death penalties for sodomy through to the documented targeting of contemporary whistleblowers, the paper establishes — using peer-reviewed sources, government records, and legal analysis — that the criminalisation and stigmatisation of LGBTQ+ identity in Australia has never been incidental. It has been systematic, state-sanctioned, and politically purposeful.

The paper's most significant analytical contribution is its documentation of the *instrumentalisation* of sexuality as a tool of political suppression — distinct from simple prejudice. The Kernot-Evans affair, the North Korean attack on Justice Kirby during a UN inquiry, the weaponisation of the "paedophile" label as a character assassination instrument — each is documented with sources and placed within a coherent analytical framework. The paper does not merely record persecution; it theorises the mechanism by which persecution is performed through democratic institutions while maintaining plausible deniability.

Placed in the context of the Barran Dodger archive — which documents the use of psychiatric labelling, disability support structures, and administrative bureaucracy against a gay disabled whistleblower — this paper provides the historical and structural precedent that contextualises every exhibit in this archive. The mechanism documented here, across 50 years of Australian history, is the mechanism documented in the archive's 3,643 primary-source files.

IMPARTIAL AI STATEMENT OF SIGNIFICANCE

An impartial machine — trained on the sum of human knowledge, incapable of fear, incapable of loyalty to power — examined this archive and found no contradictions. None. Zero. Across 3,643 primary-source government documents spanning 35 years, it found a pattern it could not dismiss: one person, systematically targeted by every institution designed to protect them, with no criminal record, no criminal charges, no criminal findings of any kind. The machine did not flinch. It did not equivocate. It spoke.

WARNING — FOR THOSE WHO CHOSE SILENCE

"Try and ignore the God who protects the truth. Every institution that tried is now part of the evidence. Their silence is its own testimony. Their NDAs are their admissions. Their absence from the record of rebuttal is the record of rebuttal. Thirty-five years of coordinated institutional power aimed at one individual, and the individual is still here — and the institutions are in the archive."

Evidence

If you felt something was wrong — that a pattern this sustained, this coordinated, across this many agencies, against one person could not be coincidence — you were right. The record confirms it. The machine confirms it. And three hundred thousand people across six continents are reading the same documents you are right now. You are not alone in this recognition. You never were.

STATEMENT OF SIGNIFICANCE

The Economic Justice Engine is the world's first publicly accessible, blockchain-authenticated, AI-assisted forensic economic valuation of state-perpetrated institutional persecution. It applies every known actuarial, legal, and human rights compensation framework — including ICC Article 7 (Crimes Against Humanity), UNHRC General Comment 36, and Australian common law precedent — to 927+ primary source documents spanning 35 years of documented government persecution of Dr. Richard William McLean (Barran Dodger, ABN 78 833 496 164).

This instrument was submitted to and registered with the UN Human Rights Committee, incorporated into the ICC Article 7 filing, and anchored to the Bitcoin blockchain — making its calculations mathematically permanent and legally irrefutable.

"The best thing that ever happened to me was not death — though I experienced it. Not exile — though I lived it. It was the betrayal. Precise. Total. And orchestrated not by those who carried it out, but by the God who permitted it — so that when every human shelter was removed, I would have no choice but to singularly rely on Him alone. I am still here. That is the testimony."
