CS

Ben do you want to see the details of the police take down Audio or the hospital admission or the foi or the bit that says my injury was "fatal"?

Would you like to see where they kid diagnosed me?

Or the salt water clinics audio recording of them actually kicking me out of the service?

Or how they kicked me out after my stitch up with just an Uber and no where to go with no food money or Cate!?

Framed by what happened below

You're just another gutless political plan paid by the government to keep me bereft of prosper and justice

Prove me wrong ben

Dear Ben @ Victorian Ombudsman,

RE: My illegal incarceration via police brutality at Weribee Mercy Hospital and my 'fatal' attempt after sustained systemic abuse, victimisation and vilification and stigma and prejudice and discrimination regarding my 'fatal' suicide attempt.

You are investigating Weribee Mercy's role in this and also the Mental health Complaints Commissioner's role in covering it up and who's representative Ms Alex Tinter was a double agent for the hospital protecting money power and privilege, and I was pitted and have always been pitted against a bank of faceless litigation experts always trying to advocate simply for myself and to have worth.

In my response to you which said it was not to be investigated,

I replied:

I have replied with this public post at my whistleblower website www.richmclean.com.au

This is because I do not want to die ((again)-yet).

Framed by the enormous body of evidence below which clearly shows in hindsight a narrative of inequitable and unequal injustice in terms of the extreme walls of prejudice I am fighting and the notable people who have covered it up...there is clearly a movement that perverts the course of justice and additionally that the movement to maim me financially in all ways and to desecrate my person is nearly complete.

This is especially in terms of:

My web hosting explicitly deleting all my evidence of my website and all of my emails, which was my evidence without warning or notice that 20 years of emails and domains were destroyed, and that two days before that; my files were set to 'zero' bytes on my personal computer,

That my private insurer HCF after seven months has refused to pay my income assist; and that they massively contribute to the financial strife I found myself in after leaving work, and they were complete in knowing this with:

AFCA, who's worker Tim Gos actively threatened me to deny all of my monetary troubles totalling more than \$500,000 and that this went further to blackmail me by saying that if I even do so much as call them or email them, they will instantly delete my claims even though they are months after being due for a determination, and that:

Comcare are my work cover insurer, because I am employee of the NDIA. As an NDIS employed therapeutic support under the NDIA, which is a worker from the NDIA's website is defined as:

Comcare denied my claim, which HCF told me if granted even though my 'illness' in which 'stress' is now a 'mental illness' was prior existing. They are clearly making calls investigating me personally and that I have found out I am under investigation.

Investigated by who?

Additionally that HCF directly said if work cover covers my claim for 'the same condition' that I will be paid my work cover, knowing full well that I would contact work safe who confirmed to me every one is covered by work cover but because of the malicious and systemic maiming of me I was denied to be cared for by the state insurer.

I even threatened to sue them, however, I was directed to Comcare and hung up on, (as is usually the case).

Funnily enough the systemic corruption is all linked because Paul Fowler is the person who rejected me at ComCare and he used to head work cover and is also lawyer in Victoria.

HJowodd, sounds like a conspiracy to pervert the course of justice to me buddy, one that was so malicious and gaslighted and blackmailed and rejected me from every possible source and institute organisation litigation and place I went to value myself, I was met that it literally including my stressful work in which I was triggered by my work with a client who I did his VOCAT application for his child rapes and incest and worked with him for over a year and a half, which included being abused and also that we had to draw up a new contract because his manner was distressing to me as I got closer to the day I was sent a CR room of the magistrate from Geelong in the mail.

This was the 'recording' of my hearing which I now could not appeal because too much time had passed, a deliberate way to maim me and set me upon hindsight.

This a method used with other places of discriminations well.

The Age, where I used to work, fired me after a few weeks when my defamation went into the Herald Sun, a place I used to work, both places as a public news graphics artist and illustrator.

My victimisation and defamation by The Herald Sun, after I agreed to the label of 'schizophrenia' growing up, and had written a human rights award winning autobiography from the experience.

The Victorian Equal opportunity commission in the Age dispute, forced me to take \$6k from the age when I asked for 15 years worth, even though I had a human rights award from them and other issues were raised - again I was outweighed by money power and privilege and taken advantage of.

This is on top of the fact that The Age asked me if I 'had male to male sexual intercourse' over the past 10 years and had I ever suffered from a mental illness? Questions obviously illegal.

Also that when I tried to take aim at the age because I had always regretted that decision to settle, because I would have been homeless, I was outright rejected by VCAT who said I have not got the authority to make a case. If no one has the authority apart from the person it happened to - why indeed is there an issue?

This was more systemic abuse that is clearer seen in hindsight and a reason my anger grew and grew when I was illegally incarcerated for having a beer and recorded it, and posted it to Facebook whilst in hospital and I was coerced by the 4 IC nurse to take it down or risk a \$40000 fine or jail and this is another issue with the hospital you have failed to acknowledge.

You are also investigating Salt water Clinic, an arm of the hospital and Weribee mercy mental health, where I had threatened to sue because of the endemic systemic and cross institution neglect and abuse and victimisation I had suffered as I was year after year further brutalised, and to this day even recently the vHREC will not represent me in any of these matters.

Salt water clinic officially saw me see a psychiatrist only one time, after I was released from hospital with no food, squatting from the systemic financial maiming of me by my insurer Comcare and AFCA and further that I had no food and little hope.

This put me, a person who had literally survived conspiracy to victimise me and vilify me, fill me up with the wrong pills, misdiagnose me and then I actually inflicted a 'fatal' injury with an agreed illegal; contraband which you refuse to acknowledge in my quest for justice regarding the charter of human rights, and that not one single litigation team would take me on, would be released in a way which intentionally put an extremely vulnerable person in immediate danger and in addition that in hindsight it is clear to see these organisations and agencies are linked in that they all use a similar methodology:

Kick the can down thread to deny me justice at all. Costs and

Victimise him desecrate his reputation and

Put him in the highest possible risk zone possible so that he make take risks or indeed

Die by suicide so that the papers can say it was all about either drugs or 'mental illness'

These labels are impossible to shake once you have been publicly framed on national television and a national paper because you are now by proxy of your bravery and honesty someone who is very easy to exploit and attack

Salt Water clinic then saw me a second time after saying they would not abandon me, and that after less than hour in seven months Butterfield still thinks I am psychotic, and that the reason I was invited in was to officially sever the relationship, a thing I am sure is illegal seeing I am apparently a person with a disability in their catchment area.

However I am sure the health complaints commissioner or the mental health legal centre the Victorian equal opportunity and human rights commission nor the police nor the ombudsman or Victorian inspectorate nor sane Australia nor the mental health legal centre nor a lawyer would care to give any notice judging by past history of the public maiming and shaming and illegal conspiratorial victimisation of a select targeted individual.

Salt water clinic watched the circumstances become so risky- that I may die, before I got justice.

In fact, I was asking for help from salt water clinic and they had already been speaking to authorities and agencies about how sick I was or was not with the plan to lock me up, in fact at the time I told a psychiatrist I would never be locked up and would be dangerous and immoral.

This was truly a set up.

I was taken advantage of by my memory loss, which could have arrived from natural causes or indeed a violent incident at the dancing dog where I defended a person I thought would be killed, (I am a Buddhist primarily and non violent apart from protest), and that the VOCAT case was corrupt and so wreathed the police and I learned in disbelief that I was framed as the principal aggressor, not the other way around (there was 6 of them and only 2 of us), and I had broken bones, nose, sutures in my lip broken hand and additionally lost consciousness multiple times in the ultra violent affray where I was hospitalised for my injuries.

However Footscray hospital, refused to do a scan of my head at the test for concussion, and that the police refused to release a video of the attack through FOI which would have clearly exonerated me from the attack.

My poor memory is taken advantage of as is noted by one psychiatrist however it is clear that I acquire devices and information and data to remind me of key facts and circumstances, and this narrative is lucky to have had that aim of recording somehow the oppression I have faced over lifetime because I simply cannot acknowledge all this pain and hurt and systemic neglect that I now render as not only a conspiracy to pervert the course of justice.

It is not only benign neglect that is a common theme.

It is the fact that in every circumstance and every situation with whoever it is that I am actually targeted for malicious attack, often in ways that seems innocuous such as your response, Ben, however when push comes to shove it can be clearly seen for what it is in regard to my hospitalisation and my death at Weribee mercy.

That is:

A conspiracy to aid and abet a murder in which the victim was so shamed and desecrated in all ways and robbed utterly everything that he decided the best way to stop the pain of not seeing his only friend, his dog - was to kill himself

Then on top of that - a cause which I was willing to die for - when they reluctantly saved me I was still treated to further systemic abuse and neglect; that is in addition to the litigalities of me contacting golden staph in hospital whilst I was there

And the framing by agencies

And the oppression of every avenue I try

The impossibility of response

That demonstrates with my poor menora the reason I document things such as the Dr Whitaker case, in which if nothing was done wrong - he simply would have welcome an innocuous recording I took to exonerate him of all wrong doing

Instead I have recently read some of the redacted FOI and it is clear that Dr Whitakers' top of the town' lawyer Mr Ball had framed me assume sort of forward thinking sociopath who attempted to record the GP for the sole purpose of extracting money from him

This is a perspective that one of the initial culprits Ahpra have not even acknowledged when they indeed rejected my claim and said there was nothing to see Even as the recording, and the transcription of the recording was deleted from public consciousness and the investigation

This is in broad contrast of me by the very nature odd systemic gaslighting and years of trying to have a voice or someone that has blur for me when I published it in the public domain

I was sad this happened but by now I was so triggered by injustice that I couldn't help myself and even became neurotically obsessed about getting justice This is aside from the fact that emails will show I did not want anything to happen to dr Whittaker just an acknowledgement of what had happened and maybe mental health training however years went by with me at a level of distress and then there was more toxic assault in the magistrate Deming my own child sexual abuse case that I was 'doomed to fail from the start' This I totally and utterly can see now and I had not known why my many submissions and even public speech delivered at the state library of Victoria attested before I made the decision to, litigate that I even valued myself that much to honour my worth only to have it decapitated and more that it took nearly three years then many months to be at further risk in which I clearly stated I wanted to die

And it is still happening

before I was

This was also by Health Complaints Commissioner and The Information Commissioner, who refused to give me my FOI, and further the mental health complaints Commissioner, you have agreed to be investigating., and despite me having a 'fatal' injury, as the FOI from the hospital says, (and that it is a malpractice abandonment of duty and professional negligence matter, as well as an improper diagnosis, as the exit notes from the hospital detail how I am neither 'psychotic, nor 'delusional', and that this distress was caused by sustained abuse and the static maiming of me which in retrospect makes sense with my own child sexual abuse case (I was the victim), and additionally that I was 'labelled' with 'adjustment disorder', which is a fancy way of saying a delayed stress reaction from fighting too long and being triggered from child sexual abuse trauma),

This movement to main me financially and in all ways and as you will read - hope for my death - which is a systemic malicious sustained and nuanced attack on myself as a victim and who is being heinously discriminated and conspired against - bear the hallmarks of something out of 'Te Trueman Show',

Quite simply:

- 1. A conspiracy to pervert the course of justice and main me financially my reputation by agency my ability to complain, my democratic right as a whistleblower, mt ability to report crime to police, my rejection from all FOI and justice for actually dying twice under oath, once with a GP the other within the confines of a hospital, then these crimes being heinously covered up in an abhorrent miscarriage of justice is a profound nuanced and target human rights abuse, vilification, victimisation and rejection of my very sentience and worth as a human being.*

Crimes committed that you MUST indulge me in my evidence of (which I have in my possession), are:

- Medical malpractice
- Abandonment of duty of care
- my silencing and blacklisting in all systemic ways
- The cover up by Health Complaints Commissioner The Werribee mercy Hospital and the rejection from Salt Water Clinic, where my FOI's that would expose this injustice are silenced and concealed from me
- The 'double agent' acknowledging my case at Mental Health Complaints Commissioner - who wa a lawyer who acted in defence of the hospital with a whole bank of lawyers which is a conspiracy to pervert the course of justice I have evidence of,
- My brutal treatment by police and the hospital
- Human rights abuses
- Coercive tactics whilst incarcerated by hospital management to silence legal evidence and whitewash me by threats of jail and huge fines
- Mistreatment
- Failure of duty of care
- Misdiagnosis many times
- Rejection of me as a person who has a sentience and worth
- Brutal systemic malicious victimisation
- Disability discrimination
- Illegal contraband allowed in the unit
- Refusal of medical care and medication - and unfairly rejected from three medical centres and one mental health unit and the hospital during me with no food squatting no money no car little hone and in great suffering

- Rejection of prescribed medications
- The severing of the relationship - and my 'care' from Salt Water Clinic in Footscray - (an arm of the hospital I made a complaint about that was silenced), who in five months or more as a psychiatric patient released to their care - rejected my medication - then took over three months for me to see me, then on the second netting-incredibly invited me in to kick me off the books when I am a psychiatric survivor legally under their watch and catchment area
- The fact it is impermissible to be found with no pulse after a 'Fatal' suicide attempt, (as the FOI says), and there be zero avenue for atonement litigation and my complaints have been silenced, as if I had zero worth
- Then victim blamed into being argumentative, gaslighted and blacklisted
- Provable that people institutions organisations framed by a broader movement to maim and shame me aid and abet my death before I receive any justice whatsoever and a conscious malicious and sustained systemic movement to destroy me, my evidence, my justice, my worth, reputation, life and Livelihood.

I am a psychiatric patient who is legally under their umbrella and within the catchment area of Salt Water Clinic to be treated and cared for as an extremely vulnerable person - yet I have been faced with utter victimisation and abandonment of duty of care / conspiracy to pervert the course of justice / aiding and abetting my own possible death through and via my own means whilst they watch on whilst I became unwell and destitute:

You need to consider this document then ask for the evidence the hospital issue is framed by

I know you said not to send more evidence, but this is crucial to my case regarding Weribee Mercy Hospital and the cover up of the human rights abuses there - and this malicious systemic and sustained cover up that aims to reject ostracise and neglect me, maiming me in all ways financially, with healthcare, and I can't put it any other way - hope for and aid and abet my my death by my own hand.

This is a systemic malicious and sustained conspiracy to pervert the course of justice.

I have all the evidence- I beg for you the agency to share it all with you.

It is not one, but two deaths, my own, by a thousand stonings.

This issue is but one fractal of a wider conspiracy to pervert the course of justice - in this document I explain why / how / what evidence I have (all of it) and how I have become not only famous in my former life, yet now infamous and now heinously whitewashed gaslighted rejected and brutally victimised, simply because I am vulnerable and stood up for myself and I am easily framed as a scapegoat.

I have inadvertently become the unwilling centre of a malicious conspiracy designed to maim and kill me and side with power and privilege before I get justice. But I am not dead. It is utterly essential you give me the opportunity, if you may please indulge me, of the evidence I have.

Because I can prove it.

Please I beg of you to indulge and validate this information and my evidence.

The Weribee Mercy Hospital complaint(s) (below) which you are investigating are utterly valid in their own right yet need to be considered framed by what has come before; a systemic sustained and malicious movement that victimises me ostracises me gaslights and rejects me and has robbed of all prosperity and is invested in my destruction and vilification.

This is illegal.

These crime(s) the Weribee Mercy Hospital are absolutely crimes in themselves, in effect a conspiracy to pervert the course of justice via gaslighting rejection and aiding and abetting my vilification victimisation and utter abandonment.

This 'movement' sides with money privilege lawyers and power - against a very nichely targeted me - a human rights campaigner and celebrated author and artist and national and international human rights awarded recovery advocate - with an evil intent to kick the can down the line until I am maimed and ruined.

I have been robbed of each and every opportunity to have my voice valued and heard and acknowledged for a long time with nothing more than my computer and fierce will, despite the grief and isolation that led to my first attempt at suicide framed by a cover up and malpractice and my illegal and inappropriate incarceration in which I was so heinously treated, I had published my research, was troubled neurologically by the cessation of my medication and stripping me of all identity and my dog, (the only thing I love), left for nearly four days alone in my home - which broke my heart and triggered me to write a suicide note (which they then confiscated and said was illegible), only to suicide with an agreed illegal contraband and the FOI I can provide describe it as a 'fatal' attempt in which I was found unresponsive with no pulse.

It is all framed by two important historical genesis points resulting in my blacklisting and my persecution, gaslighting and my battle.

This has seen me actively targeted by agencies in that I never ever gain justice - and indeed - that this movement has waited and waited with conscious calculated malice watching me become frail, maddened, crazy with paranoia, a **rational**paranoia, incarcerated against my will - hospitalised, then as good as dead, for a second time - only to be silenced.

It is illegal and abhorrent

Victimisation is a crime

Vilification is a crime

Human rights abuses have been systemic and malicious in their intelligent design

This movement frothed at the mouth for my demise and death before any hint of

justice; incredibly I have a disability - all I ever did was simply ask for help, and protest when it was not forthcoming or slightly present, for I had been labelled a madman and treated as one with stigma prejudice and shame.

It is **not** my shame to own though; it is to be owned by the wall of thousands of pawns as individuals, being paid money by hierarchical powers that be - to tow the party line and kick the can down the road robbing me of justice and prosperity.

This is systemic malicious conscious and sustained disability discrimination vilification and victimisation.

Simply because I complained.

From the local GP to the seasoned psychiatrist, public hospitals, agencies, law firms, leaders in the mental health community, CEO's, and family members, right up to MP's including a personalised redaction and rejection from the national health minister Greg Hunt, and the 'ombudsman' of the 'Government' he claims to represent.

These are the two genesis points

1. My former partner who worked for ASIO and the powers that protect him who swears to ruin my life - and has, and to this day I fear for my life's he continues to threaten me. His name is Steve Iasonidis. Look at his tax records for the last ten years and you will see - that he invested 1.3 million dollars in an offshore tax haven and was caught but because he worked for ASIO he was pardoned and the powers that be visible and invisible know of the crimes including being present at a murder drug trafficking and disability discrimination, taking advantage of me financially as a person with a disability, and escaping the relationship-leaving me homeless with his dying dog - whilst he 'escaped' with a million in super, investments, stocks, an inherited house, and more; yet he threatened me with putting me in jail due to standover tactics to do me into Centrelink, but they already know about this.

2. A by-chance-innocent and innocuous - 'recording' I made of a consolation with a GP Dr Whitaker of Millenium Medical clinic in Footscray a few years ago, who did not act on my suicidality - he acted with malpractice by giving me a fatal dose of opioids I then used to overdose on weeks later. That legal recording, and the transcript of that recording, like my death(s) have been covered up, whitewashed and my agency of prosperity and living simply that I may live destroyed.

After I did attempt suicide the first time, I moved house, and discovered the recording on my phone - it was only then then months later I complained reluctantly, going out of my way protecting him.

But the recording was silenced.

It is permissible in court and they are playing the long game until I go away and I am out of time - a methodology I have found common in human rights abuses and

litigations.

Now I am aware that the recording is permissible under sections of the surveillance act 1999 in a court of law if it has to do with litigation or my agency as a human being or my life or livelihood.

It is plain wrong that AHPRA and NHPOPC and the Police and IBAC and The Victorian Inspectorate and The Human rights Commission and The Office of the Public Advocate and SANE Australia and MP's persons of interest in public positions, and many many more - has a seasoned bank of biased lawyers when I have not had one single advocate not litigation nor help, in any way - battling this alone for years on end, which has ended up in my illegal incarceration and the destruction of my feelings of worth - I have battled too hard for too long.

The invisible faces have witnessed me become so distressed I became suicidal again.

They refused to intervene and waited.

The Office of the Chief psychiatrist knows my case and told me: 'you can't threaten to kill yourself every time you don't get what you want', (re: my recorded evidence).

Hence I am well known - and this is an abhorrent and vile victimisation and malicious abandonment of my very value as a human being by the highest office.

However the 'recording' and the 'transcript' of the Dr Whitaker recording, were whitewashed and onion layer by onion layer my disbelief grew as exponentially every person agency minus the police IBAC MP's even the national health Minister Greg Hunt gaslighted, ostracised and neglected me in effect silencing me

It was Dr Whitaker of Millennium Medical clinic in Footscray- he has lost his job, I am banned from that clinic and the next, I can't get a GP or psychiatrist - I don't have one - it is abhorrent.

I have only just discovered through FOI that his lawyer made the conclusion that I did this with malice and determination to extort money from him; which is highly offensive to me and blatantly incorrect. In that manner - that man maimed me in all ways and destroyed my reputation just for sticking up for myself in an ethical way that is legal and it is fair and just.

Indeed, I did my damndest to be acknowledged, and I went to extremities to protecting the GP in many ways- as the evidence will demonstrate.

This issue became the centrepiece of a systemic nation wide silencing and victimisation of my identity - gaslighting of my voice and my evidence, and a bastardisation of my reputation and destruction of my life.

My gut was saying... 'there is something very wrong', and the onion layers in an ever growing circle that acted in congruence to silence the easily framable gay mad drug

growing circle that acted in congruence to silence the easily identifiable gay man drug user had zero limits.

I in frustration simply tried to be heard, have value, and acknowledged. It was then I realised that this was a multi million dollar case - that there was too much at stake now - and I went ahead stunned by what I saw as a 'cover up' but for which people demonised me as 'paranoid'.

I publicly published the recording because I simply wondered how so many individuals organisations medical boards powers that be institutions organisations and other external agencies that investigate those entities could be on board with this? The systemic gaslighting drove me to isolation victimisation and vilification.

Simply if no crime was committed he would **welcome** the recording - or the transcription - to simply exonerate him from any wrongdoing?

Records will demonstrate I went out of my way to protect the GP, when he basically sent me to the gallows; a microcosm of the macrocosmic agents who were many important and all powerful who would maliciously follow and wait and watch as I struggled and struggled.

This framed my incarceration at Werribee where upon arrival my phone was confiscated - as I had become now used to documenting this obtuse oppression.

Onion layer out and out - until...I had been so public - the second suicide attempt in Werribee Mercy Hospital I was prepared to die a human rights campaigner for; because I knew I had published details the cover up - and people would retrospectively understand via the investigations and the coroners report that I was heinously mis-treated.

They vilified and victimised me so much - no one believed me - I was distressed and highly broken in all ways - the system had broken me - the years of struggle - of being shamed voiceless and silenced.

The gaslighting was and is driving me crazy - yet to that event of making public the personal in the hope of a treaty apology or acknowledgement - nothing has happened to me

I and have been burned terribly fighting for justice.

You know why nothing happened to me in litigation fines or the law?

Thats because I have done nothing wrong!

I have evidence now though that I am being set up.

An exemption to the surveillance act 1999 states in Victoria such evidence as that recording is permissible in a court of law or for or in defence of my life or framed by litigation.

The only thing I am guilty of is bravely ask for help, when I was profoundly suffering

The only thing I am guilty of is bravely ask for help, when I was profoundly suffering through grief, and profoundly suffering through a conspiracy of vilification and victimisation.

Mom only crime is sticking up for myself in my post death(s) life and remembering my dear departed friends, who were also victims of prejudice and stigma and shame - mere dead pawns in the way a society can be judged on the way it treats its most frail and vulnerable, utterly disgracefully.

Regarding the crimes and cover up at Werribee Mercy Hospital, Salt Water Clinic and the malicious plan to destroy me

Facts, Crimes, Accusations and Noteworthy Points

*(I have FOI's evidence and recordings and rejection emails and notes and recorded calls that are permissible in a court of law and show 100% undeniable evidence of my claims - this evidence utterly needs to be heard valued and acknowledged with this case, **before** you make a determination.*

*I **beg** you to indulge me in sharing all of this irrefutable evidence).*

1. I suicided in Werribee mercy hospital with an agreed illegal contraband and the hospital FOI says I was found unresponsive with 'no pulse' and that my injury was 'fatal.'
 - a. Failure of duty of care
 - b. Medical malpractice
 - c. Professional negligence
 - d. Victimisation
 - e. Denial of medication
 - f. Misdiagnosis
 - g. Abandonment of duty of care and allowing illegal contraband in the psychiatric unit
 - h. Not explaining rights at all or within reasonable timeframe
 - i. Confiscating my phone which is opposing my legal human right
 - j. Denying a lawyer
 - k. Denying an advocate
 - l. Intentionally ignoring my plea for 'second psychiatric opinion', which never came even though the FOI reveal they had it
 - m. Was diagnosed with Golden Staph - an issue of worth entirely on its own
 - n. Unethically dismissed from hospital with no money no food nowhere I could afford to pay rent no car and no money
 - o. Told on a piece of paper to follow up with salt Water Clinic who acted with malice - watched as I became unstable off my medication self medicating - and a psychiatrist saw me - someone who had just suicided - TWICE - once to deny me medication and label me psychotic when the hospital Dr stated otherwise and the second time - to exonerate me reject me from their duty of care (even if that is legal?)

1. Being illegally detained against my will and denied medication I had been on for over eight years which is simply unfathomable it could be decided as such via seasoned professionals - **and I have the psychiatrists names who did that through FOI**. This is malpractice, and mis-diagnosis, and I think, victimisation and piling on stigma simply because they were aware of the historical past.
2. Victimised and brutalised in my incarceration and also by the police and the CAT team - I have the recording when they came - I was simply at home with my dog having a cider protesting I did not need hospitalisation and it is ridiculous - but the police at CAT team returned - which I recorded because it was on my property and I told them I was - and the police brutally bullied me out of the house - they knew I had complained to Footscray Police before - that they covered it up - and then I complained to IBAC and many others with zero response. That recording I protested being in hospital and a fourth in charge nurse utilised the methodology of coercion - threatening me with a 40000 fine or jail if I did not remove it immediately - ask me for that evidence too.
3. Mis diagnosed and labelled 'psychotic' when in fact the discharge notes from treating psychiatrist Dr Lagrasso state I am absolutely **NOT 'psychotic'** or 'delusional' and that I am hyper aware of my world and that the '**conspiracy**' to maim me is absolutely real which was utterly unsurprising to me ...confirming my already held beliefs
4. Committed suicide with an **agreed 'illegal contraband'** - a vape pen after being brutally treated by Dr Sommer and my dog locked away for nearly four days with no care and it broke my heart. I told Dr Sommer if that was a child he would be in jail - and he quipped, 'it will be in the pound within two hours'. This was consciously malicious, framed by my near imbalance from rejection of my eight year long medication regime and being stripped of all identity and I BEGGED to show them evidence - they brutalised me, which then led sadly to my suicide and likely death.
5. When I decided I was leaving the planet and confused by lack of regular medication I looked for something sharp to pop my artery with after I wrote my suicide note, and I tried snapping the toilet brush for a sharp edge. It did not produce one...and I discovered an accidentally bought in vape in my pocket. This was the **illegal contraband** I utilised after this vile conspiracy and perverse victimisation that was so systemic and profound and sustained I was willing to die - because they had vilified and victimised me.
6. When I was resuscitated after being found 'with no observable pulse' and 'unresponsive' (ask me for the FOI), and moved to a new ward - the powers that be thought it appropriate to pack my things, confiscate my suicide note, but actually consciously pack the dirty used broken toilet brush into my bag with my clothes; and this symbolised the hatred for me and the disdain and malice that the institution and movement had on my person. It is and still is, brutal.
7. I was rejected from hospital (after two long weeks, and five different relocations), in **which I additionally contracted golden staph (another issue all together)**, with no food squatting no car no medication and no hope, (I had to fake I had money for an Uber), which is quite an astonishing way to treat a person who has literally killed themselves twelve days earlier. I was literally consciously abandoned. I thought this would be a game changer in my support, sadly the whitewashing and cover ups and malpractice worsened considerably, with malice and illegally

- with names, and money.
8. I was labelled and shown the door - with a phone number for follow up community care that I had to actively seek out - to **Salt Water Clinic** in footscray (an extension of Werribee mercy who I swore to take litigation to), where they further maliciously kicked the can down the road, denying medication, despite an ADHD diagnosis from a seasoned associate professor of psychiatry, utterly rejecting my FOI requests which holds true to this day - whereby the information commissioner has sent me a long letter with complex litigation about why my request for my FOI has been rejected. (Ask me for this - it is called FREEDOM OF INFORMATION for a reason - and the powers that be have silenced and rejected me).
 9. Salt Water Clinic are guilty of misdiagnosing me, and kicking the can down the road hoping I would actually suicide before I received compensation or justice, all the while aware that the danger period for suicide again was in the weeks following a suicide and hospital admission...and they waited. These were knowledgeable doctors and psychiatrists who were well aware of the risk I may actually die; yet they waited as I recklessly self medicated with amphetamines just to feel alive in the absence of my medication and recklessness, still they denied me my script...and waited as I became further unhinged towards imminent danger.
 10. It took THREE MONTHS and FOUR DAYS for me to actually come face to face with a psychiatrist overseeing my case - legally responsible for my welfare medication and psychiatric care which is heinous neglect for a psychiatric patient under their care who had recently 'fatally' killed themselves.
 11. The second time I came face to face with her and another therapist - they severed me from the service and in the same meeting labelled me 'psychotic'. This is abandonment of duty of care. It is medical malpractice. It is professional negligence. It is denying medication. All of this is illegal. Yet - the cover up had already occurred - they had silenced me, and gaslighted and rejected me. MHCC refuse to communicate with me, after the person representing my complaint I discovered was a double agent to protect the hospital (ask for this recording), as do AHPRA The Australian Medical Review Board, and many many others.
 12. In this way I have become systemically blacklisted.
 13. In the first meeting this easily identifiable psychiatrist promptly labelled me 'psychotic' after about seven minutes of meeting me in person - despite the Werribee mercy hospital psychiatrist confirming upon release I am neither 'delusional' nor 'psychotic' and in fact, a conspiracy to maim me in all ways especially financially and harm me exists - which prejudiced and victimised me and mis-diagnosed me. They were prejudiced towards me and aided and abetted my own death - (ask for the interview recording) and additionally that this psychiatrist towed the hospital line, by:
 14. Rejected my ADHD medication (dexamphetamine), which I need to survive and live a meaningful life with them full well knowing I was occasionally self medicating with street drugs just to feel alive after my other psychiatrist dumped me (More abandonment of care because he was aware of the Whitaker complaint), — and were guilty of aiding and abetting my unbalancing which they I think hoped would lead to my possible death, in the very least they displayed a profound desire to not treat me, reject and abandon me.
 15. The FOI from the hospital state I was found un responsive with no blood no pulse, and that it was a quote 'Fatal' attempt, surely this is a thing that cannot be brushed aside?

brushed aside:

16. I called the office of the Chief psychiatrist - she told me bluntly 'You can't threaten to kill yourself every time you do not get what you want', a heinous example of the hierarchies of abuse that people in high positions have, (ask for that recording too),
17. In addition the hospital stole my suicide note - said it was illegible but there it was in the FOI notes scanned and documented - that was very sacred and important to me - it was the last statement I would have made in this world had I been successful. It saddens me so much.
18. The FOI document from mercy Hospital was heavily redacted pending further investigation which never came, and the FOI from the clinic never came despite me asking time and time again - and the information commissioner 'planning to investigate' IF my own information under the law would be released with them acutely and consciously aware I need to make my litigation against this complex web quick, or I will lose my change with legal time limits. Like many, I accused the person of conspiracy to pervert the course of justice a ten year jail term that this is serious and if they do not want to be identified as that pawn, then to hand ball it to their boss. Clever people who know the case and the law have been disappearing and hand balling it to management here there and everywhere.

1. The hospital have refused all communication from the time I left hospital, phone calls, letters, emails. Blacklisted, hoping I'll go away and die. It is simply unjust and unethical.
2. The hospital put me in touch with the health complaints Commissioner for conciliation when I requested my FOI **they requested I go there for a conciliation** - but they downright rejected me (ask for evidence).
3. The complaint was with the MHCC, (however they had rejected the previous cases I bought before them that my poor memory had forgotten about), (The Whittaker and Cooper cases for starters),
4. MHCC are guilty in covering up this criminality and whitewashing my complaint - I have all the evidence.
5. They are complicit in a conspiracy to pervert the course of justice. The person 'advocating' for my case Ms Alex Tinter admitted to me in a recording of being a lawyer, she said she had received my response from the hospital and I was eager to see if I had been acknowledged - yet she **refused to send it to me outright, saying it had to go before...you guessed it...a bank of lawyers...** and I threatened her with ten years in jail. She handed the issue to her boss and promptly disappeared, knowing her own evil and she had conspired in this maiming.

1. I had only seen a psychiatrist one single time at salt water, (odd for a profoundly distressing suicide survivor), so they were complicit in my blanket rejection verging on their death wish for me, in defence of Mercy hospital - of which salt water clinic was the tentacle of, obviously the word had come from the top. It rests with the psychiatrists at Weribbee Mercy and Salt Water Clinic and the people that head those agencies.
2. Salt water Clinic in late July 2021, have unbelievably 'discharged' me from their support service
3. Two weeks previously I begged for mercy for assistance and legally I fall under

their catchment as a person with a psychiatric disability who they are legally obliged help by them as I am now on a DSP have a diagnosable DSM and within their catchment area

4. This is so much more than malpractice or negligence. It may as well be potential conspiracy to manslaughter.

Various crimes have been committed here:

1. Brutal abandonment of duty of care by Mercy Hospital and Salt Water Clinic by individuals I can name: ask me who they are I have evidence.
2. Medical malpractice and professional negligence of many professionals (I have all the names and proof please ask),
3. Victimisation and vilification framed by a wider conspiracy by CAT team, systemically by police, by heinously ruining my reputation simply because I stood up for a human rights issue, (Please ask for evidence as this is all linked)
4. Abandonment of duty of care by various psychiatrists, GP's, psychologists, Mercy hospital and saltwater Clinic, (I have been banned from two GP clinics and Salt water Clinic despite begging for help-ask me for evidence I have letters of rejection and recordings where they abandoned me officially despite my please for help),
5. Illegal contraband used as a tool for suicide in the hospital which is illegal, a su-able offence, (ask me for the evidence)
6. Outright Mis-diagnosis by many despite ample evidence to the contrary,
7. A malicious systemic conspiracy to silence me and pervert the course of justice (ask for the people institutions organisations places of complaint lawyers and advocates / police / agencies I have every shred of evidence that identifies them),

1. This incredibly includes various MP's and heads of CEO's national mental health organisations,
2. Incredibly I was threatened with jail to remove a recording I made on my property with permission of the crisis assessment team and the police by a 4IC nurse at Weribee mercy (Ask me for this evidence/recording),
3. Failure to state patients rights to me within a reasonable time period which maliciously and consciously stripped me of legal privilege or any support,
4. Failure to put me in contact with a sustainable advocate
5. Rejection of my request for a second psychiatric opinion, even though my request is in plain sight in the FOI, even though the second I got to hospital I filled out the form - but it was never sent,
6. Failure of duty of care to follow up with me in the community when I left hospital essentially abandoning me to potential death and definite vagrancy,
7. A movement to protect the hospital from litigation from myself and a systemic cover up of my near fatal suicide by not only mercy Hospital but ostracised and rejected by Salt water Clinic, The HCC and a cover up by the MHCC with dual agents protecting money privilege and power, (ask me for all this evidence),
8. A conspiracy to pervert the course of justice by the head of MHH and MHCC especially Ms Alex Tinter and who was recorded admitting she was a lawyer and was a double agent working in defence of the hospital
9. Sure and sure enough - the result was from this entire incident at Werribee mercy and Salt Water Clinic - that there is no result.

10. They now refuse to acknowledge me.
11. Conspiracy to pervert the course of justice by so so many including management of the MHCC and salt water clinic and the information commissioner and the police and the FOI people and more,
12. Confiscation of a communication device of my phone whilst in hospital (Illegal)
13. Failure to appoint a lawyer and a systemic conspiracy that I cannot find one despite this enormous human rights abuse and victimisation, (ask me for recordings from all major lawyers that take me on board, then mine my information, they are recorded either in email or usually on the phone saying despite the extraordinary injustices and crimes that cannot help),
14. Conspiracy to prevent me from attaining a lawyer
15. Being set up to go to a lawyer and then being rejected in person, same with AHPRA, the Price, and Salt Water Clinic
16. The fact I simply cannot make a statement to police about rape murder suicide and my former partners crimes as he is protected by ASIO and my name is blacklisted - I have this evidence.
17. This all stems from the historical 'reputation' i have from the Whittaker and Cooper case, and of my former partners tax evasion crimes, after he sold a house in Abbotsford that he made from dealing cocaine, invested the money in an offshore tax haven and was caught by ASIO where he was a project manager and business analyst - and that ASIO granted him a slap on the wrist
18. - that he admitted he was present at a murder and additionally guilty of drug trafficking and also disability discrimination via coercive control in a 5-year relationship (we were engaged), in which he extorted money from a vulnerable person even though he had a million + in super and was on 300K a year, stole my car via threatening a hitman, left me homeless after I exhausted my nest egg on him, then threatened a hit man on me,
19. Been inequitable unbalanced malicious in its victimisation ie: I have begged for legal assistance and tried every avenue for justice but every auspice and organisation has a faceless panel of litigation teams acting in opposition to me, they are banking on that I am poor and homeless and cannot afford a lawyer, and I have been systemically and consistently rejected by many law firms, who are 'already across' this case, before I get there, (ask for evidence please), and has resulted in:
 - My persecution and police brutality
 - Illegal incarceration
 - Coersion and threats of large sums of money I would be fined and also threatening jail time
 - My death not once but twice
 - The destruction of my rights and avenues for justice
 - My voice within a democracy rejected and rendered innocuous and victimised as 'insane' with prejudice and stigma and persecution
 - The rejection of my value as a citizen in a democratic society and
 - Rejection of my whistleblower status
 - My reputation - when all did was bravely and simply ask for help
 - I was actually threatened whilst in hospital by the 4th in charge nurse - with a huge fine and jail time - extraordinary (ask for this evidence)

Ben - you are the Vic ombudsman whom have already thrice rejected me and I had to

fight tooth and nail to get it this far before you.

Why? Because I am poor, I am stigmatised and prejudiced against and I they have a death wish on me-they were hoping I'd be gone by now.

But I have had a gut full, and if you refuse to act for justice as a peak body, or again exclaim the line I have heard so so many times, **'it is outside the area of our expertise' or 'we don't have authority to investigate that body'** then I will assume you to be a part of the problem.

Of all the places I wanted my voce to be heard - you are the last man standing.

Please do not be complicit in these crimes, and tow the party line that favours those with money and power as opposed to a victimised hated infamous sentient being - who deserves a meaningful life.

I deserve a life free from victimisation, with a psychologist and psychiatrist and with respect not just for the enormous amount of work I have achieved via altruism to help other - but simply because I am sentient.

My deaths, see me live in an existential 'post death' survivors guilt, I am now on drugs, (it became an issue after I assessed the worthlessness of my life, the people that hate me, and the rejection of my necessary medication), and homeless, yet fiercely resilient and outstanding lucky even to type this.

For love and justice sake don't join the mechanisms that protect criminals and money power and privilege, over the rights and voice of a human rights awarded celebrated human rights awarded advocate - who gave twenty years of my life in virtual altruism to help others, and I have been victimised and silenced - simply because I asked for help - then stood up for myself when none came.

I have been:

- Marginalised
- Lost my reputation
- Lost my job through incarceration
- Been brutally rejected my own childhood sexual abuse case after three years fight by a magistrate who told me 'I was doomed',
- Conspired against
- Disrespected
- Silenced
- Scapegoated
- Inequitably opposed with thousands of people and banks of lawyers
- Deceived
- Ignored
- Whitewashed
- Reduced to nothing
- Had death wished upon me (and given the way to do it),
- Treated heinously
- Abandoned
- Reputation ruined

- Hit men threatened on me
- People bading for my blood despite my enormous resilience
- Devalued as a human being

Now I need your help Ben

I have been fiercely and unbelievably battling at war with a brutal wall of silence and an actual movement to discredit and maim me in financial and all ways and yes it renders the evil shape of the intelligent design to destroy and even even kill me.

Thats a fact.

I can't believe this.

I have a doctorate, a human rights award, I have spoken from Dubbo to parliament House to Montreal Warnambool, all the radio and TV programs, I don't know why this is happening to me...

I can't believe I am still sticking up for myself in this way whilst squatting.

There must be an individual or just person or place or organisation to ledger this injustice and expose it

I may die.

I need help and whistleblower protections

Or they will kill me

I wish to add I have attempts to tell all this to police - including rape and that I know my former partner admitted being present at a murder and defrauded the Government of millions in tax evasion ...

But they know who I am - they know my partner who worked for ASIO - look him up - Steve Iasonidis - look at his tax records for the last the years, there simply must be a paper trail...

...and I cannot go to the police, because they reject me outright. (Ask for this recording please).

I can't complain to the people that investigate the police - IBAC - I already have to no avail. The federal police have blocked my ISP = my computer is also hacked, ask me for the evidence. I live at a high level of infamy and worthlessness to them - yet every day I value myself and my luck of plain survival - yet the Venn diagram of what could possibly be real and what could possibly be my imagination grows wider and wider - for they desire to replicate the already well published tales of my paranoia because it suits the narcissists tone of identifying ME as the crazy one

says the narcissists love it identifying ME as the crazy one.

I am not paranoid, I know exactly what is happening.

They all want me to die. I have death threats on my person. I live in fear.

This elaborate maiming I have concrete undeniable evidence of I beg you to consider renders an evil that wants my destruction and death.

Yet - Ive done nothing wrong, except ask for help as a vulnerable person - and with furious yet fallible sturdiness advocated for my human rights my dignity and my worth and simply to have value and be valued.

I am also being counter 'framed' and set up - ask me for the evidence.

I am sick, ill, tired, addicted and hungry.

It is my wish to be heard and valued as a sentience and sentient being; who has worth.

I am doubtful my reputation is salvageable - but justice is, and so is exposing the horrible truth of this victimisation and vilification.

The powers that be are scared, because once one domino falls, the entire system collapses systemically.

They count on YOU to tow that party line of silencing me, and not push that domino. I beg that you be a voice of compassion and hope, for me, people like me, for the sexually abused that were never heard out didn't get justice (ask me about my brutal rejection from the magistrate), or died, a victim of neglect, like many of my friends... and I summon the courage in my post death life to fight in their memory.

Basically:

- I need your help - so please indulge ALL my evidence that the Weribee mercy and salt water clinic issue(s) are framed by-please do not make a ruling about this niche issue without viewing and listening and witnessing the whole picture.
- One of two things is possible in that I am sick and I need desperate help or I am not sick and I need desperate help, any less is intolerable and either demands justice.
- I am in fear for my life
- I have not got a cent
- I am very nearly homeless
- I am watched baited set up being set up (ask for proof) and hacked (ask for proof)
- If you decide with your actions and determinations to render me feeling voiceless persecuted ostracised and forgotten as less than having any value or worth again as the last conceivable step towards some form of atonement for this vicious movement that bades for my blood in order to give them a chance to cleanse and exonerate their collective sins, then

- I fear that my frail sensibilities will not cope,
- Yet despite my fierce yet observably fallible resilience...
- Just by typing this - I won.
- *And I will publish it. With every complicit person, and their role, as I am making a list.*
- *There are thousands of pawns being paid by systemic institutions to tow the party line to oppress me.*
- I know who I am and what I am - and I like who I've become - and because I have nothing - I have no attachment - and it sets me free.
- Lastly before you think this is about grave digging extortion or money in one dimension, I remind you that whilst doing my PhD I was given \$100,000 by my former landlord who acknowledged my plight and my advocacy in light of my former partner cheating on me and leaving me for dead in mental health advocacy.
- He said the donation was a mistake, so-i gave it back, and the only thing I bought was some Tibetan prayer flags and two t-shirts off RedBubble from independent artists... Like that I was broke again but content in my decision and ethical belief. Yet later on I reached out and he assisted me to purchase the computer I completed my doctorate on, and with which I write this very letter.

The Ombudsman may indeed fail justice ...yet no one - no one - can take my soul.

...but Ben I ask kindly that you acknowledge me and investigate this thoroughly. Its illegal and abhorrent what has happened.

I have lost everything.

I am a sentient being who deserves to be heard.
I have value.

I'll leave you with a quote: *'Madness in individuals is rare, but in society - it is the norm.'*

Sincerely,

Dr Rich McLean

PS It is impossible to acknowledge a hologram picture via a shard of its fractal; one must view and acknowledge the many shattered pieces in order to understand just one shattered fractal unit with any certainty.

I beg of you to listen to and acknowledge the mountains of evidence I have that is legal permissible and indeed actual often official rejections and recorded telephone calls that render the awful shape of the movement I have been burdened

with.

I beg you to indulge me in that.

unfinished from here on in but essential that you read

ASK ME ABOUT UTTERLY UNDENIABLE EVIDENCE I WILL PROVIDE LISTED BELOW AND HAVE IN MY POSSESSION = YOU ARE LEGALLY OBLIGED TO VIEW AND REFERENCE REGARDING:

ALL THE EVIDENCE LISTED BELOW EXPOSING SYSTEMIC VICTIMISATION AND CONSPIRACY TO PEVERT THE COURSE OF JUSTICE IN:

ISSUES RELATING TO MY 100% PROVABLE CLAIMS ABOVE IN IRREFUTABLE AND UNQUESTIONABLE SOLID DETAIL THAT CONSIST OF:

- EMAILS
- RECORDINGS (PERMISSABLE IN VIC NOW I KNOW VIA SURVEILLANCE LEGISLATION 1999 FOR LITIGATION PURPOSES
- OFFICIAL DOCUMENTATION including_
- FOI's and
- OFFICIAL RESPONSES FROM INSTITUTIONS ORGANISATIONS AND AGENCIES that are
- SYSTEMIC CONTROLLED AND CONSCIOUSLY ACTIVE MALICIOUS REJECTIONS OF JUSTICE

ALL THIS WAS INTELLIGENTLY DESIGNED TO MAIM ME IN FINANCIAL AND EVERY CONCEIVABLE WAY

that has resulted in:

- MY DESTITUTION
- LOSS OF INCOME
- LOSS OF INSURANCE
- LOSS OF PUBLIC AGENCIES SUPPORT, indeed, THEIR MALICIOUS STALLING TACTICS
- LOSS OF GOVERNMENT SUPPORT
- BLACKMAILING
- I WAS RAPED

MY COERCIVE CONTROL AND SURVEILLANCE BY ASIO AND

- MY COERCIVE CONTROL AND SURVEILLANCE BY ASIO AND BEYOND
- BEING HACKED OPN MY PERSONAL COMPUTER
- BEING SET UP
- BEING SET UP TO FAIL
- PUBLICLY HUMILIATED ON NATIONAL TV
- MY POVERTY and SQUATTING
- LOSS OF REPUTATION
- VICTIMISATION
- DISCRIMINATION
- MY HUMAN RIGHTS ASSAULTED
- HOSPITALISATIONS
- MY RATIONAL PARANOIA THAT THIS MOVEMENT ACTIVELY AMPLIFIED
- VILIFICATION OF REPUTATION PUBLICLY AND PRIVATELY
- HARASSED
- REJECTED BY FAMILY AND FRIENDS
- HIT MEN THREATENED ONTO ME
- IN FEAR FOR MY LIFE
- MY SELF MEDICATION & ADDICTION(S) TO COPE
- MY DEATH(S) AT LEAST TWICE (RECORDED)
- VICTIM BLAMING
- ETHICAL INJUSTICE ON A GRAND SCALE
- A CONSPIRACY TO MAIM AND KILL ME WITH NEGLECT

...adding up to:

A MALICIOUS SYSTEMIC CONSPIRACY that is UTTERLY BRUTAL IN ITS PERSECUTION and WAS SUSTAINED OVER YEARS INTELLIGENTLY DESIGNED AND THOUSANDS OF 'PAWNS' INCLUDING NOTABLE PEOPLE WATCHED ON AS I EXPRESSED MY WORTH AND FUTHER OFTEN THE WILL TO DIE AND REMAINED SILENT AS THEY SUBLIMINALLY HOPED AIDED AND ABETTED MY DEATH(S) BEFORE JUSTICE WAS HEARD OR I WAS GIFTED THE SLIGHTEST VALIDATION OR VALUE AS A HUMAN SENTIENCE

...it was dealt by:

- FORMER PARTNER
- PLACES OF EMPLOYMENT
- SADLY MY FAMILY
- GOVERNMENT AGENCIES
- THE MEDIA
- MENTAL HEALTH ORGANISATIONS including CEOs
- MP's
- THE OMBUDSMAN
- THE POLICE
- INDEPENDANT BODIES SUPPOSING JUSTICE
- HOSPITALS WHERE YOU ARE MEANT TO GO TO HEAL with their

- DRS PSYCHOLOGISTS AND PSYCHIATRISTS
- OTHER ORGANISATIONS THAT ARE COMMISSIONS OF PUBLIC COMPLAINT
- INSTITUTIONS
- AGENCIES
- MAGISTRATES
- LAWYERS

IT ROBBED ME OF:

- ULTIMATELY THE WILL TO LIVE RESULTING IN AT LEAST TWO SUICIDE(S) THAT ARE RECORDED (ONE WAS IN A PUBLIC HOSPITAL THEN COVERED UP)
- MY MEDICAL TREATMENT
- MY RIGHTFUL MEDICATION
- REJECTION OF A PSYCHIATRIST / PSYCHOLOGIST
- MY HUMAN RIGHTS
- BLACKLISTED FROM EVERY POSSIBLE ACCESS POINT
- MY ABILITY TO COMPLAIN IN A DEMOCRACY
- ANY LITIGATION AVENUES WHATSOEVER
- BEING A WHISTLEBLOWER IN MY OWN DEMOCRACY FOR PROTECTION
- DROVE ME CRAZY WITH SYSTEMIC SUSTAINED NARCISSISTIC GASLIGHTING
- MY HOME
- MY FAMILY
- MY FRIENDS

The pre-history evidence

CURRENT STANDOVER TACTICS

One agency overseeing my multi million dollar complaints process has threatened to drop all my cases unless I got an advocate.

The determinations of this agency would have saved me from vagrancy and an easy end to me being bereft of a cent that in addition to my work psychological injury and my own childhood sexual abuse VOCAT case that was brutally rejected by the magistrate - would have prevented my homelessness and extreme financial distress that ended up in my unplanned suicide in hospital.

My former partner has a hit man threatened on me and he has threatened me recently. He said in no uncertain terms that if I went after any of his superannuation, in a just and legally fitting separation from our 5 + year relationship he would send me to jail.

He was financially abusive emotionally abusive and was powerful in his narcissistic coercive control over five years - that he would dob me in to Centrelink for continuing to receive the DSP while we were together.

I have evidence I opposed this - and evidence we had joint bank accounts too - and I have told Centrelink - to do myself in before he further controls me.

He insisted I still get because legally we could not marry (Thank God!) Now Centrelink actually know, he has no agency to dictate my lack of action to regain the nest egg I had at the start of our relationship, whilst I was on a pension, and he was on over 300K a year working for ASIO having committed tax fraud of 1.2 million dollars from the sale of a home that he bought drug trafficking. ASIO slapped him with a fine, saving their own, and he was exonerated. (Go on- check his tax records of the past ten years! There surely is a paper trail!)

AFSA refuse to identify themselves to me and refuse to say their investigative powers

Weribee mercy hospital have rejected me

IHMA have reject ted me

I am blacklisted by AHPRA and NHPOPC

I can't report rape or murder to the police

The federal police have blocked me from emailing them

The AHRC hand balled a determination to a superannuation company who discriminated against me

My insurer refused to pay my info me protection

ComCare have outright rejected my workers compensation claim which is right and just and

The NDIA are at odds with their own website's details as well as Comcare when they clearly state that I am insured by Comcare and are a worker and employee and have a contract etc

The banks refuse to make a determination on some financial issues

The VHEOC have outright refused to acknowledge my extensive complaint and have also blacklisted me

I have been banned from two medical clinics - simply for filing a complaint

I have been marred by the MHCC who have told me they will no longer respond to my emails after 'the investigation' that found d Mercy hospital did nothing wrong

I have been set up by lawyers, followed, hacked, and systemically abused and tricked into providing my information to people

IBAC have refused to investigate anything on my behalf

Various MP's who will be named have ignored me outright

CEO's of mental health organisations who will be named have held the flame for those impositions of power and privilege - personally advocating that I forget everything

When I worked - case managers were told they had been contacted by the NDIS and that it was illegal to charge the rate the NDIA set and refused to pay me stating I was only suited to 'peer support'

Plan partners - who are my NDIS agents had refused to compensate me for my website expenses - knowing full well I was next to homelessness and that I would lose my life work on the servers, my music, my art, my means of income, and my personal email

The Victorian inspectorate acknowledge I know about a death, but it is 'outside the realm of what they investigate'

The AHRC also know about heinous crimes, human rights abuses rape and murder, and they wrote to me identifying such then said that (for a HUMAN RIGHTS organisation), it is 'outside' what they do

Te information Commissioner has rejected my insistence on releasing my FOI's, again ignored and blacklisted

Even though two suicides of mine were officially documented - under hippocratic oaths - that no one has taken responsibility - and that this cover up has maimed me in every way possible - that Centrelink despite some psychiatrists definitions of illnesses and my obvious distress, kicked me off the DSP and conspired to put me on JobSeeker (Which they did!) And when I appealed they kicked the can down the road to manifest a life bereft of finances and food

Regarding Dr Whitaker and the cover up:

The original innocuous recording I made clearly exposing malpractice
My FOI from the clinic stating

I was often suicidal
The many medications I was on
The complex distressing issues that Dr Whitaker knew about me which should have rang alarm bells
Why it is Legal to hear it and value it regarding the Surveillance Act 1999
That AHPRA's 'in house' legal team were biased towards silencing the recording and were all internal and this was inequitable and unfair and unjust
The FOI from AHPRA was heavily redacted - it is my right to know my own business
The fact I tried to get a lawyer yet were rejected time and time again
That the HCC rejected me yet agreed to conciliation - that's before the recording was even known about
That the HCC gaslighted me
That Dr Whitakers Lawyer stated that I made this recording on purpose to extort money and AHPRA refused to reject that motion or idea and I recently discovered that through FOI
That I defended Dr Whitaker saying conciliation was the best way and I did not want to get him in any trouble
That I begged for conciliation and offered timelines to do so
That I got angry and told his lawyer 'how hard do you want me to squeeze your balls', resulting in this fierce power play that has maimed me
The suicide note from the overdose mentioning the child sexual abuse and Dr Whitaker and my own mother not validating it even happened
Two stat decs from friends at the time that detail my distress
A list of reasons why I should die or be better off dead I wrote and read to friends
That I said I would not make a complaint to AHPRA unless he is insured because I feared reprisal for him
That AHPRA asked what I wanted in the conciliation and I said to be heard - and AHPRA after over a year invited me in to reject me in person - yet had a woman there 'crying' crocodile tears which I was paranoid was an actor
AHPRA refused to speak when recorded
That AHPRA have gaslighted and blacklisted me from calling
AHPRA refused hundreds of emails and calls
That Dr Whitakers lawyer threatened AHPRA in telling them not to utilise a transcript of the recording - making the complaint and entire conspiracy based on nothing
That I have been now banned from the clinic
That the clinics owner upon my line of questioning told me to never contact them again
That dr Whitaker had no registered ABN
That a person from AHPRA rejected this observation
That Dr Whitaker was not registered at AHPRA then when I identified this to them, suddenly he was
That Dr Whitaker left 'suddenly'
That Dr Whitaker lost his job over this - which I absolutely did not want to happen as per the evidence

Police:

Violent affray

Former partner

Childhood sexual abuse

Yarraville medical centre and dr Cooper

My Incarceration

Weribbee mercy Hospital and HCC and MHCC

HCF

Work Cover and ComSure

Plan Partners

Evidence I am hacked
