Re: Personal reference for Dr Richard McLean

I have known Dr. McLean as a colleague for almost 20 years. I introduced myself to him after reading his first book. When we met, he was fulltime artist; since that time he has completed a PhD at Victoria University and has worked as an Art Therapist. His creative works have enhanced our research and teaching programs at The University of Melbourne.

I can vouch for Dr. McLean's exceptional creative talent, energy, intelligence and decency. He has experienced considerable adversity in his life and shows remarkable resilience in pursuing his goals. He is a generous and credible person who I am grateful to know. I would be happy to speak to any person requiring a live reference.

Sincerely,

Associate Professor Bridget Hamilton
The University of Melbourne
