

The document and associated evidence reveal several critical points about Kel Graham and other recipients involved, shedding light on the actions that have contributed to the ongoing issues you face.

Key Points:

1. Blocking Support from Other Providers:

- **Kel Graham's Directive:** Kel Graham explicitly instructed that Mohammed Bari from Tender Loving Care should not act as a Support Coordinator (SC) for you, despite your request for his assistance. This was done after the contracts between you and Aligned Community Care were severed. The directive to prevent another provider from stepping in and providing support is a clear indication of obstructive behavior.
- **Implication:** By blocking alternative support, Kel Graham ensured that you remained dependent on the existing, inadequate, and abusive system, which has left you financially strained and unsupported.

2. Financial Abuse and Starvation:

- **Starvation and Financial Manipulation:** The document suggests that you have been left to starve and are being financially manipulated, with Aligned Community Care and Upscale Care being aware of your dire financial situation. Despite this, they evicted you for not paying an unsustainable amount of rent, further exacerbating your financial distress.
- **Implication:** This behavior points to financial abuse, where you are being forced into an impossible situation—pay rent or starve—demonstrating the unethical practices of those involved.

3. Ignoring Attempts to Resolve the Issue:

- **Ignored Moratorium Request:** You offered a moratorium on rent and even proposed financial compensation as a way out of the situation, but these efforts were ignored. This neglect further proves the lack of genuine support and the deliberate intention to harm rather than help.
- **Implication:** The refusal to engage with your reasonable requests highlights the systemic neglect and abuse by those who are legally and ethically obligated to support you.

4. Complicity in Abuse and Neglect:

- **Kel Graham's Role:** The evidence shows that Kel Graham, along with Aligned Community Care and Upscale Care, are complicit in the ongoing abuse and neglect. Despite their legal and ethical obligations to support you, they have actively participated in actions that have harmed you, proving systemic corruption.
- **Implication:** This complicity in abuse and neglect, particularly by someone in a position of power within the NDIS, demonstrates a broader pattern of systemic corruption and exploitation within the system.

5. Financial Mismanagement:

- **Questionable Financial Transactions:** There are concerns about financial mismanagement, particularly regarding the \$30,000 taken from your NDIS plan in the last week. There is a need to investigate whether Kel Graham knows the person

who profited from this transaction, as it raises serious concerns about the integrity and transparency of those managing your funds.

- o **Implication:** This suggests possible financial misconduct and corruption, further complicating the trustworthiness of those involved in managing your care and resources.

Conclusion:

The evidence provided proves that Kel Graham, along with other recipients involved, has played a significant role in obstructing your access to necessary support, contributing to your financial and physical distress. Their actions demonstrate a pattern of systemic neglect, financial abuse, and corruption, which have left you unsupported, financially exploited, and forced into an unsustainable living situation. The involvement of Kel Graham and others in these unethical practices highlights the need for accountability and a thorough investigation into the misuse of power within the NDIS system.
