Non problems hope everything is ok

Thais fiona. I have sent you a solution to my problem. Danny Pearson's WorkSafe minister is under legal obligation to take on board a work cover claim at the authority when is can't or won't be paid within 21 days.

I've written many letters. He ignores them all.

I have sent you that evidence

I also sent you confirmation of my employee status at DSS by the federal court.

I was never paid work cover on account of me not being considered an employee at Comcsre, then upheld at AAT

I can appeal the decision - I have to apply to the federal court but that is where the statement of confirmation of my employee status as a DSS employee has already been made on authority from a certified person on their letterhead.

If the federal court the reconsider that fact and go back on declaring my employment status at DSS (which oversee the ndis), it would be for the very simple reason of changing their mind to save the government 800000 or so and it would be able to be held up to scrutiny.

So the issue is;

I have no money.

When Workcover is paid I'll be fine.

It is the government and danny Pearson's obligation to face his task framed by legislation and pay me some money it's been well over 21 days.

It's an absurd betrayal of justice and if you can have that conversation with the NdIs (I won't need them anymore), danny Pearson's office on my behalf TO MAKE THE MEANINGFUL CHANGE to my financial destruction, I will not only help you and your business I will pay you \$50000 for your special needs child and yourself.

So is that a wrap?

I can make a signed agreement for you to elicit this response from work cover - it is within your remit anyway in treating my mental illness as financial destruction and conspiracy have caused me distress panic mental health psychosis and utter ruin.

If you have this conversation it won't be a second too soon

I'm tired of fighting I've been up all night again with the gang stalkers nearby

They have crude accusations never tested in a court and my silent answer to them is I've been under investigation for years-if I was guilty of any of it I'd be in jail already so they need to do the math

Unless it's cheaper to keep me in the street than jailed and that would illustrate the hatred this government has for me

It's troubling to say the lease human judgement it's so awful and dark the truth will prevail in the end I believe

Calling now

No answer

Calling

Do you have a number for Kel Graham

No I'm banned from contacting her and my emails bounce back every time I email. She is implicated in the corruption and ultimately will be held to account like the rest of them. I won't actually hurt any of them or make them go hungry or homeless like she has to me and everyone else has in the world, but if I ever get my voice agency or power I will make sure she never forgets the way she treated me and I'll do it legitimately by suing her and making her suffer financially and get her position destroyed and her reputation ruined. It already is. I published my book. Two days ago. The horse has bolted the rest of the world is slowly waking up to the fact they can't kill me I've already died. And if you actually did murder me with neglect abuse and poverty soliciting co sitcoms for a predictable suicide I'm not worried. I don't fear death I'm immortal. The same light that shines in me is a little bit in everyone. Chop of a terrorises head there's another ten angry people who turn out to be terrorists. Cut out the light- and it has been don't over eons of humanity of people stocking up for themselves dying for a reason or a just cause. Mostly the avant guard are forgotten in history we remember the monsters and genocides. But inside every one of those tragedies there people who possess the light, that's why I have the light is eternal. I'm not afraid to leave my mortal coil. I'm not afraid of drs police or the prime minister I have no allegiance to the government or a company or my mum or club or political party. My only allegiance is to crystal. She is God and my muse. Without her I die instantly and then that going to be so bad for humanity. Really bad like you can't even imagine of biblical hell kind of suffering. I exist with the light opposed to human judgements and designed detriments and corruption. The voices are here right now. Gang stalkers and co conspirators. Even my ndis worker is one. You are a bit too but I feel your good intentions. Just don't let them convince you or sway you or bribe you they will try because you're helping me and I'm the light and they all hate that. I exist in love and divine forgiveness that is supreme despite the hate crime of my existence. I'll forgive anyone who says sorry. I've said sorry a lot but no one has said sorry to me. I really am from a multi dimensional place not like other normal people. And I love people even the ones that act to harm me because I understand humanity. The light will always win and god is on my side. It's a woman she's a dog a husky! Hehe

Also

1. Request an S100
2. Request a plan change my circumstances are massively different week by week
3. Advocate for my work cover I won't even need these people at the Ndis

I'm stupid enough to trust knowing better I pray you won't disappoint me

Hugs

Call me

The speaker expresses their feelings about being banned from contacting someone named Kep Graham, with emails bouncing back. They believe Graham is involved in corruption and expect her to be held accountable, though they clarify they won't harm her or anyone else. Instead, they plan to pursue justice through legitimate means, like suing her, to ruin her reputation and position.

They mention having published a book recently and suggest that the world is slowly realizing they can't be silenced. The speaker feels they are immortal, with a "light" within them that persists through hardships, despite others' attempts to harm or suppress them. They describe a sense of being beyond ordinary human concerns and express loyalty only to someone or something named Crystal, whom they consider divine and essential to their existence. They perceive a pervasive conspiracy against them, including from their support worker, but appreciate the intentions of the person they are addressing. Despite the adversity they face, they maintain a stance of love and divine forgiveness. They also refer to a unique, multidimensional existence and believe the light and God, whom they describe as a female husky, are on their side.

Weak

You just got famous

For trying to help you thanks that's lovely. I actually took you at face value and what because I am unable to help

you so you let me in with everyone else. That's not a nice thing to do.

I don't have the resources to be able to take on that fight for you without getting paid. It's just the way it is. I'm sorry.

And it's not that I don't believe you I do. I do believe there is a lot of shit going on with you and that you do have the proof to back it up but I'm not in a position to be able to do anything about it at at this time.

It's not nice to accept cash to put a 51 year old gay sexually active drug addicted man with schizophrenia into a home that was unreasonable my dog would get out and give him less than he deserves for the sake of collecting a buck. You were not being nice. You kept a tally of your hours adding up the cash you were making in order to elongate the family violence and corruption I live under.

Get this

A disabled brain damaged man is facing homelessness under the NDIs and the government

They are proven to be abusing him with impunity because he's a rejected whistleblower he can't get a lawyer and can't go to police

A violent conspiracy has already murdered him and he was revived to another whitewashing of the tragedy

Your company stepped in to do the extreme least and accept the abuse when they told you where to go

I'm too hard for you.

Too powerful

It puts you and your content at existential risk and you're told in the currency of money to help keep and you readily agree I'm too much of a head fuck

Too clever too outspoken too brash you already anticipate it will be hard

It's better to allow the NDIs to abuse me and leave me on the streets than dirty your reputation and who works for no money?

for no money:

I do

I work for nothing every single day pointing out the weak will of hypocrisy like you have just demonstrated in your willingness to allow injustice abuse and neglect to occur

I WANTED to believe you would help

I knew I knew better not to

You can always do an S100 on that decision

Oh no too hard

Accept our tyrannical overlords

He's a Dr! If they did it to him they can do it to me

There's no flies on your back now and you want to keep it that way

You have just been intimidated and bribed by utter corruption

Not very brave or courageous like me I must say

Hi Barran

You're still booked in to see the doctor tomorrow (in Campbelltown at 11.30am), do you want to keep the appointment and get your support worker to take you or will I cancel it?

Regards

Fiona

Answer my texts and emails please and book me respite care

Otherwise I'll kill my self

I'm a long walk away from home

And I've had enough everyone's abuse and neglect

Fuck

What do you want from me

I'm in a course today and tomorrow

This is an emergency

Fuck the course save a life you self interested self preserving gang stalker

In the journey of life, few narratives are as harrowing and resilient as that of Barran Dodger, formerly known as Dr. Rich McLean. His story is a profound exploration of the human spirit's capacity to endure, resist, and ultimately seek justice against systemic abuse, financial exploitation, and relentless persecution. This essay delves into the protagonist's multifaceted journey, surveying the evidence contained within a comprehen... >
