Hey Mitch

Can we do something about this today?

Can we report this to police? Can you call the NDIS?

Wednesday 12:07 PM

Mitch

You hung up?

I'm dying man

Wednesday 1:57 PM

Hey man i just woke up now. I must of bumped the phone in my sleep. I can't today mate I've already got to much on to do today and I'm already running late for my appointment with my parole officer then I got an appointment with my lawyer about my lawsuit and I got to go see my doctor and go into Centrelink and the bank to sort shit out for Amanda and I gotta try and do a bit of food shopping + more.

I'll try and fit it in tomorrow mate but can you make it over here tomorrow to book in the witness signing appointment with Mt Druitt courthouse registrar. I've been ringing around to see if a police officer can witness sign these documents and the NSW Guardian and Trustees reckon that a police officer cannot witness sign these documents.

The police and NDIS will not listen to me if I am not your guardian and or Power of Attorney. I can't do anything about that until we can get the forms signed in front of a qualified witness signer (a private lawyer, a courthouse registrar or an employee of the NSW Guardian and Trustees (they are the only ones qualified to witness sign these documents))

I see

I can simply give you permission to enquire in my behalf

Doesn't need to be this hard

It was an emergency a long time ago

Now

They're gonna kill me

I've tried to deal with the police and NDIS before for others in the past and they wouldn't listen to me at all because I was not the person's guardian and or Power of Attorney. It **SHOULDN'T** have to be this hard but the Government call the shots, their corrupt as fuck and they are the ones whom make it this way..

It's fucking bullshit that they can get away with this bullshit fuckery, we need to all stand up and have a civil war against our own government Muppets

I'll be dead by then

What's your dob and address

I'll cc you into an ndis email now

Mitch I'm trying to save my own life here

It's close to the end fir me

I'm not a pedophile I'm not a rapist I'm not an extortionist they told you that possibly it's the reason why no one will help it's character assassination everyone is ruled by and believe police and the government I can't go to police I can't get ndis they abuse me I'm a rejected whistleblower and I can't get a lawyer I have no money no human rights no legal rights this is a targeted killing I've already published that the fact no one is intervening means my life is over it was already over five years ago when I killed mystified for family violence of a manipulative asio agent and no one stood up for me not a hospital or ombudsman or lawyer or doctor or Advocate or my mum or dad or family or religion politics society or the media or anyone I'm utterly alone with nothing and no one except government contractors outside bading me "everyone knows" entrapping me with their lies Snd everyone is convinced they are right and no one is courageous or brave or courageous everyone is involved in their own dhit lives at the expense of the convenience of ignoring me who's infamous by now and they want me dead and so do elk if you si you all better be careful what you wish for or neglect to act on because evil has it in the bag and I'm the fuvking saint

Mitch

Mitch answe the fucking phone

Please

I'm busy at my meeting with my parole officer trying to sort out some of my own shit. And For the last time. No one has told me anything and I haven't done anything..

Don't you ever think that no one will help because you always forever jump to conclusions and pressure everyone to help you with EVERYTHING and you say that they HAVE TO HELP otherwise you make threats saying that your going to die

you make threats saying that your going to die and that we all killed you??

I've got shit loads on my plate as well to deal with. Way too much shit that me and my family tribe are going threw and I have a life that I gotta deal with unfortunately as well.. All I want to do is Rest.In.Peace Peacefully but no cunt will let me R.I.P and they keep on resurrecting me back from the dead each and every time that I do pass away and die.. I have literally died far many more times then you can count with your fingers and toes, yet this A I.C.D Defibrillator Abomination implant thats implanted in my chest and wired up inside my heart keeps on bringing me back when all I want to do is R.I.P Peacefully. Haven't I earned the right too. I've already died far too many times. Yet here I am also awaiting a heart transplant and am trying to save my kids. My 5 beautiful beloved babies/family tribe. They are the only reason that I am still breathing and fighting. I am 1 single man/ a lone wolf/ a one percentar taking on the whole entire government all on my very own. Yet everyone else all still keeps on trying to tell me that I need to stop fighting for my kids and help them with their shit instead of me sorting out my own shit. Which I have to pick a side, well then my kids will always win every time

My DOB is 02/03/1986 why's that?

I'm sorry bro

I'm just next to the end

I protest this because I don't want to die
