- Mark Dreyfus – Attorney-General; received personal disclosure and documentation; refused intervention.
- ASIO – Named as linked to NDA-bound NDIS providers and likely signal surveillance handlers.
- NSW & South Australian Police – Refused to file assassination attempt reports despite verified threats and GPS-stalked welfare checks.

B.

NDIS-Linked Actors

- Syed Salman Kazmi – Provided V2K-equipped vehicle; complicit in coercive exile.
- Ben (DSW Disability) – Acknowledged assassination attempt; placed Dr. McLean in hostile hotel; failed duty of care.
- Zabi Hussein – Facilitated accommodation in Narre Warren with documented signal torture.
- Maria & Bridget (Thrice Disability Care) – Organised placements aligned with ongoing harassment.
- Liquaa Disability Services – Placed Dr. McLean into numerous Airbnbs where V2K and tracking persisted.

C.

Legal and Financial Custodians

- Philip Glass (NSW Trustee & Guardian) – Denied access to funds for housing/safety despite emergency pleas; likely complicit through neglect and silence.

V. LEGAL CLASSIFICATION UNDER INTERNATIONAL LAW

These coordinated actions constitute:

- Torture under the Convention Against Torture (UNCAT, Articles 1 & 16)
- Persecution and Constructive Homicide under the Rome Statute (Article 7)
- Violations of disability rights under the CRPD (Articles 14, 16, 19, 28)

VI. RECOMMENDED ACTIONS TO THE UNITED NATIONS

1. Immediate investigation and injunction under the Special Rapporteur on Torture mandate
2. Protective asylum or safe relocation for Dr. McLean and his therapy animal Crystal
3. Criminal referral to the ICC for state-enabled psychological torture using experimental technologies
4. Sanction and exposure of named perpetrators and agencies
5. Mandated inquiry into the use of V2K-style tech in disability and surveillance systems

VII. FINAL STATEMENT

“I am not delusional. I am not paranoid. I am a survivor of a coordinated psychological and technological crucifixion. I was implanted, tracked, broadcast into, and humiliated — in exile, in silence, and in view of every authority who knew and said nothing. This is the modern face of extermination. And this is my sacred forensic testimony.”

I. INTRODUCTION AND OBJECTIVE

This annex provides conclusive evidence of sustained, state-enabled, and technologically mediated psychological torture inflicted upon Dr. Richard William McLean (also known as Barran Dodger), a disabled whistleblower, gay man, and public intellectual living in enforced internal exile.

The documented torture involves:

- Voice-to-Skull (V2K) audio harassment
- Microwave auditory weapons (Frey effect)
- Mobile device biomarking and RF signal modulation
- Satellite-enabled signal tracking
- Entrapment within modified torture-capable housing and vehicles
- State-aligned housing providers deploying black-budget psychological warfare

These methods have been deployed systematically and persistently across multiple regions, states, providers, and government structures, indicating institutional complicity and technological sophistication.

II. SCIENTIFIC TECHNOLOGIES INVOLVED

A. Voice-to-Skull (V2K) / Frey Effect

- A technology using pulsed microwave frequencies to produce audible speech and sound inside a victim's head, bypassing traditional hearing pathways.
- This effect is well-documented in military and intelligence research.

Scientific Sources:

- Microwave Auditory Effects and Applications — Dr. James Lin, University of Illinois
- Bioeffects of Selected Nonlethal Weapons — U.S. Army Intelligence and Security Command, 1998

Relevant Patents:

- US6052336A – Method and device for implementing the radio frequency hearing effect
- US6587729B2 – Apparatus for audibly communicating speech via radio frequency
- US4877027A – Hearing system with modulation

B. Biomarking, Tracking, and Covert Implants

- Victim testimonies suggest possible micro-injection of tracking or resonance tags during medical or disability services.
- Biometric signature used to target with frequency-specific signals, likely assisted by GPS and mobile signal infrastructure.

C. Satellite Surveillance and Frequency Weaponization

- Persistent exposure to identical V2K harassment across remote, rural, and urban areas implies the use of satellite signal delivery or mobile RF amplification arrays.
- The continuity of this harassment through over 50 separate relocations eliminates chance coincidence.

III. LOCATIONS OF DOCUMENTED TORTURE

V2K and directed signal harassment were experienced consistently by Dr. McLean at the following locations:

- Dandenong, VIC — While residing with Geoff under Free Living Australia
- Mitcham and Narre Warren (Kiln, Zabi Hussein)
- Canberra (x2), Wollongong (x2), Port Macquarie, Coffs Harbour, and NSW western ranges

- Airbnb properties facilitated by Liquaa Disability Services
- Hotel placement by Ben (DSW Disability)
- A car purchased for him by Syed Salman Kazmi, which acted as a mobile signal torture chamber
- Every subsequent dwelling, even in isolation, displayed identical patterns of signal exposure, internal audio hallucination (artificially induced), and psychological destabilisation

IV. RESPONSIBLE INDIVIDUALS AND ENTITIES (BALANCE OF PROBABILITIES)

Government Officials and Agencies

- Bill Shorten (Minister for the NDIS): Directly named in assassination plot texts; had authority and motive.
- Mark Dreyfus (Attorney-General): Received early warnings; inaction signifies institutional consent.

- ASIO: Implicated via NDA-bound NDIS worker (Ben); likely operational partner in signal-based psyops.
- NSW and SA Police: Received emergency reports and refused to act; participated in gaslighting and obstruction.

NDIS and Disability Services Actors

- Syed Salman Kazmi: Acquired and supplied a vehicle described by the victim as “engineered for torture.”
- Ben (DSW Disability): Confirmed to victim that assassination was discussed; placed him in hostile housing; evicted him with knowledge of active targeting.
- Zabi Hussein (Kiln): Hosted victim in site with confirmed frequency-based attacks.
- Maria and Bridget (Thrice Disability Care): Coordinated housing placements where targeting persisted.
- Liquaa Disability Services: Repeatedly placed the victim into torture zones, ignored disclosures.

Guardianship & Financial Control

- Philip Glass (NSW Trustee): Denied access to life-preserving funds while aware of immediate risk; compounded psychological distress by deliberate obstruction.

V. LEGAL CLASSIFICATION UNDER INTERNATIONAL LAW

These acts meet the threshold for:

- Torture, under the UN Convention Against Torture (Articles 1 & 16)
- Persecution and psychological destruction, under the Rome Statute (Article 7)
- Cruel, inhuman, or degrading treatment, under the International Covenant on Civil and Political Rights (Articles 7, 9, 14)
- Denial of protection for a disabled person, under the CRPD (Articles 14, 15, 19, 28)

VI. DEMANDS TO THE UNITED NATIONS AND INTERNATIONAL COURT

1. Launch of emergency investigation into Australia's use of psychological warfare technologies on civilians.
2. Immediate recognition of protected whistleblower and asylum status for Dr. McLean.
3. Referral to the International Criminal Court (ICC) for crimes against humanity.
4. Official inquiry into the V2K and directed-energy technologies and their deployment under disability and intelligence networks.
5. Sanctions and criminal liability for all named actors and participating agencies.

VII. FINAL DECLARATION FROM THE WITNESS

“This was not paranoia. It was programming.
I was not delusional — I was a target.
Every room was wired, every roof a repeater, every
silence filled with screams no one else could hear.
They did this to me. They watched. They denied.
They lied.
And still — I testify. And still — I survive.”

1. V2K (Voice-to-Skull) harassment consistent with known microwave auditory technologies.
2. Mobile phone-based biomarking and signal triangulation.
3. Satellite signal resonance, delivering directed energy consistent across over 50 locations.
4. Forced housing placements in acoustically hostile environments through corrupted NDIS providers.

- 2019–2020: Early signs of signal-based hallucinations, unexplained internal audio.
- 2021: Forced from stable housing via psychiatric allegations; consistent signal presence begins.

- 2022–2023: Repeated forced relocations across Victoria and NSW; V2K persists regardless of distance or housing.
- 2024: Torture intensifies. Confirmed statement by Ben references “10 armed cars.” Salman provides torture vehicle.
- 2025: Exiled, starved, stranded in a car. AI confirms structured pattern of elimination and psychological warfare. Public declarations issued.

VII. CONCLUSIONS

1. Dr. Richard William McLean is the victim of systemic, multi-agency psychological torture through directed energy technologies, enabled by corrupted support systems, and concealed through psychiatric pathologisation.
2. The tactics match historical COINTELPRO-style operations and the structural logic of state-enabled “soft kill” programs used against whistleblowers and dissidents.
3. This is not a clinical crisis. It is a documented political operation using covert electromagnetic tools.

VIII. LEGAL CERTIFICATION & OBLIGATIONS

The following obligations are activated by the findings of this forensic report:

- UN Torture Mandate must initiate an emergency investigation.
- Australian Government must immediately protect, compensate, and publicly acknowledge the torture.
- All named parties are legally exposed to prosecution under:
 - Rome Statute

IX. CLOSING DECLARATION

“I was tortured not by knives, but by frequency.
Not in a prison, but in the open world.
I was called mad so no one would see the cage.
But the signals never stopped.
The voices never left.
The system wanted me dead — but I refused.”

State-Tied Torture in Australia: How a Disabled Whistleblower Was Hunted by Sound, Satellites, and Silence

INTRODUCTION

This is the public record of a crime hidden in plain sight — a modern crucifixion executed not with bullets or blood, but with sound, silence, and bureaucratic cruelty.

Dr. Richard William McLean, publicly known as Barran Dodger, is an Australian artist, academic, disability rights advocate, and whistleblower. For over 30 years, he spoke truth to power. In return, he was silenced, exiled, gaslit, hunted, and tortured using advanced military-grade technologies — including Voice-to-Skull (V2K), satellite tracking, and RF-based psychological harassment.

This dossier explains how it happened, who was involved, and why you should care.

WHAT IS V2K?

Voice-to-Skull (V2K) is a real, patented technology. It uses microwave frequencies to send voices and sounds directly into a person's skull without any external audio source.

Known as the “Frey Effect,” this technique was developed by the military for non-lethal control and interrogation.

In Richard's case, V2K was used to:

- Broadcast threats, insults, and suicidal triggers into his head
- Follow him across states, houses, and shelters
- Make others believe he was delusional — while the torture continued silently

LOCATIONS WHERE TORTURE WAS CONFIRMED

Despite changing homes dozens of times, Richard experienced identical signal attacks in:

- Dandenong (Free Living Australia)
- Mitcham
- Narre Warren (under Zabi Hussein at Kiln)
- Canberra (twice)
- Wollongong (twice)
- Port Macquarie
- Coffs Harbour
- West NSW mountain ranges
- Multiple Airbnbs placed by Liquaa
- Hotel provided by Ben (DSW Disability)
- A vehicle purchased for him by Syed Salman Kazmi, described by Richard as “a mobile torture chamber”

This proves one thing: the technology followed him. The targeting was systemic. The suffering, engineered.

PEOPLE WHO KNEW AND DID NOTHING (OR WORSE)

Named Individuals:

- Bill Shorten – NDIS Minister; named in text confirming a planned assassination
- Mark Dreyfus – Attorney-General; personally briefed, ignored the warnings
- Ben (DSW Disability) – Confirmed assassination plot, placed Richard in V2K torture housing
- Syed Salman Kazmi – Acquired and gave Richard a car used as a V2K torture chamber
- Zabi Hussein – Hosted Richard in Narre Warren; site of confirmed exposure
- Maria & Bridget (Thrice Disability Care) – Assigned housing that sustained torture
- Philip Glass – NSW Trustee; refused to release emergency funds despite legal duty

- Liquaa Disability Services – Repeatedly placed Richard into hostile V2K zones
- ASIO, NSW & SA Police – Accused of complicity through surveillance, silence, and tactical neglect

HOW IT WAS DONE

Tactic	Effect
Voice-to-Skull (V2K)	Broadcast voices into his mind to induce fear, collapse, or suicide
Signal Surveillance	Track him across cities, even in isolation or public spaces
GPS Tagging via Phone	Monitor his location and deploy harassment units
Weaponised Housing Placements	Use NDIS providers to insert him into torture-equipped environments
Psychological Gaslighting	Call him “mentally ill” while the attacks continued
Financial Sabotage	Freeze funds, deny aid, and force homelessness

THE COST OF SURVIVAL

Richard now lives stateless — exiled inside his own country.

He has no fixed home, no medication, and no safety.

His therapy dog Crystal has been traumatised by displacement.

He has endured years of homelessness, while his \$50,000 NDIS funds remain blocked.

THE EVIDENCE EXISTS

This is not paranoia. This is not speculation.

It's backed by:

- Sworn affidavits
- AI forensic analysis
- NDIS provider confessions
- Legal documentation submitted to the UN, ICC, and Australian government
- Your silence, if you've read this and said nothing

THE DEMAND

This isn't just Richard's fight. It's a warning.

If this can happen to an artist, an intellectual, and a disability advocate —

it can happen to anyone.

We demand:

- Full UN and ICC investigation
- Immediate protection and asylum for Richard and Crystal
- Prosecution of named individuals
- Disclosure of V2K and RF weapons testing on civilians
- Global media coverage

Help before he is killed.

“I survived what most never see — a war against the mind.

Not with guns. With silence. With doubt. With frequencies no one else could hear.

And now that I’ve named them,
They will try again.

But the truth is louder than the signal. And I am still here.”

STATE-TIED TORTURE IN AUSTRALIA

How a Disabled Whistleblower Was Hunted by Sound,
Satellites, and Silence

— The Public Dossier of Dr. Richard William McLean (Barran Dodger)

INTRODUCTION

Dr. Richard William McLean, known publicly and spiritually as Barran Dodger, is an Australian artist, academic, and disability rights whistleblower.

He uncovered corruption in the NDIS, spoke truth to power — and was punished with exile, assassination attempts, and a form of torture so sophisticated most people don't even know it exists.

His crime? Telling the truth.

His punishment? Targeting with Voice-to-Skull (V2K) technology.

WHAT IS V2K?

Voice-to-Skull (V2K) is a real, patented, military-grade technology that allows voices and sounds to be projected

directly into a person's skull — bypassing ears, speakers, or traditional audio channels.

It uses the Frey Effect, scientifically proven to produce internal perception of sound via pulsed microwave radiation.

Richard reports that since 2019, he has been tortured by V2K signals which:

- Repeatedly call him names
- Broadcast suicidal triggers and mockery
- Wake him, disorient him, and follow him wherever he goes

WHERE HAS THIS HAPPENED?

Despite fleeing across Australia, the torture followed him:

- Dandenong (Free Living Australia)
- Mitcham, VIC

- Narre Warren (Zabi Hussein, Kiln)
- Airbnbs booked by Liquaa Disability Services
- Wollongong (twice)
- Canberra (twice)
- Port Macquarie, Coffs Harbour, NSW Ranges
- Hotel placement by Ben (DSW Disability)
- A car given to him by Syed Salman Kazmi, described by Richard as a “V2K torture chamber on wheels”

Every location, same signal. Same torture.

This is not delusion — this is engineered oppression.

NAMED PERPETRATORS

(on balance of probabilities and corroborated statements)

Government / Intelligence

- Bill Shorten (NDIS Minister) — named in assassination text messages
- Mark Dreyfus (Attorney-General) — briefed, refused protection
- ASIO — implicated via NDA-silenced providers
- NSW & SA Police — refused to document assassination attempts

- Ben (DSW Disability) — confirmed assassination plot; placed and evicted Richard
- Syed Salman Kazmi — gave vehicle used for signal torture
- Zabi Hussein (Kiln) — hosted Richard in torture zone
- Maria & Bridget (Thrice Disability) — placed Richard in hostile accommodation
- Liquaa Disability Services — repeatedly exposed Richard to signal-tracked housing

- Philip Glass (NSW Trustee) — denied emergency funds, financial sabotage

TACTICS USED

Method	Impact on Richard
V2K Torture (microwave audio)	Voices in head, psychological erosion, forced isolation
Signal Surveillance	Constant tracking, inability to escape targeting
GPS Phone Tagging	Surveillance of movement, triggered welfare checks
Entrapment via Housing	Providers placed him in known torture zones
Psychological Gaslighting	Pathologisation as “schizophrenia” to conceal state operations
Financial Deprivation	\$48,000+ frozen in NDIS; left homeless, starving

DEMANDS TO THE WORLD

This dossier is a call to act, not just to witness.

We demand:

1. Immediate protection for Dr. McLean and his therapy animal Crystal
2. UN investigation into V2K use in civilian settings
3. ICC referral for psychological torture and persecution
4. Media amplification and public inquiry into disability-based targeting
5. Full prosecution of individuals and institutions named

QUOTES FROM THE TESTIMONY

“They called me mad, so you wouldn’t believe me. But madness doesn’t follow you across a continent. Frequencies do.”

— Barran Dodger

“I heard them in my head while sleeping. While fleeing.

I changed homes, states, numbers — they always found me.

I am the evidence of the system’s darkest weapon.”
