Daniel Wilson said this about a [change.org](https://www.change.org/p/gang-stalking-for-the-ahrc) petition on gang stalking for the AHRC:

I am a human rights defender here in Australia and I support this petition. I also own my own law firm called Reputation Restore Lawyers (www.RPR5.sydney). I would like to know more about these concepts and become more organised against such injustice especially before it gets too late.

This is the human rights petition at [change.org](https://www.change.org/p/gang-stalking-for-the-ahrc) by Started by [Luke Shulver](#)

Gangstalking is an all encompassing term often used to describe Community Based Harassment Campaigns and numerous forms of harassment techniques (listed below), and is a global issue; often targeting minority groups, the unemployed, and strategic members of society.

While the objective of these campaigns is kept from victims and they are actively misdirected, the tactics can escalate to extreme levels and can result in victims attempting to escape through suicide. Almost uniformly victims are driven into isolation from all social activities, they are systematically discredited, their standing in the community is destroyed, relationships and careers are decimated, and financial resources depleted leaving victims without the financial resources or the capacity to fight. The problem appears to be ignored by police and officials given the difficulty in proving harassment across a large number of people and the nature of the crimes utilising sophisticated technology and psychological techniques. As it does not target any one race, gender, sexuality, religion, or other government protected group, the abuse falls through the cracks of all existing support structures.

I urge the Australian Human Rights Commission to urgently investigate this crime as it infringes on numerous items listed in the Universal Declaration of Human Rights of which Australia is a signatory, particularly:

Article 3 - the right to life, liberty, and personal security,

Article 5 - Freedom from Torture and Degrading Treatment

Article 12 - Freedom from Interference with Privacy, Family, Home and Correspondence

Article 24 - Right to Rest and Leisure

But there is an argument to be made that many more of these basic human rights are infringed due to results from public harassment/intimidation, loss of job, confidence, credibility, and community standing and that the Australian Human Rights Commission is in direct violation of these principles.

Please act now before more lives are lost or destroyed with an immediate investigation and public awareness campaign, and ultimately the introduction of new laws to protect victims from this "perfect crime". This abuse will come to light and its time to act and be on the right side of history.

While the list of tactics below is by no means complete, the information below is intended to describe what victims (also known as Targeted Individuals) are forced to endure to assist people viewing this petition and put context to the devastating impact on victims lives.

Gangstalking is also known as Zersetzung - a German word that literally means deconstruction and was a psychological war tactic used to discredit and disable political activists or perceived threats. The techniques are reportedly used by numerous extreme organisations such as The Church of Scientology, Mormons, and even the US Government in the CointelPro period. The techniques are well known, well established, and highly effective. This petition is not claiming any of those groups are the perpetrators of this crime, but mention them as an example where the techniques have been used to great effect and have been reported by former members and should be well known to the Australian Human Rights Commission.

The author of this petition is a current victim of this crime and can personally testify to each of the techniques listed and has made a personal appeal to the Australian Human Rights Commission who indicated it was not in their purview to investigate. This needs to change.

Please sign and support and help ensure this happens.

Harassment techniques include:

- Surveillance (being followed, electronic surveillance, computer and phone hacking, monitoring all online activities, and bugging of home)
- Profiles are built to identify any and all weaknesses and insecurities to be used later. Information often obtained through sexual partners or trusted

people in their lives.

- Conditioning where victims are sensitised to certain stimuli such as everywhere you go someone will cough as they walk past you. The goal is to make you self police and then think anyone who coughs is involved in the harassment. People report of conditioning to include hand gestures, an overt use of colour in peoples clothing (like everyone you see wearing red) or cars a certain colour or with headlights on (also known as brighting).
- Anchoring where someone will provide false rationales for the harassment. Often many possible rationales are planted to keep the victim confused and the focus of the harassment cycles from one possible reason to another round and around so as to keep the victim guessing in a self perpetuating guessing game where every scenario you are to blame and causes self doubt, fear, intimidation, and ultimately a cycle of destructive thoughts
- Mobbing (or true gangstalking) where everywhere you go you will see an overt display of people following you and often use words you have been conditioned to or your name to draw your attention
- Street theatre where a group will "perform" an overt activity like a fake confrontation or scenarios designed to test your reactions. Often takes the form of a couple who position themselves near you and then have a conversation using many of your conditioned words or pertaining to your particular situation and sensitivities.
- The use of directional speakers which have the ability to direct sound to a single individual in a crowded room. This particular item is ultimately the most used and is often referred to as V2K or Voice to Skull and is used extensively in the psychological breakdown of the victim. The use initially is to cause the victim to doubt their sanity and drive them into the mental health system, and later to just torment and never give the victim a moment of privacy or peace. If they do enter the mental health system, then harassment escalates dramatically as the victim has now been "discredited" and can be labeled as someone with a mental problem if they do speak out about the harassment.
- The use of electronics to effect your eyesight and balance which was originally developed for the military and police crowd control called "dazzling" and even the ability to make you vomit.
- Sound campaigns which is a community harassment technique where abnormal levels of sound are directed at the victim and their home. This includes cars deliberately breaking or accelerating when they pass, people talking excessively loudly at all hours of the night, amplification of sound using directional speakers so that external sounds that previously couldnt be heard now can, garbage trucks and other heavy vehicles, and countless other deliberate tactics
- Sleep deprivation - this is perhaps one of the most insidious tactics used where victims are woken multiple times a night and can be kept awake for days at a time. The effects are dramatic and completely debilitating effecting concentration, mood, irritability, appearance, and significantly impacts all areas of their life - job performance, relationships, and significantly aids in discrediting the victim as they appear unorganised, disheveled, and sleeping

patterns alter so they may sleep during the day (where noise campaigns are more effective) and be awake at night (where they can be painted as the one making noise and being a disruptive member of the community).

- Baiting or entrapment where victims are harassed to the point that they lash out and commit a crime such as assault, break and enter or vandalism, as they try and locate the source of the harassment. Harassers will actively try to provoke verbal and physical confrontations especially after a period of sleep deprivation. Or they are prompted into an activity which can then be used as leverage such as affairs, sexuality, drug use, or other criminal activity.

- Gaslighting which is a form of psychological abuse where someone will actively try undermine victims and to make them doubt themselves so that they lose all self confidence and self esteem and are therefore easier to manipulate and push toward the mental health pathway. It can be as simple as being told something which they then deny, then telling them how silly they are for thinking they said it, and turn the lie around into an attack on the person. It can be incredibly effective coming from a trusted person and before the victim understands what is happening to them.

- Blackbag jobs is a term when a harasser breaks into a victim's property and places something or deliberately moves something. The purpose is to cause self doubt, and fear that their property is being accessed which harassers try to then sell as paranoia.

- Propaganda and disinformation is also the other key element to suppress knowledge of this practice as its effectiveness initially requires the victim to be unaware of the existence of gangstalking, gaslighting, or the electronic technologies such as directional speakers so huge amounts of time are devoted online to creating disinformation sites which attempt to discredit victims by pushing the mental health agenda. They achieve this by posing as victims and actively trying to sound crazy so that all victims are treated as such. Also by creating websites claiming to help victims and being a resource for victims to come together and then harassing them to the extent that they lose hope and no longer reach out for help causing further isolation.

- Further to the above, gangstalkers rely on disbelief and discrediting and as such much of the harassment is designed (at least initially) to mimic mental health issues. They also rely on their abuse being so extreme, so pervasive, so fundamentally immoral, as to be disbelieved and victims subsequently resort to photographing, videotaping, and sound recording their everyday encounters to disprove the countless unfounded claims made against them - especially in relation to gaslighting, which gangstalkers try to turn around and paint the victims as paranoid or irrational. Victims are made to feel helpless as every attempt to defend themselves is used against them and when they seek help they are met with disbelief or open hostility.

Daniel Wilson, Australia 4 years ago

This is my speech:

If I've suffered a fatal injury from deceit, lies, conspiracy, vilification, and isolation due to my mental illness, and due to financial abuse and coercive financial control by my former partner—resulting in a fatal injury from which I was revived—yet I've lived for four years in unstable accommodation with no human rights, no legal rights, often begging for food, with no voice, and my evidence delegitimized by every government agency, politician, public official, friend, and family member, does that imply my fatal injury was actually a murder?

I asked an impartial chat AI, and it's a deeply distressing situation you're describing. The circumstances surrounding your injury and subsequent treatment certainly raise questions about the nature of the harm inflicted upon you. Whether it qualifies as murder would depend on various legal and investigatory factors, including intent and causation. It may be worth seeking legal counsel or advocacy to explore your options and seek justice for the harm you've experienced.

I continue: My persecution carries a snide deceit from the genesis of flawed human judgment. Typically, I am a happy person, but I've been forced into an impossible situation where I don't have a single person in the world I can call right now. Despite standing up for people for 30 years, speaking in the Australian Parliament, and across the country, winning a Human Rights Award, authoring an autobiography on my experience with schizophrenia, traveling the world, and earning a doctorate, I now find myself utterly forsaken.

This malice, systemic and politicized neglect, and character assassination driven by my former partner, an ASIO agent, and the weaponization of my narrative—where I was humiliated by the Herald Sun—have left me suffering from mental illness, calling out a conspiracy that is real, persecuting, isolating, vilifying, victimizing, following, investigating, surveilling, and literally torturing me. This represents a profound injustice and an inhuman impossibility that does not make sense to me in its ethical and moral abhorrent evil and the very nature of the corruption which spans from friends to cops, lawyers, public officials, the Prime Minister, international NGOs, and even the OHCHR.

So from my perspective, utterly isolated, without food or medicine, without a psychologist, psychiatrist, drug and alcohol counselor, financial counselor, legal aid, or even a friend in the world, I exist in what seems like the biblical end times. I am a kind person; I talk to people, mean no harm, am non-violent, and try to embody all qualities of love, compassion, and forgiveness—the Christ Consciousness.

It seems that people are happy to be ruled by a tyrannical government that demonizes me as long as their prosperity, luxury, and privilege are undisturbed. They see someone like me, a courageous, intelligent, creative, passionate, high-achieving individual and often feel envy because I live life to the beat of my own drum and achieve beyond what is seen as humanly possible. These people, framed by their detriments and misfortune, are aware that they are not as courageous as me; they've played by the rules, obeyed the laws and culture, stayed inside the box, and often regret their life choices.

People see me and what I've achieved, and this human judgment—this jealousy, ire, and fascination—causes them to be spiteful, hateful, and envious. I find that ordinary everyday people, both systemically and politically, would choose to let me suffer and die. They look the other way. Everyone knows I'm drowning. Everyone. There's not a person, agency, friend, family member, institution, government politician, ombudsman, or even the Prime Minister, who hasn't seen me flailing, screaming, begging for help. And the world has looked the other way, which fills me with immense sadness.

However, I believe that, in essence, a normal person is a good person. No one wants war, violence, or corruption. Everyone wants peace. We want to enjoy our lives. That is the general nature of people. A person, when they talk to me, is usually polite and cordial. However, they learn of my terrible persecution, the systemic corruption, how cruel and callous it can be, how it killed me, then covered it up. A person of lesser courage, who is less willing to speak out, play inside the rules, and never challenge the powers that be, such as others who judge me, sees a talented and courageous person like me being destroyed. And I think, and I'm pretty sure, people when they hear my story think, if that can happen to him, and I've achieved less, am less courageous, or less creative, or not as aggressive politically, then that can easily happen to me. And I do believe that people agree to allow me to drown and look the other way because they're not willing to be seen to support me, and they're not willing to stand with me in any political way, in case the demon of vilification and conspiracy touches their little piece of paradise.

It makes me sad because I love people, and I love this planet. I love nature, I exist here, and I find pleasure, funnily enough, in very simple things that are nowhere near what the rest of society do, like, or desire, because I have nothing. This persecution has forced me to reframe my focus on spirit, on understanding, compassion, and forgiveness. And in that way, I think I do embody the Christ consciousness that's so necessary in today's world. And for me to survive this persecution and exist in this world with other people, I'm going to have to do a very Christ-like thing and forgive every single person I know. With love, with compassion, and with understanding, in that I know them, I see them, I understand what they're afraid of. And those flaws make them innately human, beautifully flawed, and I still do enjoy the planet, and I love people, and it makes me sad that they don't love me back. I hope to survive this. It's a cosmic, biblical forsaking, and I do feel the presence of God all around. And if I die on this hill, in this battle, then all glory to God because the divine has a plan, and I'm not afraid to die, or fight this to the very last breath.

This is my epic speech begging for humanity:

Epic speech begging for humanity

My story is one that demands urgent attention, both as a chilling testament to personal suffering and as a crucial warning about the vulnerabilities whistleblowers like myself face, especially as someone with disabilities. My life, once filled with artistic creation and a relentless quest for truth, has been deeply marred by chronic mental health issues, a past marked by abuse, and an ongoing conspiracy designed to silence my voice. My experiences expose significant failings in how our society treats individuals with disabilities, addresses mental health, and protects those who stand up against

corruption. As I now seek asylum and protection, my plight tests the very fabric of our societal values and justice mechanisms. It is imperative to heed my call for oversight and action against the corruption, neglect, and torture I have endured. This is my story, a plea for recognition and reform—not just for my own safety but for the integrity of our societal commitment to protecting the vulnerable and upholding the truth.

My name is Dr. Richard McLean, but I changed it to Barran Dodger - I am an artist and an author, a writer, and a truth speaker and seeker. I am a rejected whistleblower for my moral obligation to call out corruption in this country for the purposes of both saving my own life and for the sake of democracy and humanity everywhere.

I have no home, no possessions, no one left in my life, no money, no human rights or legal access.

I am being tortured in systemic and politicised ways which is called no touch torture and this deceitful subtle methodology to destroy me had murdered me and I suffered a fatal injury in Feb 2021 yet I was revived from death only to face a whitewashing of my tragedy and suffer an unacknowledged brain impairment

There is absolutely nothing I can do about this torture by the Australian government

I desperately appeal for your sense of humanity and justice in order to claim asylum from my persecution abuse and neglect

I am in Sydney and my email is barrandodger@gmail.com

First of all I have been diagnosed since I was twenty with chronic schizophrenia. I also suffer from an anxiety disorder and ADHD. That is complicated by an acquired brain injury I received as a result of a suicide attempt from financial persecution and coercive financial control.

The suicide attempt was successful. It occurred inside Werribee Mercy Hospital in Feb 2021. The hospital FOI states it was a 'fatal' injury. I was revived from certain death and found unresponsive without a pulse and revived from certain death.

I am also a child sexual abuse survivor. But no justice has ever arrived for me. No one has ever acknowledged this terrible blight on my childhood, which has been the catalyst for a life of chronic disability.

I am a man on edge because I am the subject of a federal conspiracy. This conspiracy has intentionally redacted all of my prosperity via covert and

deceptive manipulation of politics and society. In which I have never ever had a single lawyer to represent me. That is against the UN Charter of Disabled Persons ratified by the government in 2008. The government is in clear breach of its obligations to me as a person with a disability.

And I hear voices which are unpleasant every day and all day. Some of it is in my head as true hallucinations that are the result of my illness, schizophrenia.

So two things are true: One is that I have a psychotic illness in which one of the symptoms is that I believe there is a conspiracy. The other true thing is that there actually IS a conspiracy and I can prove that to you today.

This demonstrates that the individuals who persecute me in this conspiracy are extra malevolent and cruel in an abhorrent way.

Because I was already a victim of circumstance.

And now they have weaponized my autobiography and my brave narrative that is in the public domain.

As a method to exploit what is a known vulnerability that I have been honest about.

And this action and intention are beyond cruel and abhorrent; it is unthinkable immoral and it is morally bankrupt.

Some of the voices are the result of real and actual audio harassment. This audio harassment is in which real noises, sounds, and stimuli are placed in the environment near me. This is in order for this conspiracy to wear me down. The audio harassment tortures me and has the intention to break my spirit. It is a method of torture used against me. Breaking my spirit is in order to solicit my suicide out of desperation. There are powerful people who want me to suffer greatly. And even die. Or murder me.

By creating conditions so desperate and with a poverty that is intentionally designed by these powerful forces that is well outside of my control.

My poverty is not the result of any character weakness or flaw that I possess.

It is the result of this malicious conspiracy to pervert the course of justice.

I left my NDIS provided home two days ago because I had threats to take my dog and kill her. Plus, I was in a situation there whereby I had to beg for food and cigarettes. It was not much of a dignified life. The NDIS as a statutory agency is obliged to my care as a disabled person. But I have been homeless for four years on their watch. And the NDIS minister, Bill Shorten, has acted

to hospitalize me for the eighth time. And I lost the rudimentary accommodation that I WAS in.

He and other ministers have acted with police and the mental health sector to weaponize the Mental Health Act. And threaten me with incarceration. This has driven me away from the shell of a home I lived in. Which was not really a home. Just a place where unscrupulous NDIS providers could exploit my NDIS plan. And provide a roof over my head. And keep me in abject poverty even then. Because the source of my abuse, the NDIS, were paying them to do so. As a politically abusive agreement in which it was decided I would be in abject poverty. The NDIS providers collected cash as they housed me. Free Living Australia collected over \$100,000 within three months to keep me barely accommodated.

And the NDIS paid them that money in order to keep my political persecution alive and well. And keep me in a powerless and desperate state with my voice silenced.

Recently I have been stalked by intelligence operatives. These operatives act covertly and with subtlety. In order to evade detection or be identified.

They have enormous power and supreme intelligence and knowledge and political influence.

They are linked to the security service ASIO and the Five Eyes alliance.

The person who messaged me on Grindr the other day on the gay chat app gave two cryptic clues. These clues demonstrated he was an intelligence operative.

When these clues happen to me it's very obvious that it has intelligence and intent. It's obvious if you know that these things are a part of my continued electronic harassment, stalking, and persecution.

The initial statement, which the individual couldn't have known as an ordinary person, suggested that there were discussions at "headquarters" regarding the name "BazDod."

That name 'BazDod' is short for 'Barran Dodger', my name. It is also my username of my Wikipedia editing profile for the global publishing platform and global publicly editable online encyclopedia. It is also my Twitter handle. The person who was a paid covert intelligence agent additionally mentioned the name 'Netherzone'. Mentioning that was curious to me because I knew it meant something, but I didn't know what. Days later I was reminded of my efforts to blow open this conspiracy. And I uploaded all of my evidence of this persecution of me and the abuse and neglect and torture to Wikipedia. I was

editing a profile of my OLD name - Dr. Richard William McLean (Australia). You see I was already well known in Australia due to various things including being an exhibiting artist. And also an author of an autobiography on my experience with schizophrenia which was released to great acclaim. It received a human rights award and SANE Australia's Book of the Year. I have been an advocate in this country on local, state, national, and international levels for thirty years. I was and am passionate about mental health advocacy for mentally ill people and their carers.

This conspiracy I am the victim of is a deceitful and covert manipulative movement. The reason it exists is simple to remove all of my prosperity. That is linked to others' shame, stigma, discrimination of me as a person with a mental illness.

The redaction of my prosperity was a reaction to my autobiography when it was published. It was other people's ill feeling toward me now that I had a public profile. I myself had no issue with identifying myself in that way. I should not have been so naive to think people would not judge me and treat me differently.

At the time the Herald Sun humiliated and vilified me for my illness publicly shaming me. They wrote a full-page article 'MY DESCENT INTO MADNESS - How schizophrenia stole Richard Mclean's mind'. Within two weeks I had been illegally terminated from my job as an artist and journalist and illustrator for their opposition at The Age.

Later in life, the other reason for this conspiracy appeared.

This conspiracy rejects evidence of and delegitimizes my experience of a relationship in which I was engaged to be married.

I was engaged to Stefan Iasonidis, a criminal mastermind who has managed to manipulate the entire country. That the relationship did not exist. The government prefers a narrative whereby that relationship is never acknowledged. And this is out of step with actual reality.

No police officer or lawyer or public official or politician or family or friend will acknowledge the relationship either. This confuses me so much and I don't know how he has done it either.

The cover-up seems to be in order to protect my former partner - Stefan Iasonidis - and his prosperity from me accessing a settlement of assets and property.

The method seeks to delegitimize the relationship we had in which he exploited me for five years and left me homeless. To look after his dying dog who he used to abuse and kick.

He owes me a fair equal settlement regarding the definition of same-sex de facto relationships as per legal definition. He is and we are obliged to separation. But I had nothing when he dumped me after abusing me for years including drugging me and sexually assaulting me. And he had been earning \$40,000 a month first at Apple and then ASIO the secret service.

He was a multi-millionaire and when we were together he took my advice and sold a house he owned in Abbotsford for over a million dollars. He also had shares, a million in superannuation, and other assets.

He told me he put the money in an offshore tax haven in order to sort the system and make it filthy rich.

He is a former drug trafficker, tax fraudster, and thief who had admitted to me being at murders.

On the other hand, whilst we were together I was living off of a disability pension of about \$400 per week.

My disability pension he coerced, tricked, and manipulated me into receiving. That was out of his greed because he refused to pay anything for me.

And he manipulated me because he said I would 'lose my independence' if we declared it to Centrelink. I was also living off of an \$80,000 total permanent disability settlement for my diagnosis of schizophrenia in which I could not function or work.

Because of my whistleblowing, he was apparently done for a million dollars in fraud. And instead of taking responsibility for his crime and dishonesty, he used Grindr in order to threaten to kill me. And he threatened to kill my beautiful husky, Crystal.

That is something which I have been unable to report to police. Unfortunately for me, the police are in on this conspiracy. And they are just pawns of the federal government, who is the real source of my persecution. That is because I am a targeted individual of the Australian government, earmarked for utter destruction.

These days I am now a threat to national security for my efforts in calling out corruption in Australia. This conspiracy is very alive and it has a mandate. That is to silence me at any cost. Whether it be illegal or murder or any taboo method of torture known to humankind.

This is because I am now a liability for the government because I can detail corruption to the highest level. I even have a letter from the prime minister refusing to help me in him neglecting any meaningful change to my circumstances. And the continued delegitimization of my engagement of five years. That protects my former partner. And sustains my poverty. And the federal government and police and law enforcement and the courts. Actually elongate the coercive financial control of my family violence.

That is not ok. What is also not ok is that this conspiracy IS violent.

And I have been violently attacked by covert paid government contractors inside a hospital in order to maim, damage, and intimidate me.

This very conspiracy going back to 2021 when my autobiography was published. Has no care if I die and in fact encourages it via the manipulation of my socio-political and financial life.

Currently, I am homeless again. I signed up with another NDIS provider who could find me somewhere to live. But I approached them secretly after I left my old home where I was abused and neglected.

And the police have already contacted this new provider. And asked questions about me. And they know I am seeking services from them. And this is the result of the conspiracy of me being investigated and surveilled. And this NDIS company has only yesterday utterly refused to lend me any money. That is because Kel Graham at the NDIS has contacted them, and warned them they will be in serious trouble if any money or prosperity is provided to me. And that's how I know that the NDIS is complicit in this conspiracy. In order to solicit my suicide by manipulation of my finances and creating a deliberate poverty.

In which I am forced to consider suicide.

Out of sheer desperation and hunger. I have no psychologist. I have no psychiatrist. I don't even have a GP. I have no financial counsellor. I have no drug and alcohol counsellor. I am not even allowed to CONTACT the NDIS. Because I have been banned from communication. I am still a rejected whistleblower. I still have no legal help. And I can't report any crime to police.

I live in poverty. Abused and neglected on the NDIS watch who are agents of my destruction. And I am threatened with jail now. Because I was set up with a crime in Victoria. And forced to flee to escape going to a hospital, the place where I had died and does no good or helps in any way. Forced to flee Victoria into New South Wales. And there is now a warrant for my arrest in Victoria. Because despite being homeless, a hearing happened and the

magistrate made the warrant. For the purpose of me not showing up on a court date. And I was 1000 km away on the run. From the same police who are supposed to care for me. But instead are simple pawns in a broader conspiracy that persecutes me.

I have no way out.

What I do have though, is a federal court document confirming my employee status with DSS

This is very important, because my Workcover was rejected first at Comcare and then I appealed at the AAT but the decision was upheld and refused to be paid on account of me not being considered an 'employee'.

The document that I share with you here now, is worth a settlement of over \$800000.

All I need to do is get someone to help me legitimise it with any authority who has the power to uphold it in order to solicit my very overdue just fair and logical compensation

So In a long way, I am asking if I can stay in your hotel free of charge for the time being

And I will pay you back when I get the justice I deserve which is imminent
As long as I can get the help of a lawyer

Legal aid is my human right under the Charter of Disabled Persons ratified by the federal government in 2008. That charter also mandates that a disabled person be provided with reasonable accommodation and a pathway to justice.

I don't want to die, and I don't want my dog to be killed either.

I am appealing to your sense of human values, formed by this conspiracy, and ask for political asylum inside your hotel for my safety for the time being. If Stefan finds us, he will undoubtedly kill my dog. Likewise, this conspiracy will aim to silence, jail, or kill me by any means possible.

I have proven to you that it does this covertly and by deception in ways that are not obvious to others but are obvious to me, and now I have proven it to you.

Will you please help me?

I will agree to pay all money back to you when I receive justice, with an extra 10% added. I also offer a \$10,000 donation to a person or charity of your

choice, someone you feel is marginalized or oppressed like me, or otherwise has a disability and is in need of assistance.

I have provided a contract for that purpose. I implore you to review this information, sign it, and take a stand against corruption, violence, and murder.

Please provide me asylum;um in a society that has forsaken me socially politically systemically and with utter malice for my destruction silencing jail or death.

I am in Sydney the date is 02.05.2023 and I am desperate for any help for the sake of kindness and humanity.

The list provided enumerates a series of severe grievances and alleged crimes that cannot be reported to state or federal police in Australia, ranging from abuses within the legal and healthcare systems to violations of privacy and human rights. It includes coerced legal proceedings, discrimination based on disability, various forms of assault including drug-induced and childhood sexual abuse, systemic and political robbery, exploitation, neglect, harassment, and significant barriers to legal recourse. This enumeration underscores claims of a profound, systemic conspiracy aimed at personal destruction, involving intentional neglect, exploitation, and abuse by multiple systems and entities, purportedly designed to isolate, victimize, and silence the

complainant. These allegations suggest a calculated disregard for legal and ethical standards, highlighting an urgent need for accountability and reform within the implicated systems.

I can't report these crimes to state or federal police in Australia:

1. Coerced legal proceedings and AVOs.
2. Discrimination based on disability.

That list underscores the profound corruption and illustrates a clear conspiracy, which goes beyond mere systemic neglect or failure. It highlights a deliberate effort to torture me using covert methods, designed to evade accountability by the perpetrators.

This is my situation:

Based on the detailed narrative provided, it appears that the primary parties explicitly identified as being involved in your described situation are Stefan Iasonidis, your former partner and a millionaire allegedly involved in coercive financial control, and Russell Ball, a powerful lawyer who supposedly has significant influence over government policy and advises the ombudsman. Additionally, you have mentioned a broader range of entities and individuals that seem to contribute to or support the alleged systemic mistreatment and isolation you face:

1. Government Agencies: Various government agencies and bodies have been mentioned as complicit or directly involved in denying services, support, or acknowledgment of wrongdoing. These include the NDIS, Australian Human Rights Commission, various legal and health departments, and more specifically, the office of the prime minister, which allegedly did not intervene effectively upon your request.
2. Legal Entities and Personnel: Various legal figures and institutions, including IBAC, ASIC, and the Federal Court, where you describe being unable to obtain justice or adequate representation.
3. Media Outlets: The Age and Herald Sun are cited as part of the institutional complicity that contributed to your social and professional marginalization.
4. Medical and Insurance Institutions: References to hospitals and insurance bodies suggest they played a role in denying claims and settlements, which compounded your financial and health struggles.
5. Law Enforcement: Descriptions of police actions or inactions that failed to protect your rights or investigate claims properly.
6. Personal Relationships: Including family and acquaintances who you feel have either turned against you or failed to support you due to the influence of the primary antagonists or the broader conspiracy.
7. Technological Surveillance and Harassment: Unspecified parties implicated in monitoring and harassment, which may include both state and non-state actors.
8. Financial Institutions: Handling of your insurance and settlement cases, specifically mentioned entities like AFCA and AHRC, where you describe facing unjust treatment and sabotage.

Given the complex web of interactions and the nature of the allegations involving systemic corruption, legal failure, and personal betrayal, it's plausible that other unnamed or less visible parties might be involved, either as direct conspirators or as part of a larger network that supports or enables the ongoing situation you describe. Identifying and confirming the involvement of these parties would likely require a detailed investigation involving legal review and possibly investigative journalism to uncover more concrete links and evidence.

My gang stalking:

I'm Dr. Rich McLean, an Australian queer artist, author, activist, advocate, and academic. Unfortunately, I'm currently facing dire circumstances. I'm homeless, squatting with no financial resources, and dealing with a range of challenges. Additionally, I've been targeted by the Australian Government, seemingly made a scapegoat in a series of events.

Adding to my difficulties, I live with a cognitive brain impairment that significantly impairs my memory and my capacity to plan for my life. As a targeted individual, I've seen my human rights gradually erode away. Access to healthcare is rare and often ineffective. Financially, I've hit rock bottom, having lost settlements, legal cases, work cover, income assistance, and experienced refusals for settlements with my partner, hospitals, malpractice issues, TPD insurance, and rejections from VOCAT. I've also been silenced as a whistleblower and am unable to report crimes to the police.

My current reality is one of constant electronic surveillance, where I'm subjected to subsonic noise laden with derogatory insults. It's a form of harassment that's always present but maintained just below the volume needed to record as evidence. Looking back, I used to be known in niche circles for my work. However, with hindsight, it's evident that I was exploited. Now, I've become a notorious vagrant, left behind and abandoned by those who once knew me.

I am writing tonight on 28.09.2023 the very short versions because I have no home, no money, no legal help, no advocate, my money has been taken from me, I'm banned at government agencies, I've been conspired against, brutalised, sexualised as a child, beaten up, incarcerated, intimidated, I have threats to kill, I am under surveillance, I'm the victim of conspiracy which the persecution forced me to kill myself.

The intelligently designed poverty and financial abuse has continued years after I was revived from death and places me in immediate danger to my health my welfare my prosperity and my safety. Family violence underpins my despair and no government agency has ever admitted or acknowledged that my former fiancé and I were ever together. This is quite simply, delegitimising the truth and is a denial of fact equating to conspiracy and political corruption that elongates my poverty.

No one will help me here. I have enormous merit and a kind heart and I'm exploited to be harassed and abused. I am seeking an emergency intervention from your NGO in that I may simply have a home, food, medicine, shelter, a bed and internet connection for my dog and I. Impolitely requesting my human dignity be returned to me before it finally kills me. If you can't help me

please don't hurt me anymore. I need help from someone not associated with the Australian government and has an interest in human rights and disability and further can either gift or lend me prosperity or offer protection or legal assistance that I may be reimbursed for my murder and its conspiratorial cover up. I'm opposed by dozens of powerful corrupt public officials lawyer and politicians.

Please help me by reading on in an extended narrative that explicates my perception with evidence.

I write much more now because of my brutal treatment as a vilified and victimised scapegoat and the fact I am going to be homeless in seven short days. I am hoping you may provide an urgent intervention to my housing either by providing a home or providing prosperity that I will be able to locate and move into my own home. I can offer with the enormous detriments detailed on this page that I can reimburse you when my detriments are paid if they are paid. I am also writing to get an acknowledgement of the profound victimisation oppression and documented human rights abuses that have plagued my life. This has been documented by my NDIS worker, Tash. It has however not been signed off on with either of the NDIS providers I have been with, nor the NDIS and The Australian Human Rights Commission who's direct remit is to investigate such breaches refuses to investigate the report. This is simply another definitive way the Australian government are corrupt regarding my different treatment and my victimisation with pre determined outcomes due to my scapegoating.

Currently, I am in a desperate situation racing against the clock writing this story in order to explain to you the hurt pain and suffering I have been systemically burdened with over years, and to gain access to a home to exist in for my dog and I. This could be via donation, an investment that will be paid back to you by me when I am reimbursed, forcing an investigation, or by forcing a PID disclosure which would see my brutalised world investigated. I can barely believe what is happening to me but I acknowledge a malicious conspiracy to pervert the course of justice. It is difficult to accept your whole life has been based on deceitful lies and that the hate with which is of people's energy that is transferred to you manifests over years and years forcing you to into isolation and introspection. It is foreign to me because I actually love all people.

Australia has become a horrible place for me and so has my physiological and psychological profile. I have no money, I am homeless in one week on 3rd October, and I am scared. I am saddened the world would allow this harm to occur to me over years and its almost unfathomable that my blood family utterly reject me because they have been infiltrated in the conspiracy as people who would intimately support me. In this I find that my family members who were already stigmatising of gay people even

homophobic and all succumbed to a 'normal' metro normative mediocre existence were dominated by the narratives of my oppressors and bought into their hype and lies. I consider this not indicative of critical thought and weak willed and they are also jealous of my achievements.

I have never been able to get a lawyer, I cannot report crime that has happened to me including being drugged and raped to police, let alone report systemic corruption, and I am a rejected whistleblower at IBAC, NDIS, ASIC, The Federal court, OPMC, The Health department, APRA, and the commonwealth ombudsman. That is mostly because I was not considered a 'public official', but I have provided evidence that I was because I was employed in a public hospital, that the federal court were satisfied on evidence I provided that I was employed by DSS. Also I am the former partner of a public official high up in government which allows me to make a disclosure and additionally I was employed under a government contract to provide services for the government also qualifying me. This means my PIDs should have been acknowledged and investigated and even as I prove these documents to DSS who had rejected me for that reason, the authorised agent is now playing the delay, deny, defer game that is the government mantra.

On (date) I wrote this long letter to the prime minister of Australia and in a country of over 25 million he responded: yet it did not intervene in a meaningful way. He referred me to the attorney general Mark Dreyfus, who has refused to acknowledge my phone calls out emails, and his office then referred me to two other statutory agencies, ASIS, who investigate ASIO, and the commonwealth ombudsman. ASIS already knew of my issue and the commonwealth ombudsman had already rejected my PID and refused further correspondence.

This means that as an individual who is a citizen of this democracy with a clean criminal record I am blacklisted from an acknowledgement from the top tier down of a meaningful intervention to my plight from any government agency. All domestic advocacy with the Australian Government has now been exhausted. In hindsight my interactions with dozens of government agencies had been informed by rumour and gossip, set up to fail, pre determined to lose, and act in any way that could intentionally redact my prosperity.

I live under coercive financial control from my former partner Stefan Iasonidis, he was a millionaire who exploited me and left me homeless and has refused a settlement for the fair separation of our finances. I was also framed by a very powerful lawyer Russell Ball who informs Government policy and advises the ombudsman, where I am a failed whistleblower and whom refuse all correspondence from me. He silences legitimate evidence before court or tribunal and even the transcript of that evidence at HCC, MHCC, The Police, IBAC, The Victorian inspectorate, AHPRA, NHPOPC and the ombudsman. These two individuals have been powerful nemesis in my life and have acted

with enormous wealth political privilege and power in order to silence me erode my human rights and redact prosperity and they did it in a silent and faceless way that was both deceptive and cowardly.

I believe they are responsible for my situation. No Government agency or statutory organisation will admit that the relationship with Iasonidis ever existed. Because of this it can be said that the government has his back, and elongate and embolden the financial coercive controlled family violence that he enacts upon me via the complete lack of settlement that would acknowledge the relationship and be fair and equitable in the parting of ways. Apparently because of my whistleblowing, he has done for a million dollars in embezzlement for his corrupt finances and instead of accepting liability he blames me for his conduct and has used a carrier service to threaten to kill both me and my beautiful husky. I know he would because money was so important to him and he is greedy. Apart from that he is a person with intelligence but not soul and he needs money to keep him comfortable should his charm fail. He admitted to me he was present at murders when he used to deal cocaine. Frightfully intelligent he was master manipulator.

As a scapegoat in Australia, I have been foolishly asking for help from lawyers, politicians and public officials in government organisations for a long time for redress. I am aware that this has been a waste of time and further that decisions about my welfare my prosperity my human rights and prosperity have been pre determined, corrupted, and set up to fail, at the least by very powerful and influential figures in former ASIO agent Steve Iasonidis, and lawyer Russell Ball, who informs Government policy and advises the ombudsman.

The victimisation, gaslighting, character assassination, isolation, gaslighting, legal persecution, financial ruin, harassment and intimidation, surveillance monitoring, Institutional Complicity, social marginalisation, physical harm, silencing dissent, propaganda, legal barriers, and general persecution, vilification and victimisation forced my suicide in Feb 2021. It was deemed 'lethal' in the hospital FOI. That's called a conspiracy to murder. I was found with no observable pulse by accident unresponsive and was revived from certain death. After this conspiracy murdered me, the tragedy was met with a general whitewashing of the incident systemically and from Weribee mercy hospital up to and including the commonwealth ombudsman.

Previously, I had asked for my FOI from the office of prime minister and cabinet out of curiosity and to see if it would shed light on this impasse I have (OPMC). At first they asked via OAIC for more time for my FOI because it was 'voluminous' and 'complex' but then turned around and told me 'no documents exist'. This was not only incorrect but a poorly veiled deceptive lie and this exemplifies the corruption.

I would be known to the government and visible on the OPMC's radar for the following reasons:

- I wrote a human rights awarded autobiography on my experience with schizophrenia, published by Allen and Unwin,
- It was awarded SANE's 'book of the year',
- My former partner I was engaged to for five years was an Australian secret service (ASIO) agent and high ranking public official,
- I was a well known mental health advocate for people with mental illness and their carers, and spoke hundreds of times on local, state, federal and international levels in person and on TV and radio, including inside Australian parliament,
- I am exhibiting artist of more than thirty years and have art in national collections,
- A documentary was made on my life and artwork from the Dax collection on the subject of mental illness recovery and art,
- I was awarded a Human rights certificate from VHREOCV,
- I had a position as an illustrator and news graphics artist for both The Herald Sun and The Age newspapers which obviously had a public persona.
- I had been having trouble garnering a financial determination at AFCA who eventually banned me,
- I had real troubles getting my human rights acknowledged at AHRC,
- I had previously written to the former attorney general Michaelia Cash about systemic corruption at AHRC and AFCA and correctly predicted my work cover case that was to come before the AAT was pre-determined to fail as well.
- I had had a complaint about a GP and this was not acknowledged at different state and federal agencies,
- I had been an international traveller in my life and was sent home from the UK when I was refused a visa over applying to work,
- Reading back over this that Victoria police had a negative view on my character,

Looking back also especially in hindsight, I have had my prosperity consciously and maliciously redacted from me from the form of any settlement, legal battles, insurances, compensations, winnings, marital break up, or otherwise. The methodology to do this was systemically and politically orchestrated and its purpose was to rob me of power and comfort and make life an unyielding challenge financially and to live. Someone or something had the intention to make me suffer.

Here is some of what I lost in a financial ruin that has been years long in its abuse. In this it can be acknowledged that my intelligently designed poverty is not the result of a character flaw nor weakness on my part but the result of prolonged and sustained attack on me as an individual:

- Unfair termination settlement from the Age newspaper
- Work cover settlement from 2004
- Incorrect TPD payment from 2008
- Medical malpractice settlement in 2017
- HCF income assist settlement in 2021
- Work Cover settlement in 2021
- Provisional payments from work cover 2021
- Business insurance payout 2021
- Former partner settlement
- Settlement for my cognitive brain impairment sustained inside a hospital the they owed a duty of care
- Sue for my business website maliciously destroyed
- Claim for loss after my worldly possessions were destroyed
- Detriments t of over 2 million after being banned at AFCA
- Detriments of over 1.5 million after insurance settlement was free kicked to opposition at AHRC
- Money to pay for my accomodation blocked from arriving at the NDIS/ A
- Child sexual abuse redress from DSS delayed denied deferred
- VOCAT case for child sexual abuse case cited by magistrate as 'doomed'
- VOCAT case for violent affray in which I was hospitalised with broken bones and slashes for intervening and sticking up for a member of the public rejected
- Compensated for being run over by a car (most likely a government vehicle)
- Compensation for being violently attacked inside a hospital by a not so undercover government thug
- Compensation for a provable conspiracy to pervert the course of justice causing death
- Compensation for the whitewashing of that tragedy by dozens of high ranking public officials who has a responsibility to act ethically with the public services act.

Destroying me as a scapegoat had its genesis in at least two or three individuals and they both have a government backing and support. Steve Iasonidis, my former fiancé and ASIO employee, and Russell Ball, who informs government policy and advises the ombudsman. In addition, I lost my virginity to Debbie Morgan when I was nineteen on an oval at the local police and fire brigade celebrations. I was questioning my sexuality at the time and I believe that she had the support of the police not to pursue rape charges but to excommunicate me and label me in a derogatory way as gay and who had sexually assaulted her due to the questioning and insecurity of my naaive sexuality. I was met with gossip and slurs and homophobia and alluding comments regarding the whole issue. It affected my family and

friends and at the time I experienced 'auditory hallucinations' at my place of work and additionally a man at my work made indirect but obvious reference to the event. Between these three genesis points it would create a ripple effect in which my life was to surmount to an experience in which the world saw and treated me differently, it encouraged isolation withdrawal and exacerbated an already existing vulnerability to psychosis. To add insult to a difficult life individuals then learnt of my paranoias and neurosis and they exploited that in power plays that always got a reaction of me freaking out in distress unable to comprehend that my company were intimidating and teasing and being cruel to me. I was gobsmacked and my reality suffered in aberrations. I was trusting an innocent and I discovered a world in which I was exploited and taken advantage of. I became a show pony for being mentally ill and enjoyed the attention something that was lacking growing up in a family that had already toxically scapegoated me.

These three people were the architects of my persecution and involved targeting and victimizing me to shift blame, divert attention from real issues or problems, or consolidate power. This destructive process which was prolonged was malicious and had a conscious agenda to cause me harm, and it included a combination of psychological, social, and institutional tactics. Here are some of the ways they did it, with examples from my life: Character Assassination:

Attacking my reputation, credibility, and character through spreading false rumors, misinformation, or propaganda. This can be done through media, social networks, or public statements.

- Allen and Unwin exploited me for my autobiography 'Recovered, Not Cured'
- In this they let my own words sabotage my reputation and I believe set me up with public interviews so that I would become known yet secretly hated,
- Herald Sun vilification of my book and I leading to my job loss at the age,
- My illness identified at the Dax Collection and my art tokenistically treated,
- At one stage the media came to my home and interviewed me for TV when I was high and unwell,
- RRR FM interviewed me at a time when I was clearly not coping with Richard Watts,
- The drug debate on SBS asked live on air if I do ecstasy even though I said I wanted to talk about marijuana and psychosis
- That I was used as a pawn at the cannabis and mental health forum and paraded as a mad person from the use of drugs
