Letter to the AG: Request for Resolution and Change

Dear Ombudsman, I have sent this to AG as well, in a separate email but time is of the essence if you would kindly address this?

I apologize for the numerous emails I have sent over the years. I understand that my persistence may have been overwhelming, but it is a reflection of the desperation I have felt due to my ongoing circumstances. I write today with a clear and structured request for a solution that I believe is both achievable and within your remit. My situation has reached a critical point, and I am seeking your assistance in a way that will bring about meaningful change to my life, addressing the poverty, neglect, and systemic abuse I have endured.

My Situation

For many years, I have faced overwhelming hardship due to several unresolved issues across various sectors. My problems are not merely bad luck but the result of systemic failures and manipulation of legal structures that have left me homeless, financially destitute, and deprived of the healthcare and legal rights I am entitled to. Below, I have outlined my key problems and proposed solutions that I believe fall within the scope of your office to address:

1. Prosperity

- **Federal Court Employment:** I need acknowledgment from the appropriate authorities that I was employed by the Department of Social Services (DSS), which would allow me to receive my rightful WorkCover payments. This would provide immediate financial relief and stability. Ask work safe minister Danny Pearson to respond to my urgent email stating legislation if work cover cant out won't be paid becomes the remit of the agency within 21 days
- **Childhood Redress at DSS:** There is a childhood redress settlement that has been blocked. Resolving this would not only help me financially but also provide justice for the harm I experienced in my youth.
- **HCF Income Assistance:** I have documentation showing that my schizophrenia was not an issue in the years leading up to my childhood sexual abuse VOCAT case. Securing my rightful income assist would address my immediate financial struggles.
- **Total and Permanent Disability (TPD) Claims:** In 2008, I received a TPD payout, (Health Super), but it only paid one unit of \$83,000 when two units were standard. I also claim to have paid for 8 units of cover, which would entitle me to over \$500,000. I have evidence to support this, and a lawyer could easily help me rectify this.

State Super, I was never paid income assist allow a lawyer to facilitate payment of this (I was paid another TPD).

2. Healthcare

- **Immediate Access to Medication and Specialists:** I need a General Practitioner (GP), a psychologist, a psychiatrist, and immediate access to my dexamphetamine prescription. Without this medication, I have resorted to self-medicating with street drugs. Dr. David Horgan has stated that this medication is life-saving, and without it, I nearly died. This is an urgent healthcare need.
- **Werribee Mercy Hospital Settlement:** I have suffered a brain injury due to the negligence of Werribee Mercy Hospital, where I was supposed to be kept safe but was not. I need assistance in settling this matter.

3. Legal Rights

- **Access to Legal Representation:** I need a lawyer to assist me with my Public Interest Disclosure (PID) whistleblowing and police issues. This is a fundamental right, and I am asking for a non-biased lawyer who is not beholden to the legal bar structure, which is often compromised.

- **Acknowledge My Former Partner's Financial Exploitation:** My former partner, Stefan Iasonidis, exploited me financially for five years. I do not seek revenge, but I do seek acknowledgment and a settlement to compensate for the control and abuse I endured.

4. Housing

- **Supported Independent Living (SILS) Approval:** There are two professional recommendations for SILS that have been blocked by Kel Graham at the NDIS. Despite being financially abused and evicted by NDIS-appointed providers (Aligned Community Care and Upscale Care), they refuse to be fired. This is a breach of my right to choice and control, and it is causing me significant harm.
- S100 review of decision not to grant SILS when two professional reports state my life will be at risk without it and due to my high risk behaviour

Proposed Solutions

I believe these solutions are achievable and within your remit:

1. **Appoint a Lawyer:** My right to legal representation under the United Nations Human Rights Charter is critical. I need a lawyer to help with all of my issues, including the financial and legal matters I have outlined.
2. **Acknowledge Systemic Failures:** I ask for a simple acknowledgment that the system has failed me in multiple ways. This would go a long way in correcting the harm that has been done and provide a basis for moving forward.
3. **Support My Healthcare Needs:** Facilitate access to the essential healthcare professionals I require and assist in securing my medication.
4. **Assist with Housing and Financial Stability:** Help me resolve the issues surrounding my NDIS SILS application and provide support to stabilize my financial situation through the claims I have outlined.

The Broader Impact

I understand that many people are plugged into a system that rewards conformity and punishes deviation. However, my case demonstrates the harm that occurs when the system prioritizes bureaucracy over the well-being of individuals. I have been fighting against this system, much like the protagonist in *The Matrix*, trying to awaken others to the truth of the corruption and neglect that has been perpetrated against me.

I do not seek revenge. I seek acknowledgment and solutions. I am willing to forgive those who have wronged me, but I need the support of your office to ensure that the systemic failures I have experienced are addressed in a meaningful way.

Conclusion

I implore you to consider my situation and provide solutions that can be implemented within the next seven days. Without your intervention, I will be separated from my therapy dog and forced into a homeless shelter. This is not a sustainable or humane outcome. The solutions I have proposed are supported by evidence, and they are achievable within the framework of your remit.

I thank you in advance for your attention to this matter and hope that we can work together to resolve these issues.

Sincerely,
Barran Resonance Dodger / Richard William McLean

Status:
ITTO

Referral received from inpatient psychiatry team to review above consumer currently admitted to ICU after serious attempt to self-harm with intent to end his life.

47 male longstanding history of schizophrenia, admitted due to increasing threats and plan to end his life on the b/g of injustices done to him through previous treatments under the MHA. Consumer has negative outlook towards MHS system. Ongoing paranoia and animosity towards all hospital staff especially psychiatric teams. Has history of being litigious through phone recording often without consent, using calculating behaviour in order to meet own needs and possible staff splitting. File review suggest Vape pen, shoe string was utilised and suicide letter was also found.

Brief discussion with ICU team who have advised that attempt was lethal and still requires surgical repair. Currently not medically cleared. Management plan in ICU notes for nurse to follow. Medication chart completed according to CMB med charts. Advised ICU to focus of containment and consistency in his management. Minimal negotiations around psychiatric management, follow management plan provided. Visitors are allowed by visitation must be supervised. Aim for swift medical clearance and is for transfer. Advised client will require ICA bed given risk of repeating self-harm or suicide.

[Redacted]

Richard lying in bed was fast asleep and was easily woken up. All three clinicians introduced ourselves and Richard agreeable to engage. Richard able to recall and understand why he was brought into ICU. Showed insight into his action however remains to be supportive of this. Richard reported he thought this was the only way 'out of that place'. He reported feeling locked up. He referred to himself as being 'jailed'.

Richard acknowledged concerns from community regarding his plan to end his life on his Bday hence admission was warranted to prevent this. Richard abruptly stopped the assessment and asked all 3 clinicians credentials again. This was given again to him. Richard refused to talk any further as he felt that CL team were recording. Referred to CL team as 'Part of the system'. CL team provided some further information around role and reason for review today in order to ease anxiety and confusion.
