Dear CDDC scheme OPMC

I have an urgent issue as:

I have no food, home, squatting medication, legal help, equality before the law, medication, medicine, care, freedom from exploitation violence or torture, and am being treated in a degrading and humiliating way, for years.

It actually cause my suicide from which I was accidentally found with no pulse and revived.

This is my story.

I want to forgive everyone, and make something great out of a bad situation.

All the evidence needed is at www.killhim.info

Thanks kindly

Dr Rich McLean

Please tend to this urgently as I am at great risk of detriment.

Justice arrives the day this email is sent to parliamentarians for Dr Rich McLean, the infamous vagrant scapegoat overdose victim and suicide survivor. This email to every parliamentarian describes a situation supported with undeniable factual evidence that will be impossible and untenable not to action.

It is easily witnessed and acknowledged by you now, all parliamentarians, the premiers, and The Prime Minister himself. It is also made available to the public on www.killhim.info as an insurance policy for the public to support me should I require the Supreme Court because I will need to rely on public support.

Public officials or authorities is within the

... and the Charter of Human Rights of the meaning of the Public Administrations Act 2004, including parliamentarians, heads of state, MP's and the Prime Minister. You are obligated by law to act within the Charter of Human Rights of People with a Disability. You are required never to ignore or intentionally omit evidence in criminality.

The charter you must act within the scope of, was ratified by the Australian Government in 2008 and is a foundation of this country. To ignore this email message and its provable facts or to intentionally act via conscious omission in order to pervert the course of justice is not only unconscionable but unforgivable.

(a) a public official within the meaning of the Public Administration Act 2004; or

A public official under the Public Administration Act 2004 includes employees of the public service,

No. 43 of 2006

Authorised Version incorporating amendments as at 6 April 2020

Division 4—Obligations on public authorities

38 Conduct of public authorities

- (1) Subject to this section, it is unlawful for a public authority to act in a way that is incompatible with a human right or, in making a decision, to fail to give proper consideration to a relevant human right.

As a PSA you must act immediately regarding human rights; I wish that with traction and intention that accepts the non liability in my forgiveness of the Government. (Save the

monetary detriment owed).

This is for the benefit of my humanity and dignity and safe existence and for the fortunate benefit of others.

You must act within human rights and the charter of human rights for people with a disability.

Human Rights

Human rights are fundamental rights and freedoms that are intrinsic to every person by virtue of their status as a human being.

ABOUT DR RICH MCLEAN

Dr Rich Mclean is a 25+ year human rights awarded artist author & recovery expert. Dr McLean has publicly advocated about 'mental illness' and holistic recovery and wellbeing mostly purely via altruism having engaged with local state national and international audiences.

Reflecting on what western psychiatrists label 'psychosis' he has always intuitively advocated a holistic dimension of recovery. The benefit of hindsight is that intuition is wise, he now prefers to identify false labels like 'psychosis' as 'non

to identify false labels like psychosis as non ordinary reality', via his lived experience acknowledging holistic shamanism in a PhD study.

A basic allegory of life and wise adage and one that is central in shamanism is; if it not yours, to give it back. Likewise, if it is yours then gently take it back or repossess it.

The oppression needs to indulge me in my humanity worth and dignity - if not I will make more stern measures to take back the value and worth stripped of me.

In the meantime in return - I offer forgiveness for the sinful malicious and conscious omissions from the systemic government oppression that basically killed me, then not one person had an interest in that justice apart from the defence of my own sentence, I was rendered isolated and exploitable and the tragedy was utterly white-washed.

Currently Dr McLean:

- Can't report to police,
- Cannot access a lawyer,
- Whistleblower status rejected,
- The charter of human rights of people with a disability has been unanimously desecrated

...has been immediately accelerated.

This is against the law; and the detriment is not only in human terms but in multi multi millions of dollars financially. This is a legal issue an ethical issue and one of atonement and forgiveness that immediately needs traction.

Dr McLean wishes to utilise alchemy as a transformational methodology to alter this political blockage into something beneficial for all, and further save his life and the Government avoids liability for his death and prolonged persecution, (save for the detriment in compensation).

THE DETRIMENT

There's no time for the federal court; a delay tactic now framed by his injustice and vagrancy will intentionally cause incalculable distress and catastrophic detriment.

The detriment in very rough estimates he suffered economically and other ways includes but not limited to:

**LET'S TURN SOMETHING BAD INTO
SOMETHING
TRANSFORMATIONALLY GREAT -
PLEASE ALLOW ME TO FORGIVE
YOU - PLEASE WATCH MY VIDEO**

Let's examine my offer of a more gentle way... that transforms pure evil and tragedy to love and happiness and prevention of suffering and a gesture of altruism for other marginalised people to advance their happiness ...

It is a win-win, it will save my life, and the remnants of my very human value & dignity justifiably restored.

My altruism will be allowed to be born again that was stolen via the taboo of death. It will assist vulnerable, marginalised and vitally important people; that has been the mantra of my life.

Dr McLean only needs a simple life free from oppression, and he plans to gift a large portion of the detriment owed to the following charities he believes in:

1. The banksia unit, Child and adolescent centre for mental health Royal Melbourne Hospital
2. <https://www.pgdc.org.au> Parents of Gender

Diverse Children

3. <https://asrc.org.au> With a hug for Kon
4. <https://www.foodbank.org.au/contact-us/?state=vic>
- 5.

I ask the charities above support me by sharing this email to family and friends parliamentarians and people in positions of privilege.

In addition if the Government fails to intervene, then I will need the public's support, and I promise that when justice arrives you will be paid back your investment. It will help sustain a simple life whilst I take the Government to the supreme court. If a collective omission occurs and nothing happens, it will be easily proven by my prosecution in The Supreme Court, even if I do not survive to witness it.

WHAT THE CHARTER SAYS:

Dr Mclean deserves justice not welfare and under the charter should be after your

the charter should be after your
acknowledgement be in receipt of:

- A reasonable home and basic provisions
- Not be exploited
- Free from prejudice
- Freedom from discrimination
- The absence of torture
- Access to the law and
- Equality before the law
- Medicine and healthcare

Acknowledging the detriment will involve the compensation of monetary currency from The Government and immediate intervention.

Should no traction be made it exponentially amplifies a potentially deadly detriment that willingly elongates the destruction of a single person and acts in consistency and resonance with the exploitation torture and dehumanisation of a former celebrated Australian public figure.

FORGIVENESS

Not withholding financial compensation for detriment, I forgive the prejudices inherently embedded in us all including the pawns of oppressive Federal government officials as pawns that played a fractal role in the hologram that has oppressed and scapegoated me

that has oppressed and scapegoated me

ABOUT DR RICH MCLEAN

Publicly outspoken across all media radio TV and in person, he tirelessly, bravely and with honest courage shared his story, acknowledging thousands of others in his altruism. He was enriched by the honour of bearing witness to others private storied lives.

He was essentially teaching suffering, and how to avoid it . Courageously he revealed his inner private world(s), via art & writing.

From Parliament House, Dubbo, Montreal and Warrnambool he travelled and engaged with empathy and honesty. He engaged hundreds of events speaking to local and federal institutions organisations schools youth groups charities opening keynote speeches for international conferences and exhibition openings, additionally across radio and television.

A former illustrator & news graphics artist for The Herald Sun and The Age, he has also been a practicing artist of 30 years.

Until recently Dr McLean ran his own business working for the NDIA and paid by the Government as an allied health professional who

assisted local marginalised people. He cared for marginalised people, a theme of altruists still present in his life backed with kindness and compassion.

His advocacy business www.richmclean.com.au followed his PhD study based on the ethical opinions of young people. Its focus was about present and future post humanism, as relates to AI, technology and the event horizon of super-intelligence; imagined via the eyes and ethical concerns of young people he ran focus groups for.

THE PRESENT APRIL 2022

Dr McLean is a systemically oppressed and victimised scapegoat - an infamous political prisoner incapable of traction with any agency nor authority for his tragic suicide of which he had been denied life liberty and justice

This further systemic oppression, has intensified over a year or more after the tragic hospital attempted suicide.

It is the identical kind of oppression only this time more stigmatising that was years in the making that led to the tragedy.

Public hospitals have a duty of care yet the

... some hospitals have a duty of care yet the Government whitewashed it.

Negligence in Victoria

The tort of negligence in Victoria is regulated by both the [Wrongs Act 1958 \(Vic\)](#) and case law (also referred to as common law).

Simply put, negligence is defined as the failure to exercise reasonable care and skill. A person can be negligent in the way they do something, or in failing to do something. For such acts or failures to act to become legal matters, the conduct must have resulted in some harm to a person to whom the negligent party owed a duty of care.

Negligence elements

To make a claim for negligence in Victoria, three different elements must be proved on the balance of probabilities:

1. The negligent party must have owed you a duty of care;
2. They must have somehow breached their duty; and
3. You must have suffered some harm as a result of the breach of the duty of care.

After that, systemic government agencies silent and via proxy further intentionally desecrated him.

That attempt in which he was accidentally discovered by a cleaner rendered him unresponsive having bled out, with no observable pulse. It was cited in official notes in the FOI from the hospital as a 'fatal injury', and 'a lethal attempt

attempt.

The hospital abandoned its duty of care. Yet the Government and other agencies condoned his certain death if not for his chance discovery, as innocuous, and whitewashed the tragedy as nothing to see.

A year on after aiding and abetting his death for years via exploitation torture and further victim blaming, and the Government methodology of 'delay deny and defer',

He is literally the continuing unwitting centre of an elaborate conspiracy and its malice and conceited immunity from the law has amplified in the wake of the tragedy.

The movement aims to main blame shame and destroy him, robbing him of health care justice and any hint of prosperity. Originally after he was released from hospital he was placed on Jobseeker and his injuries such as his feet he cannot feel, complex PTSD, and maimed memory have never been acknowledged.

In fact he finds it hard to even access healthcare that are helpful and cannot afford medications let alone food. He has not had the human decency of a mental health care plan, or even an every day psychologist after an entire year let alone a

specialised neurologist.

The movement exploited his nearest and dearest friends and family to prejudice and victim blame him for wanting to die; sadly this consciously has been designed to exploit existing vulnerabilities of prejudice we all have - it has worked.

As a vagrant void of enough medicine, prosperity to simply exist, bereft of enough food, or human company - Dr Rich McLean is squatting. He honours his dear companion Crystal the husky, and in the abject poverty and deficit of human value keeps and has kept him alive.

The misdiagnosis and the decades long oppression and uphill battle in life led him to this situation and had exploited his honest narrative years before and amplified by key conspirators with one thing in common - they are protecting money power privilege and reputation and would rather the 'system' do away with an easily exploitable and vulnerable individual to save their skins.

- No justice ever arrived.
- But it will, if I am alive or dead.

He was incarcerated another two times by a movement that designed his vagrancy and

rejected his prosperity and ethical justice, then upon valid and rational distress, prosecuted him as ill when it was an ill disguised vagrancy.

This is how you design an 'illness' and further destroy and scapegoat someone with conscious oppression.

It is a methodology to punish him. Punished for his political stance in order to further identify him in stigma and prejudice as unwell, isolate and further character assassinate him.

Further systemic Government oppression - is occurring right now a year after his misdiagnosis and 'fatal' injury that has manifested his acquired brain injury from the loss of blood and toxins affecting the hippocampus -affecting thought processes and memory.

The movement acts via proxy of institutions statutory authorities and its public officials, silently delaying deferring and denying care, justice, traction or acknowledgement, and ultimately his prosperity or human dignity with a conscious and intentional malice.

It is unthinkable abhorrent and also with certainty identifies the abhorrent victimisation and conspiracy that led him to 'die' and then further extend is victimisation

EXTEND TO VICTIMISATION.

If this message is ignored or consciously omitted, which would identify a conspiracy to pervert the course of justice and proven in the high court, as a public official who has legal and ethical obligations under the charter of human rights of people with a disability, you will have broken the law.

Perverting The Course Of Justice?

The offence of Perverting the Course of Justice is contained in section 319 of the [Crimes Act 1900](#) which states that a person who does any act, or makes any omission, intending in any way to pervert the course of justice, is liable to imprisonment for 14 years.

What Must Be Proven?

To find a person guilty of this offence the prosecution must prove each of the following matters [beyond a reasonable doubt](#):

- That the accused did an act or made an omission;
- That they did so intent to pervert the course of justice.

As public officials who are now aware of this issue as of 12/08/2022, you are obligated to act within the charter of human rights of people with a disability, ratified by the Australian Government in 2008 and not identify yourself as liable that you acted with intent to pervert the course of justice.

Any systemic omission with intentional ignoring of the issue or denial of acting, further proves what already occurred; a systemic Government conspiracy and a vile victimisation to pervert the

conspiracy and a the determination to pervert the course of justice.

I WILL WIN ALIVE OR DEAD

To not act now is a demonstrable systemic omission for the Federal Supreme Court. That is all that a prosecution requires to prove a conspiracy to pervert the course of justice.

A movement that aided and abetted his death and sadly continues to this day of reckoning.

THERE IS NO TIME TO DELAY DEFER DENY

TO NOT DO SO IS AKIN TO CONTRAVENING THE CHARTER OF HUMAN RIGHTS OF PERSONS WITH A DISABILITY AS A PUBLIC OFFICIAL WHICH IS AGAINST THE LAW AND IT WOULD CAUSE ME UNBELIEVABLE DETRIMENT

Dr McLean's proof already exists as evidence here are just ten amongst thousands of examples of a movement unethical illegal and protects those with money power and privilege:

- 1.
- 2.
- 3.
- .

- 4.
- 5.
