Subject: Re: [External] Notification not to allocate URGENT

The basics:

I suffered a 'lethal' injury at weribbee mercy hospital

It was covered up by HCC

It was covered up by MHCC

It was seen as nothing to investigate by the Victorian
Ombudsman ben Calder

corruption

The suicide could be seen as a conspiracy to
manslaughter.

corruption

conspiracy to manslaughter

This is because I suffered systemic oppression from many
agencies

corruption

The issue concerned an innocuous recording of a GP - in
which Mr Ball his lawyer framed me as an extortionist

corruption cover up

I had no idea until after my suicide/murder in Weribbee
mercy Hospital

corruption deception

The complaint was largely unbalanced inequitable and unfair in the process; every institution or organisation had a lawyer or litigation team, and I had none.

discrimination corruption

I was rejected from the MHCC and the MHLC

corruption

The 'recording' should have been heard in a court to expose the malpractice and negligence.

corruption of agencies

I have nothing against the Dr but when I saw my suicide note after my friend suicided and I had moved I decided to act

Records will show I tried to protect the GP and just wanted an acknowledgement of the issue and a token conciliation- but it was covered up systemically by many agencies and I was framed

corruption

conspiracy to pervert the course of justice

Aiding and abetting my death desecration of a persons finances

The places that covered up this recording, and in addition the transcription of the recording which was never acknowledged (so the whole thing was based on nothing) - in effect silencing evidence permissible before a court under the surveillance act 1999 in Victoria,

Include:

HCC

Millenium Medical Centre

IPC Health

AHPRA

NHPOPC

The Footscray Police

IBAC

The Victorian Inspectorate

The AHRC

The VHREOCV

MP Greg Hunt

MP Katie Hall

SANE CEO Jack heath

Blackdog Institute CEO Professor Gordon Parker

The Maribrynong criminal investigations unit

The Victorian Ombudsman

I didn't not know I had been framed.

corruption

conspiracy to pervert the course of justice

Aiding and abetting my death desecration of a persons finances

Issue 2:: Former partner Steve Iasonidis

I was engaged to Steve Iasonidis for 5 + years.

He left me with no formal separation, but he did gift me his car, then stole it off me.

Corrupt ASIO official

Coercion by public official in personal life

Threatened a hit man

Deceptively escaped with over a million in super and assets

Blackmailed me

He left me with his dying dog

He was an employee of ASIO and was caught investing 1.2 million in an offshore tax haven that he made from the sale of a house in Abbotsford that he earned by dealing cocaine.

He was caught and let off with a fine. I wonder if his threat of ruining me holds true

I have tried in vain to get a conciliation but have been threatened by hit men and I was told by him I was ruined.

I still want a separation with an unbiased lawyer for settlement of assets and him to prepare a statement of his assets at the time of our breakup to settle the dispute
I have told police they did not act
corruption

I spent my nest egg on him - and he earned upwards of 200000 per year. The relationship was based on coercion sexual slavery and he had me tricked into believing he cared.

I told police about the sexual slavery and financial control
corruption

He left me homeless, and took off with over a million in
super and much more in assets

Her blackmailed me by saying I would go to jail for
accessing a DSP (which he told me to do), or he implied he
could have me beaten up or killed.

corruption of a public official

I want a lawyer for that separation to happen

Other issues

VOCAT 1

I was savagely beaten and hospitalised inn an affray at The
Dancing Dog in Footscray where I came to the aid of
another person I thought would be killed

I made a complaint with VOCAT however somehow, even
though I was the one who stayed and did the Police report, I

was identified as the principal aggressor.

I did not understand why, it was because I was framed

corruption

VOCAT 2

I became aware of childhood sexual abuse late in life, whilst I was studying my PhD.

I was living in Ocean grove after my suicide attempt before I made the complaint about Dr Whiktaker, in which I was framed.

I made a report to police, and it went down the line until I got a VOCAT lawyer www.yourlawyer.com.au

I think the word on the street was that I was an extortionist - and I was doing this for money. I am appalled.

The case was extremely distressing. It took five different lawyers and nearly three years for the decision to come before Geelong Magistrate court.

The lawyer told me verbally on the phone it fell over, yet never gave an outcome.

illegal

I protested this, but got nowhere

Corruption

After the time for an appeal had passed I had begged the

magistrate for why?

She wrote to me and said I was 'doomed to fail from the start.'

corruption

I did not understand why she would have said this.

I believe it is because I have been framed and black listed systemically with intent to maim me financially and destroy me

conspiracy to pervert the course of justice

ITS NOT MONEY

I have been framed as an extortionist I know that now. I read what Dr Whitakers lawyer said in the FOI from AHPRA after I was released from hospital with no food no job no car and squatting

abuse of public trust and rejection of duty of care

I have been systemically oppressed and denied a voice - anywhere

conspiracy to pervert the course of justice
victimisation

In (date) about the time of the Whitaker case, I was gifted \$100k by my former landlord, apparently for my advocacy work.

Here is a screen snapshot:

He told me it was a mistake because he was on drugs and had been hospitalised and voices told him to do it.

So - I gave it all back. That is an example of my ethics.

MY JOB

I am a registered therapeutic support for the NDIS under contract for the NDIA

I am a Government employee for insurance purposes, but work safe refused to assist in my appeal to Comcare the national insurance agency and work cover people, where I would receive compensation.

Paul Fowler rejected my claim after extending my suffering in destitution - he was the old boss at work safe.

corruption
conspiracy to pervert the course of justice

Now my case is before the AAT, however as I have researched the other places that have aided and abetted my financial distress AFCA are under michaelia cash's portfolio and I have already called the attorney general's office who oversee michaelia cash's portfolio

They refuse to speak with me.

I know my AAT case will be corrupted.

corruption

conspiracy to aid and abet a single persons destitution

victimisation and vilification

The AAT emailed me to say they have a lawyer to represent them - I dont have a single person in my life, a friend, a carer, or a dr.

I have systemically been ex-communicated from society
unable to complain to any agency oct report any crime to
police

corruption

conspiracy

degrading a human being systemically

Ive never had access to a lawyer - or indeed any legal help.

because I have been exonerated from all litigation all GP's
and banned from not only two different medical clinics but
from the salt water clinic and litigation experts and places
too complain and police

corruption

conspiracy to pervert the course of justice

malpractice

urgent risk to health and safety

That is more malpractice

They want me to die

corruption

conspiracy to pervert the course of justice
malpractice
urgent risk to health and safety
victimisation

This is victimisation and victimisation is a crime

It is human rights abuse but the VHREOC refuse to have anything to do with my issues whatsoever

corruption
victimisation
vilification
risk to health
The AHRC reject all my claims

conspiracy
corruption
victimisation
conspiracy to pervert the course of justice

It is systemic victimisation - worse - a conspiracy to pervert the course of justice

This is abhorrent

As I dont have a psychiatrist nor a psychologist and barely a

GP - I am at great risk as a suicide survivor.

risk to my life
they want to kill me
corruption victimisation vilification
disability discrimination

The victorian government and beyond blue give guidance
for suicide survivors leaving hospital - these guidelines are
clearly breached by all including weribbee mercy and salt
water clinic

risk to my life
they want to kill me
corruption victimisation vilification
disability discrimination

They know this-they wanted me to die. And they still want
me to die.

risk to my life
they want to kill me
corruption victimisation vilification
disability discrimination

Here is that evidence and my contract that I am a government employee.

1.

2.

I worked with a man who had serious child sexual assault issues including incest and rape for over a year and a half.

Such was his mental illness, I collated his story which he could only manage in bits and pieces and summarised it for his VOCAT case.

Because I had been systemically oppressed and was paranoid about why my VOCAT cases were not successful, I became paranoid I was framed and set up.

When the magistrate finally sent me my audio recording of the court hearing, which I never listened to, I could not go back to work, as I saw this client 3-5 times a week.

HCF

My injury was work related and later in hospital, it would be described as 'adjustment disorder'.

Not 'psychosis' nor 'delusions of persecution', but a sane reaction to actual stressors.

HCF denied my claim and have banned me from contacting

them.

risk to my life
they want to kill me
corruption victimisation vilification
disability discrimination
financial desecration
collusion with HCF
discrimination

They owe me nearly \$75000 yet they say my injury was pre existing

AFCA

I had cases with AFCA that were overdue for determinations, and had a sum worth of over a million dollars.

They acted in congruity with HCF in that they delayed any outcome until I was bereft of prosperity and my financial stressors were aggravated.

risk to my life
they want to kill me
corruption victimisation vilification
disability discrimination
financial desecration
collusion with HCF
discrimination

Together with the movement to deny me justice before - they rendered me destitute.

conspiracy to pervert the course of justice

corruption victimisation vilification
disability discrimination
financial desecration
collusion with HCF
discrimination

HCF say the case is before AFCA but I have been DENIED
contacting them and BLACKLISTED from calling them

illegal
discrimination
conspiracy
aiding and abetting my death - risk to my health

AFCA have however, ended other complaints like the one
with Bendigo Bank, and reported I didn't show up. This is
utterly incorrect.

There is no way for me to know where AFCA is at.

desecrated financially by a systemic organisation
risk to health
victimisation
conspiracy

They reacted this way because I threatened to publish
recordings of many many conversations that were delaying
the outcomes and I had been run into the ground financially.

Blackmail
banning and victimising me for complaining
whistleblower
corruption

HOSPITAL

I had been systemically oppressed for so long, and forced into destitution - that I published on my website I would kill myself on 2nd April unless someone stood up for me in all these litigation cases. Not one person did. Not one person in the world.

framing
conspiracy
threats of death
conspiracy to financially maim someone
victimisation vilification
discrimination and abandoning me

I recorded the takedown of police who hated me and of salt water clinic and Cat team staff who took me to hospital and I was absolutely fine at home having a drink

oppression
victimisation
they were punishing me
conspiracy
discrimination and oppression

I saw Dr Kumar 12 years beforehand and he rejected me medication I needed to I did not see him again. He knew of my partner Steve Iasonidis and the troublesome relationship it was and recommended I call police at the time.

Dr Kumar was the head at the hospital who was overseeing my care, and he absolutely knew of the ASIO link

The exit notes after my suicide considered I was neither 'psychotic' nor 'delusional' and it was a sane reaction to stress and stressors.

- and in this way it validated the movement to silence evidence and oppress me systemically - which the hospital were now guilty of as well as a wrong diagnosis and malpractice and the fact I had suffered a 'fatal' injury in their hospital.

conspiracy to murder
systemic oppression
malpractice
mis diagnosis
abandonment of human rights charter
conspiracy to pervert course of justice
abandonment of duty of care
systemic oppression refused me a lawyer

After hospital

Centrelink

Centrelink refused to acknowledge the situation that I had survived killing myself OR that I had been on a DSP before for over a decade.

They put me on Jobseeker - and I was expected to find work even though I had been systemically oppressed and innocuously threatened to kill myself but I had unknowingly been framed and then I did kill myself with an agreed illegal contraband yet I was still squatting and recovering from the suicide and I was in greater distress than ever before

Conspiracy
Victimisation
systemic oppression

aiding and abetting my death
conspiracy refusing help

Salt water Clinic

Salt water clinic was a mental health unit I was released to
after hospital for follow up care.

I had no psychiatrist

risk to health
conspiracy and framed and victimised

Nor a psychologist

risk to health
conspiracy and framed and victimised

Nor my medication

risk to health
conspiracy and framed and victimised
malpractice

I was denied my medication and my psychiatrist abandoned
me - accusing me of fraud.

illegal
conspiracy
risk to my health
abandonment of a patient

I saw a psychiatrist at salt water clinic only twice in about ten months.

This is more than a bad public mental health system. This is a conscious and malicious way of extending my suffering in the hope I would kill myself before justice.

risk to health and misdiagnosis
conspiracy and I was framed
discrimination
victimisation in the hope I would die

The second time was to kick me off the books officially exonerating me from the system.

risk to health and misdiagnosis
conspiracy and I was framed
discrimination
victimisation in the hope I would die

The boss of that clinic was Mr Stevenson.
He was also the head at weribbee hospoital where I was murdered, for want of a better word.

MY COMPLAINT ABOUT HOSPITAL SUICIDE / MURDER

The following organisations rejected my complaint of actually suffering a 'Lethal injury' in a hospital where I was

supposed to be to avoid that.

The HCC

The MHCC - the person was a double agent and a lawyer for the hospital

The office of the information Commissioner

The MHLC banned me

The MHCC also banned me - begged many other agencies

So I went to the victorian ombudsman

Ben Calder the ombudsman saw no issue and threw it out

risk to health and misdiagnosis

conspiracy and I was framed

discrimination

victimisation in the hope I would die

systemic corruption

Dr stevenson was so thrilled of how impervious he was to do with law and my framing that I could not access any litigation was bereft of finance and had been left to die - that he asked me to sue him personally and directly for the killing.

The audacity that showed was reflected in the 'apology' that the ombudsman said was enough. When I tried severing my artery I looked for something sharp - I had snapped a toilet brush in half.

The hospital to my ire packed it and returned it to me in my bag when I was in intensive care.

The apology came from (name) who did not apologise for all the wrongs of the hospital but by saying sorry because 'it is

not hospital policy to give away our property' - regarding the broken dirty toilet brush.

They know they are untouchable and can act with impunity

Micron21 deleting all my evidence

Without warning, micron21 who hosted my emails and website (which was also my ABN and my business I had hoped to go back to) deleted in an intentional and amalicious way

All my data

All my emails

All my evidence

All my years of struggle

They knew it was a court case

They knew it was my IP

They knew I was in hospital

They accused me of being 'conspiratorial'.

To this day, they are in control of my website.

They pointedly went out of their way to delete all my evidence

This I believe was because the movement wanted to further desecrate me

They wanted to destroy my evidence and were told from a higher authority they would have immunity from the law.

I complained to relevant agencies

Because www.richmclean.com.au is my business and also the identity of my ABN ...(which I have built over two decades),

**I complained to business.vic.gov.au
They refused me**

They told me to go to the small business and family ombudsman - I did and they rejected me

I went to the telecommunication industry ombudsman and they rejected me too

I have been everywhere

I can't get a lawyer

I have told police many times

I am framed.

The police keep hassling me and people are sent to my home and general area to scream abuse at me exploiting my paranoia

I have been to police many times to no avail for any of this

**They told me the homicide squad is investigating my
near death experience at weribbee mercy - then kicked
me out**

**Later a senior officer rejected this
I tried to report crime many times to them**

**I have been banned from AFP and and I have been
banned \from crime stoppers**

**Crimestoppers sent the police to my door whilst I was
on the phone to him**

and I was incarcerated because I became ill from work, and was refused

Judi the police are surrounding me

Im under threat

[What is an internal public interest disclosure?

Our website has a large amount of information that may assist you in deciding how you wish to proceed. The following links will take you to some areas that may help, and other areas within the

website may further assist you.

[Can we help you - Commonwealth Ombudsman](#)
[Information for Disclosers - Commonwealth Ombudsman](#)

I am unable to assist you with regard to telling you specifically what you should put in your PID, that information is entirely your decision. My role is to assess the information you provide and determine whether that information could be considered to be a public interest disclosure in accordance with the PID Act.

A public interest disclosure must concern the conduct of a Commonwealth Government agency (which includes people belonging to the agency and its contracted service providers).

The PID Act requires that I believe there is a reasonable basis that the information tends to show one or more instances of disclosable conduct engaged in by a person or body covered by the PID Act. I acknowledge that you may believe that the information you have provided meets this standard, but I am not satisfied that there is a reasonable basis for your belief.

Please forward any further information regarding this matter by COB Friday 12 November 2021.

Thank you

Good Afternoon Judy

Please acknowledge I still have more time to send in my files and all my information to support my case

Briefly can you send me a synopsis of who the ombudsman investigates?

I have been blacklisted fundamentally - and the issues I raise will cross over

I want to know specifically what I should put in my PID

Thanks

Good morning Judy.

If you may please explain in plain English these conditions:

1. The discloser is a public official as defined under section 69 of the PID Act.

2. The disclosure was made to an authorised internal recipient as defined under section 34 of the PID Act.

3. The information tends to show, or the discloser believes on reasonable grounds that the information tends to show, one or more instances of disclosable conduct (disclosable conduct is detailed in section 29 of the PID Act).

Additionally I am providing evidence of this public maiming shaming and victimisation that will indeed, lead in all probability to my death

Here is is at the bottom - there is a lot in it - it renders what is happening

If you need to view it now, do, otherwise please wait for my final rendering after you provide clarity on the above three points
