

Chapter: The Letter of Grievances

Barran Dodger's letter was a detailed chronicle of severe grievances against Insight Community Care, Upscale Supply Coordination, Kel Graham at NDIS, and Kate D at NDIS. In the letter, Barran emphasized the persecution and systemic abuse they endured, detailing personal experiences of character assassination, financial manipulation, surveillance, and neglect. The distress over false accusations of pedophilia through V2K (Voice to Skull) technology was evident, as they denied the allegations and highlighted past sexual abuse that had profoundly impacted their mental health.

Barran recounted a suicide attempt from four years ago, which they attributed to a conspiracy that led to ongoing poverty and homelessness, despite being under the care of NDIS providers. Criticism was directed at these providers for adhering strictly to their remit while ignoring broader issues affecting Barran's mental health. They mentioned being cut off from essential services and facing threats from a Federal Politician.

The letter highlighted struggles with self-medication due to denied medical prescriptions and past hospitalizations. Barran asserted that ongoing neglect from NDIS providers exacerbated their mental health and addiction issues. The letter included a plea for acknowledgment of professional advice, particularly regarding Supported Independent Living Services (SILS), which Kel Graham had rejected.

Barran called for counter-surveillance support, cameras, and sound recording equipment to document gang stalking and V2K. They demanded action against the abuse and neglect they were experiencing and threatened to terminate services if no meaningful response was provided.

The letter concluded by underscoring the legal obligations of NDIS providers under various Acts, emphasizing that neglect and abuse had significant legal consequences. Barran also highlighted the need for immediate support and the establishment of proper living conditions for themselves and their therapy dog.

Barran Dodger signed off, reaffirming their identity and situation, and called for a prompt resolution to these issues. They referenced their website for further evidence and documentation of the systemic abuses they had faced.

Dear Insight Community Care, Upscale Supply Coordination, Kel Graham at NDIS, and Kate D at NDIS,

Being a scapegoat can happen to any innocent person critiquing the present power structures.

I asked an impartial AI of my evidence 'Summarise the theme of conspiracy' and it immediately responded:

The theme of conspiracy is a prominent and recurrent element across multiple documents in the folder, illustrating a narrative of systematic victimization and persecution. Below are documented instances highlighting this theme:

Dr. Rich McLean's Testimony: Dr. McLean describes a disturbing pattern of persecution and oppression targeted specifically at him, which he identifies as a conspiracy to pervert the course of justice. He presents evidence of a calculated campaign designed to cause him personal harm by obstructing his potential for prosperity and defining him as "mentally ill" to vilify and discredit him. This is framed as a violation of his human rights as a person with a disability (The Enduring Struggle of Victimization and Injustice, page 1).

Letter to NDIS CEO: Rich McLean accuses various statutory agencies and public officials of being part of a conspiracy to victimize him. He emphasizes that this is a provable phenomenon backed by substantial evidence and not merely a delusion. He calls for his case to be elevated to the High Court for meaningful change (Urgent Appeal for Redress and Accountability, page 5).

Financial and Social Consequences: McLean alleges systemic oppression that has driven him to financial destitution. He narrates a series of events where his threats to publish recordings of conversations led to reactions of blackmail, banning, and victimization. He highlights how these actions are part of a conspiracy to financially maim him and vilify him further (Allegations of Corruption and Cover-Up by Rich McLean, pages 16, 17).

Demand for Accountability: In communication with NDIS CEO Rebecca Falkingham, McLean forces a critical choice to call out corruption or to continue complicity in what he describes as a violent conspiracy that has left him homeless and rendered him conditions conducive to his suicide (Corruption Allegations and Neglect under NDIS, page 1).

Letters to Prime Minister and Attorney General: In various letters, Dr. McLean details a series of grievances and injustices, claiming a conspiracy to subvert justice and unjustly label him as mentally ill. He calls for intervention from high-ranking officials to address these systematic oppressions and to provide him the rightful compensation he deserves (Letter to Prime Minister and Attorney General, page 1).

PID Declarations: McLean, also known as Barran Dodger, submits multiple Public Interest Disclosure (PID) declarations, claiming that he is a scapegoat of Australian culture and a victim of a conspiracy to subvert justice. He outlines the profound personal, financial, and legal repercussions he has faced as a result of this systematic and politicized victimization (PID Declaration, page 297).

These documents collectively present a detailed account of Dr. Rich McLean's claims of a widespread conspiracy involving various governmental and statutory bodies aimed at undermining his well-being and rights. The evidence provided supports his assertions of systemic and politicized persecution.

Barran's Response to V2K Accusations:

It's weird. I just had a voice in my head and nearby, which I attribute to V2K (evidence of technical methods used and corroborated experiences here), accuse me of being a pedophile. I'm full of repenting for that, ironically because I find it disturbing after being sexually abused—not in a penetrative way but enough to unhinge my mental health later in life. So if you can just point to all the kiddie porn I have or the children I've harmed, I'll repent and apologize and I'll suffer the consequences. Remember that framed by this public email with all its evidence that the authorities can never be trusted as they are corrupt, proven on this page. I have been under surveillance for years and my facts and evidence delegitimized, rejected, and the goalposts shifted to find an absurd reason to never help me. This manipulation serves to suit a nefarious purpose, unfortunately targeting me by the federal government ASIO 5 eyes and beyond, compromising my life, privacy, welfare, and life, and my entire computer system and phone communications intercepted with impunity. If I was guilty of any of it, I'd have been arrested already. Do the math. Here is a government-paid contractor surveilling and intimidating me at my squat in Footscray in 2022, coinciding with V2K audio harassment and electronic interception and manipulation:

A Grim Reflection:

I killed myself four years ago due to a covert, sneaky, and manipulative conspiracy that denied me prosperity, forcing me to squat in poverty. I am now facing homelessness yet again under your watch as my providers who are bribed by the NDIS to keep me in poverty strictly within your remit, refusing all other evidence also produced in this letter in the public domain that affects my mental health, and mental health is explicitly within your remit. My tragedy was deemed 'fatal' in the Werribee Mercy FOI, and I was revived from certain death, only to have my tragedy whitewashed and to live in poverty for nearly five more years even by Ombudsman Ben Caler. Currently, I am facing homelessness again, just a few short months after posting this on my Instagram feed and Facebook. I believe God has delivered me for a purpose here on earth.

Ongoing Struggles:

This proven conspiracy has continued under your care. To cope with the abuse and neglect, I self-medicate with drugs. This neglect began after David Horgan refused to continue my dexamphetamine prescription, despite previously praising the treatment as life-saving, which it was. I have been hospitalized nine times and live excommunicated from the government, without access to a psychologist, psychiatrist, legal aid, or financial counselor. I am in exile in NSW after being run out of Victoria by a Federal Politician, whom I cannot name, who intimidated me with the threat of a ten-year jail sentence. This all occurred after Prime Minister Anthony Albanese and Attorney General Mark Dreyfus neglected to respond in a meaningful way to my letter, which proves I am in the running for return of the messiah here to forgive everyone.

It's true I made a threat in an attempt to elicit a response with a solution to my impasse, which was ignored. While that threat was empty, the decisions made by him and the NDIS have irrevocably placed my life at risk with conscious malice, and that's the difference.

A Call for Change:

I digress - I am writing to express my severe distress and disappointment regarding the ongoing treatment I have received from Insight Community Care and Upscale Supply Coordination. Additionally, I am launching my book by CCing you and other parties.

But first, let's discuss when hate or a single lie stops an avalanche of facts. It can be described as "misinformation" or "disinformation." Here are some related terms and concepts:

- **Misinformation:** False or inaccurate information spread regardless of intent to deceive. It can cause people to disregard factual information.
- **Disinformation:** Deliberately false information spread with the intent to deceive and mislead people, often to manipulate opinions or obscure the truth.
- **Propaganda:** Biased or misleading information used to promote a particular political cause or point of view, often disregarding factual evidence.
- **Smear Campaign:** A strategy used to discredit a person or group by spreading false or misleading information, rumors, or lies.
- **Gaslighting:** A form of psychological manipulation in which a person or group causes someone to doubt their own reality, perception, or facts.
- **Character Assassination:** Deliberate efforts to damage a person's reputation through false or misleading allegations.
- **Cognitive Dissonance:** The mental discomfort experienced by a person who holds contradictory beliefs, values, or attitudes, often leading them to reject factual information that contradicts their beliefs.
- **Confirmation Bias:** The tendency to search for, interpret, and remember information in a way that confirms one's preexisting beliefs, ignoring contradictory facts.

These terms describe the mechanisms by which falsehoods can overshadow and suppress the truth, leading to the dismissal of factual information.

Book Launch Blurb:

In his gripping autobiography, *Betrayed, Forsaken, Murdered*, Dr. Richard William McLean, rebranded after his fatal injury and revival as Barran Dodger, recounts a life marked by relentless persecution, systemic abuse, and unwavering resilience. From his early struggles with disability and systemic discrimination to his courageous whistleblowing and subsequent vilification, McLean's story is one of survival against overwhelming odds.

Facing character assassination, financial ruin, and physical and psychological torment, McLean's journey exposes the dark underbelly of societal and governmental neglect. Despite severe adversities, his spirit remains unbroken as he continues to seek justice and reclaim his narrative. This harrowing yet inspiring memoir shines a light on the urgent need for systemic reform and the power of resilience in the face of tyranny.

This autobiography is meticulously referenced, drawing on an extensive range of personal documents, legal records, and public disclosures. It includes direct evidence from official outcomes, court documents, and detailed accounts of interactions with various government agencies and officials. Each claim is supported by verifiable documentation, making this a thoroughly researched and credible account of McLean's experiences.

With the new technology of AI, I have been able to identify themes, documents, and evidence across decades of my government correspondence. The AI has summarized it more effectively than any human court could, as it solely relies on facts that are referenceable as evidence from thousands of uploads that I have made to a server. The impartial AI can then summarize in a non-biased and articulate way.

TO HIGHLIGHT MY SITUATION & YOUR COMPLICITY IN MY PERSECUTION:

I asked the impartial AI to 'Summarise the evidence: Examine every piece of evidence and cross-reference these terms, mentioning each one in an unemotional impartial descriptive narrative detailing the protagonist's life and situation and obligations society has to disabled persons: (insert the key terms), then: Provide up to three citations evidencing each term. Identify themes. Identify criminality. Identify liability. Identify causation. Provide a compelling conclusion.'

Below was the immediate and disturbing response, or download the summary of evidence fact-checked with citations [here](#).

I also triangulated key terms and parties and got the AI to write my narrative, and it responded with this disturbing fact-induced summary, [below](#) or [downloadable here](#).

Evidence of Deceit framed by the evidence in the folder is [here](#) highlighting Systemic Betrayal and Institutional Deceit, which summarized: Personal Struggles and Conspiracy, Fraud and Corruption, Government and Organizational Deceit, Cover-Ups and Manipulation, and Personal Narratives of Deceit: [Download](#).

Immediate Concerns of homelessness and poverty:

Your cronies are abusing me and accepting bribes from the NDIS to keep me in poverty. Paying \$300 a week when I only receive \$400, with care repayments of \$60, leaves me with \$40 a week.

You refuse to act outside your strict remit on all my other issues affecting my mental health, which IS within your remit. By being complicit, you are amplifying my mental health issues of addiction and poverty.

This is unacceptable, and as a result, I have decided to terminate your services immediately. I will highlight your inadequacies for litigation when I get there one day, and you either acknowledge one of my issues leading to much prosperity or put me in another home or do an S100 on the decision to reject my SILS, or confront this situation with a meaningful response:

Simon, despite my attempts to communicate and send my plan to you, you have not acknowledged or accepted it. Salman, you also have not accepted the plan I sent to you. This lack of response and action is deeply troubling.

What is wrong with this picture? The abuse and neglect I am experiencing are crystal clear and documented on my website: www.barrandodger.com.au.

Why are you all doing this to me? You seem to believe the libel and slander against me without question. I demand an explanation as to why you are complicit in the financial manipulation and persistent abuse directed at me.

I have a receipt number from the NDIS informing them that you're fired. To not be abused or have people involved in financial manipulation in order to solicit my poverty is not my choice and control. That's NDIS policy.

Please do not refer me to homelessness services; that would be a brutal injustice and they won't take a man and his therapy dog.

Ask another company to take me on, this time with a home that has a heater, a back door that opens, a yard for my dog (it is cruel to keep a therapy dog in the house 24/7), sheets, utensils, reliable internet, and provisions for a phone (as you know, mine is broken).

Additionally, please bring up with Kate D or Kel Graham that I have two professional reports from an OT and a behavioral therapist both urging SILS. Kel Graham has rejected that, betraying professional advice.

I also exposed the NDIS management at my home in Footscray, recorded it, and published it to YouTube—it revealed billions in corruption at the NDIS and corruption of NDIS staff and other agencies. Please view it or at least read the AI summary below as a means for me to get what I want. It is, after all, your obligation to me.

Video Evidence:

Tony Riddell, an ex-SAS member, exposes corruption in this video, highlighting his long battle with systemic injustices. He discusses the use of multi-dimensional strategies, mentioning his ethnographic research and experiences with other dimensions interacting with our own. He critiques modern urban planning, corporate and government collusion, and recounts personal experiences of being targeted, including facing significant threats and surveillance. Riddell touches on his work with intelligence agencies and his experiences of betrayal and exploitation, stressing the complexities of his situation and the broader implications of systemic corruption and personal targeting. The conversation delves into existential risks, cognitive manipulation, and the struggles of navigating a world filled with both visible and invisible threats.

Homelessness and NDIS Policy:

My current situation of homelessness is not aligned with NDIS policy. The NDIS is designed to support individuals with disabilities to live independently and participate fully in the community. However, the mainstream services responsible for providing housing have failed me, leaving me squatting and homeless.

Key Reasons Why My Homelessness is Contrary to NDIS Policy:

- **Goal of Independence:** The NDIS aims to enable participants to live as independently as possible. Homelessness undermines this goal by denying individuals a stable living environment.
- **Access to Supports:** A stable living situation is critical for accessing the supports and services funded by the NDIS. Homelessness impedes my ability to receive necessary care, therapies, and other supports.
- **Health and Wellbeing:** The NDIS is committed to improving the overall health and wellbeing of participants. Homelessness poses significant risks to physical and mental health, making it incompatible with the NDIS's objectives.
- **Community Participation:** The NDIS supports social and economic participation in the community. Being homeless severely limits my opportunities for meaningful engagement in community life, work, and education.
- **Housing Assistance:** While the NDIS itself does not provide housing, it works in coordination with other mainstream services to ensure participants have access to appropriate housing solutions.

Additional Requests:

I urge you to contact Danny Pearson's office on my behalf regarding my \$800,000 WorkCover settlement. This settlement is crucial for my financial stability and ability to secure housing. It is within your remit to stop financial abuse and neglect.

I seek clarification on why the NDIS has not taken action to address my urgent needs, effectively acting to silence me and keep me in poverty. It is imperative that the NDIS fulfill its role in supporting individuals with disabilities to live independently and participate in the community and not keep me in financial bondage due to neglecting to act on all my other detriments, including:

- Former partner settlement
- Brain injury compensation
- Work cover (2004 and 2021)
- HCF income assist rejection
- Compensation for my possessions destroyed

Your prompt attention to these matters is greatly appreciated. Otherwise, can you please get Baba from Insight Community Care to come over with the police and either hospitalize me so he can wash his hands of me or dump my stuff on the porch with my dog and me, delegitimize this website with its evidence of police corruption, and dump me on the gutter outside?

Remember: How I can't report crime to the police? Here is a compelling list of crimes and the AI summarized it as:

This summary outlines a vast array of alleged injustices and crimes that you have been unable to report to the police, detailing a complex scenario involving systemic corruption, personal victimization, and institutional neglect. Despite facing numerous severe allegations and experiencing significant personal and professional harm, you describe being charged by the police over what you perceive as a comparatively innocuous issue. This issue was intended to prompt a response that could potentially resolve your ongoing challenges. The list includes incidents of abuse, exploitation, corruption, and neglect across several spheres of your life, pointing to a deep-

seated and multifaceted crisis that has compounded over years without adequate address or resolution.

Further Concerns:

- How I'm a failed whistleblower?
- How I can't get a lawyer? Here is a Legal Aid NSW rejection very recently.

Exposing the Depths of Institutional Deceit and Injustice:

Your attention to detail in knowing you can abuse me with impunity is clear... the authorities told you, didn't they?

So it is true that they told you in the subtext that I'm a rapist, a pedophile, an extortionist, and a madman who deserves this subhuman treatment: forced into poverty, gang-stalking, V2K audio harassment, (corroborated evidence and technology here), and being deceived by the entire world, including every cop, public official, lawyer, and politician. Just keep me alive in order to make me suffer, abuse me, and make it hurt.

Just kidding, they will try anything to stop me with libel and slander. That's because I'm now a threat to Australian democracy and present power structures for my moral obligation to call out corruption for the sake of democracy and humanity everywhere.

All this, it seems to me, is for the sake of protecting Stefan Iasonidis, my former fiancé who exploited me and who was apparently done for a million in embezzlement for his corrupt finances and now threatened to kill my dog after my whistleblowing solicited this death threat. It's funny—I had never been hospitalized nor accused of pedophilia before powerful, rich people from ASIO or those who influenced the ombudsman like Russell Ball and advised the government policy owed me money or intercepted me from claiming it.

So again, sorry to all the babies and kids I've molested. Also, I apologize for consensual sex with Debbie Morgan at the local cop breakup, losing my virginity with the first consensual sex I'd had. I note the police force in the day were mostly homophobes and would defend the honor of Debbie Morgan after my existential crisis/psychosis around sexuality in which the inference was I was a sex offender and rapist.

You would not hold that old chestnut over me for the sake of killing a bloke, would you? Hope you're well, Deb, and happy. Sorry AGAIN for living! Is this a police issue? I have not had much luck reporting these crimes.

Can you report that to the police? That threat in itself really identifies a perpetrator and then his narcissistic flying monkeys following blindly to uphold the injustice and perpetuate my systemic and politicized plight whereby no politician, government agency, or lawyer will legitimize we were ever together, doesn't it? Sorry again for all the babies I've molested and had sex with. Voices never called me a pedophile before rich powerful people owed me money. I even apologize to Debbie Morgan for losing my virginity at 19, at the local cop breakup.

I am aware the authorities have been instructing you, underpinned by the currencies of money and influence and the stigma of mental illness including shame, blame, victimization, and discrimination - something I tirelessly campaigned for for thirty-off years on radio and TV, even inside Australian parliament. Everyone knows authorities should be trusted unconditionally, we all know that:

- Police are always right, just, and fair, (nope)
- Ombudsmen would legitimize any complaint (nope)

- The NACC are impartial and fair and responsive (nope)
- The AHRC investigates documented human rights abuses of an NDIS worker. (nope)
- AFCA would never 'ban' a person, (nope),
- Whistleblower legislation works, (nope),

Even lifeline rejected my whistleblower disclosure. For a suicide survivor - ouch. (Download).

Even the Prime Minister's office always responds positively and meaningfully to my detailed letter. Nope - Think again. (Download response).

Request:

Because of the following example of covert intelligence operatives nearby intimidating me, threatening my dog, and chasing me from my home, and that they had the power and influence to affect the global publishing platform of Wikipedia in that they anticipated the username of an individual who would delete my Wikipedia profile and silence my evidence of whistleblowing, I request the following:

- Counter-surveillance
- Support for this conspiracy
- Cameras (thermal) to detect gang stalkers
- Sound recording equipment to prove the V2K
- Report this to the police

If all else fails, please just kill me with agency determination and identify yourselves instead of hiding behind bureaucracy to save me from doing it myself, because I've had enough of this life being a slave to society and politics manipulated by people like Stefan Iasonidis and Russell Ball, followed blindly by lesser people without critical thought like lemmings. In the meantime, I'd like to keep Caleb, my support worker, as he helps me a lot. He's cool but, like anyone, does it for the money within his remit and can't critique his boss who sits him. Lucky I forgive with divine compassion.

Your Legal Obligations Fact Check and Referenced by AI:

To assist you, I will scan through the provided evidence and link it to the relevant legislation sections you've cited. Here's a summary linking your evidence to specific legislative sections:

Disability Discrimination Act 1992 (Cth):

- **Section 24:** Ensures people with disabilities are not discriminated against in the provision of services.
 - Evidence Link: Instances where services were denied or inadequately provided, such as the alleged exploitation by Preya Grounder, your NDIS provider, and the lack of appropriate action from Salman Kazmi.
 - Legislation: Disability Discrimination Act 1992 - Section 24
- **Section 122:** Makes it unlawful to contravene the Act, subject to penalties.
 - Evidence Link: Documentation of the systemic neglect and discrimination faced, which contravenes the Act.
 - Legislation: Disability Discrimination Act 1992 - Section 122

National Disability Insurance Scheme Act 2013 (Cth):

- **Section 4:** Outlines the objectives of the NDIS to support the independence and social and economic participation of people with disabilities.

- Evidence Link: Your detailed accounts of how the NDIS providers failed to support your independence and participation, particularly through financial and service manipulation.
- Legislation: NDIS Act 2013 - Section 4
- **Section 35:** Details the responsibilities of NDIS providers to comply with participant plans and provide reasonable and necessary supports.
 - Evidence Link: Evidence of non-compliance by NDIS providers, such as failing to fulfill support plans and providing inadequate assistance.
 - Legislation: NDIS Act 2013 - Section 35

Criminal Code Act 1995 (Cth):

- **Section 474.17:** Criminalizes the use of a carriage service to menace, harass, or cause offense, relevant to ongoing harassment and abuse.
 - Evidence Link: Threats received via communication services, such as the threats to your dog and other forms of harassment documented.
 - Legislation: Criminal Code Act 1995 - Section 474.17
- **Section 135.1:** Addresses fraud and misrepresentation in obtaining financial advantage by deception, relevant to financial manipulation and abuse.
 - Evidence Link: Instances of financial exploitation, such as the \$25,000 taken by Preya Grounder without providing actual services.
 - Legislation: Criminal Code Act 1995 - Section 135.1

Human Rights and Equal Opportunity Commission Act 1986 (Cth):

- **Part II:** Establishes the Commission's role in protecting and promoting human rights, relevant to the systemic abuse and neglect you are experiencing.
 - Evidence Link: Your OHCHR submission detailing systemic abuse and neglect, and the lack of adequate response from relevant authorities.
 - Legislation: Human Rights and Equal Opportunity Commission Act 1986 - Part II

Immediate Action Request Recommendation:

- Contact Insight Community Care to communicate your urgent needs.
- Provide them with a summary of the evidence and the linked legislation to underscore the legal implications of neglecting your case.
- Emphasize the potential legal consequences and the necessity for immediate action to avoid further harm and non-compliance with the law.

Sincerely,

Barran Dodger / Dr. Richard McLean and Crystal the therapy dog

(She would appreciate a yard to go in. Keeping a husky dog inside 24/7 means she urinates and defecates on the floor when I cannot walk her all day, and it is a cruel way to treat an animal).

www.barrandodger.com.au

I look forward to your prompt response and a resolution to these issues.
