Dear AAT

Jeffery trika

Will be talking with me in the meeting this afternoon

I state: I did not give permission for this to go ahead

That is because;

I have provided evidence that it is inequitable and unfair and biased in legal standards

I have provided information that HFC and AFCA and work safe and ConCare and AAT and attorney general and others have all played the "delay defer" game, in order to aid and abet my vagrancy

All of these institutions knew full well that I was and had gone bankrupt and needn't have

In addition

Paul Fowler was the head who rejected my Comcare case

Work safe would not help with my Comcare appeal

This is because Paul Fowler was the old head (and a lawyer) at

Comcare

This is corruption

I will be calling it out

I also did not permit this to go ahead because:

I am a marginalised person and have a squashed brain injury

To go ahead-when I have suffered systemic elongated oppression at the hands of the government that ended in my fatality only to be accidentally found with no observable pulse and revived means:

That the government had killed me.

Since March they have aided and abetted my death they hope via suicide

Further-not only are these systemic organisations responsible for my financial duress incarceration and "death" from which I am now maimed...

For the AAT to go ahead with this meeting;

Is inequitable and unfair

Is legally biased

Will be a slaughter

Is inappropriate in terms of legal ethics

The AAT has determined this meeting will happen today

This is in spite of them;

Actioning disability discrimination

Taking advantage of a marginalised person who does not even know

1. How much this is worth
2. If I am a TPD
3. If the agencies will take responsibility for my death
4. That the attorney general condones this
5. That this is clearly an unbalanced legal fight which is against the law
6. The AAT have broken the law contravening human rights
7. The AAT have refused to acknowledge my disability
8. The member responsible for charging this shrewd is guilty of conspiracy to pervert the course of justice discrimination and abandoning an equitable and fair hearing

Before I go on today I will be making a statement that states no outcome will be reached

Additionally

2. I need to know if the attorney general condoning this slaughter influences it: if so I will be withdrawing and ging public to blow the whistle on systemic corruption and institutions consciously rendering me a vagrant: which I am now

2. I need to know how much this is worth, considering how far the payments go forward

3. I need to know if a lump sum is payable

4. The commonwealth had a 30 year expert in the SRC act who had worked for the government and Comcare

It is a long document; festive in simple language why I was rejected or why you contest this

I not I have asked Kate this she has refused to respond

I also note that as a body who could relieve me of starvation and homelessness that you are consciously defining me as a homeless vagrant when I could be owed millions

This is why this meeting is important

I wish to know what conciliatory measures may be reached before it goes to a final hearing and how to apply

After that I will remain a vagrant and refuse to participate

Until I can bring AAT and the member to an atonement for breaches of discrimination disability and human rights

Further that the movement I have proven exists that actually murdered me; is alive and well and had desecrated me for the last year

I also wish to state that I took provisions to protect myself from harm at work, and that the NDIA did not offer peer worker management or line management

Further

The reason I left work was not because of mental illness

It was because of not one but two failed VOCAT cases

And the fact that I was detailing an extremely serious report that was witnessed by a justice of the peace for my client who had serious child rape and incest issues

Further that when I knew I had been framed due to processes I will prove the legitimacy of my work was voided via being framed which I will also prove

This is the statement I will be reading

Thanks

Dr RM

I am also because I am a vagrant have no money to pay my phone bill

I am trying to find money so it is activated

Because you cannot contact me IS NOT a reason to further the matter to a hearing or make a decision on my absence

I also have a new phone number I will let you know

Thanks

Hi tanisha

Thanks for the email

I will be reading a simple statement to delay the process

AAT are already guilty of:

Inequitable and unfair policies

Taking advantage of a person with a damaged memory from actually successfully killing hinder (I was found by accident and revived)

You are deciding a work cover claim that is rejected on a section of the SRC act

I am not even sure what that means

In addition

This battle of one person who has an squired brain injury against the government

Who has literally already systemically oppressed him to the point of a successful suicide

Against the same government trying to rob me of my just claim utilising a thirty year lawyer whose expertise is in the SRC act and with Comcare

Is a vile and oppressive wall opposing just me

I remind you too as you know

I have already made this known to the registrar

In going ahead

They contravene the disability discrimination laws

And they also contravene the charter of human rights

They are also inequitably and illegally engaging in profound victimisation

This victimisation has been over many years and also systemic

Across many agencies

I will be making applications to the federal circuit court either pre or retrospectively if I am denied my valid worker's compassion claim

Additionally

Work safe would not help me with my Comcare appeal

Paul Fowler was the one who finally rejected me

He was the old boss at work safe

That is corruption plain and simple

One more thing

HCF have denied my income assist claim (at the same time AFCA witnessed my financial destruction whilst holding onto over due

determinations).

This is illegal in the oversight of ASIC who can demand that AFCA act in a reasonable manner and a timely manner

They have watched me become homeless-and I currently squat with no food no medication and no rent

I will be on the streets by the end of next week

I think an urgent conciliation is needed before this:

1. Conspiracy to pervert the course of justice and
2. Bike victimisation and
3. The destruction of a person financially via delay and defer and
4. Disability discrimination

Go ahead

That is the kind of statement I will be reading to immediately cease the meeting

Of course unless a conciliation is made

You will have to pay for it

Because you have all collectively made me a vagrant

Without a cent

HCF have incorrectly also said this is a prior existing condition

That is incorrect

Stress is not a mental illness

Also I was rejected two VOCAT cases

One I was named a principal aggressor despite evidence the police had of a video of the affray

And two

Where I was left for years seeking an outcome to my own child sexual abuse case

They gave zero outcome when it went to the magistrate who wrote to me

"You we're doomed to fail from the start"

This is because I was framed by a GPS lawyer as an extortionist

Because I had overdosed from the grief of a dear freinds suicide

Anyway

I recommend all parties come together

Even though you know I am maimed and banned from police

And perhaps(?) failed whistleblower protections

I may just have an ace up my sleeve

To clearly expose the delay and defer and attack him in the hip pocket

And hope for his death via suicide

Because as we know HCF and AFCA and Workcover and Comcare
and also ASIC and AHRC and others...

Are all completely in the movement to financially maim me

A conciliation is preferable

Than if I actually may have whistleblower protections meaning I am
free from litigation

But can name and litigate against every person that aid and abet my
death by making things so hard

This comes on the back of the HCC and MHCC and ombudsman
covering up my death in hospital

And the CEO

Thinking I am powerless tempted me to sue him personally

Also

I have caught out sheena jack from HCF overseeing altered and
fraudulent documents

That are a disgrace and I will litigate for in time

Have a nice weekend

Look forward to reading my statement Monday

If I don't answer it's because I am a vagrant and don't have a phone

Thanks
