Further protection for your pet

Your Insurance policy is here to protect against the unexpected so for this reason, pre-existing conditions are generally not covered. However, we've made updates to your Product Disclosure Statement (PDS) to make it easier to understand what is or isn't a pre-existing condition. We now classify conditions as either chronic, related or temporary. The good news is for temporary pre-existing condition(s) that had no noticeable signs, symptoms or an abnormality for 18 months, the condition(s) may now be covered. Please review your PDS for further details.

Making it even easier to claim

We've proudly partnered with GapOnly™ to help you access your pet insurance benefit right away on eligible claims at participating Vets. That means instead of paying the full Vet invoice upfront and waiting days to be reimbursed, you only need to pay the portion that's not covered by your pet insurance policy – or the gap! With less upfront expense and claims paperwork, both you and your Vet can focus on what's most important – your pet's recovery. Find your closest GapOnly™ Vet at gaponly.com.au/find

Receive faster payments and communications

Update your notification preferences using your online customer service Pet Portal at rspcapetinsurance.org.au/portal, under the My Profile section to receive faster updates relating to your claim via email. If you're currently receiving cheque payments for your claim reimbursements, you can also use your Pet Portal to switch to direct deposit payments for even faster reimbursements for approved claims straight into your bank account.
