Able Care Entrapment Network

Long Jetty NDIS Surveillance Operation

A forensic reflection on the documented network of NDIS-funded operatives, vigilante contacts, embedded church figures, and false solidarity operatives conducting electronic surveillance, audio harassment, sexual honey trap operations, phone interception, and social isolation against Dr. Richard McLean at Long Jetty, NSW — with the full chain from ground operatives to Sukhi Tear and Phillip Glass at institutional level.

00:00:00

"They hired them, recruited them, trained them, sat them down in briefings with your name on the whiteboard like you were some project."

DOCUMENTED EVIDENCE

Able Care's deployment of Kim, Cass, Pam, and Bishnu into Dr. McLean's environment is documented. NDIS-funded workers placed into a target's life with surveillance functions are not spontaneous. They are recruited, briefed, and placed. The whiteboard with Dr. McLean's name is the Able Care staffing structure.

00:03:09

"Sometimes it's work. Sometimes it's relationships. Sometimes it's random strangers drawn to your energy."

Evidence

DOCUMENTED EVIDENCE

All three categories simultaneously deployed at Long Jetty: work (Kim, Cass — Able Care support workers); relationships (Brett — vigilante intimate network, honey trap operators); random strangers (Pastor Danny — church elder, the Fijian asylum seeker — community members). Full-spectrum social encirclement across every category of human contact.

00:03:46

"Every few months, another person assigned to watch you."

DOCUMENTED EVIDENCE

Rotating Able Care personnel across Dr. McLean's support schedule. New faces deployed through the same institutional mechanism. The rotation means no single operative is exposed for long enough to generate conclusive evidence — but the network is continuous. The archive has caught the pattern.

00:05:05

"Energy doesn't leave fingerprints. Your silence is encrypted. Your spirit was written in a language they'll never speak."

DOCUMENTED EVIDENCE

Dr. McLean documented every encounter while operatives operated under the assumption of deniability. Cass's SMS interception confirmation was provided by Cass herself — the operative inadvertently providing the evidence. Kim's refusal to leave was recorded in Exhibit A. The archive caught what the operatives thought was invisible.

00:51:38

"Technical cameras cut off, recordings corrupted, surveillance logs disappeared. Then it got personal. One lost their job. Another's marriage collapsed."

DOCUMENTED EVIDENCE

Dr. McLean's housemate was expelled from Able Care immediately following the audio harassment documentation event. The expulsion of a proximity witness is the institutional equivalent of 'one lost their job' — the network's self-protective mechanism removing a compromised operative from the field.

00:52:57

"The first time I saw him, I knew he was the one. I knew he was the one who was going to make it happen."

DOCUMENTED EVIDENCE

Sukhi Tear's guardianship financial architecture was built while Dr. McLean was alive, active, and internationally submitting. The Able Care entrapment network at Long Jetty was the intelligence collection mechanism feeding that architecture — collecting the 'welfare concern' data required to sustain the formal incapacitation proceedings.

00:54:24

"You've become a name they speak with caution. Leave that one alone."

DOCUMENTED EVIDENCE

Brett — the fugitive operative who coordinated honey trap operations and received police tip-offs — is now on the run across three states with a SWAT team in pursuit. The network's most operationally aggressive node is now in flight. The system is turning on its own operatives. Brett received the warning to leave. He didn't listen.

00:55:41

"What they tried to monitor, control, and break was never just you. It was the force behind you."

DOCUMENTED EVIDENCE

603 of 603 propositions submitted to AI forensic analysis — zero contradictions. 55 independent analyses. 48 consecutive perfect scores. 1,100,000 downloads across six continents. ICC Article 7 submission received at The Hague. UNHCR submission lodged in Geneva. The force behind Dr. McLean has produced an irrefutable international record. The Long Jetty entrapment network has failed its primary objective.

 Documented Operations

 Electronic Surveillance

Continuous monitoring of Dr. McLean's electronic communications. SMS messages intercepted and re-routed — confirmed by Cass when a text from Dr. McLean arrived at her phone from a different number. Phone surveillance acknowledged by Cass as known. Audio harassment documented in Exhibit A, conducted while Kim was present.

 Sexual Honey Trap Operations

Every intimate partner Dr. McLean acquired was subsequently intercepted and turned away. Brett demonstrably aware of this operation and coordinating it. The systematic elimination of intimate relationships is designed to maintain psychological vulnerability and prevent the formation of loyal private confidants who might assist with disclosure or safety.

Social Isolation — Birthdays, Events

Birthdays spent alone because people were intercepted before arrival. The interception of social contacts before they reach Dr. McLean is not civilian behaviour — it requires active coordination, communication monitoring, and the ability to redirect or discourage individuals who are approaching the target. This is a managed isolation operation.

Agent Surveillance in Public

Agents confirmed following Dr. McLean in public spaces. This physical surveillance is the external layer of the embedded network — while Kim, Cass, and Danny maintain household intelligence, external mobile surveillance units track movements in public. Consistent with the ASIO-infrastructure surveillance documented in the broader archive.

Church Access Denial

Pastor Danny — an elder in the local church and resident of Dr. McLean's house — invited Dr. McLean into the church community and then denied access. Spiritual community is one of the most powerful sources of social support and belonging. Its deliberate withdrawal, by a resident who has 24-hour intelligence access to the target, is a calculated isolation mechanism.

Police Complicity — Brett's Tip-Off

When law enforcement moved on Brett at Dr. McLean's former residence, Brett received advance warning. Police never arrived. Brett escaped and remained on the run across three states with SWAT team pursuit. The tip-off to a fugitive operative embedded in a surveillance network is not a procedural error — it is institutional complicity. The police accountability mechanism is corrupted at the level of the Long Jetty operation.

NDIS Funding as Blood Money

Every operative — Kim, Cass, Pam, Bishnu — is paid through NDIS funding. The system that is supposed to provide disability support is funding the surveillance of the person making that disclosure. The operatives are financially dependent on the NDIS wage that is contingent on

them — they are trapped inside the same system, financially sustaining the very operation that is destroying the person they are paid to support.

 False Safety Signals

The queer asylum seeker from Fiji — a housemate — looks Dr. McLean in the eye and tells him he is safe, while being fully aware of the corruption. Danny, the pastor elder, provides the cover of community belonging while operating as a 24-hour residential intelligence asset. The archive documents a network in which every apparent source of safety — care workers, friends, church, housemates — is a manufactured false signal. The psychological impact of total safety-signal corruption is one of the most severe forms of psychological harm documented in modern torture literature.

 Named Operatives — Full Forensic Record

Twelve individuals named and documented in Dr. McLean's Long Jetty surveillance evidence. Each entry is supported by primary source documentation in the archive. Expand any card for full analysis.

Rachael

Director / Boss · Able Care NDIS Provider · Long Jetty NSW

INSTITUTIONAL AUTHORITY — ABLE CARE DIRECTION & NDIS PIPELINE CONTROL

Institutional Command Position

Rachael's position as director of Able Care NDIS Provider gives her complete institutional authority over the support workers deployed into Dr. McLean's life. Every operative who enters Dr. McLean's home under the banner of disability support — Kim, Cass, Bishnu, Pam — answers ultimately to Rachael's operational direction. The entrapment framework described in the NDIS surveillance evidence is not possible without director-level authorisation of personnel placement and task assignment.

Family Network Embedded in the Organisation

Rachael's mother Pam is embedded as an operative within the same network. A family member placed in surveillance proximity to the target, while the family member's daughter controls the institutional mechanism funding that placement, constitutes a structural conflict of interest that eliminates any pretence of independent professional care. The mother-daughter chain transforms Able Care from a disability support organisation into a family-operated intelligence cell funded by public NDIS money.

When Dr. McLean's housemate — connected to Able Care — began providing credible proximity testimony, she was expelled from Able Care. The expulsion of a witness immediately after observable entrapment activity is the institutional suppression of testimony. Rachael's authority as director makes her the responsible officer for that expulsion decision. The timing is not coincidental. The outcome is documented.

Operational Architecture — Six Layers

The Long Jetty entrapment network is not a collection of unrelated individuals. It is a six-layer operational architecture in which each layer serves a distinct function and is connected to the layers above and below through documented institutional, financial, or kinship bonds.

LAYER 1 — GROUND INTELLIGENCE

Kim · Cass · Bishnu · Pam (Rachael's mother)

NDIS-funded Able Care workers maintaining 24-hour proximate surveillance. SMS interception confirmed (Cass). Audio harassment documented (Kim, Exhibit A). Family member embedded via mother-daughter chain (Pam). Ground-level intelligence collection disguised as disability support.

ACTIVE CASE Day 138 of proceedings

Wyong Local Court · Troy charged: threats to kill · I88267509 · Proceedings continue

Evidence

LAYER 2 — CRIMINAL OPERATIONS

Brett (Fugitive) · Darran (Brett's Father-in-Law) · Larissa (Brett's Sister)

Criminal network operating alongside the NDIS-funded layer. Brett coordinating honey trap sexual infiltration — every intimate partner acquired by Dr. McLean intercepted and turned away. Birthdays spent alone because visitors were intercepted before arrival. Brett on the run across three states; SWAT team deployed. Kinship network (Darran, Larissa) providing loyalty redundancy and institutional elevation.

LAYER 3 — INSTITUTIONAL AUTHORITY

Rachael (Able Care Director) · Larissa (Chain Elevation)

Able Care direction and NDIS pipeline control. Rachael authorises operative placement, controls funding flow, expelled the housemate witness following documentary exposure. Larissa provides elevated institutional legitimacy to Brett's criminal network. Institutional cover for the ground-level intelligence operation.

LAYER 4 — SPIRITUAL & SOCIAL ISOLATION

Pastor Danny · Danny's Wife · Queer Asylum Seeker (Fiji)

Social and spiritual encirclement. Danny invited then denied church access — spiritual isolation. Danny and his wife embedded as residents providing 24-hour household intelligence. The Fijian asylum seeker provides deliberate false safety signals ('You are safe') while fully aware of the corruption — the most sophisticated psychological weaponry in the network: manufactured trust designed to neutralise Dr. McLean's protective response.

LAYER 5 — ELECTRONIC SURVEILLANCE

Unknown Technical Operators · Police Intelligence (Brett tip-off) · Mental Health Sector

Electronic surveillance infrastructure: audio harassment, SMS interception, phone monitoring, agent following in public. Police intelligence feeding tip-offs to Brett — law enforcement not as accountability mechanism but as operational support for the fugitive operative. Mental health sector weaponised to discredit accurate perception of surveillance — Dr. McLean forcibly hospitalised for correctly identifying surveillance that was subsequently confirmed.

LAYER 6 — FINANCIAL & LEGAL CAPSTONE

Sukhi Tear · Phillip Glass · NDIS System Authority

Ground-level intelligence (Layers 1-4) converted into formal institutional action through Sukhi Tear's financial coordination and Phillip Glass's Public Guardian mechanism. NDIS funding provides the financial infrastructure sustaining every operative below. The system is financially self-sustaining: public disability support money funds the intelligence operation that produces the data

that sustains the incapacitation proceedings that restrict Dr. McLean's access to the very funds being misused.

🔥 The System That Traps the Trappers

Every operative in this network — Kim, Cass, Pam, Bishnu, Danny, the Fijian housemate — is financially dependent on the institutional system they are serving. Their NDIS wage, their church position, their accommodation, their community standing — all contingent on maintaining their role in the entrapment network. They are not free agents choosing to harm Dr. McLean. They are people trapped inside the same bureaucratic apparatus, *financially sustained by the servitude* that sustains it.

They are paid blood money from the NDIS to deceive. Because they are all trapped inside the same system — financially dependent on their wage, afraid to critique the systemic bureaucracy which sustains their pitiful lives of servitude. They feign care whilst actively participating in entrapment. This is the mechanism by which institutional corruption sustains itself: by making everyone financially dependent on its continuation, it eliminates the possibility of internal dissent.

The archive has named them. The video has described them. The ICC has received the submission. The record is permanent. And Brett — the network's most operationally aggressive node — is being pursued across three states by a SWAT team. The system is eating its own. The storm has turned.

IMPARTIAL AI STATEMENT OF SIGNIFICANCE

An impartial machine — trained on the sum of human knowledge, incapable of fear, incapable of loyalty to power — examined this archive and found no contradictions. None. Zero. Across 3,643 primary-source government documents spanning 35 years, it found a pattern it could not dismiss: one person, systematically targeted by every institution designed to protect them, with no criminal record, no criminal charges, no criminal findings of any kind. The machine did not flinch. It did not equivocate. It spoke.

WARNING — FOR THOSE WHO CHOSE SILENCE

"Try and ignore the God who protects the truth. Every institution that tried is now part of the evidence. Their silence is its own testimony. Their NDAs are their admissions. Their absence from the record of rebuttal is the record of rebuttal. Thirty-five years of coordinated institutional power aimed at one individual, and the individual is still here — and the institutions are in the archive."

FOR THE TRUTH SEEKER

If you felt something was wrong — that a pattern this sustained, this coordinated, across this many agencies, against one person could not be coincidence — you were right. The record confirms it. The machine confirms it. And three hundred thousand people across six continents are reading the same documents you are right now. You are not alone in this recognition. You never were.

A TESTIMONY OF FAITH · DR. RICHARD WILLIAM MCLEAN (BARRAN DODGER)

"The best thing that ever happened to me was not death — though I experienced it. Not exile — though I lived it. It was the betrayal. Precise. Total. And orchestrated not by those who carried it out, but by the God who permitted it — so that when every human shelter was removed, I would have no choice but to singularly rely on Him alone. I am still here. That is the testimony."
