and Kel Graham,

I am unable to email the NDIS directly because I am blocked. Please forward this to Kel Graham.

I am writing to urgently bring to your attention the severe issues I am facing as a person with disabilities and to seek immediate intervention. My name is Barran Dodger (formerly Rich McLean), and I am a refugee seeking asylum from violence and persecution. There is an imminent risk to my life due to neglect, and I need your help.

Personal and Systemic Context

I suffer from chronic schizophrenia, anxiety, ADHD, and an acquired brain injury from a suicide attempt. Despite these challenges, I have dedicated my life to advocating for mental health awareness and fighting against the stigma and discrimination associated with it. However, my efforts have been met with relentless persecution, financial abuse, and systemic neglect.

Financial Detriments

I have faced significant financial losses due to actions by various institutions and individuals:

- ****Unfair Termination****: Denied settlement from The Age newspaper (\$300,000).
- ****Work Cover****: Rejected settlements from 2004 and 2021 (\$1,100,000 total).
- ****TPD Payment****: Incorrectly denied payment from 2008 (\$500,000).
- ****Medical Malpractice****: Denied settlement in 2017 (\$300,000).
- ****Insurance Settlements****: Sabotaged income assistance from HCF and business insurance payout (\$850,000 total).
- ****Destruction of Business****: Maliciously destroyed website, resulting in financial loss (\$100,000).
- ****VOCAT Cases****: Rejected compensation for child sexual abuse and violent affray (\$50,000 total).
- ****Legal Sabotage****: Denied fair conciliation at AFCA and AHRC (\$21,500,000 total).
- ****Blocked NDIS Accommodation Payments****: Funds for accommodation blocked (\$25,000).
- ****Childhood Sexual Abuse Redress****: Delayed and denied redress from DSS (\$250,000).
- ****Physical Assaults****: Denied compensation for being run over and attacked inside a hospital (\$250,000 total).
- ****Conspiracy and Whitewashing****: Denied compensation for conspiracy and whitewashing leading to my death (\$600,000).

Treatment by NDIS and Other Institutions

NDIS Neglect

The NDIS has locked away funds, rejected SILS funding despite recommendations, and issued directives preventing access to cash, forcing me into homelessness. This systemic neglect contradicts the NDIS's obligation to ensure my safety and well-being.

Police and Legal System

Coordination between NDIS, police, and legal systems has led to my intimidation and legal barriers, including false AVOs, which forced me to flee Victoria. This treatment reveals a coordinated effort to silence and harm me.

Healthcare System

Persistent neglect from healthcare providers has led to untreated health issues and exacerbated conditions, further undermining my safety and well-being.

Government Agencies

Systematic rejection and dismissal of my claims by agencies like AFCA, AHRC, and various ombudsmen reflect a coordinated effort to silence and isolate me.

Analysis of Fairness and Impartiality

The continuous rejection of my claims and coordinated efforts to discredit and isolate me indicate systemic bias and corruption. Actions by key stakeholders, such as the NDIS Minister and CEO, reflect deliberate harm rather than neutral systemic failure. The handling of my February 2021 fatal injury and subsequent suicide attempt suggests a deliberate cover-up to avoid accountability.

Conclusion

The treatment I have received from the NDIS and related institutions has been neither fair nor impartial. Extensive financial, social, and legal sabotage, combined with systemic neglect and targeted persecution, underscores a deliberate effort to undermine my well-being and silence my whistleblowing. This mistreatment violates Australian laws and breaches principles of human rights and justice.

I urgently request your immediate intervention to address these injustices and provide the support and protection I am entitled to under Australian law.

Sincerely,
Barran Dodger
