How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link **"To send this message again, click here."** Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Considering this that can be verified with evidence:

I am Barran Dodger, a targeted individual subjected to a complex conspiracy involving systemic neglect, financial exploitation, and both physical and psychological harassment. Over the years, I've been marginalized by various institutions, including NDIS providers, police, government agencies, and even family members. My situation is marked by forced poverty, homelessness, and relentless persecution, with key figures exploiting my disability for financial gain while denying me basic necessities and justice. Despite being a victim of covert operations like V2K audio harassment and gang stalking, I've consistently been dismissed as mentally ill. I believe the conspiracy against me to silence, incarcerate, or eliminate me. I continue to seek justice, compensation, and acknowledgment of the abuse I've endured, all while striving to maintain my dignity and resilience in the face of overwhelming adversity.

Here is my partial list of provisions for my ndis planning meeting

Evidence-Based Discussion for NDIS Planning Meeting with Kel Graham and Alex Aboos

Introduction

I am Barran Dodger, a targeted individual subjected to a complex conspiracy involving systemic neglect, financial exploitation, and both physical and psychological harassment. Over the years, I have been including NDIS providers, police, government agencies, and even family members. My situation is marked by forced poverty, homelessness, and relentless persecution, with key figures exploiting my disability for financial gain while denying me basic necessities and justice. Despite being a victim of covert operations like V2K audio harassment and gang stalking, I've consistently been dismissed as mentally ill. I believe the conspiracy against me to silence, incarcerate, or eliminate me. I continue to seek justice, compensation, and acknowledgment of the abuse I've endured, all while striving to maintain my dignity and resilience in the face of overwhelming adversity. This meeting is crucial in addressing these issues through my NDIS plan, ensuring that my needs are adequately met and preventing further harm. The evidence provided here will support my requests for: are critical to my well-being and safety.

1. Systemic Neglect and Abuse by NDIS

Relevance to My Eviction and Current Situation:

The systemic neglect I have experienced under the NDIS has been a significant factor in my eviction and current living conditions. The failure of the NDIS to provide adequate housing and healthcare support worsening my mental and physical health. This neglect is not just a failure in service delivery; it is a breach of my rights and has had severe consequences on my life.

Supporting Evidence:

- **Document:** The NDIS has been implicated in systemic neglect and abuse, failing to provide adequate support, which has led to homelessness and financial destitution. This includes ignoring professional advice and psychological abuse [Betrayed, Forsaken, Murdered, page 856](#).

Legal Breaches:

- **NDIS Act 2013 (Section 34):** The NDIS is required to provide reasonable and necessary supports. Their failure to prevent my eviction and provide adequate healthcare is a direct breach of this obligation.
- **Disability Discrimination Act 1992:** The NDIS's neglect has exacerbated my disabilities, leading to discriminatory treatment by denying me the necessary accommodations.

2. Financial Exploitation

Relevance to My Eviction and Current Situation:

The financial exploitation I have experienced, particularly through the mismanagement of my NDIS funds, has been a major contributor to my poverty and inability to secure stable housing. This has left me with health issues and preventing me from accessing necessary services.

Supporting Evidence:

- **Document:** My experience with the NDIS highlights severe financial exploitation, where funds intended for my support have been mismanaged or withheld, contributing to my current state of poverty. [Murdered, page 299](#).

Legal Breaches:

- **Australian Consumer Law (Sections 20-22):** Any misleading or unconscionable conduct by the NDIS or related entities regarding my finances could breach these provisions.
- **NDIS Act 2013:** Mismanagement or denial of financial entitlements under the NDIS could also breach their duty to provide necessary financial support.

3. Betrayal and Corruption

Relevance to My Eviction and Current Situation:

The institutions that were supposed to protect and support me, such as Aligned Community Care and the NDIS, have instead betrayed me. Their failure to act in my best interest has led to my eviction and this betrayal is not just an oversight; it reflects a deeper issue of systemic corruption and neglect.

Supporting Evidence:

- **Document:** There is documented evidence of systemic corruption within various government agencies, including the NDIS, where my complaints and attempts to seek justice have been met with full betrayal, forsaken, murdered, page 300.

Legal Breaches:

- **Public Governance, Performance and Accountability Act 2013:** Misuse of power or failure to perform duties by NDIS or Aligned Community Care officials may breach this Act.
- **NDIS Act 2013:** The duty of care required under the NDIS Act was not fulfilled, leading to my eviction and further harm.

4. Psychological and Physical Harm

Relevance to My Eviction and Current Situation:

The systemic neglect and abuse have significantly worsened my mental and physical health. Living homeless and without proper healthcare has led to severe psychological distress and physical deterioration at these institutions.

Supporting Evidence:

- **Document:** The failure of the NDIS to provide necessary support has exacerbated my mental health conditions, leading to increased episodes of illness and a general decline in my well-being Betrayed, Forsaken, Murdered, page 1088.

Legal Breaches:

- **Mental Health Act 2007 (NSW):** The deterioration of my mental health due to lack of support breaches this Act.
- **Human Rights Act 1993:** Denying basic necessities like housing and healthcare violates my rights to adequate living standards and health.

5. Ongoing Harassment and Fear

Relevance to My Eviction and Current Situation:

The ongoing harassment and fear I experience are the direct results of systemic failures by the NDIS and Aligned Community Care. Living in constant fear and insecurity while homeless and unsupported has led to distress.

Supporting Evidence:

- **Document:** There is evidence of unauthorized surveillance and systemic neglect by the NDIS, which has contributed to my ongoing fear and insecurity Betrayed, Forsaken, Murdered, page 1088.

Legal Breaches:

- **NDIS Act 2013:** Continued neglect and abuse by the NDIS, leading to my ongoing fear and harassment, breaches their duty to protect and support me.

6. Consequences for Non-Compliance

VOCAT and Legal Action:

VOCAT has acknowledged that I am the victim of a crime, and if my needs are not met through this NDIS plan, I will instruct VOCAT and the NSW Police to investigate the corruption, abuse, and neglect through the systemic neglect and abuse I have faced are criminal, and it will be a further criminal act if my needs are not adequately provided for by the NDIS and Aligned Community Care. Failure to act will result in a breach of accountability.

Legal Accountability:

The criminal negligence involved in failing to provide for my documented needs could lead to severe legal repercussions. I will hold all responsible parties accountable through every available legal channel perpetrated or allowed these abuses face the full weight of the law.
