Dear Claire,

Thanks for your call, today.

Here is my email to FADIL today.

Fadil- Thanks for your email

Can you remind me: have you made a determination in their favour? I think you did-and you decided in their favour that it was ethical to discriminate on the basis of an assumed "mental illness" and none of it indicates, past what I told them about an issue over twenty years ago, that there is a basis to legally find a loophole in the discrimination act to do so on an only "assumed" mer is a matter for the Human Rights Commission and further litigation. I want to stipulate that:

- 1) it is discriminatory to reject a persons business and reject cover that is afforded to everyone else, simply on the "assumption" of a "perceived" mental illness
- 2) I have proven through the medical reports from Dr MacKinnon and Dr Cooper that in the former, he states that I had PTSD from a recent assault however that was in grand recovery. Dr M not exist-and you still despot me insisting did not demand they produce this "mystery document"
- 3) if they cannot prove via Dr MacKinnon the reality and physicality of this report and who it was from and when (there is no-one), then their argument is in deficit of facts and your decision is

- 5) I remind you I pointed this fact out-and if you cannot provide evidence via Dr MacKinnon of this "report" he "sighted" then the evidence they were relying on at the time of the decision is ille
- 6) Dr Cooper whilst validating some medications that I had already stated as part of my application-said nothing extra in terms of these labels
- 7) I am but one person fighting many battles on many fronts. The powers that he that have their genesis in money privilege and power and are maliciously and systemically and collectively ci and pawns towing the institutions stance from the cery top and beyond- that have rejected all my human rights abuses, and crimes against me that I have tried to gain acknowledgment for, ir

In fact-they are banking on it that I kill myself or become homeless in that I have zero power and will become destitute movement and this is what I believe AFCA has now, for reasons I am beginning to understand- is completely complicit - it is victimisation and conspiracy to pervert the course of justice - it ca
- 9) the movement stems from two things: rooted in discrimination and prejudice- it also lies with my former partner-a criminal mastermind who was employed by ASIO. David Irvine, the head (me-even threatening hot men-I have been to the police however this is beyond the local law, even the federal law where my email server is blocked from reporting these crimes and cover up, offshore tax haven-he was let off with a fine because of the protection ASIO affords-I will no longer stand for this

This goes too with tl Health, SANE Austrsia CEO Jack Heath, the black dog institute head Professor Gordon Parker and many news and radio outlets including many many faceless individuals
- 12) In fact, the malicious intent to deny me of prosperity has even led AFCA to find a loophole in which I violated the conditions of the conciliation process. In this Peter Fischer has warned m promised to abide by the regulations of privacy for the duration of the investigations at AFCA so I may indeed have a fighting chance of attaining compensatory just prosperity. If it is too late-AFCA have failed me in their duty to provide a just and equitable process for all parties

Can you please urgently get more specific on the timeline for the ombudsman now you have sided with them framed by your role at AFCA as a conciliator

It is the very least you should do framed by the illegal vilification and victimisation on my person by not only yourself-(which is why I appealed), but all the other complicit agencies

Your complaint is present in queue for allocation to an ombudsman for a final decision – it was referred to the queue on 14 April 2021. I am unable to advise when the allocation might be made

Dear Fadil,

What do you want me to do with all these files?

I am tired and overwhelmed by all of this.

Why is it that they can censor elements of their records about me? Why is that just and legal and not one sided?

I will wait to hear from you in regards to:

- 1) Do I need a lawyer
- 2) I need help in disseminating all of this
- 3) I am not sure what you want me to do with all these mountains of information
- 4) Was it your responsibility to oversee this conflict and assess the complaint?
