

WORKER REIMBURSEMENT REQUEST FORM

To claim reimbursement, all you need to do is ensure that this form is completed in full and submitted **with a copy of the itemised invoice**.

For Gallagher Bassett to be able to process your reimbursement request, please be mindful of the following information:

- A claim for reimbursement needs to be submitted within six months of receiving the treatment/service.
- If there is a gap of six months or more for reimbursement of a particular treatment/service, Gallagher Bassett will require a letter from your Treating Health Practitioner advising the reason as to why there was a gap prior to being able to reimburse the invoice.
- Your providers need to be registered with WorkSafe Victoria.
- WorkSafe have set *scheduled fees* that define how much can be reimbursed for each treatment/service. Gallagher Bassett is unable to reimburse any amount above the scheduled fee so please check with your provider when paying for your services directly. A list of the scheduled fees can be located at www.worksafe.vic.gov.au.
- For pharmacy reimbursements Gallagher Bassett requires a copy of the dispensary tax invoice. Unfortunately we are not able to reimburse medications purchased over-the-counter (such as from a supermarket).
- If you are receiving treatment/services other than physiotherapy, osteopathy and chiropractic, Gallagher Bassett will require a referral from a Treating Health Practitioner every three months.
- For further information please refer to the Gallagher Bassett Website – www.gallagherbassett.com.au or contact your Case Manager on freecall 1800 774 377.
