Need input this letter

Dear [Recipient's Name],

1. Letter
2. Blurb
3. Implicated people and ins=titutions

I am writing to seek your feedback and assistance on a critical matter. I need legal help.

What's more dangerous than my situation is the tyrannical government targeting me, earmarked for destruction. I have already died once from this and was revived, with my tragedy being whitewashed.

Now, consider the dangerous idea of murdering an innocent civilian who is now a refugee and asylum seeker within the democracy of which he is a citizen.

I have provided an impartial AI's summary of the document, which impartially summarizes my thousands of documents through an AI chat bot.

This summary is impartial and based on facts alone, making it more accurate than a human court, which is prone to corruption, as mortal people are its actors.

I am seeking help. I am surrounded, squatting as an infamous vagrant, and the only people legally obligated to my care are also my abusers, complicit in this conspiracy to keep me in designed poverty. No one wants to be the one to be the axle grease that gives me justice. I have already demonstrated that I will call out the corruption. Powerful people are protecting their money and reputations, and now I am a liability to the federal government for calling out corruption at the highest level.

There is a small voice now narrating my writing of this letter with malicious accusations of rape and pedophilia. These voices are a torture technique of ASIO V2K covert technology. It's the last way that malice can fabricate evidence or lack of it in order to destroy. Authorities should not be trusted. After all, where is their YouTube channel? I speak the truth and seek the truth.

This bubble has to burst soon. I am just about to publish this book and risk jail. I need advice. I am also an asylum seeker and economic migrant inside the limits of where I can migrate to and an asylum seeker inside the democracy I am a citizen of.

I mean no harm, unlike the harm that has happened to me over decades in my financial abuse, character assassination, humiliation, and targeting. I say sorry a lot. No one has said sorry to me. The harm occurs to me from every single person, and honesty is absent while deceit and corruption are rife.

I appreciate your time and attention to this matter and look forward to your feedback.

Sincerely,

Barran Resonance Dodger (Dr. Richard William McLean)

Ramp up the attacks and start to tell every one you are "crazy" for thinking they are stalking you, which they are. They paint you into a corner of isolation. Best thing to do is ignore them in public. Do not over react, because that just gives them more excuse to call you crazy. They will get people who are NOT aware of the stalking torture, to do things that make them appear like they are. So then you go around accusing everyone of stalking you, when they are not. That is how they get you. By creating so much confusion for you, and those you know, to a point, no one knows what the hell is going on.

I need to talk to you about torture.

I need your amazing brain intellect and knowledge.

I need that. To blow this wide open and be safe.

I'm locked inside a surveilled house and surrounded and everyone is in on it.

The last remaining people in my life are the NDIS and providers. They are the ones abusing me. NDIS minister Bill Shoeten threatened me with ten years jail and complicity from police hospital healthcare.

I live in a state of utter confusion and rational paranoia in exile in NSW

Yea.

We need to talk before I'm murdered with neglect and abuse

It has malice my suicide attempt that was fatal I was revived from and whitewashed was murder

Dear Tony,

Why isn't your email address a .vic.gov.au or .gov.au? Right this second my phone is intercepted and the V2k harassment has told me in my head, "he knows, we know!"

What do we know?

How do we know what we know?

What do you know?

How are you and your life narrated into my V2k harassment right this second?

Is this fated? I know how it ends I've died before.

I am writing to you with a heavy heart and a mind clouded by uncertainty. I tried to protect you through my whistleblowing efforts. However, I was never sure if you were an operative sent to interrogate me or a spy, as everything seemed too coincidental. It's true that I recorded our interactions and published them. My hope was that the corruption you uncovered would help lift me out of poverty. Unfortunately, I have lost access to that YouTube account, and my emails are intercepted. I have been brutally persecuted for years; the systemic and political neglect is malicious.

My malice towards you is only evident in the act of publishing our encounter, which was authentic and kind. During that time, I offered my story freely, and you were happy to exploit the situation. Despite working for the NDIA in a role investigating corruption, you suggested I seek welfare or a soup kitchen. I do not believe you harbored any malice towards me. You were primarily interested in sex and connection, which is clear from the recording. My reality has become so warped that I record life sometimes to confirm its authenticity.

I am still unsure of your intentions. I am crazy—they made me crazy—and you amplified it. I am sorry if I have hurt you in any way. My hope was that the publication would have brought you just compensation from the government, rather than working for them as a pawn or a slave. You deserved better for your service to the country, and I still believe that.

I wish I could wave a magic wand so that no heteronormative culture or relationship would be critical of the queer community. We are not hurting anyone, at least not with malice or intent to cause harm. I am utterly confused. I lived in my car for months and years under the care of the NDIS, an organization you claimed to investigate for corruption. Despite being aware of this, you had sex with me and then left me, just like the world did, to face nothing. Sometimes, we make strange bedfellows in life, and that's part of the cosmic ballet that's interesting.

Your professional work in institutional complicity, the law, and existential risk blows my mind. You made yourself vulnerable, that is if the encounter was authentic and not a setup, which I still cannot deduce. I'd love to find a solution where we both get what we want without lying or being deceptive to anyone. However, I understand that conflict often creates the essence of rock 'n' roll—the songs, the heartbreak, the tunes we love. The friction between the tensions of life, lust, companionship, and belonging—maybe that's all this is, another rock 'n' roll tragedy.

Hope you and yours are well if you can't help me please don't hurt me.

Sincerely,
Barran dodger
