Dear Jennifer Robyn Carole and Zabi

Fate picked a fight for Barran Dodger, and now he faces a David and Goliath problem:

- It's his persecution.
- And it more or less killed him.
- He was revived from a 'fatal' injury,
- To have a cognitive malfunction,
- Only to have his tragedy whitewashed,
- His justice never arrived.
- He has no home; they took it.
- He has no possessions; they took them.
- He has no lawyer because he has been psychometrically profiled.
- His profound human rights abuses are documented,
- But no one is courageous enough to sign off on it or investigate.
- He has been character assassinated.
- His brave narrative on mental illness, once celebrated, is now weaponized against him.
- He has suffered profound victimization.
- He has been under investigation.
- He has been oppressed.
- He is vilified for an existing 'mental illness' to the exclusion of all other socio-political factors.
- He is now a targeted individual of The Australian Government, earmarked for destruction.
- He is a rejected whistleblower.
- Now he is vulnerable to the death threats he has received.
- A sitting duck for political exploitation and further neglect.
- They redacted his prosperity over twenty years, in a robbery of millions of dollars in a systemic and political way.
- He has a chronic mental illness.
- He has just survived as a homeless person for a month, living in his car as an infamous vagrant.
- Ex-communicated from the federal Government.
- The OPMC rejected his FOI, first labeled as 'voluminous' and 'complex,' declaring in an intentional deception and lies that 'no documents exist.'
- The Ombudsman refuses all future correspondence.
- His reports on the systemic corruption have not been acknowledged by the NACC.
- He was blacklisted from them too.
- They destroyed his business website and his digital identity.
- They sent a not-so-secret Government-contracted thug to violently attack him inside a hospital.
- He has been in the broken, ineffective hospital system seven times in three years since his tragic suicide attempt.
- Yet, for all that care today, the last day of 2023, he has no psychologist, no psychiatrist, and not even a GP.
- He believes it's because of the shame, stigma, and discrimination of mental illness detailed in his autobiography.
- He now believes it's because powerful lawyer Russell Ball, who informs government policy and advises the ombudsman, used power, money, and privilege to silence unfortunate evidence HCC, MHCC, The Police, IBAC, The Victorian Inspectorate, AHPRA, NHPOPC, former health minister Greg Hunt's office, and the Ombudsman.
- He is not an extortionist; he records things to check if they are real due to the high level of uncertainty the ideas of reference of his illness allow for.
- Tonight he is audio harassed by V2K subsonic gang stalking, and voices are heard, subtle but just audible, berating him: 'pedophile' 'faggot' 'rapist.'
- It has weaponized his known vulnerabilities detailed in his autobiography, which is a profoundly unethical and cruel way to inflict maximum damage by a government dedicated to wearing h
- They elicit his known risk for suicide via prolonged neglect.
- His poverty is intelligently designed.
- He also believes it is because no government agency will admit his relationship with former ASIO employee Stefan Iasonidis ever existed.
- His tens of thousands of emails over years delegitimized in a callous way that is narcissistic gaslighting.
- Designed to elicit the continued poverty he suffers.
- And so, because of Iasonidis, this persecution is linked to the covert intelligence at ASIO.
- You cannot argue these facts are a 'delusion of persecution' that his doctors force medicated him for in state-sanctioned chemical silencing.
- It is a demonstrable phenomenon that is proven with facts and evidence on this page.
- They tried to stop him,
- From his obligation to this democracy for calling out corruption.
- Now it has gone too far.
- And he has become a liability to the government.
- For calling out corruption and telling the truth and was demonized for it.
- Scrambling to protect all the corrupt privileged public officials, lawyers, and politicians paid handsomely to live in luxury, prosperity with protections to never critique their tyrannical governm
- Rich McLean was an intelligent and passionate and honest man who spent thirty years serving this country.
- And the sense of betrayal he experiences is palpable for a world that has exploited his then rejected and forsaken him.
- Everyone knows he was destroyed.
- No public official or lawyer wants to be identified to their peers and suffer political and financial retaliation and retribution as the one that threw it all open.
- They are aware they can also be destroyed just like Rich was.
- All of them too cowardly to oppose their boss who would destroy them as well.
- The evidence proving the deadly malice of being earmarked for destruction in defiance of the UN charter Australia is a signatory to is on this website.
- He knows humans are inherently judgmental.
- But the further this goes, the more absurd the abuse.
- Letting someone drown and pointedly neglecting to throw him the rope to save him is also murder.
- Foolishly he still loves you all.
- He forgives you in his heart.
- Because you only want to keep what he wants that was taken.
- To have a home and company and food and medicine and freedom from persecution and neglect.
- Forgiving the world does not equate to never being compensated.
- This webpage demands a meaningful intervention in his suffering.
- Which delivers him persecution, torture, lies, deceit, conspiracy, and finally torture and hate.
- If you tolerate this, you or your children will be next.

It's incredibly distressing that no government agency will acknowledge my relationship with Steve Iasonidis, despite the clear evidence and the threats I've faced, including a death threat acknowledged by a police officer, politician, or ombudsman is crucial to putting an end to this injustice.

The attached documents, which include a joint bank account, a lease agreement, and the death threat, unquestionably prove the existence of our relationship. It's vital for my safety and we acted upon promptly. Living under the shadow of family violence and coercive financial control is an unacceptable reality that must be addressed.

The acknowledgment of these documents by a credible authority is a crucial step towards ending corruption and ensuring justice. My plea for intervention deserves immediate attention, and about the

This conspiracy resorted to violence as a means to intimidate and silence me from continuing to expose corruption. An unprovoked attack occurred within Werribee Mercy Hospital, perpetrated by a government contractor. I identified him through an image of my tattoo on his t-shirt, a clear attempt to signal his affiliation before the assault. After enduring years of persecution despite my commitment to non-violent principles, I retaliated by forcefully defending myself, resulting in injuries to the assailant's face, teeth, nose, and head. Notably, he never filed a complaint, suggesting a deliberate effort to conceal the conspiracy's violent tactics. The complicity of the hospital in these events is evident.

United Nations Convention on the Rights of Persons with Disabilities (UNCRPD)

The Convention on the Rights of Persons with Disabilities (CRPD) is an international human rights convention which sets out the fundamental human rights of people with disability.

The purpose of the United Nations Convention on the Rights of Persons with Disabilities (CRPD) is to promote, protect and ensure the full and equal enjoyment of all human rights and fundamental freedoms by all persons with disabilities, and to promote respect for their inherent dignity.

It is made up of two documents, the Convention on the Rights of Persons with Disabilities, which contains the main human rights provisions expressed as a series of Articles and the Optional Protocol to the Convention on the Rights of Persons with Disabilities.

The CRPD and its Optional Protocol opened for signature on 30 March 2007 and Australia became one of the original signatories. The CRPD entered into force for Australia on 16 August 2008, and the Optional Protocol in 2009.

My treatment and victimisation and abuse is in defiance of this charter Australia is a signatory to.

I have no access to the law or equal access to the law ([link](#))

I am being tortured ([link](#))

I don't have access to justice ([link](#))

I don't have liberty or security ([link](#))

I don't have freedom from torture or cruel, inhuman or degrading treatment or punishment ([link](#))

I don't have Freedom from exploitation, violence and abuse ([link](#))

My integrity is not protected ([link](#))

I am not living independently in the community ([link](#))

My privacy is not respected ([link](#))

Currently I have no healthcare. ([link](#))

I don't have an adequate standard of living and social protection ([link](#))

✓The Governments deceitful preferred reality

The government refuses to acknowledge the five-year engagement I had with Stefan Iasonidis. He exploited me both sexually and financially while working for ASIO, the secret service. David Irvine, the then head of ASIO, was complicit in my exploitation. I was coerced into receiving DSP from Iasonidis, who claimed I would lose my independence. While he earned approximately \$40,000 a month at ASIO, I struggled on a pension of less than \$900 a fortnight. I had to pay my own way, and when he left, he left me homeless. Despite preaching monogamy, he did opposite, using it as a technique of control.

Upon my insistence, he sold a million-dollar home he owned, which was bought with money he made as a drug trafficker. He claimed to have invested the money in an offshore tax haven. He was coercive and strong-willed in his control and manipulation of me.

Due to my whistleblowing, I received a Grindr message alleging he had been involved in a million-dollar embezzlement. Rather than accept responsibility, he threatened to kill my husky. The police refuse to listen or acknowledge me, and my AVO against him failed, with the magistrate stating she can't make a ruling "if nothing has happened yet."

He admitted to being at murders, was pivotal in my first incarceration, and had a role in the scent of my source attempt. He silently controls my life by rejecting a settlement he legally owes me. No government agency will acknowledge the relationship, and he is protected while I am de-legitimized systemically and politically. I live under family violence and coercive financial control, and the government supports him. I now face a death threat from him. I am a rejected whistleblower despite being able to make a PIOD under legislative requirements. I live with the fear of retaliation only for wanting to claim what was rightfully mine.

The government is corrupt.

✓

The NDIS has denied accommodation for Supported Independent Living (SILS) unless all mainstream supports are exhausted. Despite tirelessly exploring avenues such as the Department of Social Security, Centrelink, and crisis centers, I find myself in a desperate situation where poverty is adversely impacting my health.

With seven documented hospitalizations in three years, clearly indicating a need for intensive care, I've been left in dire straits, resorting to desperate measures for financial survival. The NDIS, complicit in my proven abuse and neglect, has amplified the challenges I face, pushing to abuse substances and engage in fraudulent activities.

The absurdity of this situation necessitates the acknowledgment and implementation of a SILS plan as the only viable housing solution. This for support, however, seems to fall on deaf ears unless someone steps up to advocate for me. The corruption inherent in this system forces the NDIS to confront the truth about my relationship, potentially triggering inquiries by AGIS, the Attorney General's office, the Ombudsman, or even the Prime Minister. Despite my efforts, the Prime Minister has refused intervention, redirecting me to the Attorney General's office, which, in turn, passed the responsibility to AGIS and the Ombudsman. Unfortunately, I find myself rejected as a whistleblower, with no response from Mark Dreyfus. Compensation, which could serve as a mainstream support, has become an impossible prospect for me. Now, the situation is akin to metal c

meta, where one statutory authority must demand accountability from another, an ethical responsibility they cannot ignore.

Should my accommodation not be secured promptly, I am left with no choice but to instruct my lawyer to prosecute the NDIS CEO. This is not about vengeance but about standing my ground and compelling accountability. I have no other recourse.

The orchestrated campaign against me has systematically stripped away everything I once had, leaving me in a state of utter vulnerability. The malicious act has not only deprived me of material possessions but has also targeted essential aspects of my life:

1. Business Loss: I lost my business, a venture I had invested time, effort, and passion into, leaving me without a source of income and stability.
2. Accreditation Damage: The malicious actions taken against me have tarnished my professional accreditation, damaging my reputation and hindering my ability to engage in certain activities.
3. Human Rights Violation: The deprivation of my human rights has been a deliberate and damaging aspect of the orchestrated campaign, leaving me without the basic rights and protections every individual deserves.
4. Access to Legal Representation: The systematic denial of legal representation has left me without the crucial support needed to navigate complexities of my situation and seek justice.
5. Reputation Undermined: My reputation, painstakingly built over time, has been maliciously targeted, resulting in a distorted public perception that further compounds the challenges I face.
6. Work Cover Manipulation: The denial or manipulation of work cover has left me without the financial and medical support necessary for recovery and stability.
7. Interference with Insurances: The interference with my insurance claims has added to the financial strain and further undermined my ability to rebuild.
8. Thwarted Settlements: Any attempts to secure fair settlements have been systematically thwarted, denying me the compensation and support I am rightfully owed.
9. Deprivation of Fair Treatment: The campaign has deprived me of fair and impartial treatment, a basic expectation in a just society.
10. Right to Rent a Home Impacted: The orchestrated campaign has even affected my ability to secure a place to live, making the prospect of homelessness a harsh reality.
11. PID Declarations Rejected: In addition, my PID declarations have been summarily rejected. Even my attempts to access information through FOI from the OPMC have been thwarted, as they were deemed 'voluminous' and 'complex,' further limiting my ability to assert my rights and seek redress for the injustices I've endured.
12. Unpaid Work Cover Settlements: Notably, not one but two work cover settlements were never paid, compounding the financial hardships imposed upon me through this campaign.
13. Digital Identity Destruction: Moreover, Micron21, a government-backed web hosting company, deleted my business website with impunity. This act destroyed my digital identity, and despite cries for help to SBFEQ, business.gov, or the TIO, no effective measures were taken to hold them accountable for their actions.
14. HCF Income Protection Refusal and Ban: HCF further exacerbated my situation by refusing to pay my income protection insurance and subsequently banning me from contacting them, leaving me without critical financial support and avenues for resolution.
15. Repeated Institutionalization as a Political Prisoner: Compounding the injustices, I have been incarcerated in an institution seven times in three years, often under dubious circumstances that suggest a pattern of political persecution. This repeated confinement further highlights the systemic abuse and violation of my rights.
16. Mental Health Support Neglected: Additionally, I am currently without essential mental health support. I lack a psychologist, psychiatrist, even a general practitioner (GP). Dr. David Horgan, who initially diagnosed me with ADHD and prescribed dexamphetamine as a 'life-saver' treatment, has pointedly neglected to continue this prescription after my first hospitalization in January 2021. This abrupt discontinuation left me without a vital medication, forcing me to resort to street drugs to replicate the clarity and focus that the prescribed medication provided. Unfortunately, this has given rise to addiction issues, compounding the myriad challenges I face in my pursuit of justice and well-being.
17. Extreme Poverty and Its Consequences: Furthermore, the recent period of extreme poverty led to dire circumstances, with me living in my car marked as an infamous vagrant. Authorities and police pursued me, adding to the distress. Severe financial constraints compelled me to eat from bins and beg for money. This poverty, by intelligent design, has been disastrous for both my mental and physical health.
18. Bankruptcy Despite Unacknowledged Relationship: I had to declare bankruptcy in 2021 despite there never being an acknowledgment from any government agency about being in a relationship with my former partner. ASIC was willing to accept my bankruptcy, but they were not willing to accept my evidence of my relationship. That is pure hypocrisy.
19. Ongoing Debts and Ombudsman's Refusal: Currently, I owe money to drug dealers and many people I have begged help from, totaling a \$80,000. I have always wanted to pay back people when my detriments were paid, but I was never paid the detriments, leading to the loss of those people who stepped in to help me financially. The ombudsman has refused my FOI and now refused all future correspondence, adding to the layers of injustice I am facing.
20. NDIS SILS Application and Threat of Harm: The NDIS provided me with medium-term accommodation from just before Christmas 2023 for the purposes of a SILS application but not for the fact I was living in my car. They have stated that they do not expect my SILS funding to differ this time around, but it is within my rights to ask for it. It is clear other mainstream services have been exhausted in my search for my basic needs met of a home, food, medicine, and healthcare, free from violence and neglect for my dog and me. It is evident that I can look after myself after seven hospitalizations and squatting as a drug-addicted vagrant for three years. It is evident I suffer from chronic schizophrenia, ADHD, and an unacknowledged brain disorder. If the CEO of the NDIS finds reason to reject my SILS application, it will indicate that the government does wish me harm, and that she has acted in congruence with an evil conspiracy. Furthermore, she has not the independent thought to criticize the government. If she does this, I will make her accountable.

The Conspiracy of Silence: A Failed Whistleblower's Struggle for Acknowledgment and Justice

I am a failed whistleblower, for many reasons but for the certain and obvious reason no government agency will admit my relationship with my fiancé ever existed. I've called out a lot of powerful people. I also attempted to whistleblow as a result of corruption of every politician, cop, lawyer, and even the prime minister regarding my situation. Now I am absolutely a sitting duck for exploration, detriment in ways including violence which is a method this malicious conspiracy has demonstrated to employ. That non acknowledgement of my experience creates a preferred narrative for the government that is not based in reality. The acknowledgement of my relationship in which we have evidence of five years of photos and lease agreements and a bank account in each other's name would lead to a financial settlement separating our assets. That separation is a legally obligated requirement and responsibility of him to me regarding the de facto relationship we were in.

Stunningly and I am blown away by this - he has single handedly convinced every friend, family member and professional colleague, all politicians, lawyers and cops and the entire government including the NDIS minister Bill Shorten to never acknowledge the relationship existed and never stand or advocate for me. I don't know how he's done it but he was a master manipulator and the sheer corruption he elicited is stunning.

My moral obligation to principles of democracy to call out corruption

Being a rejected whistleblower leaves me vulnerable to further violence and neglect. It is my moral obligation to expose corruption in this country, both in defense of potential victims and as a commitment to democracy. By shedding light on these issues, I aim to foster fairness, transparency, and restore people's faith in the legal and political systems for accountability. This endeavor is not only about my personal well-being but also about saving my own life. As a targeted individual, the methods employed involve a form of torture known as no-touch torture, a cruel method aimed at destroying a person with malicious intent. These tactics utilize layers of bureaucracy to shield responsible individuals from accusations, ensuring they are never held liable for any harm or potential death. Despite facing death as a result of the torture, I was revived, emphasizing my resilience and the imperative of my continued existence.

My calling out corruption was not only a defense for others who might fall victim to these public officials but also an act of compassion. It was a duty to democracy, aimed at fostering fairness, transparency, and restoring people's faith in the legal and political systems for accountability. The perilous situation I found myself in was a direct consequence of these actions, and calling attention to corruption was my way of saving not only myself but others who could suffer a similar fate. It was my moral obligation to expose corruption in our country for the sake of democracy, and now it is my moral obligation to further oppose what I now know to be our government's sanctioned murder through intelligence and coercion. Allowing this to continue will inevitably affect you or your children.

As a targeted individual, the methods employed involve "no-touch torture," a malicious strategy designed to destroy a person with the intent to kill. This insidious approach utilizes layers of bureaucracy to shield responsible individuals from accusations or any accountability for the harm caused, even to the extent of death. Despite the grim ordeal of attempting suicide because of no-touch torture, I was revived, surviving the clutches of death, and I am determined to continue my fight for justice. There is no turning back.

My calling out corruption was not only a defense for others who might fall victim to these public officials but also an act of compassion. It was a duty to democracy, aimed at fostering fairness, transparency, and restoring people's faith in the legal and political systems for accountability. The perilous situation I found myself in was a direct consequence of these actions, and calling attention to corruption was my way of saving not only myself but others who could suffer a similar fate. It was my moral obligation to expose corruption in our country for the sake of democracy and now it is my moral obligation to further oppose what I now know to be that our government kills innocent people and they do it with intelligence and coercion and with impunity. That's state sanctioned murder. And if anyone allows this to continue to occur then you or your children will be next.

As a targeted individual, the methods employed involve "no-touch torture," a malicious strategy designed to destroy a person with the intent to kill. It tortures people to death. This insidious approach utilizes layers of bureaucracy to shield responsible individuals from accusations or any accountability for the harm caused, even to the extent of death. Despite the grim ordeal of actually attempting suicide because of no touch torture, I was revived, surviving the clutches of death, and I am determined to continue my fight for justice.

There is no turning back.

Evidently they have tried to stop me, and they are not about to slow down.

They have persistently tried to silence and deter me, employing various tactics over the years. Even after I experienced a life-threatening event and was revived, their efforts to de-legitimize my evidence and story continue unabated. They deliberately keep me in poverty, denying both my human and legal rights. Their actions are marked by deceit, manipulating the truth to paint me as mentally ill, intentionally amplifying this aspect while excluding consideration of other socio-political factors that have contributed to my situation.

I can see its face now.

- I've been fired
- I've been exploited
- I've been discriminate against
- I've been used
- I've been violently attacked
- I've been in many inequitable unfair and also illegal settlement and determinations
- I've been robbed
- I've been drugged and raped
- I've been taken advantage of
- I've been the subject of a conspiracy
- I've been a targeted individual
- I've been denied health care
- I've been denied a lawyer
- I've been rejected whistleblower rights
- I've been threatened to be killed and man dog killed
- I've actually been killed from 'nom touch torture'
- I've been lied to
- I've been se3t up
- I've had my website destroyed
- I've been run out of town
- I've been run out of my accomodation
- I've been made bankrupt
- I've been denied HCF income assist
- I've been denied work cover - twice
- I've been denied a conversation at Gabrielle williams office
- I've been denied my human rights
- I've had my character assassinated
- I've been under investigation
- I've had my civil liberties destroyed
- I've had my privacy invaded
- I've been treated differently
- I've suffered detriment
- I've been denied compensation
- I've been denied settlements
- I've been denied winnings
- I've had to sell my car
- I've been rejected medicine
- I've been vilified
- I've been identified
- I've been victimised
- I've been oppressed
- I've been abused
- I've been violently attacked inside a hospital by a contracted thug
- I've been de legitimised
- I've had my evidence silenced
- I've had my business destroyed
- I've had my website deleted
- I've had my digital identity cancelled
- I've had my NDIS funds locked away so I can't access the money
- I've been blocked from Facebook linkedin and twitter and x and instagram

Victimisation is against the law.
Those are human rights abuses.
The AHRC refuse to investigate.

WHAT IS A TARGETED INDIVIDUAL AND HOW IS IT EVIDENT?

The evidence of my status as a targeted individual is abundantly clear through a series of systematic roadblocks and denials, creating a scenario where justice and fairness are deliberately obstructed. Despite my past achievements in advocacy and altruism, a shift occurred when I seemingly angered powerful individuals. The subsequent hindrances and responses have effectively dismantled my ability to exercise my human and legal rights.

Failed Whistleblower: My attempts to expose wrongdoing have been met with failure, as the responses have systematically delegitimized my story and evidence.

Lack of Legal Representation: Despite my dire need for legal assistance, I have never had a lawyer. The absence of legal support has left me vulnerable and unable to navigate the complexities of my situation.

has left me vulnerable and unable to navigate the complexities of my situation.

Inability to Seek Police Assistance: The mental health act is exploited to vilify me for illness, preventing me from seeking help from the police. Instead of addressing my concerns, I am often stigmatized and hospitalized.

OPMC Refusal of FOI Requests: The OPMC (Office of the Prime Minister and Cabinet) has consistently denied my Freedom of Information (FOI) requests, initially describing the documents as 'voluminous' and 'complex,' only to later claim that no such documents exist.

Blacklisted from the NACC: I have been unjustly blacklisted from the National Anti-Corruption Commission (NACC), limiting my avenues for reporting corruption.

Ban from Contacting AFCA: I am banned from contacting the Australian Financial Complaints Authority (AFCA), further isolating me from seeking resolutions to financial grievances.

AHRC Refusal to Investigate Human Rights Abuses: The Australian Human Rights Commission (AHRC) has refused to investigate documented human rights abuses by an NDIS worker, denying me the opportunity for justice.

Ignored Communication from Attorney General Mark Dreyfus: Despite attempts to communicate with the Attorney General, Mark Dreyfus, my calls and emails have been systematically ignored.

Refusal of Correspondence by Commonwealth Ombudsman: The Commonwealth Ombudsman has refused all further correspondence, leaving me without recourse to address grievances.

As a targeted individual, I find myself at odds with a government that should protect and uphold justice. Instead, it appears to nurture a system that acts against my interests, influencing various institutions to work to my detriment. This orchestrated campaign has not only obliterated my rights but has also left me without avenues for redress and justice.

All of the following have happened to me as a scapegoat:

- a. Character Assassination: Spreading false information or rumors to damage the individual's reputation.
- b. Isolation: Cutting off the individual from social support systems, creating a sense of loneliness.
- c. Financial Exploitation: Draining the individual's financial resources or blocking access to prosperity.
- d. Gaslighting: Manipulating the individual into questioning their own sanity or perception of reality.
- e. Legal Obstacles: Creating barriers to accessing legal assistance or protection.
- f. Psychological Torture: Employing tactics like "no-touch torture" to induce severe mental and emotional distress.
- g. Family Violence: Using coercion or threats to control and harm the individual and those close to them.

Torture without liability

"No-touch torture" is a term to describe psychological torture methods that do not involve direct physical contact with the victim. It has induced severe mental and emotional distress, often with the goal of breaking my will or eliciting specific behaviors or confessions.

Real-world torture that physically exists primarily involves direct physical harm and is illegal under international law.

In a fictional context, "no-touch torture" might include various psychological manipulation techniques. Some hypothetical methods could include:

- i. Sensory Deprivation: Isolating the individual from external stimuli, such as light, sound, or touch, to induce disorientation and anxiety.
- ii. Sleep Deprivation: Keeping the individual awake for extended periods, leading to cognitive impairment, hallucinations, and extreme fatigue.
- iii. Manipulation of Perceived Reality: Gaslighting or creating false scenarios to make the victim doubt their own sanity or perception of reality.
- iv. Threats and Intimidation: Using psychological tactics to instill fear, such as threatening harm to loved ones or suggesting impending danger.
- v. Isolation: Cutting off the victim from social contact, support systems, or information to induce a sense of loneliness and powerlessness.
- vi. Constant Surveillance: Making the victim feel constantly observed or monitored, instilling a sense of paranoia.
- vii. False Confessions: Forcing the victim to admit to actions they haven't committed through pressure, manipulation, or fear.

Torture is a serious violation of human rights and is condemned by international law in Article 15 – Freedom from torture or cruel, inhuman or degrading treatment or punishment:

1. No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment. In particular, no one shall be subjected without his or her free consent to medical or scientific experimentation.
2. States Parties shall take all effective legislative, administrative, judicial or other measures to prevent persons with disabilities, on an equal basis with others, from being subjected to torture or cruel, inhuman or degrading treatment or punishment.

Robbery: Intelligence coercive deceitful unjust inequitable unfair and illegal.

1. a. Robbery that victimised me intelligently politically causing detriment - this is all not just 'bad luck'

The extensive list of financial detriments I have faced over the years, totaling approximately \$40,975,000, is a testament to the systematic and deliberate removal of my prosperity. These substantial losses, far beyond the realm of mere bad luck, have been strategically redacted from reaching me, resulting in severe victimization, a clear violation of the law.

- Unfair termination settlement from the Age newspaper: \$300,000
- Work cover settlement from 2004: \$300,000
- Incorrect TPD payment from 2008: \$500,000
- Medical malpractice settlement in 2017: \$300,000
- HCF income assist settlement in 2021: \$750,000
- Work Cover settlement in 2021: \$750,000
- Provisional payments from work cover in 2021: \$50,000
- Business insurance payout in 2021: \$100,000
- Former partner settlement: \$500,000
- Settlement for my cognitive brain impairment sustained inside a hospital: \$2,500,000
- Sue for my business website maliciously destroyed: \$100,000
- Claim for loss after my worldly possessions were destroyed: \$50,000
- Detriments of over \$2 million after being banned at AFCA: \$20,000,000
- Detriments of over \$1.5 million after insurance settlement was free-kicked to opposition at AHRC: \$15,000,000
- Money to pay for my accommodation blocked from arriving at the NDIS/A: \$25,000
- Child sexual abuse redress from DSS delayed, denied, deferred: \$250,000

- VOCAT case for child sexual abuse case cited by magistrate as 'doomed': \$25,000
- VOCAT case for violent affray rejected: \$25,000
- Compensation for being run over by a car (most likely a government vehicle): \$50,000
- Compensation for being violently attacked inside a hospital by a government thug: \$200,000
- Compensation for a provable conspiracy to pervert the course of justice causing death: \$300,000
- Compensation for the whitewashing of that tragedy by high-ranking public officials: \$300,000

That is approximately \$43,750,000

The removal or deprivation of my finances can have severe and wide-ranging consequences on my well-being and ability to function in society. Money is a crucial tool for meeting basic needs, accessing essential services, and participating in economic and social activities. Here are some harms that resulted from the loss of my finances:

Basic Needs:

Shelter: Without money, an individual may struggle to afford housing, leading to homelessness or precarious living conditions.

Food: Lack of finances can hinder access to an adequate and nutritious diet.

Healthcare: Inability to afford healthcare services, medications, or health insurance, which can lead to declining health and well-being.

Employment: Difficulty in securing or maintaining employment due to a lack of resources for transportation, clothing, and other job-related expenses.

Social Isolation: Financial difficulties can lead to social isolation as individuals may be unable to participate in social activities or maintain relationships.

Psychological Impact: Financial stress can contribute to mental health issues such as anxiety and depression.

Legal Consequences: In extreme cases, financial hardship can lead to legal problems, including eviction, debt, or involvement in illegal activities out of desperation.

Overall Quality of Life: A significant reduction in the overall quality of life, as financial resources play a crucial role in one's ability to enjoy a decent standard of living.

It's important to recognize that in a fair and just society, individuals are entitled to economic security and the means to meet their basic needs. Intentional deprivation of finances by an individual or government can be considered a violation of human rights and is generally condemned by ethical and legal standards. If you or someone you know is facing financial difficulties, seeking support from social services, community organizations, or legal assistance may be essential.

When you politically and systematically remove an individual's access to prosperity and money, it creates suffering and designs an individual's poverty. In that way, it can be proven that my poverty is by design and not a reflection of any character flaw I have or a lack of passion or hard work. It consciously amplifies mental health trauma and suffering because it is widely acknowledged in the literature that finance/money and housing are the two main factors that affect a person's mental well-being.

Despite my efforts to seek compensation at the CDDC scheme, I was informed by the Department of Finance's Simon Birmingham that I would never receive compensation from the department. This blatant corruption and unfair treatment not only aim to strip me of my money but also to cause significant harm, with the extreme end being murder. I have already faced the consequences of this oppression, having died by suicide in February 2021, only to be revived. I am a targeted individual, and my plea for justice must be heard.

The orchestrated campaign against me has systematically stripped away everything I once had, leaving me in a state of utter vulnerability. This malicious act has not only deprived me of material possessions but has also targeted essential aspects of my life:

My Business: I lost my business, a venture I had invested time, effort, and passion into, leaving me without a source of income and stability.

Accreditation: The malicious actions taken against me have tarnished my professional accreditation, damaging my reputation and hindering my ability to engage in certain activities.

Human Rights: The deprivation of my human rights has been a deliberate and damaging aspect of the orchestrated campaign, leaving me without the basic rights and protections every individual deserves.

Access to the Law: The systematic denial of legal representation has left me without the crucial support needed to navigate the complexities of my situation and seek justice.

Reputation: My reputation, painstakingly built over time, has been maliciously targeted, resulting in a distorted public perception that further compounds the challenges I face.

Work Cover: The denial or manipulation of work cover has left me without the financial and medical support necessary for recovery and stability.

Insurances: The interference with my insurance claims has added to the financial strain and further undermined my ability to rebuild.

Settlements: Any attempts to secure fair settlements have been systematically thwarted, denying me the compensation and support I am rightfully owed.

Fair Treatment: The campaign has deprived me of fair and impartial treatment, a basic expectation in a just society.

Right to Rent a Home: The orchestrated campaign has even affected my ability to secure a place to live, making the prospect of homelessness a harsh reality.

Additionally, I have faced violent attacks, including an incident inside a hospital where I was assaulted by a government-contracted individual. This act of violence, instead of resulting in legal consequences, was strategically kept silent to conceal the conspiracy that involves employing violence against me. These incidents underscore the depth of the conspiracy and the lengths to which those involved will go to silence and harm me.

My merits should not be doubted, unlike those of corrupt public officials, lawyers, cops, or politicians.

INTERVIEWS and PRESENTATIONS:

- Radio National's 'Life Matters' program with Julie McCrossin-ABC.
- Triple J-Youth Network interview with Rachel Kerr.
- Conversation on Radio 2SM in Sydney with Tricia Duffield.
- Talk with Martin Powley for ABC Gold & Sunshine Coasts in QLD.
- Interview with Fiona Sewell on ABC Radio Adelaide's Statewide afternoons.
- James Valentine's interview on ABC Radio 702.
- Feature on Radio 3AW's 'Nightline' with Phillip Brady & Bruce Mansfield.
- Interview on Spectrum FM Radio with John Weeks.
- Appearance on Stateline on ABC TV.
- Interview on Good Morning Australia with Steve Leidman.
- Discussion on 'Compulsive Executions' exhibition and book launch.
- Interview on Curtin Radio in Perth with Pieta O'Shaughnessy.
- Conversation on Triple R in Melbourne with Tony Wilson.
- Feature on Radio 2NUR in Newcastle with Felicity Biggins.
- Video interview with Frankie Fathers, Reuters TV (International).
- Insightful discussion on ABC National's AM Program.
- Appearance on Channel 31 News.
- Feature on JOY FM in an interview.
- Guest on The Today show with Steve Liedman in March 2005.
- Platform on Radio National-Life Matters to discuss Art and Psychosis.
- RRR hosted an interview on Schizophrenia.
- Multiple conversations on Local Radio and ABC Regional, Dubbo.
- Doal interview with students at McGill University, Montreal.

- Further interviews with students at McGill University, Montreal.

PRINT MEDIA REVIEWS/ARTICLES:

- Feature in 'Rider of the Storm' - The Age by Michael Winkler.
- Coverage in The Herald Sun for 'My Descent Into Madness.'
- Perspective included in MCV's review.
- Journey review by Anne Deveson in The Sydney Morning Herald.
- Insights about psychosis and art shared on www.eclinicalpsychiatrynews.com.
- Possible presentation on SBS's 'Masterpiece' program about art and mental illness.
- Highlight in The Sydney Morning Herald about the intersection of Mental Health and the Political Frontline.

PRESENTATIONS:

- Launch of 'Recovered, Not Cured' at Artholes Gallery, Fitzroy.
- Presentation at the Mental Health Research Institute with an accompanying art exhibition.
- Insights shared with researchers and biochemists at Forensicare, Fairfield.
- Engaging discussions with consumer groups at Early Prevention Psychosis (EPPIC).
- Insights provided to librarians and school teachers at the Australian Centre for Youth Literature (ACYL).
- Talk to 500 high school students at ACYL.
- Engaging talk with social workers and youth planners at Baw Baw Youth Network.
- Beneficial insights shared with consumers and their families at Richmond Fellowship, Warnambool.
- Additional talks for consumers at EPPIC.
- Impactful forum on 'Psychosis and Cannabis' at Royal Melbourne Hospital with MHRI.
- Participation in Mental Health Week presentations at St Andrew's Market and Thomas Embling Hospital.
- Presentation on autobiographical writing for high school students at The State Library.
- Guest speaker session at McGill University in Montreal.
- Engaging talk hosted by Paragraphe Bookstore in Montreal.
- Talk at Douglas Hospital in Montreal.
- Expertise showcased in an article about psychosis and art on www.eclinicalpsychiatrynews.com.
- Review on www.world-schizophrenia.org included in a hard copy mail-out in the USA and Canada.
- Guest speaker for the exhibition: www.artagainststigma.org (Sydney, May 05).

My journey involves sharing personal experiences, advocating for change, and fostering dialogue in various communities and platforms, reflecting a deep commitment to raising awareness and challenging societal perceptions of mental health.

I demand an end to my cruel, degrading treatment, punishment, and torture.

My treatment has been torture, and I am demanding an end to it. I use the word 'torture' in accordance with the definition in the 'Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment,' which has been ratified by Australia and overseen by the UN under international law and treaty.

The Convention states, 'For the purposes of this Convention, the term "torture" means any act by which severe physical or mental pain or suffering is intentionally inflicted on a person for purposes such as obtaining information or a confession, punishing him for an act he or a third person has committed or is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind when such pain or suffering is inflicted by or at the instigation of or with the consent or acquiescence of a public official or other person acting in an official capacity. It does not include pain or suffering arising only from, inherent in, or incidental to lawful sanctions.'

This has been torture for me. Physical and mental suffering has been inflicted upon me to punish me for perceived wrongs. It has been enacted systemically and politically by delegitimizing my story, experience, and proof. Public officials act in defiance of the public service charter, which requires them to act ethically and within the law.

In future iterations of AI, a comprehensive analysis of available data will likely provide a clearer understanding of my experiences and exonerate me from any wrongdoing. It will prove my torture. The advancements in technology and data processing may reveal patterns and evidence that support the assertion that I was a targeted individual. If, for any unfortunate reason, this pursuit of justice proves to be a challenging or perilous endeavor for me, it stands as a testament to my lifelong commitment to opposing injustice. I believe that a life dedicated to advocating for fairness and uncovering truth is a life worth living, and I anticipate that future generations will celebrate these efforts as a contribution to the ongoing pursuit of a just and equitable society.

Article 15 – Freedom from torture or cruel, inhuman or degrading treatment or punishment

1. No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment. In particular, no one shall be subjected without his or her free consent to medical or scientific experimentation.
2. States Parties shall take all effective legislative, administrative, judicial or other measures to prevent persons with disabilities, on an equal basis with others, from being subjected to torture or cruel, inhuman or degrading treatment or punishment.

I have endured torture, cruel, inhuman, or degrading treatment, unfair punishment, and victimization. I have been robbed of my rights and well-being. According to the charter, the government is now obligated to intervene effectively through legislative, administrative, and judicial means to prevent any further harm or punishment to me.

Psychological Abuse is considered mental abuse of a disabled person that includes verbal harassment, other intimidating behavior that results in fear, agitation, confusion, severe depression, or other forms of emotional distress.

This exploitation of my narrative and non acknowledgement of my issues and my story and may evidence is created and deliberately gaslighting me in effect confusing me as a method of torture. It goes right up to the OPMC for FOI and neglecting to meaningfully intervene in my poverty and persecution leading to my homelessness and

Article 16 – Freedom from exploitation, violence and abuse

1. States Parties shall take all appropriate legislative, administrative, social, educational and other measures to protect persons with disabilities, both within and outside the home, from all forms of exploitation, including their gender-based aspects.
2. States Parties shall also take all appropriate measures to prevent all forms of exploitation, violence and abuse, ensuring, inter alia, appropriate forms of gender- and age-sensitive assistance and support for persons with disabilities and their families and caregivers, including through the provision of information and education, to avoid, recognize and report instances of exploitation, violence and abuse. States Parties shall ensure that services are age-, gender- and disability-sensitive.
3. In order to prevent the occurrence of all forms of exploitation, violence and abuse, States Parties shall ensure that all facilities and programmes designed to serve persons with disabilities are effectively monitored by independent authorities.
4. States Parties shall take all appropriate measures to promote the physical, cognitive and psychological

rehabilitation and social reintegration of persons with disabilities who become victims of any form of violence or abuse, including through the provision of protection services. Such recovery and reintegration should take place in an environment that fosters the health, welfare, self-respect, dignity and autonomy of the victims and takes into account gender- and age-specific needs.

5. States Parties shall put in place effective legislation and policies, including women- and child-specific legislation and policies, to ensure that instances of exploitation, violence and abuse against persons with disabilities are identified, investigated and, where appropriate, prosecuted.

I have been exploited violently attacked and abused.

Article 17 – Protecting the integrity of the person

Every person with disabilities has a right to respect for his or her physical and mental integrity on an equal basis with others.

I have had my physical and mental integrity consciously damaged or impaired.

They took everything from me as a targeted individual (TI) in my persecution.

Maliciously, they took away everything I had, including:

- My business,
- My accreditation,
- My human rights,
- My access to the law,
- My reputation,
- My work cover,
- My insurances,
- My settlements,
- My fair treatment,
- My right to be treated impartially,
- My ability to rent a home.

Not only did I lose my home, but its contents were also destroyed. I found myself being force-medicated 'delusions of persecution,' which were, in reality, horrifyingly true. My privacy was invaded, subjected to harassment, and banned from numerous social media platforms, including Facebook, LinkedIn, Twitter, and more. They went on to obliterate my business website, which also held my Australian Business Number (ABN), a number crucial for online logins.

To add to the ordeal, they blocked my emails from various government agencies, denied my access to services, and refused my basic right to report crimes.

Astonishingly, they went as far as blocking me from the Australian Federal Police (AFP) on Instagram, infringing on my rights; they took away my hope by intercepting my phone, controlling my contacts, and preventing me from communicating with them. Their actions escalated to remote planting of illegal content on my personal computer, allowing drug use and abuse through neglect.

The denial of my ADHD medication, dexamphetamine, was a deliberate act causing severe harm. It was an assassination, severing ties with long-standing friends, intentional isolation, and the use of subsonic frequencies to debilitate. In their campaign against me, they lied about their commitment to my care, willfully vilified me, subjected me to unspeakable torture. This conspiracy reached the depths of deception and covert in a thug to violently attack me inside a public hospital.

All these actions collectively affirm that I am indeed a targeted individual (TI).

This my former home under surveillance collecting data and deleting files and planting data.

They had been harassing me with V2K a covert audio harassment technique.

It has an aim to wear down my resolve and elicit my suicide.

Whether it is real or not they used the voices of men family that were speaking to me.

My 50th was coming up and they utilised a recording of a birthday party sing along - they knew full well mine would be spent alone.

It was.

1. a.

Victimisation is against the law.

But the law is of no consequence when you're a targeted

Article 25 – Health

States Parties recognize that persons with disabilities have the right to the enjoyment of the highest standard of health without discrimination on the basis of disability. States Parties shall take all appropriate measures to ensure access for persons with disabilities to health services that are gender-sensitive and health-related rehabilitation. In particular, States Parties shall:

- a) Provide persons with disabilities with the same range, quality and standard of free or affordable health programmes as provided to other persons, including in the area of sexual and reproductive health based public health programmes;
- b) Provide those health services needed by persons with disabilities specifically because of their disability, including early identification and intervention as appropriate, and services designed to minimize and prevent further disabilities, including among children and older persons;
- c) Provide these health services as close as possible to people's own communities, including in rural areas;
- d) Require health professionals to provide care of the same quality to persons with disabilities as to other persons, including on the basis of free and informed consent by, inter alia, raising awareness of the human rights, autonomy and needs of persons with disabilities through training and the promulgation of ethical standards for public and private health care;
- e) Prohibit discrimination against persons with disabilities in the provision of health insurance, and where such insurance is permitted by national law, which shall be provided in a fair and reasonable manner;
- f) Prevent discriminatory denial of health care or health services or food and fluids on the basis of disability.

I have no psychologist no psychiatrist and no GP. I don't have enough medicine or money, access services.

USE THIS SPACE TO PROMOTE YOUR BUSINESS

Article 28 – Adequate standard of living and social protection

1. States Parties recognize the right of persons with disabilities to an adequate standard of living, including adequate food, clothing and housing, and to the continuous improvement of living conditions, and shall take appropriate steps to safeguard and promote the realization of this right without discrimination on the basis of disability.
2. States Parties recognize the right of persons with disabilities to social protection and to the enjoyment of the highest attainable standard of health without discrimination on the basis of disability, and shall take appropriate steps to safeguard and promote the realization of this right without discrimination on the basis of disability, including measures:
 - a) To ensure equal access by persons with disabilities to clean water services, and to ensure access to affordable services, devices and other assistance for disability-related needs;
 - b) To ensure access by persons with disabilities, in particular women and girls with disabilities and disabilities, to social protection programmes and poverty reduction programmes;
 - c) To ensure access by persons with disabilities and their families living in situations of poverty to basic services and poverty reduction programmes, including adequate training, counselling, financial assistance and social protection programmes;
 - d) To ensure access by persons with disabilities to public housing programmes;
 - e) To ensure equal access by persons with disabilities to retirement benefits and programmes.

I have been living in my car as a homeless vagrant without any protections.

People with disability and the law: demanding representation

The United Nations Convention on the Rights of Persons with Disabilities (CRPD) is to promote, protect and ensure the full and equal enjoyment of all human rights and fundamental freedoms by all persons with disabilities, and to promote the respect for their inherent dignity. It was ratified in 2008 in Australia as a foundation of this country underpinning all laws and policies.

In particular in regard to Article 12 – Equal recognition before the law:

1. States Parties reaffirm that persons with disabilities have the right to recognition everywhere as persons before the law.
2. States Parties shall recognize that persons with disabilities enjoy legal capacity on an equal basis with others.
3. States Parties shall take appropriate measures to provide access by persons with disabilities to the judicial system, including legal aid, in exercising their legal capacity.
4. States Parties shall ensure that all measures that relate to the exercise of legal capacity provide safeguards to prevent abuse in accordance with international human rights law. Such safeguards shall be designed to protect the rights, will and preferences of the person, are subject to regular review by a competent, independent and impartial authority or judicial body. The measures shall be proportional to the degree to which such measures affect the person's rights and interests.
5. Subject to the provisions of this article, States Parties shall take all appropriate and effective measures to support the right of persons with disabilities to own or inherit property, to control their own financial affairs and to access bank loans, mortgages and other forms of financial credit, and shall ensure that persons with disabilities have equal access to property.

I am fifty years old and I have never had an unbiased not deceitful corrupt lawyer. That is in that Australia is a signatory and ratified in 2008. I demand an impartial one from the government to me under the charter.

Dr. Rich McLean succumbed to a lethal injury in February 2021, beside Werribee Me Barran Dodger, on the other hand, was revived from certain death.

If you tolerate this, then you or your children will be next. Silence is complicity.

They were and are an artist. author. advocate. academic. government scapegoat. and

since 2002, a targeted individual of the Australian Government.

Rich became marked for destruction in 2022 when his once-celebrated, human rights autobiography led to his vilification by The Herald Sun, resulting in his illegal terminal Age.

Defeated in the settlement of his illegal termination due to having no lawyer and reject assistance, this was the initial instance of prosperity consciously redacted from him in any way. The deliberate orchestrated attack to deny his prosperity was directly proportionate to his public profile as a person diagnosed with mental illness. The stigma, shame, prejudice, discrimination perpetrated on him due to his brave, controversial narrative about his experience with schizophrenia caused personal damage. Later in life, his vulnerabilities were used against him, revealing the malice of a targeted individual under investigation, exploiting his conceivable weakness he had, or claimed to have. This is utterly deplorable.

They are a rejected whistleblower. They have never had a lawyer. They cannot report police. They live under death threats. They suffer family violence. They have been identified, psychometrically profiled, persecuted, victimized, vilified, violently attacked systematically, and politically robbed of multimillion dollars. Barra's abject poverty and homelessness are via intelligent design by political methods. His mental illness, as a publicly known existing vulnerability, is intentionally amplified poverty—a sustained neglect by the government. The Government is corrupt. This is demonstrated because no government agency will admit Barra's relationship with S Iasonidis, a former drug mule, tax cheat, and ASIO employee. Every day that Barra designed poverty is another day the tyrannical government abuses with impunity, and family violence dominates Barra's existence.

Barra's human rights abuses have been documented by a brave NDIS worker in a report. The NDIS provider who was ever or presently contracted to Barra's care is under an ethical and legal obligation to report mistreatment and abuse to authorities under the NDIS Act. He didn't. The AHRC refuses to investigate. He is banned at AFCA.

He called out corruption last attorney, Gerald. The Attorney General Mark Dreyfus is prime minister refuses to meaningfully intervene in Barra's situation, protecting Iasonidis.

"No-touch torture" is presently torturing Barra with de-legitimizing his story, narrative evidence. It forced his suicide by the deceit and corruption of a proven conspiracy. His mental illness didn't cause the suicide attempt; it was 'no-touch torture' that killed Ric. Barra demonstrates an intelligent, organized, and covert conspiracy to pervert the course of justice. This elicited what could be called murder.

Psychological torture techniques with no physical contact inflicted severe mental and distress on him, leading up to his attempt over years. It broke his will under extreme isolation, vilification for 'mental illness,' to the excuse of all other factors, creating a sense of helplessness. The same psychological manipulation, sensory deprivation, facial dehumanization, removal of legal rights, and obliteration of his human rights, and other various stress-methods such as character assassination were and are still being used three years after he died. The impact of Rich's death is profound and long-lasting as a brain injury.

I am an individual with a disability, diagnosed with chronic schizophrenia, ADHD, adjustment disorder, bipolar disorder, anxiety, panic disorder, and also coping with a brain impairment in my memory. This impairment resulted from a suicide attempt inside Werribee Mercy. I took such a drastic step due to persecution, victimization, financial abuse, isolation, and violence solely because of mental illness. Recently, I found myself homeless, living out of my car.

As a person with chronic disabilities, devoid of food, legal representation, and healthcare in my car, I am labeled both an infamous vagrant and a targeted individual persecuted by the government. In my desperation for basic necessities, I applied for an emergency pay Centrelink disability support pension. Despite my dire circumstances, I received a call from Centrelink where a woman informed me that I "don't qualify" for an emergency payment. This rejection is emblematic of the chronic financial negligence and victimization I endure from the Australian government, who are evidently aware that they are causing me harm. Their actions stem from years of redacting my prosperity, aiming to inflict maximum damage on my financial health and, ultimately, cause harm. On one end, this involves ruining my financial future; on the extreme end, it could lead to neglect that maims, destroys, or, in essence, murders. Deliberate financial abuse and victimization I experience existed well before my suicide, revealing a politicized, systemic intention. This implies that the "fatal" injury I suffered was consciously intended, constituting a malicious, tyrannical government conspiracy that murdered me.

Given their indifference to my life after leaving me without a home, this webpage serves as evidence of the orchestrated financial detriments and substantiates my status as a targeted individual. It also seeks to prompt a response or resolution from the government or the police regarding the provision of a secure location for my dog and me, due to threats from my former partner who has vowed to harm us. I demand accommodation and protection from persecution by the police and health authorities. Beyond basic human rights, I am owed justice, and this situation must be unequivocally proven with facts to negotiate a resolution.

Should the NDIS minister reject my basic human rights demands, I will instruct my lawyer to sue her, aiming to cause maximum damage to her and her reputation. This legal action is in my proven victimization, part of the broader government conspiracy outlined on this page.

Dr. Rich McLean died from a lethal injury in February 2021 beside Werribee Mercy Hospital. Dr. Dodger was revived from certain death. If you tolerate this, then you or your children are in complicity.

They were and are an artist, author, advocate, academic, government scapegoat, and since 2002, a Targeted Individual of the Australian Government. Rich was earmarked for destruction from 2022 when his once-celebrated human rights-awarded autobiography led to his vilification by The Herald Sun, leading to his illegal termination at The Age. He was defeated in the settlement of his illegal termination due to having no lawyer and reject assistance.

In retrospect, this was the first instance of prosperity consciously redacted from him in any way. Furthermore, this deliberate orchestrated attack to deny his prosperity was directly proportionate to his public profile as a person diagnosed with mental illness. The stigma, prejudice, and discrimination perpetrated on him due to his brave, controversial narrative about his experience with schizophrenia, from its publication and being in the public domain, caused personal damage.

They are a rejected whistleblower. They have never had a lawyer. They cannot report police. They live under death threats. They suffer family violence. They have been identified, psychometrically profiled, persecuted, victimized, vilified, violently attacked systematically, and politically robbed of multimillion dollars.

Barra's abject poverty and recent homelessness are via intelligent design by political methods. His mental illness, as a publicly known existing vulnerability, is intentionally amplified poverty—a sustained neglect by the government. The Government is corrupt. This is demonstrated because no government agency will admit Barra's relationship with S Iasonidis, a former drug mule, tax cheat, and ASIO employee.

Every day that Barra lives in his designed poverty is another day the tyrannical government abuses with impunity, and another day family violence dominates Barra's existence. I demand justice.

human rights abuses have been documented by a brave NDIS worker in a report. EA provider who was ever or presently contracted to Barran's care is under an ethical, m obligation to report mistreatment and abuse to authorities under the NDIS code of co AHRC refuses to investigate. He is banned at AFCA.

The Attorney General Mark Dreyfus is silent. The prime minister elected to acknowle "No-touch torture" is presently torturing Barran with de-legitimizing his story, narrative evidence. It forced his suicide by the deceit and corruption of a proven conspiracy an Mental illness didn't cause the suicide attempt; it was 'no-touch torture' that killed Ric demonstrates an intelligent, organized, and covert conspiracy to pervert the course o this elicited what could be called murder. Psychological torture techniques with no ph inflicted severe mental and emotional distress on him leading up to his attempt over y his will under extreme stress and vilification for 'mental illness,' to the excuse of all ot creating a sense of isolation and powerlessness. The same psychological manipulat deprivation, facial destruction, removal of legal rights, and obliteration of his human ri other various stress-inducing methods such as character assassination were and are used three years after he was revived. The impact of Rich's death is profound and lo brain injury.

My human rights abuses have been documented by an NDIS worker, but no NDIS cc sign off on it, as is their obligation to me to report the abuse of their client who has a i The AHRC refuses to investigate, further demonstrating the blacklisting of me as a ta individual ex-communicated from the government.

It is simple to see the conspiracy because no government agency will admit my relati former ASIO employee I was engaged to for five years ever existed. This, along with access to the law, has resulted in the relationship not being legitimized as a fact of lif therefore, no fair settlement of our assets has ever happened for the time we were to which he was a multi-millionaire and exploited me while I lived on a meager DSP per

I also lived off a total permanent disability impairment payout from 2008, and at the s relationship, I had \$100,000, and at the end, my former partner left me homeless. The non-acknowledgment of the relationship at a government level is profound corru lawyers, police, public officials, and politicians.

The result of this deceit and the rendering of a preferred reality, which is inconsistent has financially victimized me of no settlement, and I live under coercive financial cont violence.

Every day I have lived in poverty from 2015 is another day corruption and the persec government tyranny that victimizes me and my curse of family violence wins

Every day I have lived in poverty especially from 2015 is another day corruption and the per government tyranny that victimises me and my curse of family violence wins.

Of course I am fucking scared. This malicious movement has steadily grown from every day small m exploitation, to humiliation, to character assassination, to naming me, maiming me, framing me, to bl vilifying me, to victimising me, to force medicating me, to torturing me, to eliciting my death, revivin de-legitimised my evidence and my experience. I know there is an intention to kill, because of my 'fi know I am a suicide risk of financial abuse, but it goes to utterly absurd measures in order to prolong at risk. They intentionally amplify my known vulnerability. It's a horrific fact that they have weaponis my vulnerabilities. Thats an un-Godly action to take for a disabled man. It's a politicised game and it' targeted individuals life is always imminently at risk, an absurd amount of victimisation. It's callous a like this. They know they elicited a death. They have hate. They have malice. They have murderous i happens. They know full well they can safely exonerate themselves of all liability if their murderous i contract murdered. I couldn't make up these threats to kill. It's not a delusion in my head requiring pi own persecution or imagined this life. My poverty is not the result of any character flaw or deficiency passionate enough or brave enough or utterly capable in ways. They did this to me. And everyone is i my dog. I can't report that threat to police. It's not a joke! This is corruption. It's covert and is intende they have every person ready to vilify me for mental illness. If I do die fighting this, they already hav themselves via layers of bureaucracy. They mean business but I'm only one guy - fighting the whole v and my voice left. Surely that demonstrates my impossible detriment. I only have the ability to tell my last and only asset. This is the hill I will die on in defence of the warriors I stand on the shoulders on. fellow human being I know no one cares if I die. That is the hardest thing to swallow. I can't compute one stood ups for me - ever! That is their immense influence. My family blacked me out of their lives medication and thinks I am sick. I think that she's sick. For allowing this to happen to me. How coul achievements negate the ill will? All my friends have gone... my beautiful friends. They may have ca in a faceless and cowardly way. I'm scared of what they will now do but I am not afraid to die. But I a I will win this whether alive or dead!

ChatGPT

I am undeniably terrified.

necessary change to end the tyranny and deception I am currently enduring.

Carole please respond to this email.

If you delegitimise it ignore it or pointedly neglect it, I won't be happy.

Carole i can I get a confirmation from you that you will advise the OT in strongest possible terms that I need 24 hour care for a SILS application?

That is for these following reasons:

1. The brain injury
2. My mental illness
3. The fact that I don't feel safe and I am under threats on my life.
4. The fact that Stefan Iasonidis has threatened to kill my dog, in retaliation for apparently being done for a million dollars in embezzlement for his corrupt finances and has now threaten
5. The fact that no government agency will acknowledge that the relationship ever existed which is a reason why I am a targeted individual.
6. For my identification of being the victim of "no touch torture" from the government which is dealt to me in a systemic and a politicised way.
7. This was the torture that led to my suicide attempt from which I now have the brain injury which was stated in weribee mercy hospital documents as a "degeneration"
8. Also that Tye degeneration is because poverty is bad for anyone's health and my poverty is by design of the government.
9. Also because my mother has put on an AVO against me for which I now have to go to court and my other blood family have blacklisted me.
10. Also because this torture puts me at risk of suicide although I am not suicidal the government knows that I am a suicide risk as I've been revived from death yet they still financially p

Can you note no touch torture and targeted individual definitions are at:

[HTTPS://barrandodger.com/dr-rich-mclean](https://barrandodger.com/dr-rich-mclean)

I do not feel safe and I am being tortured and my mental illness was already existing and now it has been weaponised in order to persecute me.

Also for the reasons outlined below of my human rights abuses have been documented along with my victimisation and oppression and of being a scapegoat.

It is not possible that the following could be allowed to continue:

I don't have enough food shelter civil liberties human or legal rights or privacy or medical care or a permanent home or a psychologist a psychiatrist or a GP and my character be assassinated kill me with neglect.

The NDIS needs to grant my SILS all other avenues are lost

It will support my needs and NDIS goals of being housed and free from further persecution

I am banned at AFCA

I lost my work cover

I lost my income assist

I lost my VOCAT case

And so many others

Refusal of my SILS when I am clearly insane and cannot look after myself for being hospitalised seven times over three years and the documented chronic illness I have could only be inter

I now have a lawyer I will hold people accountable for any subscription to my further torture

Please cc me in the message to the ndis and to the OT when you acknowledge this to them and insist on SILs

If you need evidence of all that I can provide

Thanks

Barran

Hi Richard

In response to your queries.

On 21 December 2023 I forwarded you options to choose an advocate to engage with, and I have attached the link again below for your reference. Once you have selected your preferred address your issues with the government or NDIS.

<https://valid.org.au/resources-and-media/resources/list-victorian-advocacy-organisations/>

As for the electronic surveillance and new computer and SIL housing, this will require an OT to complete assessments.

If you would like additional supports to engage with community/social activities or other daily activities, such as, organising your filing system etc., please forward me your preferred days an

Please note the NDIS will not pay for everyday essential items such as vitamins, hair brushes etc.

I understand that you have a lawyer engaged already, if not, your advocate could assist you to engage a new lawyer.

Please note that Robyn has linked you in with Behaviour Practitioner and an OT. The OT has reached out with an appointment scheduled on the 4th Jan, 2024, if you can respond to Robyn

Once you are in permanent housing you can look at engaging with a local drug and counselling provider. In the meantime, you may like to access support online, and below is a link to Alcc

<https://www.counsellingonline.org.au/>

Finally, if you feel your current medications are not sufficient, I suggest you contact your mental health team so they can revise these.

Warm Regards

Carol Cope

Subject: Complaint about corruption and torture exploitation and abuse of ndis participant

Go on then, ignore pointedly neglect or de-legitimise this.

Hurt me more!

I dare you to

You're all corrupt please forgive me if you are not

But I'm not feeling any love or support or justice from anywhere

I need a dignified response to this report of corruption and torture URGENTLY from:

- Ndis commission
- Ndis
- Ceo ndis
- Robyn obrien
- Carole cope
- Daniel peely
- Zabi
- Ombudsman
- info@brjames.com.au

Dear PPCG,

I have been living in my car as an infamous vagrant as the victim of a conspiracy literally begging for food

On the run from authorities

Trying to incarcerate and vilify me for apparent mental illness

Whilst excluding everything else in my life

Im potentially worth millions upon millions of dollars lost to detriments

That were intelligently politically and systemically redacted from me

I have had no home.

I see you can get a NILS up to 3000 for accomodation?

Can I please apply for that to assist me getting permanent accomodation

Could I also apply for other things maybe you can call me

0451804410

Dr Richard Mclean

DSP 305689451x

Ps:

I wrote this text to a freind this morning.

It summarises my predicament.

Please do not deny me for a NILS and call me urgently

I just text this to my mate:

I don't even know what day it is I went hard with drugs booze and fucking and was awake for three days

I crashed and just got up and I guess my word is a bit fucked up and now I have zero money or food

I live under family violence

Coercive financial control

And a conspiracy in which every person I know has lied in the deception to me

And ineffective in any action which would stop my designed poverty or brutal persecution

I've no money...

Or a psychiatrist
Or a psychologist
Or a GP
Or a drug and alcoholic Counsellor
Or financial Counsellor
Or a lawyer
Or human rights
Or legal rights
Or any family
Or any friends
Or any possessions
Or privacy
Or security
Or civil liberties
Or money
Or income
Or insurance
Or settlements
Or compensation
Or work cover
Or a hospital settlement
Or a VOCAT settlement
Or a child sexual abuse redress
Or a home past a few days
Or security
Or peace
Or much happiness

Apparently 'crazy'
For mentioning all that
With a brain impairment
Post-suicide
Rejected
Neglected
Framed
Maimed

Blamed
And shamed

I had escapism from the profound neglect abuse and literal torture for three days...
Now I am back to square one: that is with nothing and nobody
Christmas will be spent alone
an infamous vagrant and an innocent criminal
a scapegoat and political prisoner
on the run from authorities health and police as a fugitive
Having been systemically and politically robbed of every cent of my prosperity
By a government who has already basically murdered/killed me
And they have zero care if my further neglect puts me at an existential risk
Bankrupt and broken and in debt
Without the necessary things an individual needs in order to survive or participate in society effectively
With my human and legal rights utterly shattered
And I'm sitting at the computer
Back to fighting this oppression again
In utter futility
Because every email
Has fallen on deaf ears
And not just ignored
But pointedly neglected
Its a conspiracy to pervert the course of justice
With its genesis
In not one person being courageous as me
To point out the corruption
Because ultimately everyone is paid by the government or supported by them
Ad I am excited communicated from the government
A rejected and unprotected whistleblower
Who felt it his duty to the county to call out profound corruption
In the hope that justice would prevail and the underdog would get his chance to shine
Sadly I was wrong
No one cares if I die now
And everybody knows
That I've been pushed to the edge of existence in every second of every minute of every day
Barely hanging onto hope
On a wing and a prayer
Praying an intervention will save me
From profound systemic neglect
That has damaged me beyond repair
And for which the world keeps piling up grief persecution and poverty on me
Consciously aware that they're hurting me
Whistleblowing website with evidence of profound corruption neglect and abuse:

COMPLAINT ABOUT MY TORTURE

Dear Rebecca Falkingham,

To act with neglect or silence now after reading this is complicity in the killing.

'When wealth is passed off as merit, bad luck is seen as bad character. This is how ideologues justify punishing the sick and the poor. But poverty is neither a crime nor a character flaw. It is a condition of life for those who struggle to live.' [Sarah Kendzior](#)

The list of financial detriments I have suffered over the years listed below have now been unequivocally proven to be decisions that have been pre determined to fail. This is because I have the human rights charter of a person with a disability ratified by the Government in 2008.

This deliberate redaction of all of my prosperity were all decisions made at government statutory agencies by lawyers who can be bought, corrupt public officials and supported by political tyrannical overlords who pay them handsomely to live in luxury and privilege and to never deviate from towing the party line.

I feel sorry for them, and the recipients of this letter for being restricted in their critical thinking limited by the powers that pay/bribe them. I do not suffer the same restrictions as you and I

They all were and are decisions that were unethical illegal unbalanced biased immoral and brutally unfair to me. I have never had access to the law and every Government agency has a department or statutory authorities where doomed to fail for me decisions were made.

The list as you can see is long and it identifies that a massive amount of financial detriment has been redacted from me in a way that has brutally victimized me.

the list as you can see is long and it identifies that a massive amount of financial detriment has been redacted from me in a way that has brutally victimised me.

Victimisation is against the law.

- Unfair termination settlement from the Age newspaper, \$300000
- Work cover settlement from 2004, \$300000
- Incorrect TPD payment from 2008, \$500000
- Medical malpractice settlement in 2017, \$300000
- HCF income assist settlement in 2021, \$750000
- Work Cover settlement in 2021, \$750000
- Provisional payments from work cover 2021, \$50000
- Business insurance payout 2021, \$100000
- Former partner settlement, \$500000
- Settlement for my cognitive brain impairment sustained inside a hospital the they owed a duty of care, \$2500000
- Sue for my business website maliciously destroyed, \$100000,
- Claim for loss after my worldly possessions were destroyed, \$50000,
- Detriments of over 2 million after being banned at AFCA, \$20000000,
- Detriments of over 1.5 million after insurance settlement was free kicked to opposition at AHRC, \$15000000,
- Money to pay for my accomodation blocked from arriving at the NDIS/A, \$25000,
- Child sexual abuse redress from DSS delayed denied deferred, \$250000,
- VOCAT case for child sexual abuse case cited by magistrate as 'doomed', \$25000,
- VOCAT case for violent affray in which I was hospitalised with broken bones and slashes for intervening and sticking up for a member of the public rejected, \$25000
- Compensated for being run over by a car (most likely a government vehicle), \$50000
- Compensation for being violently attacked inside a hospital by a not so undercover government thug, \$200000
- Compensation for a provable conspiracy to pervert the course of justice causing death, \$300000
- Compensation for the whitewashing of that tragedy by dozens of high ranking public officials who has a responsibility to act ethically with the public services act, \$300000

Let's make a deal: That the Government collectively provide me with (5) five million dollars by COB 5pm on Christmas Eve this year and I will forget the whole damn conspiracy that murder which I would die of neglect even existed.

There is no question that a conspiracy to pervert the course of justice has and is occurring and that I am now a targeted individual of the Australian Government ear marked for utter destruction

...and no one would care. But I am ok with that now.

I demand an end to my torture. I use the word 'torture' as per the definition in the 'convention of torture and other cruel, inhuman or degrading treatment or punishment' that has been ratified under international law and treaty.

The Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment that Australia is a signatory to states 'For the purposes of this Convention, the pain or suffering, whether physical or mental, is intentionally inflicted on a person for such purposes as obtaining from him or a third person information or a confession, punishing him for is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at acquiescence of a public official or other person acting in an official capacity. It does not include pain or suffering arising only from, inherent in or incidental to lawful sanctions.'

When you politically and systemically remove an individual's access to prosperity and money it creates suffering and designs an individual's poverty. It has a conscious way of emphasising it is widely acknowledged in the literature that finance/money and housing are the two main factors that affect a person's mental well-being. In this way of being locked out of any prosperity now be interpreted for Mclean to be a 'targeted individual' from the Australian government my prosperity has now been proven to have been intentionally and politically redacted over me

If no compromise is reached to solve my brutal victimisation in the form of compensation paid to me then I will highlight the government's own ethical and moral obligations to me as a person to lodge it for me as a marginalised person who has human rights under DSS's National Standards for Disability Services and also the United Nations Convention on the Rights of the Convention which Australia has ratified in 2008 and a signatory to, is to promote, protect and ensure the full and equal enjoyment of all human rights and fundamental freedoms by all people for their inherent dignity.

The facts are clear about where I am in relation to the CRPD in that:

Article 40 of the CRPD stipulates that States Parties (signatories to the Convention such as Australia) shall meet regularly in a **Conference of States Parties (COSP)**. This is to consider a of the Convention. Since 2008, the COSP has been held annually at the United Nations Headquarters in New York, covering a range of themes and issues in round-tables, interactive dialogues

You could try and ignore me now and this email. You could delete it or de-legitimise it. You could not just ignore it but pointedly neglect it and me.

But God is on my side and I have proven to be a fearless warrior campaigner and human rights champion.

I am extremely powerful - that's why I am being tortured to death with systemic and politicised neglect - and I have super human resilience and you all damn well know it.

It is within each public service official's responsibility to act ethically regarding every convention Australia has ratified that are the foundation of our country's laws. This responsibility is not employed by the government in public office and also every parliamentarian but a legal obligation regarding the democratic citizens they represent. If this obligation to me is neglected after pointedly attack those officials now later or down the track and commit to their prosecution and their humiliation for their cowardice.

I will with the help of my barrister I have just signed a contract with hold each of them to account either now, soon, later or indeed I shall haul their arses over the coals at the UN when Australia York.

That is not a threat that is a promise.

Further I will act to highlight the malice in high places which would be an incredible financial political and personal detriment and embarrassment to each individual.

I would have been a great extortionist but its never extortion when you are just reclaiming what is already owed to you.

That's (5) five million dollars by Christmas Eve.

If you do not think I have access to a barrister you're dead wrong.

If you think I will give up you are also wrong, because I have chosen to die on this hill if it kills me.

There is no turning back.

Carole, Robyn and Jennifer Hadley,

You are some of the last ones standing.

I require you to all make traction with Mark Dreyfus! I demand an answer and truce!

DO NOT IGNORE OR POINTEDLY NEGLECT THIS EMAIL!!!

DO NOT DE-LEGITIMISE MY EXPERIENCE NEEDS OPINION OR OR NARRATIVE

I have evidence for every single thing I claim.

I WANT A TRUCE WITH THE FEDERAL GOVERNMENT PLEASE CONTACT MARK DREYFUS ATTORNEY GENERAL

OTHERWISE I GO TO INDEPENDANT MEDIA AND INSTRUCT MY BARRISTER TO DESTROY WITH THE IMPUNITY I HAVE BEEN MAIMED BLAMED SHAMED AND FRAMED WITH!

(There is a long essay I am writing at the end of this email it is unfinished).

What kind of incidents need to be reported to the NDIS?

The death of a person with disability. Serious injury of a person with disability. Abuse or neglect of a person with disability.

I have been abused in a systemic and politicised way which has redacted all my prosperity.

I have been neglected as a person who is a democratic citizen of this country.

I have been rejected my human rights and my legal rights.

I have suffered a 'fatal' injury from this deception victimisation vilification exploitation and conspiracy.
 Yet I was revived from certain death. I would have died.
 The same political scapegoating causing 'my lethal' suicide attempt continues to be maliciously orchestrated on me.
 My abuse is a profound victimisation and victimisation is against the law.
 I am ex communicated from the federal government, and most of society & family.
 I live under coercive financial control from Stefan Iasonidis who refuses a settlement.
 No government agency will admit the relationship ever existed.
 I suffer profound neglect: I have no GP, I have no psychiatrist, I have no psychologist.
 I have been rejected from all continuing care teams from all hospitals I have been in.
 I have been psychometrically profiled at ASIO, AGIS and the five eyes beyond and so have never had access to a lawyer.
 I am now a rejected whistleblower at half a dozen government statutory authorities.
 I have been banned at AFCA resulting in millions of dollars detriment.
 I lost a million and a half dollar conciliation from a cancelled settlement at AHRC when they free kicked it to TAL the opposition.
 My human rights abuses have been documented by an NDIS worker but no NDIS provider I have a contract with will sign off on it.
 The AHRC have refused to investigate my documented human rights abuses.
 The last attorney general Michael Cash refused to legitimise the corruption at AHRC and AFCA.
 She refused to intervene when I correctly predicted my work cover would fail at the AAT in 2002 and sent me to the SANE help line.
 My work cover from 2004 and additionally from 2021 has never been paid.
 Oaic described my FOI from OPMC as 'voluminous' and 'complex' but deceitfully returned with 'no documents exist'.
 That no documents exist regarding my FOI and data is corrupt and it is a lie.
 Mark Dreyfus has never responded to any email or phone call in a meaningful way.
 He owes it to me to legitimise my story and this may put a stop to my continuing detriments abject poverty human rights abuses and for being ex communicated from the legal sector.

A support coordinator will work with you to ensure a mix of supports are used to increase your capacity to maintain relationships, manage service delivery tasks, live more independently ; support coordination – This is a higher level of support coordination.

Supports and services for participants fall into three categories: core, capital and capacity building.

Core: Consumables (e.g. purchasing everyday use items such as continence aids) Daily Activities (e.g. assistance with self-care activities during the day or evening) Assistance with Social and recreational activities (e.g. assistance to enable you to engage in social or recreational activities)

I need vitamins,
 I need a hair brush and toiletries,
 I need care to organise my things,
 I need help organising my computer and filing system,
 I need help accessing a lawyer,
 I need to be more social and participate more after having been forsaken.

Capital: Capital Supports include higher-cost pieces of assistive technology, equipment and home or vehicle modifications, and funding for one-off purchases you may need (including Spinal and prosthetic equipment)

I need electronic surveillance because of the death threats and gang stalking and the profound victimisation from police and health care,
 I need a new computer this one has been maimed,
 I urgently need specialist disability accommodation or SILS to go through
 I deserve to feel safe and free from violence and gang stalking
 Sophisticated highly technological covert audio harassment is now employed on me which directs sub sonic sounds to wherever I am to discredit shame maim and frame me with abuse.
 I need to feel safe in the society I am in and I am not.
 In fact I am such a liability now for the government that as a targeted individual they will seek to discredit me, destroy me, jail me, incarcerate me as mad, or frame me for crimes I have as a conspiracy to pervert the course of justice will continue to cause my detriment by systemic neglect and it is well known that this neglect has already caused Jodie.
 The government are directing this malice on me with an intention to cause me harm redact my finances and to even murder me with neglect. Prove me Wrong.
 That is called state sanctioned murder.
 Everyone would blame my death on mental illness and drugs to the exclusion of everything else.
 George Brandis already passed sweeping legislation that removes liability of all government employees police healthcare politicians public officials and contractors linked to the government's detriments or harm or even the death of a targeted individual like me.

Capacity building: Development and training to increase your skills so you can participate in community, social and recreational activities. This may include employment-related support, training and keep a job, such as the school leaver employment supports.

The NDIS provides funding to eligible people with disability to gain more time with family and friends, greater independence, access to new skills, jobs, or volunteering in their community, also connects anyone with disability to services in their community.

I demand that I be urgently connected with the following:

An advocate,
 A lawyer and a legal team,
 Drug and alcohol counsellor,
 Financial counsellor,
 A psychiatrist (especially regarding ADHD and my dexamphetamine script so I don't self medicate with meth),
 A psychologist,
 A GP,
 Behaviour support therapist,
 An OT,
 A functional capacity assessment,
 Examination of cognitive brain detriment.

For each affected functional domain (mobility, learning, communication, self-care, social and self-management), consider what activity limitations the person experiences everyday as a result of their disability

Mobility: can't feel feet, unsteady, cannot see because I don't have my glasses, I have profound arthritis in legs feet back and neck.
 Learning: I am stuck in a broken record of neglect and abuse and I cannot think my way out of it,
 Communication: The fact is no one even cares about any email I send and it is always de-legitimised and not only ignored but pointedly neglected.
 Self-care: I do drugs to cope with the abuse and neglect and to replace dex. I can't wash clothes or even shop for food. The cognitive brain disorder means I cannot reason or think or reorganise and taken advantage of with the memory loss.
 Social: There is not one person left in my life because I have been psychometrically profiled investigated surveilled by phone and computer planted files and bugged, and five eyes are listening.
 Communications: I urgently need a new phone number and plan that authorities do not intercept or track.
 Friends: All of my friends are gone the result of my abuse neglect and scapegoating and communications intercepted.
 Self management: I fight tooth and nail every waking moment in order to literally stay alive framed by my victimisation and abuse and neglect.
 Activity limitations: gang stalkers have been following me and abusing me from behind fences and in the street, even on the radio. It limits my access to feeling secure or having a private life because of my whistleblowing has apparently been done for a million dollars of his corrupt finances and he has now used a carrier service Grindr to threaten to kill me and kill my family.
 Police and hospital and health care and CAT teams: I cannot report corruption robbery or systemic corruption or crime to police as they only vilify me for mental illness to the exclusion of my human rights.
 Incarcerate me as a political prisoner in a hospital which is pointless and I hate hospital and it does not serve me.
 I am trapped: I am surrounded by people intercepting me, police are after me and the hospital out likely has an order for men incarceration. I am fearful of TV and radio and I abhor the narrow vicinity wherever I go who harass me with words phrases and audio harassment.
 Communications: My business was destroyed by Micron21 with impunity. Its destroyed evidence before a court and destroyed my digital identity and the structure of my business my ABN and my reputation.

Core Supports enable participants to complete daily life tasks and achieve their goals, including: Assistance with daily living: such as bathing, dressing, meal preparation, medication assistance with cleaning, gardening, shopping and attending personal appointments.

I need all of this.

Specialist support coordinators should work with the participant, their families and carers to identify a broad network of a supports – funded or other supports – that can help the participant to achieve their goals.

I demand that you acknowledge the email and do it.

A functional capacity assessment, while not mandatory, is an important aspect of the National Disability Insurance Scheme (NDIS). It is designed to evaluate a person's ability to perform tasks in their community.

I need this.

Audits check if your rights as an NDIS participant are being met. These include your right to be safe, be respected, receive good quality services, and achieve your goals.

I am not achieving my goals.

I am not safe.
I am abused
I am neglected
I am ex communicated
I am the city of a conspiracy.

I am owed millions in detriments and have been literally murdered.

I want my life back.

I am demanding it.

I demand SILS for a home,

Protection from persecution,

Legal help and representation,

I wintry drugs,

I want my dexamphetamine to do less is neglect and malpractice,

I am really over it and alive or dead I will win.

God is on my side.

DR BARRAN DODGER

Essay draft:

'When wealth is passed off as merit, bad luck is seen as bad character. This is how ideologues justify punishing the sick and the poor. But poverty is neither a crime nor a character flaw. It is a struggle to live.' [Sarah Kendzior](#)

For those bereaved by suicide in their lives answers for your personal loss can be impossible to come by without your loved one being present to answer 'Why' or to express your anger for has negatively impacted your life. This essay provides a totally unique perspective on the reasons for suicide. This is because the protagonist would have successfully killed himself if not revived. In this unique and unimaginable story of systemic corruption and cruelty - he names his oppressors and his killers and the systems that elongated and emboldened the fatal harm

To act with neglect or silence now after reading this is complicity.

To the shame of Australian society and all people who have ever crossed this story the treatment that resulted in him losing all hope still exist but pointedly amplified.

The exact same kind of deceit, malpractice, conspiracy, lies, financial abuse, human and legal rights abuses, identification, victimisation, vilification, exploitation, elongated neglect and lit McLean nearly three long years after his personal tragedy of suicide. It is a personal tragedy which has left him with an unacknowledged cognitive brain impairment.

Recently Rich, who has spent thirty years advocating for people affected by mental illness and their carers all over this country, and who is an artist writer musician and earned a merit badge been living in his car. He had been ex communicated from his own family and the federal government as an infamous vagrant after being systemically and politically robbed of prosperity. relationship with a former ASIO agent who owes him over half a million dollars in a settlement of assets after he was exploited on the Governments watch. He has been denied health care not even a GP, denied legal rights, denied access to the law, denied fair treatment by police, he is a rejected whistleblower for speaking up on corruption that he saw as his moral obligation believed was ultimately equitable and fair.

He was wrong.

Dr Rich McLean proves with facts with this essay irrefutable proof that he is the victim of a federal conspiracy to pervert the course of justice. This persecution is not a delusion nor is it a medication but a demonstrable phenomenon verifiable with evidence.

This intolerable situation has become him because of his whistleblowing of which he has the qualities to make a PID disclosure yet all his PIDs have been rejected at government agencies only getting traction for his many justice issues which had systemically and politically redacted all of his prosperity and for surgically removing his human and legal rights but as a democrat was his ethical obligation to do so.

His PIDs were calling out corruption of many public officials and heads of government statutory agencies lawyer and politicians who had all ultimately been nurtured and supported by the had their wages paid by or under the auspice of government organisations or agencies.

This has meant that not one of these individuals from companies legal firms government statutory agencies or politicians have been willing to stand for him in any way. This is because the that could be punishment as being seen to have stood up for him advocated for him.

If they had been the singular person or individual that was instrumental in exposing this government conspiracy or corrupt conduct of dozens of high ranking officials they could be punished the might have had their luxury or prosperity affected or been reprimanded by other public officials or powerful key stakeholders across all kinds of government agencies.

When there has evolved a critical mass of corruption regarding a single individual and that this caused their detriment in all ways and it has gone to the highest levels in the land such as: ombudsman, AHRC, AFCA, ComCare, the AAT, The Federal Anti Corruption commission, the prime minister himself, all of legal services including the 'big four', the health department and enforcement agencies or independent government contractors who act in a way that is insulated from direct government action or liability, then the victim is trapped in a world whereby no ombudsman or police officer can meaningfully intervene or assist his dire situation.

Who I am

Etc

As a result of no one being able to meaningfully intervene in this socio political impasse, he has now become what is referred to as a targeted individual of the Australian federal Government

A targeted individual becomes such usually for reasons of being a terrorist or a threat to national security and the situation has to be dealt with by the powers that be. Ordinarily jail would become a fate for the criminally insane who is a threat to himself or someone else or otherwise is a threat to the government, alternately to silence the said individual the government may via 'no touch torture' destroy their lives that they create the conditions for either drug addiction channel them into crime or madness or actually be the cause of such neglect they suicide. liability for murdering a targeted individual with profound systemic and elongated neglect. If their suicide is proven not to be possible not possible, or the victim demonstrates resilience to it is by intelligent design or by neglect, then a calculated response that aims to destroy that person their finances and his political power agency to act their reputation and life in general the

CRIMES ACT 1914 - SECT 42 states that in regards to a conspiracy to pervert the course of justice, that: (1) A person commits an offence if: (a) the person conspires with another person to defeat the course of justice in relation to a judicial power; and, (b) the judicial power is the judicial power of the Commonwealth. Perverting the course of justice is an offence committed with intent to serve on him/herself or on another party. Allegations involving perjury or perverting the course of justice are extremely serious and need immediate and robust defence. For McLean who conspiracy he claims to be the victim of the prosecution must prove: The defendant intended to do an act; The defendant's act was intended to pervert the course of justice; and, The co-

This has meant that over years his prosperity has been intentionally redacted from him in a political and a systemic way. He cannot find support. As a scapegoat he has known from a brutal means. It means that because the Australian government holds the monopoly of absolute power over organisations institutions companies statutory authorities and has an extremely influential further who has the ability agility intelligence and power to create socio political environments that encourage a person to act in an illegal way

It also means that he has never had access to the law or equality before the law and because he has been psychometrically profiled by agencies on a systemic government level up to and the federal ombudsman, which has meant that his identity has filtered down into the legal bar - which ultimately relies on support from the Australian government and is auspices by its representation in his fifty years as a democratic citizen of this country and he has a clean criminal record. This is in absolute and total defiance of the United Nations Convention on the Rights of Australia is a signatory to and whom ratified this ethos into law in 2008.

The Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment of a person with a disability that Australia is a signatory to and ratified in 2008

United Nations Convention on the Rights of Persons with Disabilities (CRPD).

People have tried to assist within their remits of professional life but they have all one thing in common, they have failed to find a solution to the impasse of my impossible situation could be seen as tokenistic support that has been provided to me although this universally falls short of a solution.

In my life as an infamous vagrant and fugitive ex communicated from the Australian Government, as a targeted individual Bridget Hamilton has repeatedly met me in car parks and odd locations companionship as a 'friend' who has 'respect for you. (Me).' She has on occasion, given me fifty bucks to enable my survival and bought me much needed food for me to be able to eat. I whole world has forsaken me, and I am.

Associate Prof Hamilton is a Director of mental Health at the University of Melbourne and has been the recipient of a NICS NHMRC Fellowship, a University of Melbourne Engagement Grant collaborations with mental health consumers, and numerous grants from Commonwealth and State Governments. **She has co-authored:** Authentic engagement: A conceptual model for consumer and survivor views in mental health research, policy, and practice.

However she has refused to legitimise my challenging consumer survivor view regarding policy and practice.

I have no choice but to accept her assistance however tokenistic whilst at the same time being frustrated she has neglected to meaningfully intervene in the catastrophic impasse that is a neglect which is understood by the powers that be to cause an existential risk to my very life.

According to her professional bio, she has been and is funded by The Australian Government. However my nemesis is the Australian Government as they are the architects of my doom a wonder? All up, she has 'gifted' me the sum of \$250 over about five weeks existing as a homeless vagrant. It is always in cash and never transferred because 'I don't trust authorities' so I associate professor in mental health in her status as a director at the University of Melbourne, she has not utilised her formidable power of connections authority or power to simply organ

My problem is that I have a mental illness. My suffering is that my money, prosperity, and human and legal rights have been surgically removed from my life systemically and politically. My treatment has been brutal and further it literally murdered me once already but I was accidentally found and revived. This movement has an intended malice with which to cause maximum proven now that not a single person cares if I die.

Bridget Hamilton gets financially supported by the Australian Government, who are my nemesis and abuser. I have been brutally frustrated with why that framed by my experiences and b revived from, that she has repeatedly neglected to act in a meaningful way to cause a change of circumstances to the impasse of me being a scapegoat, but then again, this is exactly ho

She has fallen short of supplying the help I need to meaningfully change my brutal treatment and situation in a way that I need it. In this I am at once grateful for her help and entirely susp curiosity and intentionally deceived me with saying she respects me and cares for me when after all she is actioning a government mandate and elongating my suffering by purposefully n As a sexual abuse survivor my inner child is already untrusting of people but as a scapegoat and when you have been maimed shamed blamed and framed and society has forsaken you suspicious of her authentic intentions to help me.

Evidence over the past two decades has consistently found high rates of mental ill-health among people who access unemployment benefits (previously NewStart Allowance, now JobSe Butterworth, Crosier & Rodgers, 2004; Collie, Sheehan, & McAllister, 2019). This means that the policies and practices of the social security system disproportionately affect the lives of people with mental ill-health.

You cannot live on a DSP.

There is evidence that Disability Support Pension and Carer Payment is never adequate to cover the increased costs associated with healthcare needs or supporting someone Miranti & Vidyattama, 2019; Morrison & Stomski, 2019). Mclean supports this notion.

Dr Rich McLean's suffered a suicide attempt because he was the subject of a conspiracy, he was financial abused by his former partner Stefan Iasonidis who worked for ASIO, and he live violence, further his legal and human rights obliterated systemically and politically. He was first identified in a psychometric way by the federal government singled out isolated socially as 'mental illness' to the exclusion of all other factors that affected his life. This tragedy which has left him literally maimed with a cognitive brain impairment from the loss of his blood that af himself on top of already impossible persecution and detriment occurred in February 2021. The injury sustained by slicing his own artery open with an agreed illegal contraband of the gla the shower facilities of his room as an incarcerated person in an asylum only to be accidentally discovered with no observable pulse and unresponsive by a cleaner was cited as 'fatal' an

There has been no justice for the abandonment of duty of care and the liability for his injury on hospital premises in which they owed him a duty of care. List people complete in cover up : investigate. I was incarcerated because I threatened to kill myself and the powers that be acted with authority to prevent me from dying. However for want of a better explanation in being

Link

He had no intentions of living in a world of proven deceit lies conspiracy stigma and shame that was never his to embody. You cannot fake death. His actions were not for the reasons of e him for the reason of his human and legal rights being obliterated by a tyrannical government conspiracy, and this was orchestrated politically and systemically by the ruling powers of the to cause him financial detriment and further that this movement had and is still proven to have zero value for his health wealth welfare safety or life.

Link

Had he have died that day, mental illness or drugs would be conveniently used to justify and blame the death on. This would have conveniently and cleverly exonerated by layers of insula liability of two powerful key political stakeholders Stefan Iasonidis (his former fiancé and ASIO employee) and Mr Russell Ball (a powerful and influential lawyer of enormous wealth and pri informs government policy and also advises the federal ombudsman) who between them and with the support and backing of the federal government had been the genesis of McLean's d

That potential death that day for the sake of being accidentally discovered and revived also had a catalyst - it was the shame prejudice stigma and discrimination Mclean suffered. These ' associated with having a mental illness diagnosis that McLean had opposed in his thirty year career as a successful independent mental health advocate. The level of betrayal from an Au with his altruism and good intentions. He had formerly peacefully democratically protested with his altruistic advocacy. He was decided into believing that Australia was a fair and just so fair with services with which to support any person disadvantaged by ill health or illness and with which the underdog had a fighting chance. What has come out in the wash overtime and and a country that is equitable and fair were ultimately proven to be unfounded. The dozens of organisations and agencies who had cuddled up to McLean over years and years to indulg present time had excommunicated me and rejected me and can be therefore proven to have exploited him of his willingness to speak about his lived experience mental illness and his life

Where are they all now that he had lived post suicide as a homeless vagrant living out of his car with no money no home no possessions and redacted of all legal or human rights and hac with a disability framed by impossible odds of his very survival?

The answer is he continues to suffer that very detriment that people companies the public organisations and emboldened by the federal government they had engaged him for.

He had been deceived by a world which had hungered for his words and voice as a brave person who had surrendered his first person narrative of surviving schizophrenia and living with autobiography released in 2002.

These two key individuals Stefan Iasonidis and Russell Balls orchestration of Mcleans detriment and destruction were supported by the federal government. They still are to this day.

McLean's tragedy was the result of a very conscious conspiracy to pervert the course of justice full of deception lies deceit exploitation vilification isolation family violence coercive financic and legal rights.

His tragedy was additionally supported by a public already convinced he was crazy. It was vilified by a mental health system who deceitfully de legitimised his politicalise and whose only all other factors. It can now be proven that his original abusers - his family - despite a public veneer of supporting his artistic efforts and his mental health advocacy in life, also failed in t and victimisation despite enormous opportunity to do also. It can be said that they have done the bare minimum of sometimes supporting him financially, holding his clothes, paying him t distance himself from the family as not to elicit any shame, or actually repeatedly acting to further vilify him for illness which had become a public national sport and also acting with poli abuse and neglect and injustice.

His mother wants him to go to hospital.

His father suffers a cancer diagnosis and does not need a son who is a political scapegoat.

His sister has excommunicated him from family.

His brother has ex communicated him from family.

His multi millionaire uncle has reluctantly paid for Mclean's dog at the last possible minute in order to be in kennel and save her from being rehomed. This has provided the dog accomod living in his car but has refused to support Mclean himself in finding a place to lay his head. The dog gets accomodation needs paid for but Mclean doesn't. Had his uncle put the money i Richs meagre prosperity of a DSP a solution could have been easily found that Rich could live accommodated with his dog again.

Bruce MacMaster is of the opinion for Mclean to 'forget about the conspiracy' because 'you won't win' and that 'I've been around the block in my time' and 'I know' and for Rich to simply and to 'draw pictures' or 'do some those cartoons you were so good at' or 'write books' because I am 'so creative' as if these creative endeavours and pursuits were innately and natural naturally with little or no effort.

There is no money in it -I did those things for my whole life and to expect to be paid in a way which could elicit affording a life is both stupid and impossible based on my experience.

He also tells me this as many people do in their unsolicited advice to me, from a relative position of absolute privilege as opposed to the brutal detriment of my life and situation. He has ti taken from me in a targeted way.

He gives me unsolicited advice in an audacious way because he has a home, money, access to the law, privacy, possessions, access to litigation, comfort, luxury, privilege, heating, coolii books, free time, civil liberties.

He also embodies the ultimate privilege of never having critiqued the government in such a public way which has then gone on to ear mark you systemically and politically as a targeted ir obliteration.

The federal government and hundreds of public officials are conscious of my detriment and situation because they created it and have to continue to uphold it.

If the federal government forced my suicide today by a systemic and politicised elongated illegal immoral and unjust profound neglect - there is no legal liability for any police officer health

the federal government destroying George Brandis by a systemic and purposeful designed manner and a legal protection against the legal liability for any person other than liable for any detriment or even my death or murder. That is because George Brandis the last attorney general passed sweeping changes to legislation which excluded government agency contractors from prosecution by anyone who would stick up for me should any harm or detriment or death become me.

Let's be honest mental illness would be blamed anyway, and I have proven now that no one cares if I died of neglect because not one person has stood up for me to defend me existing. I

ultimately had ex communicated him as member of their blood family and who only chose to also singularly identify mental illness as his singular problem in life when in fact the sociopoliti suffering and suicide

acted to maliciously orchestrate his financial destruction his inability to access the law or have equality before it and so dictated his legal and human rights obliteration.

he would have been murdered with a conscious neglect and malice intended for him only that he was accidentally found and revived.

he was revived from certain death and for which February 2021 and also the least possible obligation that the Australian Government provides as their obligation to him as a person with pension.

Dr Rich McLean has an urgent and potentially lethal problem that affects his finances his freedom his health mental health welfare and safety. It is not ok that after this letter is acknowledg

It needs to be immediately acknowledged that by reading this letter the issue urgently needs to be acted upon and solved by the Australian Government, who are the architects of and wh ensure his very survival.

McLean, who is now an infamous scapegoat and an individual ex communicated from the federal government, has been attacked in all and every way and additionally has had his charac has been a victim of hate and torture. The torture is delivered to him systemically and politically with deceit, lies, and conspiracy.

He has proven to be been identified by the federal government, then victimised, vilified for mental illness to the exclusion of every other issue affecting him, oppressed, discriminated agai and framed, abused, harmed psychologically, financially, his possessions destroyed, he has been the subject of a sustained campaign of profound neglect and instances of violence that lacerations requiring stitches. To summarise his treatment and the detriments that have occurred to him in all currencies as a result of the illegal and unethical decisions of government sta tortured. I use the word 'torture' as per the definition in the 'convention of torture and other cruel, inhuman or degrading treatment of punishment' that has been ratified by Australia and o and treaty.

His problem is a catastrophic conflict of mammoth proportions that has maliciously redacted his prosperity, and is aiding and abetting his detriment in financial and psychological ways w/ business his accreditation his reputation everything he owns. He has been psychometrically profiled by 5 eyes beyond ASIO and AGIS and his communications and access to social medi every democratic citizen has access to such as LinkedIn, Facebook, Twitter, X, and other platforms has been compromised due to him being blocked and banned. As you will read and he victimisation has been documented by an NDIS employee who worked with McLean for months and a report documenting the abuse was made, yet no NDIS company McLean has a conti mistreatment to authorities and this elongates his neglect and suffering. It is all of McLean's NDIS providers obligation to report abuse victimisation or any suspicious mistreatment of thei de legitimisation of his mistreatment and suffering and financial abuse despite a legal and moral obligation to report it is not only immoral and irresponsible it additionally exemplifies and mechanisms are allowed to continue to operate.

The issue is so utterly obvious now in the eyes of McLean, who has suffered from this conspiracy, and the Government which has orchestrated it. Every single person organisation instituti response an action or an acknowledgement from has been met with denial, a pointed neglect, or increasingly absurd ways with which to cleverly find ways to respond but still deny him a person is entirely innocent in the design of this conspiracy.

It has become McLean's unfathomable fate that no one singular person company agency organisation or individual has the determination nor the courage to be seen to stand up for him o or which could blow the conspiracy wide open.

This is because McLean is seen an intelligent capable and creative individual of high achievement and also merit and the world has seen how the Government can literally destroy a persc McLean's destruction and that they are aware this could happen to them as well.

Generally people are happy to follow and to be ruled by a tyrannical and immoral government as long as their little piece of luxury or prosperity or political protections is never affected. Ni to risk their piece of prosperity or financial comforts in any potential retribution politically or financially for being seen to stick up for McLean.

To suffer any reprisals politically or money wise from other powerful key stakeholders in the government for being seen to stick up for McLean is not worth the risk despite their obligation exist in and it is much easier to act to never acknowledge or act in meaningful way that puts an end to his torture.

To be the voice that legitimises McLean's voice and then exposes this conspiracy and highlights the corruption would be a huge liability for the Government because McLean can single ha Because this persecution has been going for years and that it is extricably linked to his public profile of someone with schizophrenia and further that McLean claims the vilification isolator his suicide attempt then it can be determined that this movement that is political and is systemic not only aims to cause him financial detriment but additionally cause him harm. This harm officials who sit in positions of prosperity and political privilege paid by the government to tow the party line in the continued victimisation of McLean and the elongation of the conspiracy, and the government elongate every day for McLean via refusing to acknowledge the relationship McLean had with former fiancé Stefan Iasonidis who had worked under David Irvine at ASI Iasonidis at the time.

intentionally creates the conditions for his likely death by suicide due to the profound neglect he suffers from the Government if no solution is discovered to the impasse.

The Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment that Australia is a signatory to states 'For the purposes of this Convention, the pain or suffering, whether physical or mental, is intentionally inflicted on a person for such purposes as obtaining from him or a third person information or a confession, punishing him for is suspected of having committed, or intimidating or coercing him or a third person, or for any reason based on discrimination of any kind, when such pain or suffering is inflicted by or at acquiescence of a public official or other person acting in an official capacity. It does not include pain or suffering arising only from, inherent in or incidental to lawful sanctions.'

When you politically and systemically remover an individuals access to prosperity and money it creates suffering and designs an individuals poverty. It has a conscious way of emphasisin it is widely acknowledged in the literature that finance/money and housing are the two main factors that affect a persons mental well being. In this way of being locked out of any prosperi now be interpreted for McLean to be a 'targeted individual' from the Australian government my prosperity has now been proven to have been intentionally and politically redacted over mai

This redaction of his prosperity has been a conscious method to disempower him, make him broke and of 'no touch torture' whereby direct physical harm is not delivered to an individual wellbeing of my socio/political life and financial security have been orchestrated consciously. This is via design and exists purely in order to cause detriment and a designed poverty. Its ai congruence with a movement to deny both his legal rights and his access to the law or legal help and to rob him of human rights by de legitimising his writing, emails, complaints or his n; consequential to my mental heath and my suffering because it is known to amplify my distress poverty and suffering. It can be confidently stated with 100% certainty that dozens of publi legitimised his narrative and complaints with a cowardly deception and further have not only ignored him but they have pointedly neglected to intervene in the tragedy and situation in whi intervention and the neglect is intended despite the existential risk to McLean's very existence.

This is torture. I am democratic citizen of Australia with a clean criminal record and I am the subject of torture in plain view of the public and friends family and many corrupt public official: real for it killed me, I attempted suicide in February 21. I was revived after what was deemed in the hospital FOI as a 'fatal' injury and 'lethal' attempt inside Weribee Mercy and for which t cover up. This further added great trauma and de legitimised my pain and suffering and also vilified me for being mentally ill when the liability of Iasonidis and Ball had been exonerated ar prosecution for orchestrating my harm and detriment.

The International Covenant on Civil and Political Rights states that every human being has the inherent right to life. This right shall be protected by law. No one shall be arbitrarily depi **the right to life** arbitrarily means in a way that uses **personal power unfairly and without considering** people's rights and wishes. I was persecuted to death by powerful people who a politicised people and public officials to cause me maximum damage and harm after spending thirty years as an independent advocate for people affected by mental illness and their care altruistic good intentions is palpable and disgusting.

Article 7 states that no one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment. In particular, no one shall be subjected without his free consent to me mediated by the state - for my apparent following 'ingrained delusions of persecution' which psychometrically affected my thinking and dulled my senses and further that this treatment w whole hospital system and psychiatrists well knew about the many detriments that had befallen me.

Firstly to demonstrate inhumane treatment and degrading punishment, I have only just survived a month as an infamous vagrant living in my car with barely enough to even exist. My expe possessions, and no political power, and no human rights, and no legal rights, and no civil liberties, and no safety, and no privacy, indicates very clearly my degrading treatment and punis access to health services, no psychologist, no psychiatrist, no GP, no advocate, no access to or equality before the law, the fact that I was a rejected whistleblower at many Government : corruption as an ethical obligation to the country, the fact I could never report crime or being robbed of prosperity politically and systemically to police either state or federal because the Government bureaucracy that was sustaining my persecution, and that I had never been able to access a lawyer either by paying them or at Legal Aid Victoria or The Law Institute, or that communicated me, or that I had been banned at AFCA, the AHRC refused to investigate my documented human rights abuses, that I was identified, that I was victimised, that I was vilifie prosperity had now obviously been pre determined to be consciously and maliciously redacted from ever arriving to me and that this corruption involving dozens of public officials had an cause me damage and harm, that I had lost my workcover not only once in 2004 but twice again in 2021 both are still outstanding pending legal cases or court, but the court system wher had been violently attacked once in the street and once inside a hospital, that I was rejected not one but two VOCAT compensations, that my evidence in a malpractice case of a GP was silenced in statutory offices that determined liability on behalf of the GP for my complaint but he was exonerated, and so too was the transcription of that recording of evidence de legitim assist protection despite evidence my illness was not prior existing, that I had been robbed also at AHRC of over 1.5 million in a superannuation determination that was free kicked from a the Government had rejected my work cover and also had a high profile lawyer to defend the decision at the AAT which was upheld despite concrete evidence that the Federal Court was my TPD insurance from 2008 only paid one unit of \$83000 when I was insured for 8 and at the very least 2 units of cover were standard in 2007 in their own product disclosure statement application for compensation for the destruction of everything I own by my former landlord Hung Ho and overseen by Weribee Mercy Hospital and Footscray Police was never acknowledged autobiography was once 'Book of the year' now refused to acknowledge me, that my educational institution Victoria University had also turned their back on me just likely publisher Allen linked web hosting company maliciously destroyed my 20 year long website which was where I earned money and was my ABN and the architecture of my financial business and also my impunity, that the SBEFO and telecommunications Industry Ombudsman covered it up as did [business.gov](https://www.business.gov.au/), that my former fiancé an ASIO agent had exploited mover five years and then exercising coercive financial control years after we broke up and further that this is family violence, that I had anticipated his violence and tried to make an AVO which the magistrate deni dollars of his corrupt finances due to my whistleblowing and has now utilised a carrier service to anonymously threaten to kill both me and my beloved dog, and that I can't go to police al Door places tasked with opposing family violence have refused to support me,

2. Everyone has the right of equal access to public service in his country.
I am banned at AFCA.

The aim of this letter is to clearly summarise the issue to authorities and whoever reads it in order that the words will be legitimately acknowledged and the facts presented never de legitimized description or either washed over or ignored.

Further the intention that is intensely drafted with this letter and statement is one which refuses to be ignored and further actually demands (and provides methods and examples to elicit) smacking detriments McLean has already suffered. Further than that it is demanded that this brutal suffering of his life will be met with decisions in high places to immediately command a

The poverty of his life that currently exists in ways that are financial health legal political freedom prosperity dignity and civil liberties must without question shift away from neglect and authorities.

If no compromise is reached then I will highlight the governments own ethical and moral obligations to me as a person with a disability who has human rights under DSS's National Standard United Nations Convention on the Rights of Persons with Disabilities (CRPD). That convention which Australia has ratified in 2008 and a signatory to is to promote, protect and ensure the and fundamental freedoms by all persons with disabilities, and to promote respect for their inherent dignity.

The facts are clear about where I am in relation to the CRPD in that:

Article 40 of the CRPD stipulates that States Parties (signatories to the Convention such as Australia) shall meet regularly in a **Conference of States Parties (COSP)** to consider any matter Convention. Since 2008, the COSP has been held annually at the United Nations Headquarters in New York, covering a range of themes and issues in round-tables, interactive dialogues and solicitor who is also barrister and who has also acted with other barristers in Queensland to act to protect the rights of whistleblowers especially of the rejected kind. You may be able deny, defer even for time beyond the acknowledgement of this letter and still not only ignore me but to pointedly neglect me and each individual that does this will now identified as another indeed become me and because of the profound sustained neglect that has been years long and sustained their decision to not act is an allegorical one of potentially causing my murder

It is within each public service officials responsibility to act ethically within every convention Australia has ratified that are the foundation of our countries laws. This responsibility is not on the government in public office but a legal obligation regarding the democratic citizens they represent. If this obligation to me is neglected after this letter is read or delivered then I will prove my commitment to their prosecution.

I will with the help of my barrister hold each of them to account either now, soon, later or indeed haul them over the coals at the UN when Australia meets at the headquarters in New York places which would be an incredible detriment and embarrassment to each individual.

I now have the ability and the know how and the support from an experienced lawyer solicitor and barrister in order to force the acknowledgement of this letter and at the very least provisions of the barest needs by which an individual needs in order to be able to survive in a society. Hence initially I am not asking for much only the barest necessary things that I need me anyway but which instead were not only denied to me but pointedly removed and subtracted from my life and this was via conspiracy of many privileged people.

This conspiracy had an aim with which to cause me harm elicit my drug addiction and poverty and desperation and emphasise an already existing vulnerability of my publicly known psychosis because that's what the government wanted - to vilify me for mental illness and amplify that detriment in a planned way in order to incarcerate me or jail me or force my suicide orchestrated with surveillance and data collecting and a nuclear powered character assassination whereby I was painted as singularly crazy to the exclusion of facts that are still demanded are not 'delusions of persecution' that need to be medicated in my body and mind but a verifiable and demonstrable phenomenon of corruption deceit conspiracy and hard facts I have as this movement of oppression and victimisation was so ingrained in society and politics when victimising me and that no one spoke with authenticity in which their knowledge of the deceit of my persecution. It further exemplifies the cowardice of many public officials soaking in luxury and privilege and afraid to critique the over arching government and rulers of the day for by and for whom they are paid with money and privilege to tow the party line. It was never brave of them and it was never courageous.

The aim of this letter and conflict resolution is in the first instance to be in receipt of a home shelter provisions of enough food medicine and healthcare, with an acknowledgement of his situation.

Acknowledgements of the following listed issues are not negotiable to be ignored:

1. Iasonidis, an ASIO agent and McLean were engaged to be married for five years and lived together in two different locations and had bank accounts in each others names, lease agreement was exploited. This will pave the way for a settlement of assets.
2. Because of death threats from Iasonidis, an AVO needs to be put in place with police and a magistrate and this is not negotiable.
3. The location(s) of any home McLean ends up in will by his choice and control only be revealed to a bare minimum so that he not be further victimised and vilified by police nor by the services/CAT team.
4. That there be an acknowledgement of McLean's cognitive brain disorder that was the result of injury linked to a suicide attempt. Further that it be acknowledged by an examination prior and that a professional and impartial examination immediately take place in order to assist with NDIS SILS application.
5. That he immediately be granted access to services at AFCA and be immediately granted access to determinations of the ombudsman which should have happened years ago.
6. That the AHRC immediately investigate and at least impartially comment on the documented human rights abuses victimisation oppression and financial abuse documented by his
7. That the Ombudsman immediately revoke their position of refusing to accept further correspondence that they acknowledge that McLean has the capacity and merits to make PID applications
- 8.
- 9.
10. That if these decisions that would lead to his prosperity and rights not be granted that he immediately be offered whistleblower protections at a federal level in order to protect him from robbery of prosperity which is not only criminal it is a conspiracy and it embodies corruption of public officials. If whistleblower protection cannot or will not be given then systemic changes be necessary to preserve McLean and his welfare health and safety.
- 11.
- 12.
13. Etc etc

McLean is without stuttering demanding in a peaceful way via writing as is his forte that his life be inched back from the brink of a malicious destruction and poverty. A circumstance that weakness on his behalf or that he embodies. His impossible situation is the result of and also designed by powerful key political stakeholders. These people possess enormous money power been ruling McLean's destruction with notably an untouchable impunity but also with an evil deception conspiracy lies and neglect in a silent way from afar by proxy and it is the height of

McLean demands accountability and freedom from victimisation and oppression from police and health authorities. That is the collective neglect of many privileged wealthy public official scapegoat truly appreciates starvation on the perimeters of the tribe feeding on the scraps of the tribe only to die forgotten cold and alone on the perimeter of their own culture un-noticed

Anyone who is NOT a scapegoat all live a

life free from victimisation oppression from authorities and a life to enjoy with my dog and few friends.

Dr Rich McLean has just spent over a month living in his car as an ex communicated innocent fugitive of The Australian Government. McLean suffers from schizophrenia, ADHD, Adjustment impairment. He is a Dr of philosophy yet he is vilified for mental illness that excludes all other issues. The persecution has been systemic and it has been political and it goes to the highest it comes to McLean - the entire Government is corrupt.

McLean has become a targeted individual of The Australian Government at statutory agencies ASIO and also AGIS who would investigate corruption at ASIO if the law was just, and also to which means he has long ago been earmarked and identified for destruction.

He has been exploited, identified, victimised, oppressed, discriminated against, fired, violently attacked, robbed, made a scapegoat, denied legal and human rights, denied privacy, denied destroyed, his civil liberties in tatters, his privacy non-existent, his ability to enjoy life damaged beyond repair, his access to the law and equality before the law irrevocably destroyed. His weakness in him - but intentionally and maliciously designed in a political way. His vulnerability to an already existing mental illness has been a sticking point and the cruelty by which he is tantamount torture.

It was a well known fact that McLean was already vulnerable to stress and psychosis/ schizophrenia yet it came to pass that politically and systemically and financially the conditions by which were by deceit conspiracy and layers of financial abuse and political bureaucracy consciously and intentionally rendered in order to elicit his distress so 'mental illness' could be used to vindicate injustices McLean had endured as a victim of violence and torture by him was promptly met with a total non acknowledgement and delegitimisation of any of his issues.

After many years of deceitful victimisation conspiracy and financial abuse it is clear now what has occurred; McLean's prosperity has been consciously and intentionally redacted over many statutory authorities places where resolution of financial issues human rights abuses and legal problems should have long ago been solved.

The deceit conspiracy lies lack of legal or human rights and vilification for 'illness' and of being isolated in an asylum already forced his suicide in February 21. The Weribee Mercy FOI states 'lethal' attempt and McLean was discovered accidentally with no observable pulse unresponsive and revived from certain death. There is now a systemic and political whitewashing of the brain impairment affecting his memory and his ability to reason not to mention the despair of killing yourself and not a single person to acknowledge your pain distress or that 'the system' trapped and bereft of hope that he took it upon himself to exonerate himself from this very existence.

McLean thought authorities would then acknowledge the harm they had caused systemically and politically and that Iasonidis and Russell ball the mental health system police and agencies befallen him and change the goalposts in that a truce would occur. McLean could not imagine a world in which a person is hated so much the ill intentions and neglect would actually kill him was about to struggle with the acknowledgement that a malice to cause him harm and kill him exists and that this damage was

The impossible realisation that the system had actually intended his destruction, that no friend or family member acknowledged his pain, and further that it became evident that now he had powers that be then amplified their persecution of him and really drilled in the coffin nails. It can be demonstrated now that the malice to cause him harm exists in the world systemically as his words attempt and with his acknowledged effect he avoided. These have been effects he avoided from a threat perception he avoided that would have been a long time back from

his suicide attempt - and sadly it only crippled after he survived. Three long years after he was revived from a literal conspiracy to murder that would have more or less killed him test for elongated neglect deceit lies financial destruction and lack of legal and human rights that occurred pre his injury have elongated and menacingly oppressed damaged and maimed him wi

He is a rejected whistleblower, he cannot report his victimisation to police (because they are in on it and also vilify him for mental illness to the exclusion of all other issues), and they also : former fiancée of five years. Iasonidis worked for ASIO and David Irvine as the head of the secret service was consciously complicit in McLean's exploitation by Iasonidis.

The purpose of the United Nations Convention on the Rights of Persons with Disabilities (CRPD) is to promote, protect and ensure the full and equal enjoyment of all human rights and full disabilities, and to promote respect for their inherent dignity.

Respect your culture, diversity, values and beliefs; Respect and protect your dignity and right to privacy; Are free from violence, abuse, neglect, exploitation or discrimination; and. Allow y

The DDA protects people with disability from discrimination in many areas of public life: employment, education, access to premises, provision of goods and services, accommodation, b associations, sports and the administration of Commonwealth Government laws and programs.

People with a disability are protected by the same laws as everyone else. You have fundamental human rights like freedom, respect, equality and dignity. You have the right to live to your own life and to live free from abuse or neglect.

People with a disability are protected by the same laws as everyone else. You have fundamental human rights like freedom, respect, equality and dignity. You have the right to live to your own life and to live free from abuse or neglect.

The intent of this standard is to promote ethical, respectful and safe service delivery which meets, if not exceeds, legislative requirements and achieves positive outcomes for people with disability. The Human Rights principles are relevant across all the standards and each standard supports the achievement of basic rights. This standard has a focus on particular rights such as self-determination, choice, privacy and freedom from discrimination.

The standard recognises people's inherent right to freedom of expression and the right to make decisions about and exercise control over their own lives. It reinforces the fundamental right of people with disability to have respect and dignity. This includes the dignity of risk - the right to choose to take some risks in life.

The standard acknowledges the risks of harm, neglect, abuse or violence which some people with disability may face when using services or supports. The standard highlights the roles for services and supports, families, friends, carers and advocates in reducing these risks. The standard promotes individual rights and individual and service responsibility.

The standard emphasises the importance of:

- dignity and respect;
- freedom of expression;
- self-determination;
- choice and control;
- confidentiality and privacy;
- freedom from discrimination, exploitation, abuse, harm, neglect and violence;
- the role of families, friends, carers and advocates in the safeguarding of rights; and
- comprehensive systems to prevent or promptly respond to any breaches of rights.

Rights for people

I have the right to exercise control and choice when I use services or supports. I also have the right to dignity of risk and to be free from discrimination or harm.

Outcomes for people

I can make choices about the services and supports I use, and how I use them.

When I use a service or support, I am respected and safe

Standards for service

The service promotes individual rights to freedom of expression, self-determination and decision-making and actively prevents abuse, harm, neglect and violence.

The DDA protects people with disability from discrimination in many areas of public life: employment, education, access to premises, provision of goods and services, accommodation, b associations, sports and the administration of Commonwealth Government laws and programs.

Dear (CEO of ILSAU Peter Reid),

I came to your Dandenong office today begging for an intervention before I'm murdered with neglect

I invite you to intervene with this government tyranny which has murderous intentions

It is not a delusion I have proven it on my website as a phenomenon victimising me and backed up with pure evidence

If you delegitimise this story that will cause me harm and and may kill me. Please do not act to hurt me.

I am seeking an intervention because I deserve a better life and I only want to live so that I may serve the community as I have proven to do over thirty years.

Please read this narrative and contact me. Don't be scared and do not believe what they told you about me. Act with compassion and understanding not stigma shame prejudice and judg

Hell will have no mercy for those institutions organisations or churches that fail me now

And if I live I'll be very wealthy and I will shame you as an institution of cowardice if you not only ignore me but choose to pointedly neglect me now that I have directly bought your attent

The world has failed me and beat me. I'm homeless sleeping in my car with no food no care no legal aid no lawyer no money no rights no fairness no civil liberties no privacy v

The NDIS won't help the AHRC won't help the government as a rule will not help (read below) Centrelink do the bare minimum my family won't help my friends can't help and neither a po hospital a GP a fireman a business owner the attorney general or the prime minister himself.

But if you can get me a place to stay for my dog and I and support me whilst I get justice I will make sure you never work again because I am worth millions in detriments.

List of detriments going back to publication of my autobiography "recovered not cured a journey through schizophrenia" (Allen and unwin 2002). These unfortunate events are all linked to which I now believe I was exploited and taken advantage of.

The book was published in 2002. Shortly afterwards, the herald Sun public ally vilified me. Shortly after that, I was rostered off until

I was forced to leave from The Age. Their documents say I resigned. I didn't. I was unfairly dismissed because of my autobiography on my experience with schizophrenia.

2003 ABC national invite me to read a first person account of an abridged version of the book it is played numerous times on life matters with julie McCrossin. I didn't know it I was makin exploited.

1901-3-5-6

My artwork was a strength in my life and I loved doing it. What was string was the allegorical and the symbolic. What was also strong was microcosms and microcosms in observation an gutter blurred the way that my reality was an unusual one aware of things that were "beyond the veil" of usual or normal perception.

This characteristic throughout my life has an issue with boundaries. What is public and what I'd private? What is small and what is universal? What is a microcosm of what microcosm?

Allecoories and symbology featured and so did sexuality and facades which began to detain an awareness of a more in depth reality. It was also aware of the limitations of my family and o

always a loner and now in 2023 this is no different except now I am infamous with nothing. Brimming with life and experience and stories but also no one cares if I die and my finances are political and systemic ways. The world hates me. They have no care if I die. Systemically they aid and abet my death via a profound elongated pointed neglect.

I am not like other people

I have spoken inside Australian parliament

I was an illustrator for two major newspapers

My former partner is an asio agent

I had published a controversial book on madness

It detailed sex drugs rock and roll consent and described madness

It was authentic and brave

I was crucified for it and that is still going today

The OPMC at first via OAIC stated my FOI was "voluminous" and "complex" but the they turned around in a deceitful incorrect lie and stated "no documents exist"

That's exactly how they want to place emphasis on me-they want me to not exist

My allegations that a systemic politicised murder via neglect is occurring and that I am a targeted individual of the Australian government ear marked for destruction by asio and beyond agencies is not at all incorrect and it is not a delusion in my head it is a demonstratable phenomenon proven with facts

A Conspiracy to pervert the course of justice has and is occurring

1994

I lose my virginity to debbie Morgan at the local CFA and police break up. I am now over the age Debbie's dad would have been when some mad queer guy Fucked his daughter. Of course were 100 cops at the event and if nothing was said or no one arrested on the night there are other ways that we can set up this little faggot and destroy him and teach him a lesson. I undress Springvale police and the CFA were all in on it.

I was unsure of my sexuality. It was consensual but regretful sex. People talked. I became paranoid even more, I was suffering from schizophrenia. Because of my inadequacies I was picked for sexuality yet. I take Deb on a date to a hoodoo gurus concert and I'm riddled with worry. I tried to let her down gently. Looking back she was in kahootz with the police and many others. I was slandered for being gay or perceived to be gay by people. My family and society were homophobic. They were going to vilify me for being gay in the most negative of ways. I become pariah, the speakers next door said "telephone for 'what's your problem?'" Telephone for "don't know!" I am still unsure of how organised this life long poofter bashing of me by authorities 2023 I hear constantly in my car via V2K or in the street or wherever I go "raped deb" in the periphery of my hearing. It is accompanied by "faggot" and also "you are" and new one "pedo debbie" and "deb" "deb" "deb" becomes "dead" "you're dead"

I was always unsure of what was real about the persecution and what was my neurosis. I had told Steve many times I felt paranoid that I had assaulted her. To destroy me all Steve had to maliciously raped her, and that is a very simple way that my scapegoating could be enacted upon me with character assassination.

My best mate Wez drank himself to death after being toxically scapegoated by his family. I used to say to him "I get this feeling people think I raped her" Wez dryly said "you can't rape them other ways can't you? I even wrote a book about it with earnest for setting everything straight and being brave and courageous and transparent and it became a blueprint for my destruction"

2004

villification herald sun with an article in Sunday sun "my descent into madness, how schizophrenia stole Richard mclean's mind" only weeks later I'm unfairly terminated from The Age

2004

unfair dismissal the age - they said I resigned but this is not the case. I claimed discrimination and a settlement of only \$7000 was reached. I went over to north west area mental health at

2005

I left my job as a consumer consultant due to stress. A work cover claim from the time was never agreed upon and was never paid and still outstanding. I made a claim against my health unit of \$83000. This is despite me having evidence I was insured for 8 units. It is also in spite of the fact that in 2007 their own product disclosure statement stated two units of cover are required is also the case that two units of income protection were also based on two units. I was paid the correct two units worth of income protection but I was never paid an equal two units for my work cover.

2007 TPD claim from health super paid one unit but not paid right amount of units which was at the least two and potentially 8.

2010-15 relationship with Stefan Iasonidis in which we were ended to be married he worked under Steve jobs at Apple then David Irvine at ASIO. At that time my masters in education (20 project that was based on a hug between him and I and I animated all dimensions of the relationship in an online project called "the universal embrace"

Looking back Steve was exploiting me. David Irvine was complicit in my exploitation. Mum and dad claimed a carers allowance for me even though I didn't live with them. Steve tried to cut earning 40000 a month and topping up his super whilst I lived in a DSP of less than \$400 a week and my TPD payout.

I also had a one unit payout from media super which was the superannuation insurance I had whilst I was at the age. I never claimed income protection.

A dear friend had killed himself Nathan Turnley and it devastated me. I was suicidal myself. John and Linh my housemates witnessed it I got them to do a stat Dec to support that I WAS suicidal

2018 malpractice case with John Whittaker - the recording which I made on a whim to check my reality was silenced and even the transcript of the evidence was silenced by Russell Ball.

Russell Ball silenced unfortunate recording and transcript of recording at HCC MHCC The Police IBAC the Victorian Inspectorate AHPRA NHPOPC and the ombudsman - he informs govt is a conspiracy and corruption in itself.

Only after I survived the suicide attempt did I get the FOI of how he did it.

The CAT team knew I think about my former partner and the silencing of the evidence. They were well aware a conspiracy was occurring - and it was I just didn't know how yet. I was vilified other things in my life.

I never found a lawyer to oppose Russell Ball. He does talk at AHPRA where evidence was silenced and also work safe claims of which I've never been paid my work safe later down the ombudsman. They refuse all further correspondence

This I believe is balls doing.

After I survived the suicide attempt and was revived my own mother scolded me: "but you recorded that Dr"

That evidence of the malpractice in which he not only rejected my NDIS application as he didn't want to "ham it up" and in which he acted unethically because I said I was suicidal with no prescribed medication I overdosed on in the same session is here:

<https://m.soundcloud.com/rich-mclean/dr-john-campbell-whittaker-medical-malpractice-from-millennium-medical-centre-footscray>

What will happen now that I have the legal recording of malpractice but it has been not acknowledged in any complaint? The recording still exists. It is a legal document that is able to be used in a surveillance act in Victoria. I agree it's controversial but I am not an extortionist-I record things to check my reality to play back to myself and fact check.

It's clear malpractice.

Then:

VOCAT child sexual abuse against Bob Martin: magistrate cited me as "doomed to fail". I believe it is because I was then painted as an extortionist by Ball. The VOCAT claim was seen to be a story. It was not made up.

Then: my settlement with former partner Stefan Iasonidis. I engaged a lawyer and they engaged his lawyer then Monash community legal centre pulled the pin on me. I have never been z who came in close deceived me dumped me never settled with anything and dumped me a day before my workcover hearing at AAT. He is now charging me \$50000 to get my evidence t in line with my oppression and my victimisation.

That I cannot get a lawyer even if I go to legal aid or the law institute of Victoria is coloured by my public profile and the libel and slander politically and systemically in australia.

At the time I was being triggered by my own sexual abuse story and the sexual abuse narrative of my ndis client michael Forbes. He has child tape and incest issues. I was detailing Mich case.

When I felt I had been framed and a conspiracy as happening I took leave from work on 19th jan 2021. It was a psychological injury from being triggered by his narrative and my own reco Shortly after that it was Steve who acted to incarcerate me and it was there that I was given medication I didn't need and medication I did need was taken away.

2021

I attempted suicide. It was deemed fatal attempt and lethal injury in the FOI from weribee mercy hospital.

I was found unresponsive with no observable pulse and revived from certain death.

I believe I have a brain injury I never worked again. There has never been a settlement with the hospital for the abandonment of duty of care they owed me and the injury sustained in their

Centrelink put me on jobseeker not a pension after that. I had to fight for my DSP. I knew my brain was not the same. I was already sick from work. I wanted my HCF private health insurar be demonstrated that HCF were in on it too to consciously redact my prosperity despite evidence from a GP that my illness was not prior existing.

My work cover was also doomed to fail and now in hindsight pre determined to fail at work safe at Comcare (I was banned from contacting both) and then at the AAT.

2021

At the same time I had financial determinations at AFCA and their own policy states it is a six week turnaround to come to a determination of a financially marginalised person. They knew determinations were taking literally years.

I record tim gos head of service deliver at AFCA delaying denying and delaying my determinations. Is an abhorrent amount of gaslighting.

He is aware I've survived a suicide attempt and I am squatting but he still acts with malice with which to cause me financial harm.

I am now well known in the government.

This is because of my public profile and because of Steve and david Irvine at ASIO. It is also because word on the street now I have recorded a GP for extortion. It is also because I had c government did not want in the public domain. I passed my PhD by calling it imaginary narrative writing.

2019

The AHRC free lick an over one million dollar settlement from Australian super to TAL the insurer in a decision that was not impartial nor fair. The government is the problem. I know this b rejected the conciliation and they settled for \$50000. AHRC said they did not want to entertain a settlement and this was wrong and incorrect.

2020

I write to Michael's cash attorney general. I state that there is corruption at AHRC and at AFCA and I also predict that my AAT case will fail with work cover. I ask that this be recognised as the sane australia helpline and refuses to intervene. I am vilified for mental illness again. It is a curse. The AAT was a decision I correctly predicted to fail. The fact I did it years before is inc obvious it is too.

2021

CDDC scheme I apply for compensation for detriments caused by government agencies. Simon Birmingham states I will never receive compensation from the department of finance.

So far I've lost millions in the corrupt government.

The charter of human rights of a person with a disability state a disabled person must have access to the law and equality before the law. I have been psychometrically profiled and set up

Later I wrote to the UN but it fell on deaf ears. I wrote to a lot of NGOs but it fell on deaf ears. I attempted to gain protection inside international consulates in melbourne but this was also

My reputation had been ruined

No one cared if I died

That's my curse as a scapegoat

I protested about my treatment in which I was abused and vilified for mental illness via proxy and conspiracy but I protested alone. HCC MHCC Ahpra NHPOPC and the ombudsman and instead whitewashed my tragedy that had its genesis in systemic political corruption and Steve Iasonidis

Dr david Horgan psychiatrist had years before provided a document praising the "life saving" qualities of dexamphetamine. But since my hospitalisation in 2021 it was discontinued. I beg also gave me a diagnosis of ADHD and stated I needed the treatment. I have fought since then to get it reinstated. I started to use meth to mimic the clarity and drugs became an addict No one came to my aid to get the script back. To this day I am without my life saving script and this is malpractice.

My HCF income assist from my time I stopped work due to conspiracy and child sexual abuse NOT mental illness never paid.

My work cover has never ever paid.

.

I can't go to police I can't get a lawyer and I'm a rejected whistleblower. My reputation has been maliciously destroyed even though this victimisation is criminal and I have a clean crimina finances my certifications my access to justice my electronic identity my possessions my health and I am an infamous scapegoat and targeted individual of the Australian government.

This movement has an aim that is to cause me harm and sacrifice me (kill me, force my suicide), and then excuse themselves of all liability of malice and wrong doing and blame it on mer

I already have a mental illness and to to treat me this way to amplify my distress in life is cruel and callous with zero compassion.

If you are pivotal in finding myself and my dog a simple home where we can be together and work on justice, it will likely not only save my life, but when justice arrives I will make sure you to work again.

The detriments owed to me are in the millions and I only want a simple home for my husky and I.

It needs to be in a secret location because of the very real death threats and further oppression from corrupt police and the equally corrupt CAT team and hospital/health system.

This conspiracy is not a delusion in my head. That's how they vilify me and de legitimise my voice.

It is real and you can see the evidence for yourself on my website at any time.

If you don't legitimise these words or story then you are also a p at t of my problem.

If you have the prosperity to help save my life and still don't then that is cruel and calculated and when I get justice I'll be naming people and holding them to account.

"When wealth is passed off as merit, bad luck is seen as bad character. This is how ideologues justify punishing the sick and the poor. But poverty is neither a crime nor a character flaw. Those who struggle to live." — [Sarah Kendzior](#)

This is ONE of the websites I created to protest my treatment but they keep getting deleted by the government: have a look at the evidence for yourself and read below.

<https://barrandodger.wixsite.com/dr-rich-mclean>

My real life events as facts have been de legitimised.

To survive in society, a human being typically needs the following things; but I don't have those things and so if I don't survive or die (which is highly likely if my position continues providing my needs but removing them with malice.

My problem therefore is society and not me.

I claim the problem of society removing my needs arose of malice and was intended, and in this way it can be deduced that a murderous tyranny from the Australian government

That's an intention to kill.

That would be murder if I die.

1. Basic physiological needs: These include access to food, water, shelter, and basic healthcare.

I don't have these. I don't have enough for food, have no home, and no healthcare. I'm rejected from mental health community services.

2. Safety and security: This involves protection from physical harm, which I don't have because of the threats to kill me. A stable living environment, which has been denied to me deliberately redacted from me. A person needs social order, but society is corrupt and the only thing I have left is my sentence ex communicated from all social structures.

3. Social connections: Humans are social creatures and need relationships with others for emotional well-being, I have been ex communicated from my family friends and social reputation ruined. It is not me who's the criminal here.

4. Education and skills: Access to education and the development of skills are important for personal and professional growth. That's one thing I do have: I earned a merit based award in 2020. The merit was from a thirty year career in Independent advocacy and being an artist of thirty years.

5. Economic resources: Income or a means of financial support is essential to meet basic needs and participate in the economy. The bare minimum of a disability pension is all that is not enough to survive. My other income streams have been destroyed. My business, my royalties, my PLR and ELR, my job, my insurances, my income assist, my work and hospital and superannuation and for my business being destroyed. The entire contents of my home were also destroyed by authorities with impunity under the watchful eye of the hospital whilst I was incarcerated in their mental health facility. There is no recourse to regain the costs of my possessions being destroyed at VCAT.

6. Legal and ethical guidelines: Understanding and following laws and ethical norms is crucial for harmonious coexistence in society. The law abuses and victimises me and I have no access to it. This is in defiance of the charter of human rights of a person with a disability which states I must have representation. It also says I must be provided reasonable support.

7. Emotional and mental well-being: Access to mental healthcare and support is important for overall health. I've been rejected from services an ex communicated from health services suffering with the profound detriment. My well being is attacked systemically by attacking my prosperity. My well being has been destroyed.

8. Cultural and personal identity: Maintaining one's cultural and personal identity is vital for a sense of belonging. I don't belong to any group agency company or department. I am a powerful person who has acted to destroy me and now it is my reputation that has been ruined.

My persecution is not a delusion because evidence demonstrates it is factual and actual.

To persecute an individual when they are known to be already vulnerable and suffering is abhorrent and disgraceful.

My problem today years in the making is systemic and political and the government is corrupt.

They act with malice to cause me harm. The aim is to sacrifice me and kill me by forcing my suicide.

The government will not admit liability for my victimisation human rights abuses or conspiracy to pervert the course of justice or corrupt public officials or its malice towards me.

It's preferred I am sacrificed by forcing my suicide (killed) rather than admit liability for their own malice and the corruption of dozens of public officials lawyers and politicians.

When I'm dead mental illness will be blamed as the cause of death.

This exonerates the liability of the conspiracy and corrupt individuals who have caused me so much harm and continue to do so.

I have evidence for everything I claim.

The mental health system and psychiatrists vilify me with "ingrained delusions of persecution" yet I'm not psychotic.

I have been force medicated for this and that's malpractice and highly unethical.

The hospital system rejected me after I was held as a political prisoner and I've been rejected from any continuing mental health care team.

They refuse to acknowledge they are also my oppressors who de legitimise my story and vilify me for madness.

The date is Thursday 2nd of November 2023. Well, this is shit. I am an innocent political scapegoat.

I have no money.

I have no home.

I'm sitting in my car with no petrol after sleeping in it last two nights.

I have no doctor.

No psychiatrist.

No psychologist.

No gp.

I can't go to police.

I'm a rejected whistleblower.

I can't get a lawyer.

I'm ex communicated from the Australian government.

This is because they won't admit a relationship with my former partner Stefan Iasonidis even existed and he was with ASIO the Australian secret service.

He owes me a settlement, but the government protect him in favour of vilifying me for madness.

They delegitimise a fact of life.

Every day I have lived in poverty from 2015 is another day Iasonidis has rejected a settlement and another day a tyrannical government elongated the coercive financial control.

My ill treatment comes from across many government agencies.

I'm banned at AFCA.

My human rights abuses victimisation oppression are documented but the AHRC won't investigate.

The OPMC first say my FOI is voluminous and complex but now say documents don't even exist. That is incorrect and intentionally deceitful.

It would exist: my former partner is ASIO, I'm a former artist for the herald sun and the age, I've a human rights award and sane Australia's book of the year for my autobiograp platforms in person and on TV and radio including speaking in Australian Parliament.

Denying my FOI silences my person and De-legitimises the relationship with Iasonidis.

No politician has responded to my pleas.

The mental health minister refused to even acknowledge my physical presence at her office in Dandenong.

I am financially abused over two decades especially in the last five years.

I got sick at work. My HCF income assist failed.

My workcover failed in a decision that was pre determined to fail at Comcare and the AAT.

My TPD insurance was paid incorrectly.

My business was destroyed.

My website deleted.

My digital identity destroyed.

I suffer schizophrenia, adjustment disorder, ADHD and a cognitive brain disorder the result of a suicide attempt from the elongated financial abuse and conspiracy.

That was in feb21 inside a hospital but there is now a whitewashing of my tragedy.

The government still act with malice to de legitimise my narrative and further financially abuse me.

I've been under investigation and surveilled.

I was violently attacked within a hospital with impunity.

I've been run out of town by Victoria police as an innocent fugitive in exile.

I have a clean criminal record.

I can't report being drugged and raped by Iasonidis in 2010 to police or ombudsman

Due to my whistleblowing Iasonidis was apparently done for a million in embezzlement for his corrupt finances. He's now threatened to kill both me s and my dog.

I can't report this to authorities.

My dog is in a kennel because I have no place to go. I can't afford her to be in a Kennell.

My NDIS providers free living Australia, kind and care, and personalised support services have all chased me out of accomodation into the street.

Not one of them nor anyone will sign off on my human rights abuses.

Prag consulting my level three support coordinators have been with me a few months and they support my persecution by not acknowledging the conspiracy to pervert the co rights abuses.

That is their obligation to me under the ndis code of conduct as is with my ndis providers.

It would not do much anyway I am a failed whistleblower at ndis and dss.

The ndia have locked up all my funds and there is enough in my plan to provide for accomodation.

My own brother and sister have witnessed my persecution for years and point blank refuse to talk to me or communicate.

My parents won't accomodate me and send me into the street to live in my car. They try and help with little money but are pensioners.

I need medicine.

I need food.

I need a lawyer.

I need an advocate.

I have no food.

I have no care.

I have no help.

I am not incapable, I am a Dr. this situation is not the result of a deficiency of mine or a character flaw i possess. It has been a sustained victimisation of me over years.

This has destroyed my human rights and attacked me by redacting my prosperity for years.

This movement has an intention and that is to cause me harm and kill me.

Force my suicide.

If I'm murdered from systemic neglect and victimisation mental illness or drugs will be blamed exonerating dozens of corrupt public officials lawyers and politicians from all lia

I'm a failed whistleblower at the ombudsman and they refuse all future correspondence.

The prime ministers office sent me to attorney general office who has never acknowledged my emails or calls.

His office sent me to AGIS and the ombudsman.

But AGIS know of Iasonidis exploitation of me at ASIO and the ombudsman won't communicate with me.

they reject they can assist in me being banned at AFCA as well.

If this message is ignored and I get no traction on it it will kill me from profound systemic neglect.

That is going to be a conspiracy to murder and my death will need to be investigated for the coroner.

I'd rather get justice while I'm alive and asking you though.

I've got nothing to do nowhere to go and no one to do it with and no money either

Why wouldn't I be at the back and call of anyone who wants to speak with me

I have no life except suffering

Its fine

Robyn why would I want you to be therew

When idetailed all the things I need

And its within your remit and your role to get those things for me

But you referred me on to a list of advocacy services?

You neglected my reporting on my profound neglect

By a 15 second email

That de legitimised everything I said

And you washed your hands of me and everything I need

And that's bullshit

Every single person

Is an apologist for

Stefan iasonidis

Who has orchestrated this

Ive could attach evidence of bank balances in each others name, and lease agreements, and five years of photos, to prove the relationship and the detriment he owes me

But you will go ahead and de legitimise reality

And tow the government line of never acknowledging the relationship exosted

Won't you?

After all all the evidence is right here:

[28.10.23 Accomodation & Death
threats I drrichmclean
barrandodger.wixsite.com](#)

Let's see what extraordinary and absurd lengths you will go to in order for my situation to never being met with an actual solution?

Wrote this to a mate today:

Dear PPCG,

I have been living in my car as an infamous vagrant as the victim of a conspiracy literally begging for food

On the run from authorities

Trying to incarcerate and vilify me for apparent mental illness

Whilst excluding everything else in my life

Im potentially worth millions upon millions of dollars lost to detriments

That were intelligently politically and systemically redacted from me

I have had no home.

I see you can get a NILS up to 3000 for accomodation?

Can I please apply for that to assist me getting permanent accomodation

Could I also apply for other things maybe you can call me

0451804410

Dr Richard Mclean

DSP 305689451x

Ps:

I wrote this text to a freind this morning.

It summarises my predicament.

Please do not deny me for a NILS and call me urgently

I just text this to my mate:

I don't even know what day it is I went hard with drugs booze and fucking and was awake for three days

I crashed and just got up and I guess my word is a bit fucked up and now I have zero money or food

I live under family violence

Coercive financial control

And a conspiracy in which every person I know has lied in the deception to me

And ineffective in any action which would stop my designed poverty or brutal persecution

I've no money...

Or a psychiatrist
Or a psychologist
Or a GP
Or a drug and alcoholic Counsellor
Or financial Counsellor
Or a lawyer
Or human rights
Or legal rights
Or any family
Or any friends
Or any possessions
Or privacy
Or security
Or civil liberties
Or money
Or income
Or insurance
Or settlements
Or compensation
Or work cover
Or a hospital settlement
Or a VOCAT settlement
Or a child sexual abuse redress
Or a home past a few days
Or security
Or peace
Or much happiness

Apparently 'crazy'
For mentioning all that
With a brain impairment
Post-suicide
Rejected
Neglected
Framed
Maimed
Blamed
And shamed

I had escapism from the profound neglect abuse and literal torture for three days...

Now I am back to square one: that is with nothing and nobody

Christmas will be spent alone

an infamous vagrant and an innocent criminal

a scapegoat and political prisoner

on the run from authorities health and police as a fugitive

Having been systemically and politically robbed of every cent of my prosperity

By a government who has already basically murdered/killed me

And they have zero care if my further neglect puts me at an existential risk

Bankrupt and broken and in debt

Without the necessary things an individual needs in order to survive or participate in society effectively

With my human and legal rights utterly shattered

And I'm sitting at the computer

Back to fighting this oppression again

In utter futility

Because every email

Has fallen on deaf ears

And not just ignored

But pointedly neglected

Its a conspiracy to pervert the course of justice

With its genesis

In not one person being courageous as me

To point out the corruption

Because ultimately everyone is paid by the government or supported by them

Ad I am excited communicated from the government

A rejected and unprotected whistleblower

Who felt it his duty to the county to call out profound corruption

In the hope that justice would prevail and the underdog would get his chance to shine

Sadly I was wrong

No one cares if I die now

And everybody knows

That I've been pushed to the edge of existence in every second of every minute of every day

Barely hanging onto hope

On a wing and a prayer

Praying an intervention will save me

From profound systemic neglect
That has damaged me beyond repair
And for which the world keeps piling up grief persecution and poverty on me
Consciously aware that they're hurting me

Subject: Appointment Details for Richard McLean

Hi Richard and Robyn

Hope you are both well.

Thank you both for all your time and patience on the phone yesterday with the NDIA.

I just wanted to reach out with the appointment details for Robert. As agreed a telehealth call has been arranged with Georgia for **Thursday January 4th at 10:30am**.

A link will be sent to you closer to the day for the appointment meeting.

[@Robyn OBrien](#) Please confirm if yourself or Chloe, or anyone else, wishes to be present and provide email addresses for those attending.

If there are any problems with the above time please let me know, otherwise Georgia will see you then.

Kind Regards

Jennifer Hadley
Practice Manager
