

hello this is Dr Richard McLean I'm also known as Baron Dodger born 8th of April 1973 and formerly of 8 goldl Street Danel two mccuin Street foots gray 10 rally Street foots gray 51 White Street parti and I grew up in KRA at 33 hel Bank Drive this video message is for the purpose of an affidavit or a statutory declaration in which I can make um to authorities to Ledger before a court as docu as um as statements that I say are true um just briefly I'll upload this video and then I'll go into some more detail but very briefly I'm the subject of a conspiracy to pervert the course of Justice it has victimized me over many years and it has oppressed me um this movement of um victimization has um attacked me financially and reducted my um prosperity in an intentional and a malicious way and I believe this movement um which is not merely a delusion in my head that needs to be medicated but is a provable phenomenon um from the Australian government that um victimizes me um is is able to be backed up by by facts and although I can't you know put my finger on a conspiracy all of the information that I'm going to say actually um provides um the evidence of this phenomenon in much the same way as scientists know that the black hole's there but they've never seen one they observe what goes around it now I'm a worried person and I have I a person with a mental illness I suffer from schizophrenia adjustment disorder ADHD and also I have memory problems and troubles organizing my thoughts because of a brain injury now that brain injury was sustained inside Warby Mercy Hospital in February 2021 and from the Freedom of Information it was deemed a fatal injury and a lethal attempt the hospital owed me a duty of care however there was a general whitewashing of the tragedy that led to that cognitive um brain impairment and this is another conspiracy in itself I'm upsetting my parents my parents are are not perfect neither am I I don't wish to worry them my father has cancer he deserves to focus on his recovery what he doesn't need is a 50-year-old adult son with problems so big he can't even tackle them um and then have me beg him for money because that say I'm attacked and I don't have any money I owe it to my parents um to um solve this impass by myself I owe it to them um not to um be the endless Bucket from which they're continuing to give \$30 \$40 \$60 and they're pensioners themselves that's why of decided to make these statements as um a replacement for the written word that is because I haven't got my glasses and I haven't got a pair of glasses um and I can't see to write down and I haven't got a computer and according to the human rights Charter um I'm allowed to express myself in any way that I see fit so hopefully the C court and the authorities will um appreciate acknowledge and accept that these video documents are in place of a written statement but I will write the YouTube URLs down on the on the affidavit or the stat deck and I will um write them into um the document and get them signed by Justice of the Peace and in doing so I hope um basically to save my life because yesterday I'd um said i' was going to kill myself and um that further this um this uh if I had have died yesterday it would not have been the result of mental illness or drugs it would have been the result result of a sustained and elongated conspiracy to pervert the course of Justice which has reacted all my Prosperity attacks me in my human rights my legal rights and um has attacked everything that I have in order to oppose um this victimization and rebuild my life again it has attacked me in a financial way

and that has had extreme malice and I can't prove that those decisions made in statutory government agencies or by anyone had the direct result to kill me but I do know that um I am a well-known person I am now an Infamous vagrant and I know that the World wishes me harm now I believe there's a better way I'm making this video so I don't have to die from a profound violence of neglect and I'm making this video um to prove to police and authorities that um I had met um to crimes some things that I've done which everyone already knows about and for which um I'm vilified for and um I've been framed in other ways um the subtext is I'm an extortionist extortionist I'm a rapist I'm a pedophile there is no limit to the way that this um persecution of me will ever stop because they will try anything in order to silence me and in order to delegitimize my words and my experience and the facts of reality that have existed for me they want to silence me because this has gone too far it went too far in February 2021 when I had suicided from a conspiracy and vilification for mental illness and for the purposes of financial abuse coercive family control coercive Financial control and Family Violence and they continued alation of that Family Violence by all government agencies including up until this day because no government agency will admit my relationship with former AIO employee Stefan

IES um the reason I believe that um this conspiracy to pervert the course of justice has so much malice for me and has got malice for me with intentions to kill me is that if I died by Suicide a result of profound elongated abuse Financial abuse and neglect then mental illness and drugs would be blamed on my death now that's a clever way that dozens of public officials people in society organizations police Hospital authorities even the Prime Minister could cleverly exonerate themselves from all liability in their decisions which have acted to cause me harm and continued to elongate my financial suffering and my distress and my desperation um with having or my Prosperity redacted from me and if I had have died yesterday mental illness would have been blamed and it would have been the Perfect Crime there was one solace in that I had have died that there would have had to been a report made for the coroner I know that I'm the most hated man in Australia believe me I know and I know that um my body would likely be CED off in a bag and burned no one would have a funeral for me much like my beautiful mate Wes who was also suffered toxic family scapegoating and was neglected out of society now I reckon There Is A Better Way Forward for the impar that I face and I don't want to go to jail I don't want to go to a psychiatric institution and be framed as insane I don't want to be pointedly not only ignored but pointedly neglected to the point where I'm so desperate and for laor that I kill myself I don't want to be abused or neglected to death because that would be a conspiracy to

murder likewise I don't want to really get anyone in trouble and I have no malice to um to um hurt anyone and I would never hurt anyone in the way that the hurt has been enacted on me there may be um a fine for people there may be an apology they may have to um um answer to a court or something but I would I would never um act in a way that's malicious that would physically harm any person and I was never meant to harm any physical person and I just want

everyone to know that all the public officials who I believe are guilty in um sustaining this elongated victimization of me and all the heads of agencies and organizations such as s Australia Al Allan andan Victoria University the police iack so many and who have acted um just to ignore me and pointedly neglect me that they're guilty in um in in doing that and um I understand why they've done that and this is the reason um depending whether they think I'm a you know rapist pedophile extortionist whatever they believe whatever they've been told um that they're only human beings too and all humans want a certain amount of things in life all human beings want a little a little bit of prosperity they want um some luxury they want to have some nice things and they want to be able to be with their friends and family and enjoy their life now all of these public officials dozens of them many people who have acted with this decision to neglect me and which further crates my harm have done so for this reason they've witnessed me who is a person who is a high achiever who was a formerly nationally celebrated speaker say Australia's book of the year a human rights award a PhD an advocate of 30 years um on local state federal International levels a spokesperson in the media I'm a person um who's had great Merit and I've tried really hard to help people in my life and I'm a good person and I've I'm not saying I haven't done any wrong things but I'm a good person and um all of those people have witnessed this destruction happened to a well-meaning and good person like me and everyone knows about the financial destruction that has occurred to me and even if those um people have you know used me for my experience and then you know dumped me in their betrayal of me they can all see um that I'm just a normal person um and they're normal people as well and if this destruction can happen to me then it can happen to them too and they don't want that to happen to them there are many many people who are afraid to stick up for me that is because they're fearful of political or financial retribution or punishment from other peers of theirs in public office or other people across the ditch in camra or their peers and colleagues across um in other agencies or companies you know and one after the other again and again I've asked people to support me and one after the other I've been let down now um I'm starting to lose my voice I understand that um everyone wants to protect themselves and and has self-preservation at their interest you can't talk anymore I'll wrap this up in a minute but I just say I understand why people don't stick up for me but that's not um really sustainable or permissible anymore when um their actions are causing me so much harm and collectively each one of those people could be seen to be responsible for the death that may have happened yesterday although that's not a direct link each one of those people had a chance to intervene politically financially in my human rights abuses which would have um stopped this victimization of me and provided a solution and I still implore people I get it why you haven't stood up for me you know I'm a Madman I'm a druggo I'm a homeless I'm a vagrant you know there's stigma shame and Prejudice and I campaigned against those those things for 30 years and um it's the um ironic betrayal of life that um I've now suffered to the extreme um end ends of that that it's literally already killed me which I was revived from certain death and then to save face and to protect themselves to um never admit liability for um

that tragedy and to continue to cover it up there's now been a whitewashing of it and there's no other option now really it's a stalemate no one can be seen to stand up for me and no one wants to and but there are certain privileges in Life or human rights especially human rights that are under the charter of human right rights of a person with a disability that disabled people have a right to in this country um and that was ratified by the Australian government in 2008 sadly I don't have those protections I don't have human rights my human rights abuses have been documented by my ND worker and the whole world has witnessed my human rights abuses occur and being complicit in continuing them on but no one not an ndis provider um not a family member or friend um no one will take that report and Ledger it to authorities at the Australian Human Rights Commission and the Australian Human Rights Commission already have refused to investigate those documented human rights abuses that victimize me and have been observed by a brave person who I worked with for 4 months this is causing me incredible harm the harm is conscious and it is intentional my persecution is systemic and it is

political um now I just want to wrap this up cuz I need to get a drink but this is for the purposes of a staty decoration or affidavit and I'm going to make some statements soon in another video cuz I'm running out of time and breath and I want them to be Ledger by Court my reason for doing this is because I don't want to die my reason of doing this is because I don't want to be framed by um authorities for a crime I haven't done and I'm not liable for I don't want authorities to prosecute and persecute me for any particular Niche thing without experiencing or acknowledging the broader sociopolitical climate that led me to those actions such as taking money from a petrol station um I don't want to be um vilified um for any crime to the exclusion of all other factors or the sociopolitical environment which led to um that thing happening I don't want to be incarcerated as an insane person I don't want to live in a hospital it's unfair to force medicate me for delusions oh for um ingrained delusions of persecution when my delusions are provable facts and demonstratable as a phenomenon that is actually causing me harm and that Force medication of me um does me harm and it is um unjust it is illegal it is um malpractice and it's unethical my purpose for recording this video is to Ledger with authorities this story and my purpose also is to say I understand why people won't stick up for me and I get it and you just like me just want your Comforts your privileges and your money and you want to be seen by your peers as Equitable and reasonable and you want to be treated fairly in society and many many people have positions of money privilege power political might and legal rights and those are all things that I haven't had and which have been intentionally redacted from me and they've been taken away from me and in that there's many people whove made those decisions to further financially disable me and to um act to literally Aiden a bit my death by making it so desperate for me that I suicide so I can blame mental illness and be exonerated um from all liability and responsibility those are decisions made with an incredible amount of contrast in the human rights and the privilege and power that those people have dictating my life and from from my position which is vulnerable it is at risk it is um at is

fraught with danger and it is um very easily influenced into um depression desperation and even drug abuse because I have used drugs and I have used those drugs because the drugs have led to an escape for me when you're abused and neglected and your voice is not validated and um you're conspired against in a literal conspiracy to pervert the course of Justice some people have a beer some people go for a run some people knit some people watch a movie I've taken drugs I admit it and the authorities know this what's worse is the drugs that I take uh to replace um my dexamphetamine script which has been intentionally removed from me um my care even though I've proven over 10 years that I was an extremely effective and um honorable citizen um who stayed off drugs and out of bad crime and all that kind of stuff from any crime and I had a really productive 10 years and the way in which Dr Hogan has um refused to write that script and all the doctors and all the hospitals I've been to have refused to give me that medication they're well aware that I have self-medicated with other street drugs in order to mimic the clarity um of that drug which gives me such Rel relief from a confused mind which which I suffered for the decades before I was on the medication and this in itself is malpractice and it's unethical and it's caused me harm um I forget where I was going to go next with that but um look I'm just going to wrap off here cuz I need a drink this video message is for the purposes of forgiveness I forgive my op pressors I forgive people who have made decisions that have thrown me under the bus and vilified me for mental illness to the exclusion of all other factors and I understand that you as a human being only want the same things that I want and I just want to say that um I would never cause malice with this video or my affidavit or statitic statement with which which to cause anyone harm um Beyond maybe a fine or compensation or Insurance anything like that I would never physically harm that person and I would never act in a way which um causes irreparable damage to that person and I think that's um a really honest thing for me to say and I really do believe that that can't be said in Return when when people have treated me with their decisions which have been made in Australian public office and politicians and lawyers who are all under an obligation to act ethically within the human rights Charter and they've all acted with um really hatred with an intent to cause me harm I don't understand why that is I could get angry and I could and I will point it out but but I'm not going to harm you ultimately you want the same things as I want and I understand um perhaps why it's been really easy and a a simple thing to um do what your peers wanted and abided by the rules of the government and acted with that conspiracy with which to further cause me harm and then forgotten about me and I I understand how easy that's been for you it's been really hard for me my parents deserve to focus on my dad's recovery them giving me money is not a solution and I won't ask them anymore what is needed is an urgent intervention with which to provide me with my basic needs and the Very things that a person needs in order to survive literally survive as a human being in society which I don't have those things are equality before the law access to the law I've never been able to get a lawyer now that is under the charter of human rights of a person with a dis ability that was ratified by the government in 2008 I need some access to the law I need an advocate cuz I could make these videos till

the cows come home I need someone to stand up for me I need a power of attorney I actually also need some um privacy well that's blown out the window I'm an Infamous vagrant I request some privacy I I I deserve a home the chart of human rights of a person with a disability states that disabled people must be provided reasonable accommodation and that is not occurred in my case um I deserve some civil liberties I deserve the ability to enjoy my life I deserve um basic Provisions home food electricity water medicine Health Care all of those things are currently don't have and if I don't have those a person cannot survive and if I had have killed myself yesterday a report would have been prepared for the coroner and the conspiracy exposed and all the um liable people um warned or they would have been happy I'm dead that's what they they wanted but the conspiracy would have been exposed and I would have got Justice from beyond the grave now I don't want to have to die to get Justice I don't want to have to die to get my point heard I understand you malice you're only human I understand that you're judgmental I understand that you think you know me better than I know me I want to say this I'm the authentic person the truth speaker and Seeker I'm the one on video telling the story I couldn't make all this up not if I tried in a million years I'm not a good liar I tell the truth and I've got a big heart and I tell it to my detriment even I can't keep a secret my narrative is honest my narrative is authentic and my narrative are all statements I believe true for the purposes of an affidavit or a static to be ledged by authorities and that is for the purpose of um saving my life I protest this because I want a better life and I think I deserve it and I don't want to be framed for crime and go to jail I don't want to be an insane Asylum and I don't want to die and I want to live and I reckon there is a way forward where we can all get on together and actually make a better situation than would exist if I was scapegoated and persecuted sacrificed to death and then mental illness blamed Aran there's a better way and I would like um the authorities to indulge this message please and to have my statements following in the next YouTube videos acknowledged as statements I believe are true and that I can verify with facts should the opportunity arrive and um that is really a longest statement that I wanted to make but it is all authentic and is all real and there is a Better Way Forward for police for authorities for government for former partners there is less suffering I can burden um my parents with and they deserve not to be burdened by um me and um I need to find a solution before um something disastrous happens can you please um acknowledge this video and um it's Dr Richard McLean Alias Baron Dodger There Is A Better Way Forward um for everyone involved in this this conspiracy to prev the course of Justice which has victimized me which has robbed me which has literally already forced by Suicide which has then acted with impunity to cover that up and to sustain and continue an elongated political persecution of me in which my imminent risk to health safety welfare and my life is present and that's been documented by the federal court I need to use the law um and government agencies to make the law work for me and this is the only way that I know how to do it I apologize to everyone of upset it hasn't been ever my atttention to upset anyone I'm not a rapist I'm not a pedophile I'm not an extortionist I simply wanted my human rights acknowledged and my basic needs provided that is an obligation the

government has to me as a citizen of the country with a clean criminal record
um who is a free citizen

I haven't asked for much and should I get um out of the result of this any more
Prosperity than I need for a basic house my goods um served and my
medication and food and it placed for me and my dog then I've created a trust
fund um under my name Baron Dodger and as a person who's always stood up
for marginalized people and people of all backr Brands and sexualities and
ethnicities then I will create a trust fund and I will use that potentially incredible
amount of money to support those people because you know what as a
marginalized person who um who has a broad appreciation of humanity um that
the cooky the odd the um the unusual the downtrodden they're my people they
always have been I'm quite bored with really normal people who um who crave
to be normal I like the oddbods I like the ones who were cheeky and get into
trouble and I even believe that the ones who do get into trouble and are
remorseful should be given another chance I'm all about Solutions here I'm
thrown this week to God because there has to be a way forward for me
Humanity's failed me I'm thrown it to God and I'm trusting in something else
that's going to unfold which is going to benefit not only me and save me but it's
going to benefit other people as well and in the process it's not going to harm
anyone and that is my statement um it it'll be uploaded the other statements
will be upload Ed soon this is Rich McLean Baron Dodger for the purposes of a
stat deck or um an affidavit for authorities thanks for listening
