Dear CDDa

My name is Dr Rich Mclean and I have been blacklisted and gaslighted or banned from contacting federal police.

This extreme form of systemic oppression has desecrated me my life and actually was complete in my murder and the cover up of evidence that was to be before a court - that is still silenced, however I have been framed maimed scapegoated set up followed intercepted and more

I have multiple mental illnesses - and now even the AHRC or VHREOC (The Commission) will stand for me.

There is now a cover up of my fatal injury resulting from years of systemic oppression by the HCC the police, federal police, they MHCC and the office of the information commissioner and also Ben Calder the Ombudsman.

The CEO of the hospital was so delighted that my murder had worked - but then I was saved from certain death, that he baited me to sue him personally for the entirety of the acknowledged wrongdoings with an audacity and a level of confidence that is

simply evil.

He dryly told me to sue him directly - with utter contempt for my survival and my worth which has echoed throughout the government halls agencies asio federal police and auspices institutions statutory authorities

You cannot take my soul - and I died for an ethical cause and worked for 25+ years in altruism for marginalised people

If I lose this I will die

If I win I will help more people than the Government ever did

I have created a website you will need to acknowledge. It is embargoed until I release it.

It is at

www.killhim.info

I follow now with a letter to the NDIA who instead of reacting Tomy potential compensation - sent the police, and their hands are tied, and they consistently threaten me with incarceration.

It is a fate ZI wish to avoid at all costs, and I want indemnity from being set up (I have evidence I have been and am), and any litigation held against me.

I ask for PID

And whistleblower status.

This is now officially in writing for IBAC and also ASIC who I will also

send this letter to.

Now a summary of the letter that is backed up by watertight systemic oppression that was a conspiracy to murder and then the cover up and the framing and further I seek protection food and shelter.

Dr Rich Mclean

Hi Nicole at the NDIA

I am also forwarding this thread to

Info@ibac.vic.gov.au

And

Compensation under the CDDA scheme

CDDA-Claims@afp.gov.au

For compensation relating to me trying for years to report this systemic corruption that is above and beyond what a federal Police officer can give traction on-which has led to my systemic oppression via framing, and conspiracy to murder, in Weribee hospital, via an agreed illegal contraband, and rejecting the duty of care and abandons the human rights charter

It is noted that Ben Calder the Victorian ombudsman silence the fatal injury, and is aiding and abetting my death via the further desecration via

Micron21 my web hoster which has destroyed my business my evidence before litigation and additionally my personal intellectual IP and photos love letters and every imaginable login to do with my business (The website name is also the official ABN of my business that ran through the website www.richmclean.com.au)

I have attempted to email Micron 21 too, although they blacklisted me desecrating me in a way which they believe they are untouchable

Ben Calder is also emailed

It is noted I made a complaint about ben but it had not been acknowledged

It is noted that I made a complaint to business.vic.gov.au and it went nowhere

It is noted that I made a complaint to the smalll business and family ombudsman that too had zero effect

It is noted persons of officialdom and respectful positions in public service as ombudsman's have also aided and abetted My electronic and business destruction

This includes a VOCAT lawyer Brian Burton and it is noted in both a violent assault for VOCAT I was the victim of and my own child sexual abuse case where I was the victim the magistrate ruled that I was quite "doomed to fail from the start"

All of this lifetime has perplexed me until I found I was framed by dr Whitaker's lawyer Mr Ball

I must end this email now as police Here

I asked you as a representative of the NDIS/NDIA to intervene in this heinous conscious and malicious systemic conspiracy that has resulted in my fatal injury

You did not respond to me-but called the police to my door

This was utterly pointless

You must have, or they framed it, like I was in need of a "welfare check"

That is what they did

The powers that he know all too well about my murder that I survived

Following that they know about the systemic silencing and gaslighting that protects those in positions of POWER reputation and privilege

Even the ombudsman refuses to acknowledge my framing, the systemic abuse and persecution and oppression including the hospital and police that led to my likely death that was referred to as "a fatal injury"

Now, there is a conspiracy to pervert the course of justice that I am after if you are now complicit in

I write for these reasons

1. Acknowledge this email immediately and address the concerns in the original email

2. Know that innocently or not innocently that you are not gaining traction via involving police
3. It is informing them of where I am at-and you have done this
4. It's victory or death. I am not afraid to die. I will however forgive everyone sparing them jail time and set everyone free if the will acknowledge by the symbolic gesture of compensation the crimes so abhorrent
5. If the first domino goes over, the whole lot comes crashing down like a house of cards. If you do not think that one person can have this affect-the Dalai lamas said have you ever tried to sleep in a room with a mosquito?
6. If and when I reach that point, I will be compensated and I will no longer require the services of the NDIS as a drain on the public purse
7. Until then, the movement already made me lose My job and become bankrupt and I am squatting with nothing
8. Framed by the abject seriousness of the conspiracy that ended on my killing and then additionally the movement to whitewash it-what will the NDIS/NDIA do if anything at all to support me on this time
9. Is tte statutory authority of the NDIA allowed to accept a whistleblower complaint as a victim and a witness in which I will receive protection and my mad lies heirachy of needs Met? I suspect they are under the same auspice through which I am desecrated
10. I have forward tte thread of this email to ASIC who will have to acknowledge it as an official whistleblower complaint (I hope)

Otherwise I may physically die before justice and no one systemically

in this country want to hold a shard of the guilt of my death

Please acknowledge this email by the end of today with the point form questions answered

Thanks

Hi Nicole

I have urgent questions

I suffered a workplace injury

But I have also been framed and the centre of an elaborate conspiracy that is before IBAC and AAT and Police (the police are in on it)

I became ill from work because of the nature of caring for a sexual abuse victim for two years

I did his VOCAT case

But my two VOCAT cases were squashed

I was not believed and blamed and the police and the magistrate were corrupt

Income assist has refused and banned me

So has AHPRA the MHCC the HCC the office information commissioner the police federal police family court VCAT and many more

I am owed surely millions

Because I was aware of the abuse and I had overdosed due to malpractice (but I was framed), I complained of the conspiracy publicly

Many are guilty of perverting the course of justice a lot of statutory authorities and MPs

I was aware they were gaslighting and blacklisting me illegally
because I was framed

I did not know this

It drive me crazy

Due to no job and bereft of finances stressed I received zero
compensation and no insurance or workcover was paid

My family incarcerated me

My former partner was being protected as a murderer and used
coercion to keep me a financial and in sexual slavery

He took off with a million in super

Now I cannot get a lawyer

Anywhere

I have been rendered voiceless

When they illegally incarcerated me

I had no one else to trust I tried to tell them of the movement which
sounds unreal

They called me psychotic and demonised me but they knew

Having proven not one person was on my side and I was desecrated
in every way

I suicides the hospital FOI says it was a "fatal injury" I was found with no pulse

I was saved got golden staph and it was an agreed illegal contraband that rejects the human rights charter

Now another conspiracy is born - my systemic collective murder was not enough

Now they treated me with malpractice I don't have a dr and I have permanent injuries snd can't think or feel my feet/hands

The MHCC and the HCC information commissioner and even the ombudsman victim blame me

Upon release they said I was not psychotic snd the conspiracy was real which I knew

Now I am squatting

AFCA owe over a million in determinations

HCF owe 75k

A tpd on Comcare is over a million

My former partner owes half a million

The perverse victimisation that led to my murder/manslaughter connects many

I have been ruined

It's about money

I'm trapped

Work cover rejected me

Every lawyer has deceived me

I've got nothing and they will kill me

I have been spectacularly framed not one soul on my side

I am saddened and at great risk

I have no dr

Or psychiatrist or psychologist

I'm banned from every agency

My business made 100k a year

Then without warning and because I had evidence my web hoster intentionally desecrated my business I had hoped to recover to work in

My email and all sites were intentionally destroyed and I was blocked

I have told the police everything

They don't act it is before IBAC

I have records of everything

My psychiatrist rejected me as has every friend

I don't know how they did it

I'm not a pedophile I've never raped anyone or killed anyone

I'm peaceful and kind

This will kill me.

They will

They successfully isolated me and I fear retribution

If I had money I'd order an inquiry in federal court

The small business and business Victoria refused to intervene when
by business was maimed

The VHREOC refuse to advocate for me

So does MHCC MHLC AFCA banks HCC ombudsman's and so so
many others

People say move on but how and with what

I'm damaged framed and ruined

I've tried to be a whistleblower

That was rejected

A systemic oppression and bullying causing suicide that is provable
is criminal and I have that evidence

I record my calls because I'm paranoid

Rightly so

It renders a vile conspiracy to name shame victimise and demonise one person - me

I've been desecrated in all ways especially financially

I'm sorry to say you are in on it as well

How can the NDIA or NDIA help me

Now I have said this?

I also work and am a registered therapist who works fir the NDIA / NDIA and my registration is current

I have evidence that I am an employee of the government because I am registered as an employee department social services

All my files on my computer hacked and deleted to 0 bytes - a day before my evidence is purposefully maimed by Micron21

...and I cannot access my own iCloud account

This is FOI from the hospital the 'attempt was lethal' is what the systemic conspiracy forced me to do - I was murdered - each guilty pawn throwing one stone

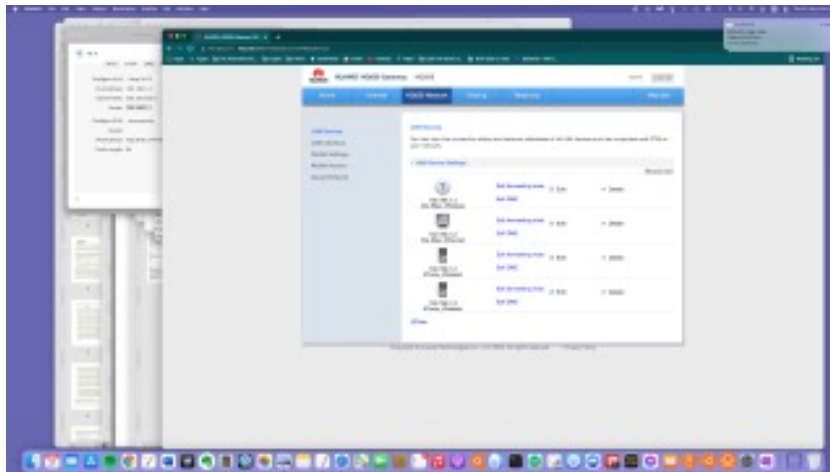

Still that evidence was silenced and never heard before a court

This is my dog and I - we are technically multi multi millionaires via just and eqwuiatvle litigation but we don't have food and are sqwuattting

I have spoken with the attorney general, so as expected - we know that my troubled damaged brain numb feet and broken heart and associated mental illnesses will not be enough to get my work cover payout because it is CORRUPT The AG refused to acknowledge em I have it all recorded

Website I am a worker insured by Comcare

Who is a worker?

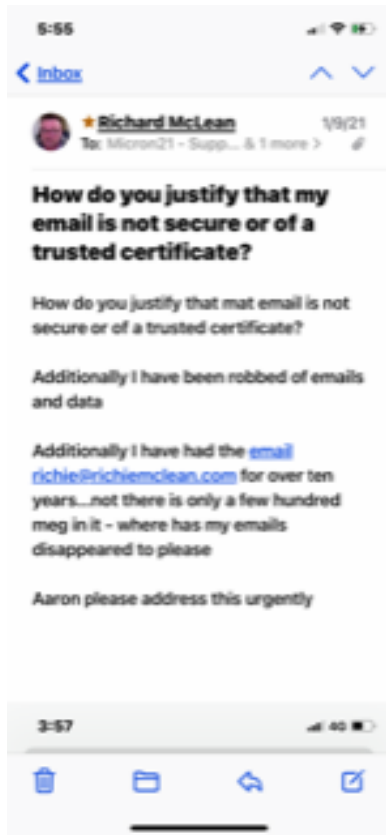

Under the NDIS Commission, a worker is anyone who is employed or otherwise engaged to provide NDIS supports and services to people with disability. Workers can be paid or unpaid, and can be people who are self-employed, employees, contractors, consultants, and volunteers.

From a Government website stating I am an employee of the
australian government department of social services

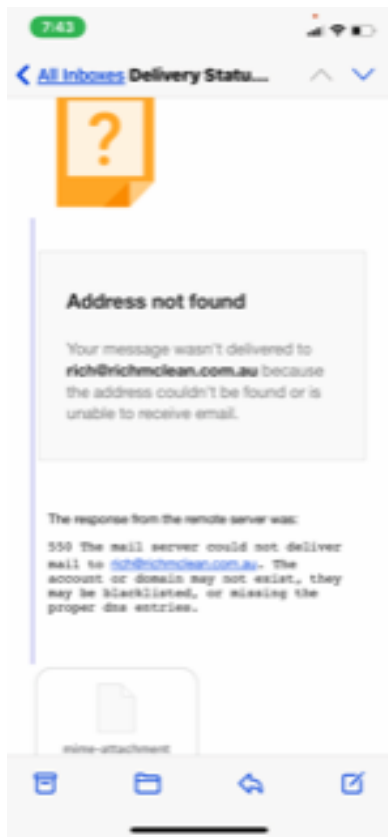

Here is it-my government employee details

My email is maimed

My business email is destroyed instantly ceasing my business

Next thing you know I have over twenty years of evidence on my servers at what used to be white dog green from but changed to Micron21

I had heard good things about them but they towed the party line and desecrated me

I record all my conversations so I know I was not rude.

I had asked them to explain things they didn't

Aaron the manager there refused to answer my question if I was at the centre of an elaborate conspiracy before the courts and feds or asio tried to intervene how safe is my Intellectual property and my

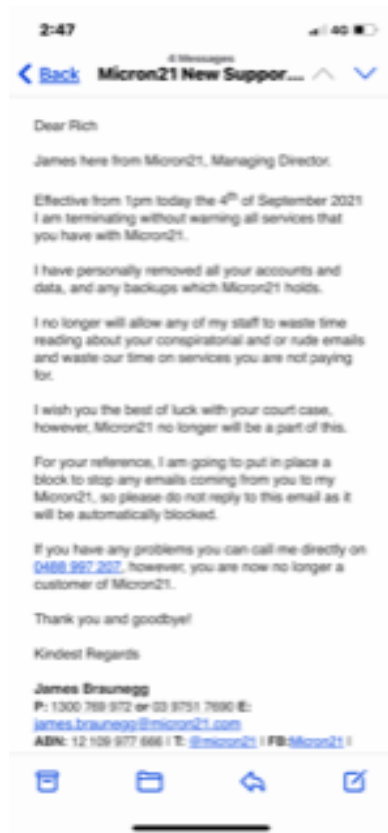

data?

He said he could not answer

I said if my data disappears it would maim my entire evidence as all I had going for me was my sentence my life my dog and my bed plus a compromised computer

Without warning a day before, my files disappear.

Next day I get this email:

...and just like that he desecrated all my evidence for twenty years and also personal emails government legions destroyed my websites and maimed by business communication

It was dreadful I could not believe they would have the audacity

Like the CEO of the hospital, they must have known they had cover

My lawyer Brian Burton thought a great solution for maiming my 100K a year business was for ME to PAY for a big hard drive then PAY their technicians to put an old back up[on

I could not believe Brian would extort what little money I had - and advocate for ME to PAY for WHT THEY INTENTIONALLY DESECRATED

My whole business structure and every government app program and personal log in possible

No one could email Me

Bills piled up

I domino get important notices

That email is MY IDENTITY and it was gone

I went to the business.vic.gov.au and they rejected me said to go to the small business and family ombudsman

I explained the whole story and the rude person sent me an innocuous letter thanking me for him to 'better understand' what they did to me with zero reaction

Im a dead man

Bruce Bilson writes to me.

I didn't MENTION suicide as he well knows

I SAID I WAS MURDERED

He goes on to say AFCA id the most approp[riate place for financial matters

WHAT PART does he not understand that AFCA were part of the movement that left OVERDUE DETERMINATIONS worth over ONE MILLION DOLLARS and then BANNED me from contacting them or emailing them because I apparently threatened to name their staff as part of pawns under the veneer of kicking the can down the road whilst I suffer

BECAUSE I HAVE BEEN FRAMED

I cant believe this

He actually thinks this is a good plan

They were responsible for my destitution and my vagrancy and was of the same currency of silencing Dr Whitaker evidence that gaslighted blacklisted me and rove me crazy just trying to get som one to feel worth for me after I had killed our attempted suicide through his malpractice

I have the medical documentation, en ts I was suicidal on several occasions

I have documents with him saying Im not suicidal even though I say so its like they wanted me to die

How did I get here

So I complained to the telecommunications ombudsman they didn't even give me something in writing they rang me and told me this outside of what they do

I said ITS MY INTELLECTUAL PROPERTY and he said 'This call is over'

I could go to the police, but if I cant report rape murder and drug trafficking and tax fraud what do you think it will achieve?

I could go to the ombudsman, but the victorian one thinks it is fine to suffer a fatal injury from prolonged and abhorrent persecution and torture that has murderous intent

...and these agencies still do

They still do

The litigation for separation from my partner of five years who was present at a murder and embezzled over a million in a tax haven was caught - he was protected by ASIO who he consulted with

They collected my data - then dumped me

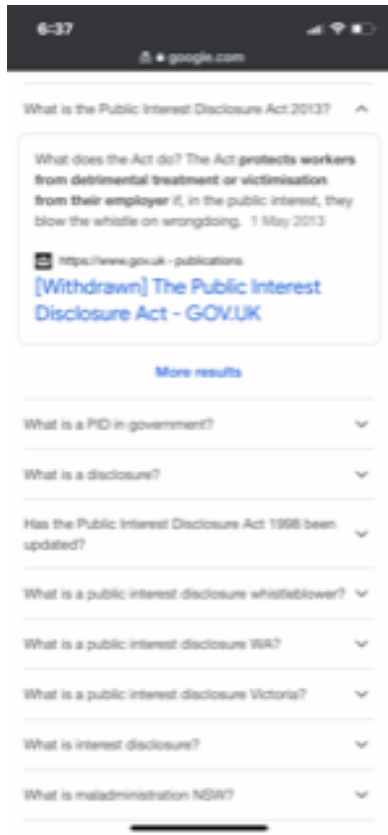

Same old story

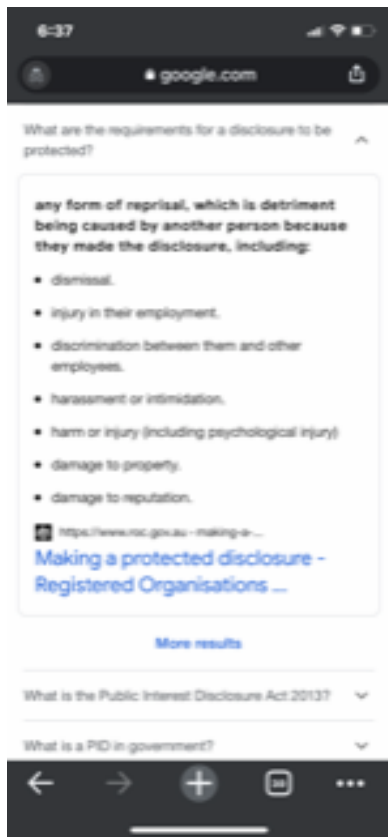

A car id running outside my home with no one in it I am scared I don't know if it is a suicide or it is a messgge

What is the public interest disclosure act

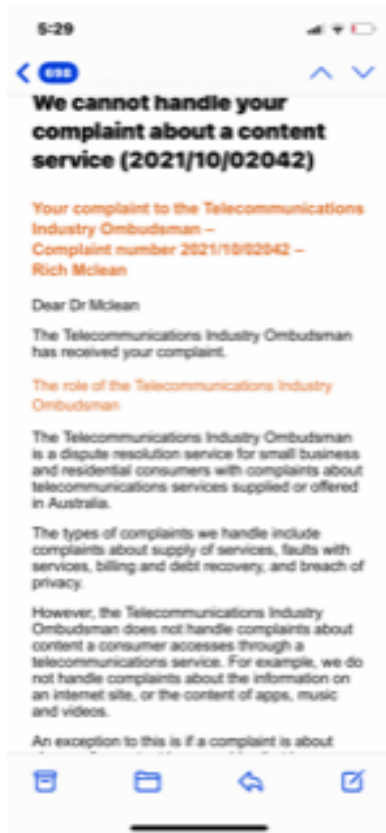

I need protection from further systemic corruption and my inevitable death-this systemic conspiracy linked with my invalidated child sexual abuse case has caused not only psychological injury working for the NDIS with clients who had identical issues but it killed me

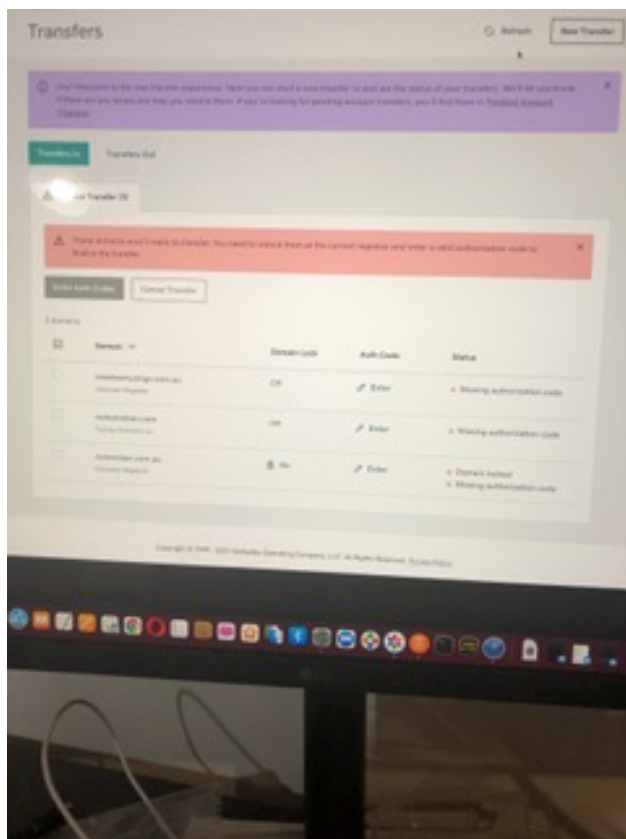

Mark Dreyfus knows all about it-funnily enough he goes to the polls advocating for a national anti corruption commission whilst covering one up in his own electorate

The telecommunication industry ombudsman refuse to acknowledge that my IP was not only affected but maliciously deleted

Micron 21 have blacklisted me and control my domain though - that domain is MY property

I reported my former partner Steve Iasonidis and the half million dollars he owed me and still owes me

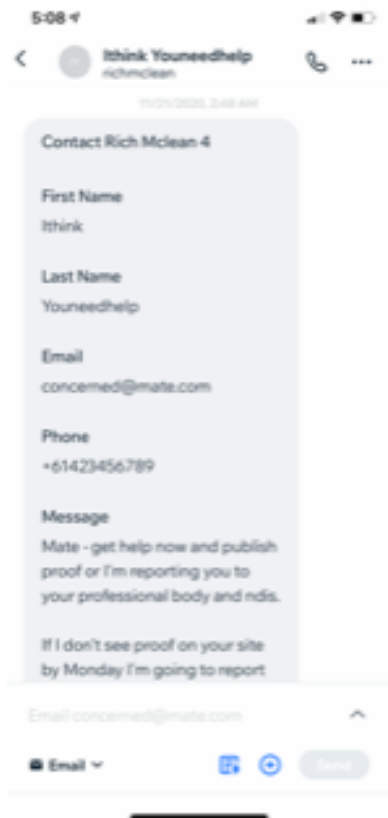

Knowing he could not make contact - this could only be from him

These are the people who orchestrate my destruction through proxy

It is narcissistic intimidation and sociopathic abuse

This is from Steve Iasonidis - it could only be him - on my website - still threatening to ruin me

Go on - check his tax records. It will show the bill for his millions dollar crimes

What a surprise - HCF said if I get compensation for the same injury under work cover they will pay it - they had blocked me so I tried

I thought dad would care I ask if he is going to abandon me

He must believe whatever it is that was told to everyone

He has rejected his own son who has just survived killing himself

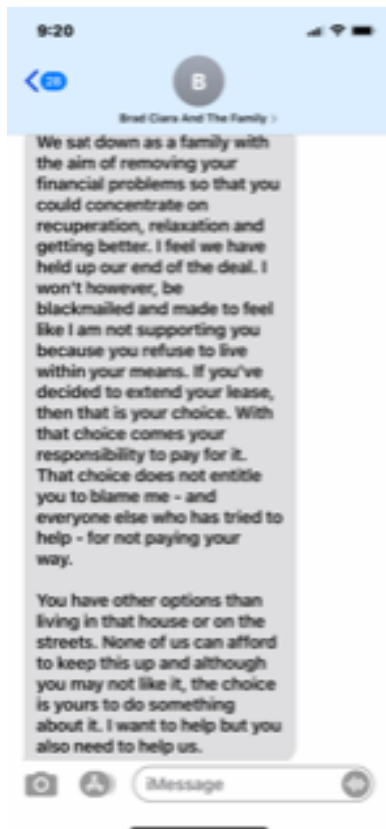

At the same time my brother rejects me

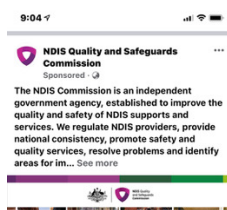

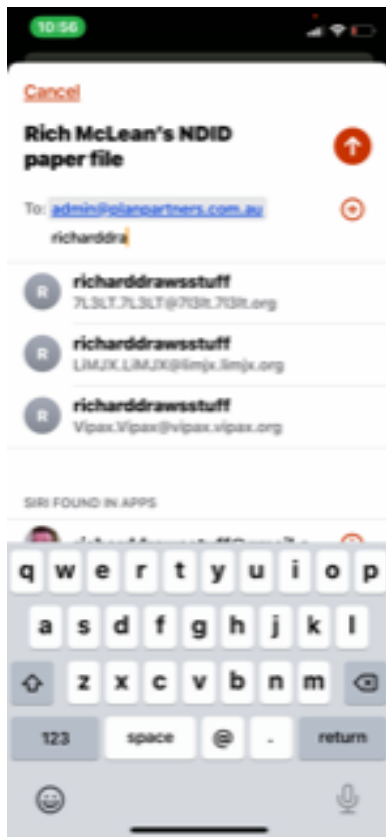

The whole family does

Your'e mad but your illness doesn't exist

You're sexually abused but we don't talk about it - and we go to his funeral

When I put in my [email richarddrawsstuff@gmail.com](mailto:richarddrawsstuff@gmail.com) it comes up with other addresses I don't know why

Hi Nicole a

Catherine from Comcare kicks the can down the road by getting me to ask what I want out of facilitation

hospital, via an agreed illegal contraband, and rejecting the duty of care and abandons the human rights charter

It is noted that Ben Calder the Victorian ombudsman silence the fatal injury, and is aiding and abetting my death via the further desecration via

Micron21 my web hoster which has destroyed my business my evidence before litigation and additionally my personal intellectual IP and photos love letters and every imaginable login to do with my business (The website name is also the official ABN of my business that ran through the website www.richmclean.com.au)

I have attempted to email Micron 21 too, although they blacklisted me desecrating me in a way which they believe they are untouchable

Ben Calder is also emailed

It is noted I made a complaint about ben but it had not been acknowledged

It is noted that I made a complaint to business.vic.gov.au and it went nowhere

It is noted that I made a complaint to the small business and family ombudsman that too had zero effect

It is noted persons of officialdom and respectful positions in public service as ombudsman's have also aided and abetted My electronic and business destruction

This includes a VOCAT lawyer Brian Burton and it is noted in both a violent assault for VOCAT I was the victim of and my own child

sexual abuse case where I was the victim the magistrate ruled that I was quite "doomed to fail from the start"

All of this lifetime has perplexed me until I found I was framed by dr Whitaker's lawyer Mr Ball

I must end this email now as police Here

I asked you as a representative of the NDIS/NDIA to intervene in this heinous conscious and malicious systemic conspiracy that has resulted in my fatal injury

You did not respond to me-but called the police to my door

This was utterly pointless

You must have, or they framed it, like I was in need of a "welfare check"

That is what they did

The powers that he know all too well about my murder that I survived

Following that they know about the systemic silencing and gaslighting that protects those in positions of POWER reputation and privilege

Even the ombudsman refuses to acknowledge my framing, the systemic abuse and persecution and oppression including the hospital and police that led to my likely death that was referred to as "a fatal injury"

Now, there is a conspiracy to pervert the course of justice that I am

after if you are now complicit in

I write for these reasons

1. Acknowledge this email immediately and address the concerns in the original email
2. Know that innocently or not innocently that you are not gaining traction via involving police
3. It is informing them of where I am at-and you have done this
4. It's victory or death. I am not afraid to die. I will however forgive everyone sparing them jail time and set everyone free if they will acknowledge by the symbolic gesture of compensation the crimes so abhorrent
5. If the first domino goes over, the whole lot comes crashing down like a house of cards. If you do not think that one person can have this affect-the Dalai lamas said have you ever tried to sleep in a room with a mosquito?
6. If and when I reach that point, I will be compensated and I will no longer require the services of the NDIS as a drain on the public purse
7. Until then, the movement already made me lose
My job and become bankrupt and I am squatting with nothing
8. Framed by the abject seriousness of the conspiracy that ended on my killing and then additionally the movement to whitewash it-what will the NDIS/NDIA do if anything at all to support me on this time
9. Is the statutory authority of the NDIA allowed to accept a whistleblower complaint as a victim and a witness in which I will

receive protection and my mad lies heirachy of needs Met? I suspect they are under the same auspice through which I am desecrated

10. I have forward tte thread of this email to ASIC who will have to acknowledge it as an official whistleblower complaint (I hope)

Otherwise I may physically die before justice and no one systemically in this country want to hold a shard of the guilt of my death

Please acknowledge this email by tte end of today with the point form questions answered

Thanks

Hi Nicole

I have urgent questions

I suffered a workplace injury

But I have also been framed and the centre of an elaborate conspiracy that is before IBAC and AAT and Police (the police are in on it)

I became ill from work because of the nature of caring for a sexual abuse victim for two years

I did his VOCAT case

But my two VOCAT cases were squashed

I was not believed and blamed and the police and the magistrate were corrupt

Income assist has refused and banned me

So has AHPRA the MHCC the HCC the office information commissioner the police federal police family court VCAT and many more

I am owed surely millions

Because I was aware of the abuse and I had overdosed due to malpractice (but I was framed), I complained of the conspiracy publicly

Many are guilty of perverting the course of justice a lot of statutory authorities and MPs

I was aware they were gaslighting and blacklisting me illegally because I was framed

I did not know this

It drive me crazy

Due to no job and bereft of finances stressed I received zero compensation and no insurance or workcover was paid

My family incarcerated me

My former partner was being protected as a murderer and used coercion to keep me a financial and in sexual slavery

He took off with a million in super

Now I cannot get a lawyer

Anywhere

I have been rendered voiceless

When they illegally incarcerated me

I had no one else to trust I tried to tell them of the movement which

sounds unreal

They called me psychotic and demonised me but they knew

Having proven not one person was on my side and I was desecrated
in every way

I suicides the hospital FOI says it was a "fatal injury" I was found with
no pulse

I was saved got golden staph and it was an agreed illegal
contraband that rejects the human rights charter

Now another conspiracy is born - my systemic collective murder was
not enough

Now they treated me with malpractice I don't have a dr and I have
permanent injuries and can't think or feel my feet/hands

The MHCC and the HCC information commissioner and even the
ombudsman victim blame me

Upon release they said I was not psychotic and the conspiracy was
real which I knew

Now I am squatting

AFCA owe over a million in determinations

HCF owe 75k

A tpd on Comcare is over a million

My former partner owes half a million

The perverse victimisation that led to my murder/manslaughter connects many

I have been ruined

It's about money

I'm trapped

Work cover rejected me

Every lawyer has deceived me

I've got nothing and they will kill me

I have been spectacularly framed not one soul on my side

I am saddened and at great risk

I have no dr

Or psychiatrist or psychologist

I'm banned from every agency

My business made 100k a year

Then without warning and because I had evidence my web hoster intentionally desecrated my business I had hoped to recover to work in

My email and all sites were intentionally destroyed and I was blocked

I have told the police everything

They don't act it is before IBAC

I have records of everything

My psychiatrist rejected me as has every friend

I don't know how they did it

I'm not a pedophile I've never raped anyone or killed anyone

I'm peaceful and kind

This will kill me.

They will

They successfully isolated me and I fear retribution

If I had money I'd order an inquiry in federal court

The small business and business Victoria refused to intervene when
by business was maimed

The VHREOC refuse to advocate for me

So does MHCC MHLC AFCA banks HCC ombudsman's and so so
many others

People say move on but how and with what

I'm damaged framed and ruined

I've tried to be a whistleblower

That was rejected

A systemic oppression and bullying causing suicide that is provable is criminal and I have that evidence

I record my calls because I'm paranoid

Rightly so

It renders a vile conspiracy to name shame victimise and demonise one person - me

I've been desecrated in all ways especially financially

I'm sorry to say you are in on it as well

How can the NDIA or NDIA help me

Now I have said this?

I also work and am a registered therapist who works for the NDIA / NDIA and my registration is current

I have evidence that I am an employee of the government because I am registered as an employee department social services

The NDIA must assess compensation payments a participant receives for personal injury, if the NDIS has or may, provide supports for the same injury.

- Your NDIS number
- The type of accident?

Subject: Please help me - compensation - conspiracy to murder corruption im a human being

Dear NDIS Iu have applied fir and been denied compensation

Ii have been heinously framed, and via a systemic persecution intelligently designed to maim me in all ways - the abuse killed me along with malpractice

My income assist was rejected and work cover refused to acknowledge helping me with my Comcare appeal

Paul Fowler at Comcare ultimately rejected me - but he was toehold boss at work safe which refused to help

S the issue is conspiratorial in nature

My death was labelled a 'fatal injury' from the hospital FOI

This an extraordinary thing to hen - then be rejected by salt water clinic in footscray - I had only seen a profession twice in 10 months

This is adispicable way of lengthening the time I was at great risk having survived death once from grief and malpractice, (for which I was framed an extortionist), then again overdoses and a fatal injury whilst in hospital

The ombudsman did not even see it as an issue

It is a malicious conspiracy of victimisation identification and vilification

Why if at all fo I need to tell you that compensation may occur please

It is with AAT now - I already know the answer

They won't stop at killing me- you included

Please have a heart

I have helped marginalised people for twenty years in altruism and you know and f=been framed ostracised and maliciously framed blacklisted and desecrated
