In case this is not acted upon I have cc my family and people I
wanted to know this

To the recipients as of just before nine pm on Tuesday 18th of
may 2021 from Footscray, Victoria

This is an insurance policy for my loved ones should I go
missing or am killed and an urgent whistleblower statement to
the ombudsman

That if anything happens to me they know I was a victim of
conspiracy and I have done nothing wrong

Statement from Dr Richard William mclean

It's very easy to blame someone for being argumentative or bellicose when you do not, and can not, and will not, understand what I have endured-but you will all have an idea now after reading this

I demand protection in physical financial legal monetary and freedom from vilification or arrest or incarceration and a guarantee I reserve the right to pursue litigation and just compensation from any person institution organisation entity or office

I will explain it in basic terms below

My phone is monitored, so is my email my house and my movements and I am being set up so this is an urgent call to the ombudsman before I am at risk of death homelessness litigation or being sued incarcerated for any reason

Consider this a whistleblower statement and I reserve the right to pursue litigation against anyone my freedoms in tact, represented housed and compensated and freedom from the law including a guarantee that under the surveillance act Vic 1999 I may utilise recordings I have made in a court of law because it protects my livelihood and I am a marginalised and neurodiverse person who demands advocacy

I deserve protection from any form of physical violence or persecution in any way from any person government institution

litigation organisation individual or from any other source

I demand Protection for a safe place to live for my dog and I and food shelter and freedom from this conspiracy to further maliciously maim and disable and disempower me financially legally and via reputation and all other ways in which it has acted and I expose today

It's extremely easy to discriminate and prejudice someone for:

- 1) standing up for themselves legally
- 2) being gay
- 3) being labelled with DSM differing diagnoses
- 4) absolutely no one respects you when you're down and out that's for sure
- 5) it's easy to exploit someone when they have no money- because they don't have access to litigation or power or money or privilege

I will not accept those terms of living

I am speaking truth to power and I deserve protection as a whistleblower in all ways guaranteeing me safety and prosperity compensation and to earn money with no limitations on me via any sphere of currency physical legal or otherwise

it is incredibly easy to label someone a "druggo" when they in fact are very clear they have used them up until recently because the conspiracy acting to maim and destabilise me below has resulted in the withdrawal of my medication

I admit to personal drug use and want protection from the law

to then blame a victim who has died by suicide not once but twice while under legal duty of care by a GP practitioner psychiatrist or a hospital as being "troublesome" "argumentative" or "difficult" is insensitive and immoral manipulative and insensitive

I want and demand the freedom and support and litigation to pursue justice and compensation

I have assisted tens of thousands of people in my life via my public advocacy.

Now, framed by my own preventable deaths and the deaths of thousands with no voice and the deaths of my close friends I hold the memories of so dear and those that need help that didn't get help in the past or indeed the future I speak up now

I want to state to you all you do not understand what I have been through. It is a federal conspiracy that protects the money of people with wealth and power and those who have been present at murders which I have attempted to contact police about and millions in tax evasion

this conspiracy that systemically involves institutional organisations and government agencies and public bodies and

high ranking MPs spokespeople and a thousand other pawns who act as the veneer of the politics of said institutions has robbed me in every way of my freedom, my health, my ability to earn money, my healthcare, my pension, and has made me rationally paranoid for concrete reasons I will explain below briefly

I am under surveillance physically and via my ISP online Google Facebook ASIO and my web host and my internet provider.

As a recipient of this text as you are reading this-they are expecting me

I reserve the right to express myself as a free citizen under the laws of Australia and my family and friends be free from any persecution in any form reading this and receiving it.

I can't tell if you have been contacted...I assume because you have this text you are monitored yet I proclaim delete this if you do not want to be at risk in any way, or complicate your life because of me

I have never meant to hurt anyone intentionally-I am a victim and I apologise if receiving this text brings about any currency of harm like I have been harmed and I demand whistleblower protection for my friends family and I in receipt of this

this conspiracy that has its roots in prejudice and discrimination and perverts the course of justice acts endemically and systemically through all levels of government and individuals

It stems from my former partner of five years I was engaged to Mr Steve Iasonidis who worked for both Steve Jobs and ASIO up until about 2015

He admitted to me to have sold a house for 1.2 million and invested it in an offshore tax haven-he was given a slap on the wrist being protected by ASIO

He has promised to maim me ruin me in financial ways, socially isolate me which they know my family's and societies prejudices will easily buy into, he has guaranteed the ruining of my reputation, and is currently acting in political ways that neuter me from public roles,

Also my job, for my knowledge of his crimes and the crime he admitted to me as being present at more than one murder

Mr Iasonidis's threatens still to rob me of my job using standover tactics and any employment with the NDIS and I have received threats very recently before my hospitalisation in which I was maliciously denied care advocacy my rights explained and forced with coercion to censor myself

Mr Iasonidis left me without a cent and with a million dollars in super, investments, an inherited house and other assets

I had nothing to do with the tax evasion nor present at any murder

I have been destroyed financially and there is nothing else to lose-I have every right to protection for the evidence I hold

which is forthcoming

essentially know that have been robbed of legal ways or any litigation I attempted to commence

I have been taken advantage of my kindness and my financial status publicly shamed on TV discriminated and prejudiced against-everything has been covered up

i fear for my life without whistleblower protection

if there is care and protection for whistleblowers you could see very clearly that I am the victim-and that every person I speak with silently alone in defence of my rights was already informed to maim me in said ways complicit in my destruction

it is utterly beyond any individuals comprehension if I tell a ten year story and five year fight and extraordinary battle I have endured and I am not going to go further to explain other than mention the institutions below and back it up with evidence later

I reserve the right for protection from the law

I reserve the right to a safe space a home for my dog and I to lead a simple life

I deserve to be afforded counselling medical care and advocacy as a marginalised person

I want indemnity from any prosecution now from in the past or

in future same with my family and friends

I have evidence to back up every one of my claims below in email in audio recordings and in letters FOI and other methods at my disposal

I have never dealt drugs,

I have never assaulted anyone physically nor sexually, and I have been framed gaslighted and victimised as such and suffered incredible prejudice

This has been in society publicly and via institutions naming and shaming which I now choose agency of sound mind to defend myself and liberty

to my horror and sadness this also comes from within the family and extended family unit through some lenses with prejudice discrimination small mindedness and buying into the belief that I am a bad person via choices or scapegoating

these people / Institutions below know what I know-that you either won't listen to or I am never going to explain and they will stop at nothing to make my death look like an accident by my own hand and then blame a diagnosis or my mental illness-I have been framed

I do not want to die or be bereft of justice and not protected under victimisation and vilification

in this way, this persecution which also comes from within will never be acknowledged by then nor will they accept blame in

any form, and never apologise nor will the compensate me in any way whatsoever and act in coherence with powers greater than themselves that orchestrate this - hence I speak out

Dr Moore - well - you have absolutely no idea what I have had to use my persuasive powers with today and absolutely no idea about the pressure he faces from the powers that dictate to him how to treat me-update-I got my dexamphetamine however he is under directions too to make life difficult

I deserve medical care and I self regulate my medications

I need an impartial unprejudiced doctor and psychologist and psychiatrist free from cost issues

for a twice preventable suicide survivor where both were clearly avoidable and I have been victimised and framed it is plain to see-this of me having to fight and fight and fight simply to stay alive is the worst indictment on parts of my family who well not may be aware of the extent of this and unable to comprehend

when someone asks for help desperately it should be given immediately-

With prosperity I will set up a foundation in memory of my passed friends and myself in my post death life

I have fought an invisible fight my whole life-you refuse to acknowledge it but everyone knows it. I am neither delusional nor mad-it says that in the exit form from the hospital stay recently at Weribee mercy that I am neither delusional or

psychotic-and this reconfirmed what I already knew as fact which you will never fully understand henceforth you don't deserve an explanation but I am trying there is no other way out hence this whistleblower statement

I have nothing left to lose

in regards to today at the GP-dr Moore's hands are tied. Everyone knows exactly what's going on, and you know some of it. He is conditioned expected and additionally directed with commanding authority to adhere to the rules and mindset of the powers that be in order to maim and destroy me and or make life difficult aid and abet my death so it may look like an accident

Every action kicks the can down the road and it is not the responsibility of my family to understand nor foot the bill

I don't just want to survive I want to thrive let that be clear - that is impossible faced with money power and privilege protecting individuals from my knowledge and my evidence

I am not mad nor suicidal

my reputation has been ruined in social political legal and medical fraternities forever as my former partner promised and the conspiracy has evolved onion by onion layer maiming me

it is not wrong to ask for help when you have an "illness" are Greig stricken/sad/ or have a dis/ability

All I did was stick up for myself and ask for help

I am brave and strong and resilient

to then blame me for being agitated or argumentative when so many are complicit in much of it really does hurt-I am usually a happy person who loves art chatting being social and my dog and want a peaceful prosperous yet simple life with my dog family and friends

that's it for now and if I disappear -it does not mean I'm dead although it may...not by my own hand

I am emailing this as a whistleblower to select people

This is because of the sustained and malicious attack endemic and prolonged and systemic-it must mean that there is so much money at stake, and indeed: I am a threat

While it's necessary money does not motivate me

In fact I was given \$100000 a few years ago and the owner said it was a mistake -so-I gave it back such as my ethics

If I disappear That means they have kidnapped me and the whistleblower legislation and witness protection program has not kicked in and I have passed over as a human rights warrior

The reason is:

I am scapegoated even to a regrettable extent by my own family-even though I love them and they love me it is plain to see how corruptible they are with discrimination and prejudice

in terms of being gay "mad" what they see as viciously setting people up and recording-not the case

They see me as argumentative I acknowledge that but they have never had to stick up against such forces as I have

I defended Dr Whitaker to come to conciliation the recording was to see if I was going insane

These people covered that recording up that exposes medical malpractice and professional negligence

There are hundreds - most likely thousands - of people across
many organisations that have acted in congruence that covers
this up who are pawns in the veneer of these politicised
institutions that want to ruin me - all of them are guilty of
perverting the course of justice and I have evidence of each
one

I am able to name them in my defence if I have access to my
emails as me computer

I have literally thousands of recordings and emails patiently waiting for a breakthrough that never comes just further ostracisation neglect in emotional physical political discriminatory and prejudiced ways

I am sending this as a whistleblower email

I want protection

I want to feel safe

As a human rights awarded writer artist advocate and Dr of philosophy I have gave and gave through altruism and now I demand just compensation for the ills dealt to me and freedom from litigation or incarceration

I am not suicidal I want to not just survive I want to thrive

I have evidence to back up every one of my claims

I am owed millions but they want me dead for what I know

I am confident I will live and that so many people organisations institutions and public offices and advocacy services, legal, professional, personal, legal, social and government agencies are so consistent in their malicious treatment with intelligent design to maim destabilise and kill me-it has been avoidable twice already - too many people for this to be gotten away with

I feel like I am in the trueman show with Jim Carey

I would die on my feet than live on my knees

I would die for love

I refuse to die at the disposal of the powers that be in this conspiracy
