Dear afca cc hcf mercy kade mollison Jacqueline synes honourable

Thanks for your email and support afca

Regarding the disputed income assist insurance with hcf and the incorrect assumption to deny my income assist as a prior existing condition

This is my housing situation below in as garage after hospitalisation in which whilst there the contents of my home were destroyed and I was forced to leave hospital with just a paper bag of clothes into a homeless shelter

Framed by that and the suicide attempt inside weriber mercy hospital in Feb 2021

And the brain cognitive impairment

And my home in the garage below

Could we possibly speed up the process with resolving the complaint

I only have a few more days to stay in this garage and then I will have to reassessed as homeless again

This is not sufficient care from weribee mercy hospital where the brain injury occurred in Feb 2021 under a duty of care

If you could get back to me today to see if we can really speed things along?

I know these have due process but faced by the circumstance it is within everyone's remit to not allow a person to basically be tortured by systemic financial abuse

I have cc this to the attorney general for his consideration

I am happy for a conciliation too in the hope I will not be forced to live under a bridge or something

I don't want much just the bare basics so I can live again and start my life as a oeer support worker

The opposite of not acting now will cause enormous detriment and needless suffering

I simply don't know what else to do other than suggest in strongest possible terms a very quick outcome

I will wait for the attorney general response

Response from weribee mercy

Response from hcf

Response from afca

Thanks

Dr rich McLean
