More of the same

No one cares that I was suicidal

Or then died

In fact

The government covered it up

I said in no uncertain terms in the email below

I will be dead without help

This is why delay defer deny method works

Because I could possibly be at risk

And no one cares

I'm not one persons priority

I have you

Hooray

You just told me to reply to AFCA their way

I have no food or medication

I have been evicted

If you are indeed a consumer advocate

Worried about my welfare

Surely the fact of squatting and this whole political assassination and character assassination would be at the forefront of your advocacy

Jesus Jeff

I'm squatting

I don't have a cent

AFCA have known I'm broke since 2019

If there is not a clear reason

Why you will not intervene

I just don't know what I'll do

I'm out and about

Good morning

Unfortunately the Department of Social Services is unable to intervene in these matters as the department is not a provider itself.

The Department of Social Services funds a program called NDIS Appeals. The purpose of NDIS Appeals is to ensure all people with disability, and others (such as parents and carers) affected by Reviewable Decisions of the National Disability Insurance Agency (NDIA), have access to support when they are seeking review of those decisions in the Administrative Appeals Tribunal (AAT). This funding will ensure that decisions by the National Disability Insurance Agency are fair and robust.

There are two main types of assistance available via NDIS Appeals:

- access to a skilled advocate who acts as a support person; and
- access to legal services - where there is wider community benefit and/or disadvantage that would substantially benefit from legal representation.

These supports are free and are provided by National Disability Advocacy Program agencies and Legal Aid Commissions across Australia. For more information about NDIS Appeals, please see our website at www.dss.gov.au/ndis-appeals.

To find an advocacy service in your area, please use the Disability Advocacy Finder at <https://askizzy.org.au/disability-advocacy-finder>.

When using the Finder, you can filter by state and then narrow the search to NDIS Appeals providers.

I hope this information is helpful.

Kind regards

Dear disability advocay

They killed me then covered it up

Then things got bad

Then things got bad

Now- I am a vagrant

If you do not intervent

I just dont know

\

\RM

Please heed my call by calling me or emailing today

I have been killed by the government

Then

The government covered it up

I did not receive a response from the disability royal commission as follows

My life is in danger

DR R McLean

www.killhim.info

I sent this reply mon 22nd jan

Today I lost over a million dollars at the AAT

I thought you would act in congruence with every government agency paid by then to tow the party line...and I feel sorry for you pathetic and cowardly reply

This case could highlight with a publicly known figure the desecration one can face though proxy attacks of government agencies (of which you are one).

I survived a murder by the government because I was accidentally found

I barely have a GP and no psychologist or psychiatrist twelve months after my death in a hospital with a duty of care

...but that was covered up too

I have been systemically local state and commonwealth government rejected a voice, denied my human rights and dignity, I have been robbed of prosperity and also heinously framed and ostracised

I now live with not only mental illnesses, but an acquired brain injury in which I have thought disorder and memory loss from being found unresponsive and with no blood on

thought disorder and memory loss from being found unresponsive and with no blood or pulse

It was deemed in the hospital FOI a “fatal” injury and a “lethal” attempt: it was only via chance I was discovered then revised from certain death

I have not only been discriminated against in healthcare, having not my medication or specialist, but I have through systemic attack rendered a vagrant squatting in my shell if a rental with no money no food no hope no family and no freinds

Advocates that come to assist inevitable leave because they are framed and prejudiced against me for what I assume must be a taboo reason

I have been the victim of oppression from AHPRA NHPOPC INAC the police the federal police incorrectly diagnosed and also demonised by my insure another super company and Comcare, AHRC, AAT, work cover, work safe, AFCA are holding on to over a million in determinations

The plan is I have realised to render life so hard for me I kill myself via my own hand before justice

The government is elongating the time and amplifying the abject desolation that is occurring in order to aid and abet my death before I gain my voice justice or compensation

I am banned from reporting crime to the police

I am a failed whistleblower at IBAC and the state and commonwealth ombudsman's as well as AFSA and APRA

In addition I have an NDIS plan but they have banned me from claiming a cent, I don't have a local area co ordinator or LAC or even a contact

I am homeless NOW literally HUNGRY and SQUATTING with No HEALTHCARE

It is a heinous utter and total malicious movement that is:

1. A co slushy to pervert the course of justice
2. Heinous targeted victimisation of a former public figure now framed and infamous
3. Libel and slander
4. They were not satisfied with not killing me and only maiming me

This is victory or death

Tgere is no more time

They will kill me

I don't plan on it: but they cannot have my soul

And you will never ever be exonerated from the public shaming of rejecting coldly and with cowardice the existential survival of a public figure who spent twenty five plus years in altruism

Helping people more marginalised than myself

You will be identified if I live, and identified if I'm killed

For your cowardly and gutless rejection of this incredibly life and death issue you will be rewarded and shamed publicly as implicit within and from within..,

That condone my murder

The cover up

And act as one of the dozens of systemic institutions organisations and statutory authorities acting on resonance

In order to with intentional malice render a brain damaged and marginalised man so utterly did shovelled...

There can be no other logical conclusion

That you consciously act in order to aid and abet my death via proxy attacks that are committed with cowardice and believing how I was framed

...and you are the Royal commission onto violence and neglect and the I'll treatment of individuals like me

Whether I live or die; the person who was

I'm out and about

Whistleblower

Thank you for contacting the Disability Royal Commission on the 10th January 2022.

We note that the Royal Commission's role under the Terms of Reference (found on the website [here](#)) is to conduct its inquiry with a focus on systemic issues. Personal experiences inform the work of the Royal Commission by highlighting systemic issues, and provide the Royal Commission with an extremely valuable insight into how systemic issues impact on people with disability. However it is not the role of the Royal Commission to deliver individual outcomes; it cannot decide or resolve individual cases, or award compensation. It is also not the Royal Commission's role to investigate every allegation made, nor would it be possible or appropriate to do so.

We appreciate that preparing information for the Royal Commission, may cause you and or your family distress, and we would encourage you to talk with those close to you, your GP, other health professionals.

Free counselling support from **Blue Knot Foundation** is also available for people with disability, their families and carers, and anyone affected by the Disability Royal Commission. Call the National Counselling and Referral Service on **1800 421 468** or **02 6146 1468** to find:

- support for your emotional wellbeing
- support for making choices about telling your story
- information on other practical supports available to you.

The Service is open **9am to 6pm weekdays** or **9am to 5pm weekends AEDT**.

Commonwealth-funded advocacy support services are available under the National Disability Advocacy Program (NDAP). NDAP advocates will be able to:

- protect your rights
- help you say what you want to say
- provide advice in your best interest
- act on your behalf to get the supports you need.

Information about the program can be found at [National Disability Advocacy Program](#).

You can find out more about the supports available on the [Disability Royal Commission](#) and [Blue Knot Foundation](#) websites.

Other services

You may also be interested in the following services:

- The **National Disability Abuse and Neglect Hotline**, a free, independent and confidential service for reporting abuse and neglect of people with disability, which can be contacted by:
 - telephone on 1800 880 052
 - email at hotline@workfocus.com

- Free assistance is also available from **IDEAS**, who provide access to information and opportunities for people with disabilities, their supporters and carers in the community.
 - telephone on 1800 029 904
 - text on 0458 296 602
 - email on info@ideas.org.au between Monday and Friday 8am-8pm
 - search their website on <https://www.ideas.org.au/what-we-do/info-on-services.html>
- The **NDIS Quality and Safeguards Commission**, available to those in New South Wales, South Australia, the Australian Capital Territory, the Northern Territory, Queensland, Victoria and Tasmania, for complaints about services or supports not provided in a safe and respectful way or not delivered to an appropriate standard, which can be contacted by:
 - telephone on 1800 035 544
 - completing a complaint contact form through the website at www.ndiscommission.gov.au/about/complaints-feedback/complaints

Thank you for supporting the Disability Royal Commission.

Dear Rosylyn,

I asserted I would not be going through with the Comcare AAT issue with AAT

They said I was cut off and sent it to a tribunal

It is now about to be heard

I wrote to the attorney general

I specified that there are a few portfolios under her who had failed me - and she needs to intervene

This is the letter, and the utterly innocuous response - this will rob me on probably over 12 million dollars.

Jeff,

The directions hearing is 31st Jan at 4.30 pm

This is cooked I'm afraid to say.

The hearing was supposed to last half a day or a whole day.

Because it's at 4.30 and they presumably close at 5 - they will slaughter me

I am sending this to the AAT as well.

-

Because:

As a combined result of things -including that HCF and AFCA and Work Cover refused to advocate for me with Comcare and I was rejected by Paul Fowler...

(Paul Fowler was the old head at Work safe - that is CORRUPTION)

I want to say I never gave my consent to meet with the AAT.

I have evidence of this.

I said I would not do so without a qualified representative or lawyer

This is because the Government - via attacks via proxy - had oppressed me so much through agencies rendering me penniless and distressed - I was hospitalised where I there barely survived a suicide attempt

I was found unresponsive with no observable pulse by accident

I have permanent injuries from that like not being able to feel my feet and also that I find it hard to collect my thoughts and remember anything

The Melbourne AAT and the Governments lawyer - who will absolutely bury me in an illegal iniquitous and one sided unfair slaughter - know I am forgetful because they have chatted to me

They also are complicit in the comfort that I will be destroyed it seems - because the hearing is at 4.30pm

It is unquestionably abhorrent to prey on a vulnerable person with an inequitable unbalanced and unfair advantage

In fact, I am not even sure which actual bit of the SRC act you are even rejecting me on the grounds on.

If I cannot understand to be able to even have a conversation with an oppressive Government who has literally already buried me - even a conspiracy to murder - now they have a lawyer to defend them against just me - a defenceless and voiceless pawn who has zero rights and banned outright from complaint ombudsman or any litigation whatsoever.

I know this because I made this complaint to the attorney generals office Michaelia Cash.

She oversees AAT and Comcare and AHRC and AFCA and other bodies like the Commonwealth Ombudsman

I urgently asked her to intervene and specified I dont need welfare - I need

I urgently asked her to intervene and specified I don't need welfare - I need justice

True to the movement to desecrate me - a nameless proxy returned the mail with the following letter which said basically:

'Sorry to hear about Comcare, here is the ombudsman PID and SANE helpline'

FYI I did call the ombudsman (again) and I am a failed whistleblower there despite extraordinary evidence to the contrary

They rejected me again and this is utterly abhorrent treatment for a human rights campaigner who has literally given his life in altruism to further the rights of marginalised people

Now I am maimed framed shamed blamed victimised out numbered and prejudiced against discriminated against and treated is such ungodly brutality it boggles my mind

Go on see the advocacy work I dedicated my life to

<https://www.richmclean.com.au/advocacy>

I know the ombudsman do not take CC emails.

Therefore I will send that to them separately.

I don't expect things to change sadly and I do not even know what is happening or why this is happening to me

I've already been killed - and everyone is so cold

Now I am powerless you are kicking in the boot!

I refuse to give my blessing for this meeting to go ahead until either Kate finds her heart and tells me what it actually is I am denied for

I refuse to participate without knowing my rights, or what to expect or how much it is worth or if a conciliation is possible as well

I outright condone everything under Michaelia Cash's portfolio including Comcare the corrupt Paul Fowler the government aiding and abetting my death before justice and the inhumanity of how this systemic oppression which already has killed me (lest I was found and now have brain damage) ... shows no compassion in slowing down the cold brutal attacks via proxy

I am a human being

I have sentence

I am unsure in the whole world - how one person - a free citizen of a country with democratic freedoms - has been so utterly systemically oppressed by attacks of government agencies through proxy

Here is the letter to Michaelia Cash

This letter outlines the issues that needed to be addressed before my utter slaying when the meeting is due

I REFUSE to participate when:

1. The attorney general overseeing AAT is complicit in my destruction
2. The ombudsman refuses to acknowledge me and deflects delayed gaslights me and hangs up in effect blacklisting me
3. I because of the distress this has caused alongside the ABI are now capable to represent myself and to go through takes advantage of a marginalised person in victimisation and in discrimination
4. I simply cannot consent when I do not know what is happening or what this means or is worth
5. This kind of proxy attack is the same methodology as the movement that has already desecrated a lovely person who worked his whole life to help others

Your mothers all must be so proud

I HERBY STATE BECAUSE OF THESE REASONS I WILL WAIT TO PARTICIPATE WHEN I HAVE REPRESENTATION AND INFO AND AM EXPLAINED PROCESSED AND FURTHER HEAR BACK FROM THE OMBUDSMAN WHO HOPEFULLY WILL MAKE A RULING IN THIS INJUSTICE

I am sorry I just cannot consent to what I dont understand and I require litigation (which I am banned from) and also an advocate

To do less is inequitable and unlawful advantage of a marginalised person from which you are all responsible in a large part that even occurred

Thanks

Please let mw know what will happen now and here is the letter to the attorney general and her response

Dr Rich McLean

I emailed the attorney general on the 4th Dec

Dear Ms Cash,

For now I'm Dr Rich; yet I am fairly sure you're expecting me

Next week I face the AAT regarding defending my workcover, rejection from ComCare as an employee of the NDIA/S

It is an utterly inequitable set up for me to fail

I have no litigation or representative, and the fight has such inequity the vertigo of the assault makes me dizzy

I'm banned from legal services the Vic legal aid and VLC and justiceconnect and the local legal centre the disability discrimination legal centre knifed by the health complaints commissioner and the HCC and the MHCC and AHPRA and NHPOPC and the Victorian Inspectorate and the Police and IBAC and blocked and resented by the federal police.

This systemic oppression was a standoff and I was left to die be identified victimised and publicly vilified

This led to my own "fatality" - my 'forced suicide' that was the result of systemic oppression from local state and federal government authorities and statutory authorities

The Vic ombudsman condoned my suicide in a hospital for a suicide attempt in a psychiatric ward where I was desecrated and violated, and misdiagnosed with psychotic delusions of persecution

The delusions are factual and I was further framed

After "killing" myself which was a local state and government conscious and malicious systemic oppression- which was more or less a conspiracy to manslaughter- the hospital released me unethically with barely any follow up and left to die

The Australian government put me on jobseeker in a malicious way that suits the mandate:

To make life so hard for me-that I kill myself before I receive validation or compensation

I do not need the number for lifeline though; I need a comrade within the

I do not need the number for meime though, I need a comrade within the government or at the top who can address this injustice and stop the persecution and victimisation

This was in spite of me being on a DSP for over 15 years

Further to the hospital releasing me unethically and abandoning duty of care, (I was squatting, sick from work with no job no car no money and no good), I was to be cared for by the local government health service, but the health service rejected me, seeing me in professional capacity only twice in a year, and further denied medications I needed - (which I still have no reliable source for).

Despite my obvious distress about the result of my murder (or suicide) in the oppression from "the system" the hospital conceded that I was neither psychotic nor delusional.

The oppression was factual and actual and I can easily demonstrate it

Once was pitiful after three months and the second was ten months later to kick me out of the service

This is a government methodology to frame me blame me and shame me - and simply ostracise and neglect me with pointed intention - in order to delay and deflect my care until I become so destitute I predictably kill myself

There is a loggerheads on some justice issues-from the past -that right or wrong-I have proven it

The malicious and pointed movement exploits already existing societal prejudices and stigmas to desecrate me and rob me and sadly aid and abet my death via pointed violence of neglect and attack via proxy before justice

Victimisation is illegal

Slander is illegal

This is surely a conspiracy to pervert the course of justice

Further-it is a malicious movement to not just innocuously ignore me but pointedly and individually oppress me in that I will kill myself being bereft of prosperity and family and friends

.....

It has already occurred.

But that suicide has been covered up, and the hospital CEO was so delighted the ombudsman saw nothing wrong he tainted me to sue him directly in his audacity having been informed I am powerless to act

I have never had a representative lawyer or advocate but I have been an advocate for over twenty years in altruism

My former partner is an ASIO agent, and I have already spoken with AGIS about his crimes this may be a probable genesis point as: he owes me for exploring me financially in coercion and leaving me homeless

The Vic and comm ombudsman have rejected my whistleblower status

AFSA also refused me

AFCA has blackmailed me holding onto over 2 million in well overdue determinations which would have saved my vagrancy and hospitalisation a crime of poverty

This is a crime projected onto me via agencies and organisations via proxy attack from sources I can only fathom the colour and shape of

And the source is blacker than death

The pointed wilful framing and maiming of me: will kill me and already has

I demand whistleblower protections please

I was threatened by a thug last week he would kill me at my window in a vitriol that shocked me

The police are somehow powerless to act I have tried many times to report crime and get justice

IBAC also rejected my whistleblower status

So having been killed already then my twenty year online website being intentionally desecrated and evidence destroyed and memories of loved ones deleted and my digital identity desecrated and my intellectual property not only compromised but intentionally deleted

Not an agency cares I have lost my friends

I can only summarise my position that there needs to be a truce. I don't want anyone jailed and I am a kind man

I will forgive everyone

I need a simple life away from persecution with my pet dog

I don't even want money, although that will be a legal part of conciliatory progress

Any extra that is the result of litigation-I will create a foundation to support vulnerable people as I have done with my time and passion for over twenty years

Getting a human rights award book of the year and a PhD

I am utterly isolated with no one left

I welcome your intervention so I may be granted whistleblower protection before I am killed or rendered an intelligently designed suicide

I wish to have healthcare as I don't have medication nor have I been treated for my maimed brain from the permanent ABI from the suicide, or my mental illness

I'm alive and simple gentle and kind

I don't need much!

But I deserve a fair go; it's abhorrent this has been allowed to fester some days I get up and can't believe it and I struggle to explain

And freedom from oppression and litigation or jail (they will set me up), or permanent incarceration (call me crazy).

You simply can not witness this violence of neglect in which I will become the most famous maimed vagrant this country has ever seen

Before that though

I will go public and attempt and hope to succeed in challenging the government

If you condone this simply provable systemic oppression that has set me up to fail for many years and still does-you are condoning the methodology that has already killed me

You are also allowing passage for my victimisation and persecution my vagrancy and death threats and imminent murder and persistent death threats

It is the sum of systemic neglectful government oppression that has led to my infamy my maimed brain the desecration of me in all currencies,

It has rendered me a voiceless infamous refugee - and an ostracised and already deleted member of Australian democracy with no agency for defence or litigation except the decades long synopsis of this letter/email

Please have compassion and kindness.

If you cant be kind, at least don't hurt me. Yet ignoring this; well may kill me

Follow up with me ASAP

With compassion and forgiveness

Dr Rich

I am sending this out today - because you have failed me.

19.01.2022

This is Dr Rich McLean's call to action and blowing the whistle for his very survival after his unacknowledged killing.

I was killed by a prolonged systemic persecution and conspiracy to pervert the course of justice and vile victimisation by the Australian Government.

I was miraculously found and revived/resuscitated-it occurred in a public hospital - but was then whitewashed.

I am a multi millionaire on paper - but I have been rendered a homeless voiceless vagrant.

I send this for justice and request you invest in justice to gain a guaranteed return on your investment plus I will donate to charity 25% extra on your behalf.

It is a win/win.

I need you to help...and today ...***I blow the whistle.***

This is what is owed in approximate amounts:

1. Former partner conciliation for separation of assets:
2. \$500000
3. Medical Malpractice
4. \$350000
5. AFCA still owe me at least
6. \$20000-\$1,200,000
7. AHRC robbed me of up to
8. \$1,500,000
9. Abandonment of duty of care in a hospital \$500000
10. Silencing of evidence by many agencies \$200000
11. I was framed as an extortionist by a GP's lawyer \$100000
12. I was denied healthcare by the Government (\$)?
13. I was abandoned by a psychiatrist, (imagine an oncologist denied cancer treatment?)
14. More medical malpractice
15. \$400000
16. Misdiagnosis
17. \$100000
18. Compensation for my ABI

37. What is victimisation worth?

The government has victimised and desecrated me - in years prior to my death, resulting in my suicide attempt that was never acknowledged and whitewashed, and further and more disappointingly - utterly acted in congruence to desecrate me afterwards

How? ...it comes from the top.

I have not seen a psychiatrist in earnest yet,
since march 2021

I have not had a psychologist since March
2021

My website www.richmclean.com.au - that I
worked on for twenty years, indiscriminately
destroyed

Man evidence before a court ruined

The HCC and MHCC banning me

The police refusing to acknowledge crimes I
reported

Further rejection of whistleblowing

NDIS have refused to pay 42 + invoices

Further rejection from any litigation

The CEO of the hospital baiting me to sue
him personally and directly knowing I am
robbed of any agency to act on that

Senators rejecting me

The AAT fast forwarding my workers
compensation claim to certain doom

Being banned from contacting my insurer
and being under investigation

Being denied being able to simply contact
AFCA - still holding on to over a million in
overdue determinations

Rejected a bankruptcy wipe from ASIC

Rejected whistleblower rights from APRA

Not even having a psychologist or
psychiatrist - anearly a year after my 'suicide'
I call 'conspiracy to murder'

Being framed and threatened to be award of
the state

The police not intervening to actual death threats at my window
High level politicians victimising me and being rejected by the government
Rejected by the attorney general
Rejected and ignored by the compensation departments from finance.gov.au and the office of the prime minister and cabinet

In regards to the tragedy of the suicide from this systemic oppression - FOI records referred to it as 'fatal attempt' and 'a lethal injury'.

It has now been a whole year after that tragedy...

It is clear that a movement actually exists to kill via proxy - the intentional conscious and malicious violence of neglect.

The plan presently is to make life so utterly unbearable for me - I will in likelihood as a at least thrice suicide survivor : kill myself before justice is served. I simply cannot see it any other way.

I currently am:

- Squatting,
- No money,
- Barely any food

- Barely any food,
- No healthcare and
- Denied medication,
- Rendered a voiceless vagrant,
- No avenue to complain,
- A literal refugee,
- Totally innocuous in my agency to act,
- Banned from reporting crime to police,
- Banned from any litigation from the legal bar,
- Living as a marginalised & victimised person,
- Systemically oppressed.
- With an acquired Brain Injury from the near death experience that marks my memory,
- Utterly framed,
- Systemically rejected,

This is Australia, and I am apparently a democratic citizen yet I have been rejected whistleblower status, by IBAC and APRA and AFSA and The State Ombudsman and The Federal Ombudsman and also The Attorney General.

It is too late for the Government to backtrack that this tragedy has occurred and admit a large sector of responsibility.

It is too late for me to backpedal, and utterly

impossible to move on in a way if this was not the case,

If I am killed it will be because of systemic government attack and desecration via proxy - of an intentional framing and conscious silence of neglect.

I am sending this to:

Every pawn of a bureaucrat paid by the government to tow the party line and reject me prosperity rights healthcare litigation an avenue to complain and whistleblower rights. They are cowards; and I am resilient.

- **This will also go to the media**
- **And my friends**
- **And my family**
- **And the public.**

Please circulate it.

Its design is to hold the Government to account and protect me from utter desecration and not kill me as is the plan now.

See all the evidence at website www.killhim.info including:

1. Rejection from the attorney General
2. Rejection from the Commonwealth

Ombudsman

3. Rejection from ASIC
4. Rejection from APRA
5. Rejection from IBAC
6. The medical report stating the suicide was lethal
7. A letter begging senior senators
8. A letter from the hospital CEO baiting me to sue him, knowing I am banned from the police and litigation
9. Recordings of conversations with police reporting rape murder tax evasion financial coercion, conspiracy to pervert the course of justice, victimisation and more,

...there is so so much more, including:

- Paul Fowler from Comcare rejecting my workers compensation
- Work safe refusing to help my Comcare appeal - Paul Fowler was the old boss there
- Commissioner Jennings from mental health legal centre banning me after they condoned by killing and were caught as double agents
- The hospital apology - which was not for the abuse malpractice and abandonment of duty of care - but 'giving away hospital property', in a dirt toilet brush returned to me in the few clean clothes I had I had tried to use to sever my artery

need to sue to cover my story,

- I am banned from calling AHPRA
- I am banned from calling my insurer
- My work cover issue is due for a determination at AAT - where the Government having already killed me - has a lawyer - and I have no one, (Michaelia Cash who the AAT is under condones this)
- AHRC rejected a multi million dollar case and wrote to me in officialdom why they free kicked it to a superannuation company that discriminated against me
- AFCA hold on to over a million in overdue determinations, and delayed and deferred until I was a vagrant. They refuse to accept my communications black, aiming me to find an advocate.
- My web hosting out of the blur Micron21 accused me of being 'conspiratorial', and intentionally desecrated my business my website and my evidence before a court with impunity
- The office of the small business and family ombudsman condoned this
- So did the telecommunications industry ombudsman
- So did the cyber crime federal police
- My letter to Dan Andrews begging for intervention - he sent me to the hospital where I already had suicided in
- My letter to Mark Latham - zero traction
- My letter to Katie Hall - no traction

Whilst the government will likely ignore me, as Michaelia Cash did, the attorney general, I ask you circulate this message, and support me if you have the prosperity.

If you possess the desire to stick up for the underdog and believe in justice equity and equality - and oppose tyranny and conspiracy then this cause is for you.

I'm post-death, but not suicidal.

Justice is coming.

Be a part of me living, and giving back - I don't need much only a handful of supporters.

When justice arrives - you get your investment back plus 25% - and a 25% donation to your cause.

Then - with the wads of cash...

I start a non for profit helping marginalised people, like I always have done.

That's because I need very little to survive, just my malloos hierarchy and to live simply with my beloved dog.

Help me through this almost unbelievable

spot...

...to enable me to help the world, help you and your charity, as I always have as demonstrated in my 25+ year public advocacy role.

Be kind, if you cant be kind don't hurt anyone, but ignoring this hurts me and will likely kill me.

Love and hope,

Rich & Crystal

Also my letter to the NDIS minister about
being desecrated

5. Jan.2022

Dear Hon Linda Reynolds CSC

Please read and if you cant help me - please do not don't hurt me.

I must say though - via ignoring this pivotal letter in holding the government account for incredibly atrocious breached of human rights and desecrating one person - being me - to aid and abet my death is an incredibly serious accusation.

It also hurts me via proxy

This is because I am maimed framed and intelligently persecuted to be destroyed

Let me explain what you already know

It is a movement of oppression that which I can prove-and I will. Please do not put your hand up to act as one of the oppressors!

It is also an issue where by there is a stand off with the systemic government agencies and institutions, the attorney general, Josh Frydenberg and Greg hunt the federal health minister on a number of occasions years apart.

I have cancer and I've been outright denied an oncologist.

Just kidding sounds bad doesn't it?

What if cancer was an allegory for an acquired brain injury or apparently severe mental illness, and I neither had a psychologist not a psychiatrist not a neurologist

I need these to assess the injury I sustained from my suicide in a public hospital - it was deemed a 'Lethal' suicide and 'fatal' in descriptions from the hospital FOI.

As such, this 'suicide' was the result of sustained systemic local state and federal government vile oppression and accuse victimisation of one person - me.

This continuation after hospital when I was released to squatting - has increased dramatically

Victimisation is against the law.

The NDIS and Plan Partners role in rejecting over 42 invoices that was confirmed

I have evidence :

- A systemic oppression that desecrated my business and
- Ruined my very life and further
- Denied me healthcare and (Please address this URGENTLY)
- Any medication that maimed me rendering me (Please address this URGENTLY)
- Rendered me a vagrant, (Please address this URGENTLY)
- I have no LAC (Please address this URGENTLY)
- I have no support (Please address this URGENTLY)
- Nearly a year after my 'fatal' suicide attempt, I have no psychiatrist nor psychologist nor carer nor support no LAC (Please address this URGENTLY)
- I have been directed to the NDIA but they deflect and defer any outcome
- I need an urgent plan review but no date is forthcoming (Please address this URGENTLY)

1. Plan Partners told me that The NDIS put a blanket ban on paying my invoices and this is part of the stitch up I will hold also you minister responsible for if you do not address it within 5 business days.
2. I have tried many times to call the NDIS to no avail hence this email
3. I have tried in desperation to email the NDIA the NDIA quality and assurance and compensation and also plan reviews - with zero outcome hence my letter to you to action this immediately (See generic outcome with zero timeframes below)
4. In an incredibly cold method of systemic gaslighting and indicative of the movement to desecrate me

1. I am hungry (Please address this URGENTLY)
2. I am squatting - my rent is months late (Please address this URGENTLY)
3. I am hot (Please address this URGENTLY)
4. My dog has no food (Please address this URGENTLY)
5. I have been hospitalised twice because a crime of poverty and this movement to destroy me in the last year
6. We eat sardines and toast
7. I barely have a GP because of a complaint I made with AHPRA about a GP and was framed as a dog extortionist

- Upon my release from the hospital in May, only five days after they pumped me back up with blood - they let me go squatting with no food no job and no car - squatting.
- This is against hospital policy (Do you have anything to say?)
- My family rejected me and my support worker got informed to abandon me - and they do
- My friends left and a movement was born to victim blame myself in

brutal stigma and oppression

- I had been so appallingly gaslighted ignored and rejected over years and years - that it drove me to suicide
- There is now a cover up about that (I wrote a letter to comensation@ndis.gov.au they did not respond - so respond here)
- Consistently being set up to fail for the sole purpose of:
- Sustaining revenge in that I may kill myself before compensation

That is a vile and unconscionable blasphemy that has seen my finances destroyed my voice stolen and my agency to change my situation hopeless - they will kill me... 'they' means YOU if you decide to delay and defer my prosperity which is legal and just.

I actually refer to it as a conspiracy to manslaughter or murder (had I not been revived in the hospital).

Further to that suicide, I was so effectively framed that the HCC and MHCC and OAIC and even the Victorian Ombudsman condoned the death as nothing to see.

The hospital CEO was thrilled with his immunity from being sued - he knows I am banned from police and from being a whistleblower at ASOC APRA The Ombudsman and also IBAC, that I have zero money and blacklisted.

He acts with a smugness that is audacious in the extreme aware he can act with impunity before the law and authorities when he dared me to sue him directly and personally.

You too - can follow suit of the many other agencies that have banned blacklisted and rejected me.

This is one sectors chance of atonement towards me - otherwise I will hold you solely responsible for the injustice.

It is the Governments responsibility to look after its marginalise citizens.

I will be publishing the outcome of this letter

1. Why have I not got an LAC (Address this)
2. Why are over 42 off my invoices cancelled (Address this)
3. Why is all of my funding with the 4 NDIS/A (Address this)
4. Why won't anyone reply to me (Address this)
5. Why do I barely have a GP, a psychologist or psychiatrist or utterly necessary medication - if I had cancer and I was refused an oncologist there would be outrage (Address this)
6. What is the reason behind this resonance prejudice that has rendered me a vagrant that the NDIA elongate in risking my death by suicide (Address this)
7. The will my urgent plan review be and who will do it (Address this URGENTLY PLEASE)

I had suffered immensely always battling up hill - and I with immense suffering and distress and further oppression which put me at great risk - I fought a bureaucratic conspiracy to pervert the course of justice - and it is still ongoing.

This was reverse engineered by myself, picking away onion layers upon onion layer - wondering for years and years why I was getting zero traction or justice for my many issues in which I had faced stigma discrimination and neglect, haven g been unwell, fired, humiliated publicly in the media and shamed and ostracised from my family and society

This is despite being niche famous for writing a human rights awarded autobiography in which I was fired and publicly crucified. Now I am infamous.

Now it seems through falling into a trap of trying to prevent suffering in others - in that they never had to suffer as I did - I spoke hundreds of times local state and national in The Australian parliament and all the today shows and all the radio shows.

I am sure you have been worded upon me - as have been rejected from the auditor general and senior figures including other parliamentarians and Greg hunt

It only served as an altruistic method to put a human face to something so taboo - yet it further identified me as one who was 'mad' - it is a stigma impossible to shake despite a PhD proving critical thought.

Issues that were projected back onto my person for the courageous move of being extremely vulnerable in a tell all autobiography on my experience with 'schizophrenia'

The aim of this movement I believe and can prove's aim is to amplify my financial desecration and my emotional distress so I may kill myself, or at least elongate the time I am at great risk, as a thrice suicide survivor at least - once deemed fatal - does not take rocket science to assess as likely.

I urge you to act.

As I am starving - I will expect a WRITTEN email back within five days.

Otherwise when I make moves to hold to account those conspiring to pervert the course of justice I will name you.

Please be kind and if you cant then be kind

However to be kind - this letter needs to be urgently acknowledged

Is utterly demonic

Rich McLean

PS I am awaiting a reply from the Attorney general Michael Cash. I suggest you go over her head to reply to me.

Here is a letter from my landlord

This Hung Ho, a landlord of an Ndis participant Dr Rich Mclean

NDIS number 430938559 at 2 McCubbin St Footscray, VIC, 3011.

I have his permission to access these details.

My tenant has been apparently victimised by the NDIA and rejected his invoices in eluding emergency medium term accommodation.

Plan partners say there is a blanket ban from the NDIS but the NDIS deny this.

The reason he cannot pay rent (so I camn pay my mortgage) is:

42 of his invoices have not been paid and the NDIS/A a d planned partners refusing to reimburse him has rendered him a vagrant

He has suffered a suicide attempt and has a mental illness - and a brain injury

He also has shown me evidence that he is being financially ruined across government agencies including the NDIA/S and planpartnerts - he has shown me a whopping 42 invoices not being paid

Nothing he do gets traction.

I have a new baby with my wife - our second - and my mortgage repayments have not been paid for the home he is living in

If my tenant is not reimbursed for the medium term accommodation which his plan provides for and has enough funds - I will evict him without further notice

Why have these reimbursements not being paid, as well as 42 others? It is affecting my family's life and prosperity and has desecrated my tenants life

Richard has been beside himself with financial distress and he says he has been frequently suicidal - and he believes the NDIS are purposefully putting him at risk of death by suicide before he gets his justice issues met, and he believes he is framed

It is a governments responsibility to look after its most vulnerable people - that's what the NDIS/A is for - and its not as if he does not have the funding

Richard has already called Greg hunt the health minister because unbelievably

- He has no dr
- No psychologist
- No psychiatrist
- No care and zero support
- He has lost his family
- He has not got an LAC
- He has been told he is directly managed by the NDIA - is this true and if so - why will you not answer my questions about his reimbursements

I really do not want to have to deal with a suicide in my rental property - he is obviously at risk yet says he isn't

Do you condone as an NDIS/A representative that you commit me to have to

Do you condone as an NDIA representative that you commit me to have to evict him if you do not action all his invoices immediately?

Why has he not got a local area co-ordinator as is usual and common for any participant

I warn you I want to help Richard but it is beyond my control.

I have two babies a wife and two mortgages to look after.

Richard says this is the last chance he has at being housed.

Also, why has the NDIA not given him a plan review date?

Hung Ho

Hi Richard

As of the date of this email 26th Dec 2021, you are 1 month behind in rent as well as unpaid 1 month bond

Rent overdue \$3292
Bond Overdue \$1,646
Total \$4938

Our family have been extremely understanding & flexible given your current circumstance and have been covering your payments throughout the year.

Unfortunately, with the new arrival of my baby just days ago, this is not a sustainable situation.

The line item for these invoices to be paid are within Richard's NDIS budget and is :Medium term accommodation:

01_082_0115_1_1

Otherwise these should suffice, to save Richard from being evicted.

12 Improved Health and Wellbeing
08 Improved Living Arrangements
14 Improved Life Choices

In addition, 'everyday expenses' should NOT include a computer and a phone. These are not items bought every day - he needs a phone as a human right so that he can speak to police or the crisis assessment team with

.....

If Plan Partners or the NDIS/A do not approve this minimum reimbursement for his phone and his computer (is is permissible to get an iPad and have basic human dignity in line with his plan), then it is clearly evident framed by his recording with federal health Minister Greg Hunt (forcing him to address this with the NDIA) that there is indeed, a movement to desecrate Richard of which he will hold the Government to account.

I will support Richard

In-order to continue to occupying the property, we request the outstanding payment be made **immediately** as per usual account (details below)

Dear Dr McLean

My decision about your complaint | 2022-100368

I am contacting you about the contact you made with our Office in relation to the Administrative Appeals Tribunal (AAT). You contacted our Office by telephone on Monday and that you also sent emails to our Office this week. As a result of these contacts, we created a new complaint, reference 2022-100368.

I understand from your recent email that you have an upcoming telephone direction hearing at the AAT, scheduled for 31 January 2022. In your email, you asked our Office to adjourn these proceedings. You said that that you were dissatisfied because the proceedings were supposed to last half a day, however you were not given sufficient time as your hearing was scheduled to begin at 4:30pm.

To clarify, our Office has a limited jurisdiction in relation to the AAT. The extent of our jurisdiction is the 'administrative actions' of the AAT Registry, including how it considered and responded to complaints. It does not appear, from the information that you have provided that you have made a complaint to the AAT about this issue.

The Ombudsman's Office will generally decline to investigate a matter until it has been raised as a formal complaint with the agency involved. This provides the agency with an opportunity to resolve the matter first, and we have found it is usually a more efficient way of resolving a complaint. You can make a complaint with the AAT here: [Complaints & feedback | Administrative Appeals Tribunal \(aat.gov.au\)](https://www.aat.gov.au/complaints-feedback).

If the AAT do not respond to your complaint or you are dissatisfied with the response you receive from the AAT at that time, you are welcome to contact our Office again and we can consider your complaint further. At this stage I will close your complaint.

In your recent correspondence, I note that you also indicated that you had concerns about not being recognised as a whistleblower. It is unclear whether you are referring to the Public Interest Disclosure Scheme (the PID Scheme). The PID Scheme is overseen by the Commonwealth Ombudsman Office. Further information about the PID Scheme can be found here: [Public Interest Disclosure - Commonwealth Ombudsman](https://www.ombudsman.gov.au/public-interest-disclosure). Information about how to make a disclosure of a PID can be found here: [Information for Disclosers - Commonwealth Ombudsman](https://www.ombudsman.gov.au/information-for-disclosers).

The Royal Commission in to Violence, Abuse Neglect and Exploitation of people with a disability

I will surely be dead within weeks if you do not urgently act

The MHLC rejected me

So has every Government agency

I beg of you help me

I was killed and I don't want to die

Please see this website www.killhim.info

It explains

How Im framed and Ive already died

This is torture

I went to the police today and they kicked me out

I was a sexual slave to a millionaire for five years who exploited me and I wasted my nest egg on him while he made 300k per year and I was on a DSP

You have to help

you have to help

The vilification and victimisation of Dr Rich Mclean; the framing gaslighting and blacklisting - how systemic oppression and prejudice forced his suicide at Werribee Hospital.

The FOI says the attempt was 'fatal'. A new conspiracy was born - to cover it up from the HCC to the MHCC which was biased in favour of the hospital and also Werribee mercy hospital, the office of the information commissioner I had to battle just to get my FOI, even the Victorian Ombudsman Ben Calder condoned that 'fatal injury'.

The fatal injury was the result of a systemic oppression and a conspiracy to pervert the course of justice - because I was framed by Dr Whitakers lawyer as an extortionist.

In addition, my former partner Steve Iasonidis that I had a five plus year relationship with and was engaged to - left me homeless whilst he left with over a million in super, shares, and other equity. He kept me a sexual slave, utilised coercion to financially control me, insisting I

receive a pension of less than \$500 a week whilst he made over 200k plus per year working for ASIO, who he was caught by investing over 1.2 million in an illegal offshore tax haven - and let off jail with a fine.

he swore to ruin my life - and whether the genesis is this or already existing prejudices in society that the movement to desecrate me uses in order to keep me bereft of prosperity and I believe will try and incarcerate me or kill me - via the provable lengthening of justice in order I become a vagrant then kill myself as a high probability.

Then they can blame drugs mental illness, I am a criminal or any other exploitative thing they want.

When I was desperately trying to exonerate myself from this world after being systemically oppressed and a conspiracy to pervert the course of justice had all but destroyed me and desecrated me - I was searching for something sharp. I snapped a dirty toilet brush which did not produce an edge to sever my artery.

I ended up using the glass from my vape I accidentally had in my pocket. The hospitals 'apology', for my death after giving back a dirty broken toilet brush in my luggage, indulges themselves in their attitude towards me and knows it can act with impunity : 'it is not hospital policy' to give back hospital property.

They were obviously desecrating me rudely and shamelessly with impunity from any litigation or the law, which I am actually rendered as officially exonerated from.

When the director of the hospital had news the Victorian Ombudsman Ben Calder had cleared all wrongdoing - he personally emailed me and baited me with this letter that welcomed me to sue him in person and personally, knowing full well, that I have a black mark against my name, no access to justice and no chance in the world of any justice.

This is because I have been scapegoated and framed as many things including a rapist and a pedophile and a drug addict and additionally an evil extortionist by Dr Whittakers Lawyer Mr Ball of Ball and associates.

I only found this out after I had survived suicide via systemic oppression, which was not me being ill, it was a reaction to the conspiracy to desecrate my life and aid and abet my suicide.

My suicide attempts are conspiracy to manslaughter.

Thats corruption.

Upon arrival at hospital I was desecrated of every ounce of self-Dr Kumar had seen me in 2011, it was 2021 - he knew me, my former ASIO employed criminal partner, and my life. He rejected me the medication I needed then - and they did now too which alongside of my dog being kept alone in my rental for four days (we have never been apart), the drugging and then lack of normal medication was medical malpractice and intentional negligence.

It amplified extraordinary distress caused over years of a complaint I made in which the evidence that is here was whitewashed, and never included in my official complaint.

I was framed.

It is illegal to kill yourself in a hospital when you are there specifically to avoid that occurring.

It is a conspiracy to pervert the course of justice to cover that up.

Now, instead of acknowledging the brutal systemic oppression and lifelong vilification I received for being honest about my struggles, I am further scapegoated and heinously maimed and further desecrated.

The office of the chief psychiatrist told me 'You cant kill yourself every time you done get what you want', and that is the current status-quo narrative of my oppression that is systemic and the word on the street from my local coffee guy to my own mother, to the national health Minister MP Greg Hunt.

Prior to hospital, here is a list of organisations

individuals and institutions that acted together to keep the innocuous recording I made silent and cover up the fact that I was knowingly framed.

AHPRA

The Australian medical review board

NHPOPC

The Footscray Police

The Maribyrnong Criminal Investigations Unit

Thye federal Police

The Victorian Inspectorate

The VHREOC

The Australian Human Rights Commission

MP Greg Hunt

MP Katie hall

Sane CEO jack heath

Blackdog institute CEO Professor Gordon Parker

I emailed the media

I emailed human rights activists

I emailed human [rights.vic.gov.au](https://www.humanrights.vic.gov.au)

I complained to the ombudsman

I complained to the federal ombudsman

I asked my psychologist Dr Robert MacKinnon to stick up for me

I asked Dr Cooper of Yarraville medical centre to stand by me. (He didn't but knew of the case - he then prescribed me 2 x boxes of Endone at a time - unusual for someone who had in the past overdosed on opioids - gee it was if he was trying to kill me - then when I didn't - he wrote me a letter demanding I go to drug and alcohol rehab and banning me from the clinic - forcing me into withdrawn placing me at high risk.)

My psychiatrist dumped me accusing me of fraud, knowing I would be without medications that he championed for me having a purposeful life.

Additionally in the entirety of that time - as someone who has a public profile as an advocate and awarded in human rights - and known to suffer from mental illness, I did not have one specialist psychiatrist nor a psychologist.

I still don't.

To this day -

I have no care,

barely a GP,

I don't have medication I need, and

I have suffered permanent memory loss and

in addition I fall over a lot due to my balance being affected and

I can't feel my feet,

I assume because I have damaged my brain and blood vessels when I was found with no pulse and no blood -

I have been denied a lawyer

I was put on jobseeker by centrelink

Hitmen have been threatened to me

I am denied traction in my childhood sexual abuse case where I was the victim, (The geelong magistrate said I was 'doomed to fail.'

I was identified as the 'principal aggressor' in another violent affray in which I defended a man I thought would be killed

I thought would be killed

The FOI from the police refused to give up the footage of the incident that would have exonerated me

I have been denied my income assist and banned from contacting them

I have been blackmailed that if I contact AFCA my million(s) of dollar cases will be dropped

I became bankrupt

I have squatted

A duty of care was abandoned by the hospital - which was supposed to have follow up care

I only saw a psychiatrist at salt water clinic twice - the second time - ten months or so after my manslaughter - to kick me off the system - they still refuse my medication and care

after the manslaughter / murder.

According to The surveillance act 1999, the innocuous recording I made with Dr Whitakker is allowable before a court, but AHPRA's lawyers were internally biased, and Dr Whittakers lawyer Mr Ball forbid them using it.

In fact. I was offered to submit any other form of

...and, I was forced to submit my own report as evidence so I transcribed it - but unknowing to me Mr Ball did not allow for this to be used because it was 'invacuate.'

Hence the years long battle for an ethical justice was based on nothing and utterly in vain.

In my defence, I have been claimed by Mr ball to be extorting the GP for money.

I need some of course - but it is not my currency. Here is evidence of that:

I was gifted \$100,000 during that time - and the person said he was ill, it was a mistake, and he wanted it back - so not that I had to, but ethically I thought it was right - so - I transferred \$100,000 back to him of my own free will, (minus about \$850), I had only bought a crystal, some incense, candles to pray, paid some bills and bought some T-shirts.

The powers that be robbed me of any litigation opportunity or legal traction and because of my many injustice issues that exploited already existing mechanisms of prejudice, - a movement was created to keep me bereft of any prosperity whatsoever. This was because I needed money to defend myself.

It has worked.

My reputation is ruined

I am already bankrupt

I have no rights or agency to complain

I cannot go to police

I cannot get a lawyer

I have lost every friend

I have permanent injuries with memory and physical feeling and the grief of surviving to a world which still perpetuates my suffering systemically and this is well known.

Every single agency under auspice of The Australian Government rejects my complaints about lesser agencies.

Every investigation that has occurred investigating the investigators has returned an innocuous result.

My whistleblower status was rejected.

This is evidence in itself of a conspiracy to evert the course of justice and has happened all along without my knowledge - set me up to fail.

.This is because:

I was framed as an extortionist from a complaint I made about a GP, that I did not know about until later.

I was engaged to my former partner Steve Iasonidis who was an employee of ASIO, who is above Government.

He is protected by an unseen force for my knowledge of him being present at a murder, and drug trafficking, selling a 1.2 million dollar home he then invested in an offshore tax haven in he was caught by the feds.

He was let off with a fine. The home was bought with the proceeds of drug dealing. All you need to do is check his tax records. This will show the papers trail of the illegal investment.

He also kept me in sexual slavery and under financial coercion for five years escaping with over a million dollars in super with no amicable separation - and threatened a hit man on be and blackmailed me that I would be jailed if I went after a separation because he insisted I stay on a disability pension.

I wrote a book on my experience with 'mental illness' in 2002, whilst I was employed at 'The Age' as an artist. I was a public advocate locally, state wide, internationally and nationally.

locally state wide internationally and nationally, in person at organisations and own radio and television, and a documentary was made on my life and work. I was fired or managed out shortly after my autobiography was released.

I have been courageous and kind and this was done mostly via altruism - this is my character, as is the fact I was gifted \$100000 via an individual who then said he was unwell and voices told him to give it to me - so faithful to my ethics I transferred all of it back. It is counter to the claim that I planned an extortion for money from a GP and the evidence will show I protected the GP whilst the statutory agencies aided and abetted by. my suicide watching me unravel, unaware I was blacklisted and set up.

I am exploited by already existing structures of prejudice in society of:

Being gay,

Having taking drugs, and

The stigma of and prejudice of the labels of 'mental illness'

I have travelled the world and was running a business for years and attaining a BFA a Masters Degree and a Doctorate - the PhD of which requires an astonishing amount of literacy communication and is examined for evidence of critical thought and contribution to knowledge and evaluated by a panel of associate professors.

I have evidence I have been framed as a rapist and extortionist and a pedophile and I am convinced a beyond national dossier exists about my identity and the threat to the Government I pose, because the whole system is so far gone now in victimising me and robbing me of justice and prosperity and cutting down the tall poppy that I was nicely famous now infamous.

Currently, 23/10/2021

My computer is hacked,

My Intellectual propertyy and data were maliciously destroyed by an untouchable

company,

I am rejected whistleblower status,

I have been rejected work cover and Income assist after my psychological injury that is a sane response to a crook magistrate,

I am followed and have evidence I am under 'investigation',

I cannot report any of this to any agency as they all exist under the veneer of the movement to kill me.

I am exhumed from any agency to report crime to police

I am banned from contacting many statutory authorities, including MHCC AHPRA or NHPOPC my server has been blocked from the Federal Police I cannot report crime, rejected by ASIC, been bankrupt, I have been murdered but survived by an invisible untouchable systemic and malicious government oppression,

I have been blackmailed by AFCA - responsible for delaying over a million dollars worth of determinations - which has seen me become bankrupt, in turn exonerating me from a career I loved

In hindsight a litigation firm delayed a response

long enough there would be no appeal for my child sexual abuse case and this is corruption.

After my murder, it gave rise to attacking the mechanisms through which I would acquire justice - Micron21 by web hosting company - intentionally desecrated and deleted my digital identity and over twenty years of emails that was evidence before a court. It was covered up by the telecommunications ombudsman and the small business and family ombudsman and business.vic.gov.au

After I was murdered via systemic oppression via powerful agencies - I was rejected from the hospital having no money no car my career ruined and swquatting with no access to healthcare. I saw a psychiatrist twice - the first to connect after seven months of them denying me life saving medication - and the second to officially exonerate me from the system.

I have sustained permanent noticeable memory loss and I cannot feel my feet.

\I have no psychiatrist and no psychologist, barely a GP who will acknowledge bowell bleeding, nor my memory loss not the nerve damage to my feet.

No one wants to cross the floor or get their hands dirty with my issues.

The following are criminal and they have happened to me:

1. A conspiracy to pervert the course of justice is a crime
2. To sustain a fatal injury in a public hospital due to a systemic oppression of silencing evidence and framing an individual then covering it up via proxy of police statutory authorities and an ombudsman is systemic corruption and reverting the course of justice
3. To blacklist someone from a public agency is a crime
4. It is illegal to sustain a fatal injury at a hospital then have that conspiracy to murder covered up

5. It is corruption I cannot report rape fraud tax evasion or drug trafficking to the police or federal police
6. It is illegal to vilify someone publicly on television or in the newspapers
7. Taking advantage by deception is a crime
8. If I have information on someone present at a murder, tax evasion drug trafficking and financial coercion and sexual slavery it is criminal the police continue to not act
9. To threaten to kill is a crime, and conspiracy and oppression that leads to a 'fatal' suicide is a crime
10. Medical malpractice is a crime
11. Consciously rejecting a person with a disability from a public service is a crime
12. Knowingly rejecting a suicidal patient and leaving them squatting with no food job or money is a crime
13. 'Kicking the can down the road' in order to lengthen the amount of suffering through systemic oppression through government is a conspiracy to pervert the course of justice

14. Denying someone medical care and medication is a crime
15. Corruption of police and federal police is a crime
16. Intentionally and consciously systemically imposing suffering on a person with a disability who has suffered so much already is illegal and abhorrent
17. Denying a valued member of society with sentience who has suffered this reality a PID or whistleblower protection is a crime
18. A lawyer representing another party who makes an accusation to a federal body in an investigation which is not denied that leads to the vulnerable persons framing - is inequitable and a crime
19. To intentionally maim an individual's business is a crime as is the intentional desecration of their intellectual property and digital identity
20. To have that covered up by government agencies is evidence of the conspiracy to intimidate and victimise one individual - that is a crime
21. To have the VHREOV deny helping in

any one of these discrimination cases is blacklisting and a crime

22. Blaming a victim of being a principal aggressor in a violent affray when they intervened to save a life via VOCAT is corruption
23. A Magistrate rejecting a child sexual abuse victims case as being 'doomed to fail' after over three years of a law firm aiding and abetting your early death by suicide is incorrigible and perversion and corruption of a judge
24. An ASIO employee of the government who keeps his fiancé in financial and sexual servitude for over five years and leaves him with no equitable separation is a cover up, and to be still confronted
25. That all this happen to one person is evidence of framing and victimisation - in itself illegal
26. To ban an individual from 2 x medical practices, and other agencies to suffer isolated at risk of suicide aids and abets that persons death before they get justice
27. This is why the oppressive system wants to kill me

28. I still have no Dr or specialist

Dear Richard,

Unfortunately this is outside the scope of our usual casework.

We do not have sufficient resources to go through what appears to be a complex history of issues. Furthermore, we are currently overwhelmed in terms of caseload.

We can only recommend that you contact your MP as well as the Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability team who are in the process of identifying appropriate supports for such matters.

The Royal Commission can be contacted on:

- **Email:** DRCEnquiries@royalcommission.gov.au
- **Phone:** 1800 517 199 or +61 7 3734 1900 9:00am to 5:00pm AEST Monday to Friday, excluding national public holidays
- **Post:** Post GPO Box 1422, Brisbane Qld 4001

You can also submit a request to book a private session with the Royal Commission, by filling an online form, located here: <https://privatesessionrequest.disability.royalcommission.gov.au/>

Kind regards,

Hi DDLS and MHLS and Dom from VMIAC

Dom I knew you said you would attempt to be the bridge between these legal agencies for people with disabilities but as I have done a hundred times with VMIAC and both of the addressed organisations or statutory independent bodies they will not respond

I am wondering if you can use your pulling power to make them act in a way that does not gaslight blackmail or oppress me

That was the very way the oppression led me to sustain a fatal injury in the first place

My certain death, is now covered up by the HCC the MHCC and the office of the information commissioner and also the hospital and the Victorian ombudsman Ben Calder.

The CEO of the hospital was so delighted that the oppression that stemmed from my framing by Mr Ball who was Dr Whitakers lawyer worked so effectively and totally behind closed doors, that the CEO of the hospital baited me to sue him directly, knowing that the entire system is cooked and biased in a way that silences my voice and renders me an inner pleb of a citizen written off as mad with the proverbial can kicked down the road until it is believed I will kill myself before I get any justice whatsoever.

Even though I have no psychologist nor a psychiatrist and the local salt water clinic, an arm of the hospital only saw me twice after my murder via conspiracy, they saw me only twice in ten months.

This is more than a bad public mental health service.

It is a systemic oppression that denies me a voice and aids and abets my death.

Stevenson the CEO oversees Salt water clinic, an arm under the auspice of the hospital I have failed to sue.

This is where it is critical that the organisations DDLS and MHLC change their tune and they jump on board.

Because I have no access to healthcare, I was put on jobseeker, I cannot report rape, murder, fraud or financial control and sexual slavery to one single police officer.

The case is before IBACV now and I am creating an online registry of every agency that has heinously blacklisted and gaslighted or ignored me

For a person suffering apparently from a cooked child sexual abuse case that

imwas framed by plus schizophrenia bipolar and panic disorder personality disorder and adjustment disorder and ADHD I still...after all this time...

Am squatting

Gone bankrupt

Lost my job

Been begging for help

The police hassle me

I am being followed

My online activities monitored

And additionally my web hosting I caught out hacking my emails and deleting Comcare emails off the server, which was my work cover.

Further to me not being able to appeal because of lost emails, Micron21 the hosting, without warning, knew they were caught and knew my evidence was on the server.

They internationally went out of their way to desecrate and destroy it and in doing so ruined my website which was all my ABN and my entire digital identity with my [email rich@richmclean.com.au](mailto:rich@richmclean.com.au)

I complained to the telecommunication ombudsman and also the small business ombudsman and business.vic.gov.au

I have no choice and they have all found ways to exploit and reject and gaslight me which is what you all have done to me before.

Should you not change tune now you will be held accountable for conspiracy to pervert the course of justice

There is no other way for me

I am without care medication or agency to speak and I am heinously systemically oppressed and I can prove it all.

Please help me

...or they will kill me - and blame mental illness or drugs as I am easily exploitable with my very public profile and was niche famous now infamous, I even have deflative letters from MP Greg Hunt and MP Katie Hall and MP

(forget name) has whitewashed me

There are too many people involved I will be killed (or murdered as has already occurred), however I added up all the malpractice human rights and AFCA determinations and thefts and bank issues

92 million dollars

Imagine the agency I would have with that and the unbiased litigation and taking it to the high court

I am so distressed - that not one person will stand with me as a victim who spent 25+ years giving to the Australian local state national and international community

For the record, I have never extorted anyone nor kill myself willy nilly as the office of the chief psychiatrist says 'you can't kill yourself every time you don't get what you want'

Incredible isn't it

I was actually gifted 100 grand at one point from an unexpected source - the person said they made a mistake because they were ill

I gave it back

Additionally no ombudsman will defend me, the VIREOV (who I have an award from) will not defend me neither with AHRC or any agency or indeed any family member Orr friend or acquaintance

Now you know - and this will be published and everyone's responses...

That this simply must be a matter for the high court.

It is impossible I be murdered via systemic oppression after malpractice that led me to overdose and denied all care then another conspiracy be born to cover up the fatal injury in hospital and I need one single domino to fall

...and I am depending on you all

It is unholy that this be cast of a person already suffering death threats from my former ASIO partner who owes me over half a million dollars and was present at a murder and tax embezzler, and my own childhood sexual abuse case not given an outcome except for the cooked magistrate to say 'I was doomed to fail' and another violent affray where I was hospitalised with injuries and broken bones for defending a person who I thought would be killed - only to have the police define myself as the principal aggressor

killed only to have the police define myself as the principal aggressor.

I cant stand it its become a black comedy like I am in the Truman show

I am being framed as we speak and I beg of yourselves to cross the party line and advocate for a person who has suffered so much, then nearly died, then murdered, then a cover up

I am infamous now famous.

I will not give up

Its victory or death now - and if no one helps you will have blood on your hands

In the nicest possible way

I sent this to NDIA

In regards to compensation:

NDIA/S in regards to compensation & Change oil circumstances

Please help me I just want a simple life.

Dear Rich,

Thank you for your email.

The NDIA must assess compensation payments a participant receives for personal injury, if the NDIS has or may, provide supports for the same injury.

If your disability is the result of an accident or injury in which someone is at fault and you have been unsuccessful in receiving compensation, can you please provide the following information by return email:

- **Your NDIS number**

430938559

- The type of accident?
 - I was murdered via systemic oppression
 - I have an acquired brain injury and complex mental health issues
 - I cant remember short term
- (Briefly - conspiracy, overdose, suicide via a systemic oppression and framing that rendered a suicide / manslaughter of me-see below).
- I was framed by a Government Conspiracy and devalued and framed so much over a local state and national government oppression - it forced my suicide at Weribee Mercy Hospital in March 2021. I call this a conspiracy to pervert the course of justice - and a clear systemic movement to further aid and abet my death via suicide. Since that suicide, which was deemed 'lethal' and 'a fatal injury', I have been rejected my medication, and have not seen one psychologist or psychiatrist. Further, I attempted an atonement from the system, only to me tempted by Prof Stevenson CEO of Mercy hospital - to sue him directly, he knows I am framed and have utterly no chance at a lawyer.
- I was devalued as a fiancé with my former partner who was an ASIO employee, and I spent my nest egg on him, whilst he earned 2-400K per year, and left me homeless, whilst 'escaping' with over 1 Million in Super, and assets, shares, a home etc
- I was rejected AFCA overdue determinations - which in conjunction with the former partner injustice the Dr Whitaker injustice and the HCF injustice - led me to mention suicide - I have evidence I was fine - I was framed, and it led to my 'fatality.' I was misdiagnosed as 'psychotic' and rejected my medicine - I wa devalued and further oppressed - this forced my killing.
- AFCA acted in congruence with HCF who rejected my income assist insurance to render me bereft of any just compensation or insurance or indeed, any money whatsoever - and this led me to mentioning suicide - for which predictably, they further desecrated me
- I was framed as an extortionist my Dr Whitaker's lawyer Mr Ball, after I complained of a malpractice and negligence issue, and received no medical malpractice or negligence settlement, and it was systemically covered up via numerous local state and commonwealth entities

Commonwealth entities

- As a result, it was clear that a conspiracy to pervert the course of justice was born, in order to lengthen the amount of time it was for me to be bereft of prosperity and lead me to vagrancy (current) and since 2015.
- I was identified as the principal aggressor in a VOCAT case where I saved a mans life and received no compensation, despite my FOI request that the police hand over a video of the assault which would have exonerated me
- I was led down the garden path- about my own child sexual abuse case - and my issue lasted for nearly three years. The case was thrown out by the magistrate but no verdict was given by www.yourlawyer.com.au. Then, when it was too late to appeal - The magistrate sent me a note saying I was 'doomed to fail' from the start, which highlights how I was systemically framed from the very top.
- I lost my work cover claim at Comcare, which also led me to financial destitution. Paul Fowler rejected my application according to some legislation - and work safe failed to support me in my appeal at Comcare. Turns out Paul Fowler was the old head at work safe and this is corruption.
- The case is now before the AAT, for next Wednesday.

IT WILL FAIL

Considering that under Michaelia Cash the attorney Generals portfolio, I have lost other cases under her portfolio.

I have spoken with IGIS about my former partners kingpin role in my framing and they have not got back to me.

My whistleblower status has been denied by:

- Commonwealth Ombudsman
- AFSA
- IBAC
- APRA

Currently I am under investigation, I am paranoid for good reason and receive death threats in my home where I squat with my beloved dog.

These consistent death threats at my home where I am squatting and don't feel safe are hideous and render me so frightened that I will be killed

area.

I demand

- **A lawyer & compensation for my issues**
- **Whistleblower protection so I can**
- **IMMEDIATELY RELOCATE and RECEIVE MEDICATION & HEALTHCARE**
- **For the NDIS/A to act on these injustices immediately and order compensation**
- **I have lost the memory and I cannot feel my feet**

I cannot go to police, and I cannot complain about police.

Under the attorney generals portfolio:

1. **I lost a case at the AHRC (in which I was rejected income assist and TPD cover with my super),**
 2. **I lost my appeal at Comcare**
 3. **Rejected by AFCA**
 4. **Other agencies under her portfolio therefore I expect framed by a Government conspiracy I will be rendered a neutral vagrant with no voice, killed, or set up and incarcerated.**
- **What date did the accident happen? Any times but my overdose on (08/18) and my suicide at Weribbee Mercy on (03/2021)**

Please read these 21 points of criminal activity:

The Crimes in case you needed reminding:

1. A conspiracy to pervert the course of justice is a crime
2. Silencing evidence on purpose from a court is a crime
3. Taking advantage of a person with 'a disability' is against the law
4. Victimising an individual with a known disability so systemically is not only against the law; it is abhorrent
5. Destroying evidence when you know it is the subject of litigation is

criminal especially when organised and planned and that body free from all consequence

6. Not being able to recover your intellectual property and denied access to your own data is illegal and violates my privacy
7. That on its own - intentionally desecrating my email rich@richmclean.com.au and destroying my emails and my website(s) without consequence when the website was the title of my ABN is criminal and destroyed my digital online identity
8. Framing someone with unfair advantage is unethical by the Government and it is equitable and fair to afford me representation with an unbiased lawyer in view of my vagrancy and that I am squatting
9. Not being able to report real death threats to the police when it is clear a movement to maim me exists is both criminal and or a conspiracy and immediately puts my life at risk and I live in fear
10. Persecution on slanderous grounds systemically from high levels of Government is corruption pure and simple and slander is also illegal as is disability discrimination
11. I have been robbed of millions of dollars - that is theft I cannot report to police
12. My former partner, an ASIO agent, left me homeless with his dying dog whist taking off with over a million dollars in superannuation - he still owes me this - and I will get it - I have an acknowledgement from his lawyer yes we were engaged for over five years, yet it inaccurately portrays me as leaving the relationship with oodles of money with 'free rent'.
13. (In fact, I was on a disability support pension for over 15 years whilst he earned over \$30000 a month and feathered his nest whilst I was coerced and taken financial prisoner - spending my entire nest egg on him - and was narcissistically abused as someone with known difficulties).
14. I was forced by many agencies and institutions hands to be outright rejected via every methodology rendering me bereft of prosperity, and that continues to this day
15. It is 09/12/2021 - I am squatting whilst being owed millions — that is conspiracy to pervert the course of justice and I want and demand urgent intervention
16. Denying someone (me) from any litigation avenues or any

representation (I don't know how it is done), is a conspiracy that elongates my vagrancy and aids and abets my death which is a proven methodology utilised via this government oppression

17. Additionally taking advantage of my vagrancy after my prosperity was intentionally destroyed is criminal and puts me the subject of a conspiracy
18. Planning someones failure in a conscious way - setting me up to fail - through agencies of complaint and statutory bodies and ombudsman is conspiracy and a plan to murder someone, (which already happened).
19. This is a methodology that saw me become suicidal many times; and each agency watched on hoping I would die, each time driving me crazier with gaslighting and rejection a proven methodology of torture - and via this evidence they are all heinously guilty of desecrating a vulnerable person
20. Rejecting my FOI from every agency from the office of the Information Commissioner is against the law - is is a law called 'freedom of information' for a reason!
21. Sustaining a in injury from attempted suicide resulting from this systemic oppression and victimisation for years - in a public hospital - is negligence. In addition it was described as a 'fatal injury', and 'lethal.'

- **Where did the accident occur (ie Victoria, NSW, QLD)?**

Victoria and systemically nationally

Additional resources and explanations can be found on the NDIS website – [Compensation and your plan page](#).

We appreciate your assistance.

I appreciate your assistance in acting to litigate on all these compensation issues.

I appreciate you acknowledging these extreme change of circumstance for NDIS/A

As I am being threatened to be killed in my home, I expect fast action (by the end of this week).

I am hungry.

If I have to I will take on the Government - what have I got to lose? YOU CANT TAKE MY SOUL

3. Taking advantage of a person with 'a disability' is against the law
4. Victimising an individual with a known disability so systemically is not only against the law; it is abhorrent
5. Destroying evidence when you know it is the subject of litigation is criminal especially when organised and planned and that body free from all consequence
6. Not being able to recover your intellectual property and denied access to your own data is illegal and violates my privacy

access to your own data is illegal and violates my privacy

7. That on its own - intentionally desecrating my email rich@richmclean.com.au and destroying my emails and my website(s) without consequence when the website was the title of my ABN is criminal and destroyed my digital online identity
8. Framing someone with unfair advantage is unethical by the Government and it is equitable and fair to afford me representation with an unbiased lawyer in view of my vagrancy and that I am squatting
9. Not being able to report real death threats to the police when it is clear a movement to maim me exists is both criminal and or a conspiracy and immediately puts my life at risk and I live in fear
10. Persecution on slanderous grounds systemically from high levels of Government is corruption pure and simple and slander is also illegal as is disability discrimination
11. I have been robbed of millions of dollars - that is theft I cannot report to police
12. My former partner, an ASIO agent, left me homeless with his dying dog whist taking off with over a million dollars in superannuation - he still owes me this - and I will get it - I have an acknowledgement from his lawyer yes we were engaged for over five years, yet it inaccurately portrays me as leaving the relationship with oodles of money with 'free rent'.
13. (In fact, I was on a disability support pension for over 15 years whilst he earned over \$30000 a month and feathered his nest whilst I was coerced and taken financial prisoner - spending my entire nest egg on him - and was narcissistically abused as someone with known difficulties).
14. I was forced by many agencies and institutions hands to be outright rejected via every methodology rendering me bereft of prosperity, and that continues to this day
15. It is 09/12/2021 - I am squatting whilst being owed millions — that is conspiracy to pervert the course of justice and I want and demand urgent intervention
16. Denying someone (me) from any litigation avenues or any representation (I don't know how it is done), is a conspiracy that elongates my vagrancy and aids and abets my death which is a proven methodology utilised via this government oppression
17. Additionallv taking advantage of mv vagrancy after mv prosperitv was

intentionally destroyed is criminal and puts me the subject of a conspiracy

18. Planning someones failure in a conscious way - setting me up to fail - through agencies of complaint and statutory bodies and ombudsman is conspiracy and a plan to murder someone, (which already happened).
19. This is a methodology that saw me become suicidal many times; and each agency watched on hoping I would die, each time driving me crazier with gaslighting and rejection a proven methodology of torture - and via this evidence they are all heinously guilty of desecrating a vulnerable person
20. Rejecting my FOI from every agency from the office of the Information Commissioner is against the law - is is a law called 'freedom of information' for a reason!
21. Sustaining a in injury from attempted suicide resulting from this systemic oppression and victimisation for years - in a public hospital - is negligence. In addition it was described as a 'fatal injury', and 'lethal.'

- **Where did the accident occur (ie Victoria, NSW, QLD)?**

Victoria and systemically nationally
