Dear Ombudsman and federal Circuit court,

Tony Riddell and I need political protection because we are both scapegoats. Tony is an SAS returned soldier and one of only three with his security clearance in the country. Here - he details exactly the psychometric profiling that he has witnessed the federal government do to victimised persons of interest and details also how they are 'sacrificed', ie: killed via a methodology that is a pervasive and catastrophic character assassination and perverse victimisation. He justifies in this conversation how is possible for an individual like me to suffer so much detriment financial abuse vilification victimisation and literal torture.

This is disclosable conduct of public officials.

I speak from the heart and demand this video be acknowledged for my PID.

I speak only five days before the outcome of my Public Interest Disclosure on 24/03/2023.

I want this document to be used in my evidence to support my complaint of disclosable conduct for my PID to the commonwealth ombudsman before the outcome is given.

TWO DUDES TALK

THE TRUTH WILL SET YOU FREE

Tony Riddell explains in person as a knowledgeable person in the Australian Government the techniques the Government uses in which individuals are victimised and psychometrically profiled and then 'sacrificed.'

I wish to admit that under coercion - I committed Centrelink fraud from 2010 to 2015 because my partner Steve Iasonidis insisted on me receiving the disability pension although he was earning \$30-40000 a month at Apple then ASIO.

To avoid my further persecution when I was under the auspice of provable financial control - I demand whistleblower protections so that I am not treated unfairly and victimised further because of this 'fraud' that has occurred under the auspice of family violence. The family violence and coercive financial control is continuing. It is elongated and emboldened by many Government departments and statutory authorities even up to and including the office of prime minister and cabinet who refuse my FOI which would have easily revealed the relationship which the Government will not admit ever existed.

Steve even exploited my illness in claiming a carers pension that exploited me as a person with a mental illness to feather his own financial interests.

I also committed fraud with the NDIS in invoicing intentionally from a 'carer' called Steve Iasonides for 'life coaching' to get money out of my my own plan - it was literally the only way I could survive under the guise of having my prosperity redacted from me systemically and universally in a conscious malicious and intentional way that had an aim - to cause harm and make me broke. I did it that way because the Government were protecting my former partner and he owed me money - so I identified he be the one to support me in the receipt.

Why my PID has disclosable conduct is that there is a clear conspiracy to pervert the course of justice which identifies me vilifies me and victimises me. It has universally exploited me which was the causation of my suicide attempt in Feb 2021. It was deemed 'fatal'. I was revived from certain death and now live with a cognitive brain impairment.

Referral received from inpatient psychiatry team to review above consumer currently admitted to ICU after serious attempt to self-harm with intent to end his life.

47 male longstanding history of schizophrenia, admitted due to increasing threats and plan to end his life on the b/g of injustices done to him through previous treatments under the MHA. Consumer has negative outlook towards MHS system. Ongoing paranoia and animosity towards all hospital staff especially psychiatric teams. Has history of being litigious through phone recording often without consent, using calculating behaviour in order to meet own needs and possible staff splitting. File review suggest Vape pen, shoe string was utilised and suicide letter was also found.

Brief discussion with ICU team who have advised that attempt was lethal and still requires surgical repair. Currently not medically cleared. Management plan in ICU notes for nurse to follow. Medication chart completed according to CMB med charts. Advised ICU to focus of containment and consistency in his management. Minimal negotiations around psychiatric management, follow management plan provided. Visitors are allowed by visitation must be supervised. Aim for swift medical clearance and is for transfer. Advised client will require ICA bed given risk of repeating self-harm or suicide.

S33(1)

Richard lying in bed was fast asleep and was easily woken up. All three clinicians introduced ourselves and Richard agreeable to engage. Richard able to recall and understand why he was brought into ICU. Showed insight into his action however remains to be supportive of this. Richard reported he thought this was the only way 'out of that place'. He reported feeling locked up. He referred to himself as being 'jailed'.

Richard acknowledged concerns from community regarding his plan to end his life on his Bday hence admission was warranted to prevent this. Richard abruptly stopped the assessment and asked all 3 clinicians credentials again. This was given again to him. Richard refused to talk any further as he felt that CL team were recording. Referred to CL team as 'Part of the system'. CL team provided some further information around role and reason for review today in order to ease anxiety and confusion,

CURRENT ASSESSMENT

Self-report

On clinical interview, Richard reported a number of cognitive changes since his suicide attempt in February 2021. In particular, he stated his memory had "dropped" (i.e. significant difficulty with learning and remembering new information) and added that his memory difficulties had become "worse" over time. He stated that prompts and cues do not assist with his recollection of the previously learnt information, explaining that the reminders as "scribbles" to him. On questioning, Richard described his attention as "bad". More specifically, he described he is not able to "concentrate for a long time". In addition, he felt his thinking speed had become "slower" as if his "brain is rusty". He also described experiencing word-finding difficulties and felt these have been "steadily worse". Further, he noted some changes in his executive functions including disorganisation, inability to make decisions and difficulties with problem solving skills.

When asked about his mood, Richard stated he was feeling "depressed", citing that he had "nowhere to go to", "no agency" and that he was "scared of being killed by his former partner". He added that his main concerns were related to his "financial struggles" in the community. Additionally, he noticed his sleep has been affected by his mental health.

With regard to his activities of daily living, Richard reported he has "no money" and as a result t he has been "squatting" with "no food" and "no cleanliness". He described his house as a "dump" and he felt "hopeless". He also noted that he had stopped working since He added that he has trouble using his new mobile phone (i.e. Android) and previously had an iPhone. He commented that he is more familiar with Apple devices.

Collateral history

Collateral history/information was not obtained as Richard did not provide verbal consent for clinician to contact his family members or friends.

Presentation: Richard was seen over several sessions in a single day with multiple short breaks. He presented as a polite and cooperative man. Richard described his mood as "depressed" and he was teary when discussing his past history of trauma. Affect was blunted and restricted in range. Behaviour was generally appropriate, however reduced frustration tolerance with underlying irritability was noted throughout the assessment. Speech was fluent and devoid of word-finding difficulties. He was markedly tangential and perseverative in conversation, frequently answering interview questions by talking about litigation issues against the hospital and related matters. Thought content was mainly related to his frustration at the healthcare system in Australia and his unjust treatment. Richard denied experiencing hallucinations or paranoia, and he did not appear to be responding to internal stimuli. He also denied having any suicidal ideations, plan or intent. Richard appeared to be putting in adequate efforts throughout testing and his performance did not appear to be affected by fatigue or pain. The current assessment was therefore deemed to be an accurate reflection of his current cognitive functioning. Insight into his current cognitive functions was superficially intact.

people, so that, e.g., if a score falls at the 60th percentile, the person has performed better on that task than 60 people out of 100. Unless stated otherwise, these comparisons are made with reference to other people the same age.

Premorbid Functioning: Based on educational and occupational attainment, as well as performance on tasks deemed to be less vulnerable to the effects of neurological change, the estimate of premorbid intellectual functioning placed Richard between the Average and the High Average range.

Orientation: Richard was well oriented to person, place and time. He could accurately recall the current Prime Minister of Australia and describe a recent news item, although he could not recall the names of the former Prime Minister of Australia and the current President of the United States of America.

Information Processing Speed: Richard's information processing speed was variable, with task performance ranging from intact to moderately slowed. Psychomotor speed was mildly reduced.

Attention: Immediate auditory attention span was within normal limits, with task performance falling within the Average range. Working memory (i.e. the ability to hold information in mind and manipulate it for further use) was intact. More specifically, Richard was able to recite a string up to five digits forward reliably and seven unreliably, four digits backward reliably and five digits unreliably, and he could sequence a five-digit string reliably.

Memory: New learning of auditory-verbal information (presented in a word list) was moderately reduced. Delayed recall of such information was also moderately reduced. New learning and delayed recall of more meaningful information (presented in the format of short stories) was mildly-moderately reduced. Qualitatively, Richard did seem overwhelmed with large amounts of auditory-verbal information. His delayed recognition trials on this task were mildly reduced, with task performance falling within the Low Average range. His ability to learn and remember visual materials (in the format of geometric designs) was intact.

Language Skills: Confrontation naming was intact. Richard's performance on tasks assessing vocabulary and general knowledge was intact (in the Average range). Semantic fluency was within normal limits, although he made some repetition errors.

Visuo-spatial Skills: In relation to visuo-spatial constructional skills, Richard's performance ranged between intact and severely reduced. His performance on a task was most likely influenced by planning and organisational difficulties (i.e. an impulsive and piecemeal approach to the task). Qualitatively, there was no primary visuo-spatial impairment noted on testing.

Executive Functions: Performance on executive functioning tasks was variable. In particular, Richard's verbal idea generation was intact, although he made some repetition errors which is suggestive of reduced self-monitoring skills. Set-shifting (i.e. the ability to alternate attention between two tasks) was moderately reduced. Of note, the performance on this particular task was most likely influenced by increased cognitive demands and task complexity. Planning/organisational skills were severely reduced (with his approach to a complex figure copying task characterised by impulsivity, haphazardness and disorganisation).

It is also responsible for my pain and suffering and me living way below the poverty line for years on end.

The charter of human rights of a person with a disability is not being upheld and that is a founding document which underpins all laws in this country. It states a person with a disability should not be discriminated against, should not be exploited, should not have their property (and money) redacted from them, not to have the sanctity of life removed, and not be tortured. It also states a person with a disability should have equality before the law and access to the law and this has never been more false for me.

Despite the enormous amount of grievances below which would demand compensation, settlements, insurances, royalties and other detriment payments my lawyer John Boyle has witnessed me become incarcerated live in poverty the entirety of my worldly possessions destroyed and me become homeless without enough to eat and he still did not follow my instructions to demand settlements. In the entire say, six months of me engaging him he has billed me \$30000 and another cost agreement of \$210000 for the family law issue whilst overseeing my personal destruction hunger incarceration being beaten up run over by a car and victimised to such a profound degree one would be stupid to think that this vile oppression would not at some point drive me to suicide again.

I am paranoid my public interest disclosure won't get over the line because mark Dreyfus the attorney general who oversees the commonwealth ombudsman refuses to acknowledge me. That evidence is in the above video.

I wish to say right up front that the attorney general Mark Dreyfus won't respond to me, here is his office rejecting me, just as Michael Cash did before in the last government:

I demand whistleblower protections for myself and for Tony Riddell who details how the Australian Government psychometrically profiles people and 'sacrifices' them after identifying them then victimising them: Tony Riddell and Rich Mclean chat and his experience and knowledge explains how it is that I have come to be scapegoated.

Where are you mark Dreyfus? I am a member of the public in a country you are a public official in?

After I made this video on 04/08/2022 the police violently kicked in my door and cuffed me to a psychiatric ward where I was imprisoned for two months . Whilst I was there the hospital and the police and the community care team and everyone I know oversaw the landlords destruction of everything I own and it was all taken to the tip.

What is evident is that I was asking for help and I knew I was at risk - at risk by the very people that are supposed to be helping me and protecting in the community.

I am banned at AFCA causing massive financial detriment, and Tim Gos was pivotal in delaying denying deferring my just compensations leading to financial distress even after I had attempted suicide. He is well aware of my finances and he is acutely aware that in AFCA's own literature that a financially marginalised person is supposed to have their determinations concluded within four weeks. Mine excruciatingly took over a year and a half.

Tim Gos acted to delay deny defer my rulings that should by their own literature should have been done in four weeks for a marginalised person,

I lost 1.5 million at AHRC in a totally non - impartial decision by liz lindsberg. This is the moment I lost a potential 1.5 million dollars in a detriment for a TPD and income assist protection from Australian Super and TAL. It is an insurance I could have used now with a brain injury. I am aware it is explicitly the Australian Government financially oppressing me in clever ways because I approached TAL personally and directly and they offered a settlement of \$50000.

The finance minister Birmingham rejects my CDDC scheme compensations.

In the video above you can pick the second Liz Lindberg free kicks a 1.5 million potential settlement to the opposition of Australian super and under writer TAL. The decision was not impartial whatsoever. I know this because I approached TAL for a settlement and they provided a token one.

DISCLOSABLE CONDUCT:

It is NOT ok that the following things have happened. It details the names of various public servants who are complicit in disclosable conduct and my victimisation:

1. The office of prime minister and cabinet refuse my FOI.
2. Attorney general Mark Dreyfus and his staff intentionally avoid acknowledging me who is a member of the public,
3. That Deborah Glass never acknowledge my concerns as the Victorian Ombudsman
4. For me to be banned at AFCA following being set up by Tim Gos and that I lost over 2 million potential dollars in detriment for threatening to expose the truth
5. For Liz Lindsberg at AHRC to free kick a 1.5 million settlement to the opposition causing 1.5 million detriment
6. David Irvine was aware I was on a pension and so that is disclosable conduct.
7. I am banned at work safe,
8. The old boss at work safe was Paul Fowler - WorkSafe forced me to comcare then Paul fowler rejected me at ComCare and this is corruption,
9. This is despite my contract being with a victorian statutory authority and I was only legislated to work in Victoria therefore my insurance is at work safe,
10. I was rejected my workers compensation at ComCare,

- 11.** The AAT member Purnell and Kate Watson who is a lawyer defending the governments decision further redacted my prosperity by ruling me not to be paid work cover and again forcing it through on 06/04/2023 which is illegal under the charter of human rights,
- 12.** Danny Pearson the work place minister refused to respond to me despite if liability cannot be determined then it becomes a liability of the minister and or agency,
- 13.** I sent an email to all parliamentarians with no response,
- 14.** I sent a PID to sia.lagos@fedcourt.gov.au they have 14 days or until next Tuesday to acknowledge it,
- 15.** A Geelong magistrate cited my own child sexual abuse VOCAT case as 'doomed to fail',
- 16.** Likely because of Russell Ball who is a lawyer who informs Government policy and also the ombudsman - he framed me in regards to a malpractice complaint,
- 17.** My website and digital identity were destroyed by Micron21,
- 18.** The SFBEO covered it up,
- 19.** The telecommunications industry ombudsman covered it up,
- 20.** My ABN was cancelled,
- 21.** I was violently beaten up twice, and hospitalised with broken bones and gashes requiring stitches and broken bones,
- 22.** VOCAT refused to pay again for the violence,
- 23.** The victims of crime refused to help me,
- 24.** I was violently beaten up inside Weribee mercy hospital, in a set up,

- 25.** I attempted suicide inside Weribee mercy in Feb 21 and there is now a cover up from all concerned including the hospital about a possible settlement,
- 26.** I suffer a cognitive brain impairment as a result,
- 27.** I have been rejected my dexamphetamine script after being praised for its success by Dr David Horgan,
- 28.** My evidence in the malpractice case was covered up by The Police AHPRA NHPOPC IBAC The Victorian Inspectorate and the Ombudsman,

29. Only weeks later, I was fired from The Age where I worked as a news graphics artist and illustrator for five years.
30. I have never been able to get a lawyer who is ballsy enough to get a single issue over the line despite being in debt to John Boyle \$30000 and costings of \$210000 - this is clearly taking advantage of a marginalised person.
31. My enemies are not only in the Government. Here, the Herald sun - where I previously worked - humiliate and vilify me for my human rights awarded book 'recovered Not Cured a Journey through schizophrenia' (Allen and Unwin, 2002).

32. That AHRC totally ignore my email detailing the profound abuse neglect and victimisation
33. For finance minister Birmingham to reject my CDDC detriment payment
34. Attorney general Michaelia Cash not intervene my many emails that detail corruption at AHRC, AFCA and AAT
35. For Kate Watson defending Governments non acknowledgement of compensation as a person with a disability
36. My former partner still threatens to kill me and also my husky crystal and family violence is never ok. It is a threat I cannot report to police and I demand protection because he would kill if he had the chance.

- 37.** For me to suffer a self inflicted injury inside a hospital from the intelligently designed vagrancy
- 38.** That injury under a duty of care caused cognitive impairment with no compensation
- 39.** That I was run over by a car injuring my dog and I (likely an undercover Government set up),
- 40.** That Ben Calder Ombudsman covered up the abandonment of duty of care
- 41.** That the Government conceal my relationship with an ASIO employee Steve Stefan Stefan Iasonidis
- 42.** That the ASIO employee Steve had exploited me - a disabled person and
- 43.** No settlement or separation of assets occurred and he maliciously acted to imprison me in a psychiatric ward
- 44.** That Steve admitted he was present at murders at Collingwood and Broome
- 45.** Police fail to respond to my information
- 46.** That after two years of suffering workplace injury I never received workers compensation
- 47.** This is despite legislation which states if no liability in 21 days then the agency is liable and the Minister
- 48.** That the work place Danny Pearson refused to acknowledge this and my email
- 49.** That a worker never be paid insurance from HCF I was legitimately covered and insured for
- 50.** Then be banned from contacting the insurance company HCF despite still paying the premium
- 51.** That my twenty year old www.richmclean.com.au website - also his ABN - be maliciously destroyed
- 52.** That SMFEO and telecommunications ombudsman and additionally business.gov do nothing protecting Micron21

53. That I write to the Australian legal bar asking why I have never had a lawyer and they refuse to acknowledge me

54. AFCA, ASIC, Centrelink and the office of prime minister and cabinet refuse to acknowledge my relationship with Steve, protecting his money and his role as a public official.

Commonwealth agencies

Regarding your claims that you submitted a report of misconduct to ASIC in relation to your interactions with the Hospital Contribution Fund (HCF) and your customer service concerns regarding AFCA, ASIC has advised Finance that it assessed the report of misconduct (report) submitted by you on 5 July 2021 and decided not to take action on the report on the basis that there was insufficient evidence of misconduct by HCF and that you should continue with the available dispute resolution processes in relation to your dispute with HCF. Finance understands that ASIC corresponded with you on 22 July 2021 in response to the report and advised you of the following:

- ASIC does not offer external dispute resolution services like AFCA and its role does not extend to taking action against financial firms on behalf of individuals in relation to their private disputes.
- ASIC believes that such disputes are best resolved through internal dispute resolution and external dispute resolution processes and with the benefit of legal advice.
- Whilst ASIC has an oversight role of AFCA, AFCA remains independent and responsible for its own individual complaints handling.
- Any action taken by ASIC is aimed at a broader public benefit, rather than a solution for individual reporters of misconduct, and ASIC does not intervene in private disputes and is unable to provide legal advice.

On the basis of the above information from ASIC, I am satisfied that in relation to your concerns regarding conduct your interactions with ASIC were dealt with appropriately by ASIC, on the basis that they are not matters for which ASIC has legislative or administrative responsibility.

Regarding your request that Services Australia: Centrelink (Centrelink) acknowledges your former partner's relationship to allow a formal separation of assets, and Centrelink's handling of your Disability Support Pension and JobSeeker payments, you have not provided any information regarding any specific applications or requests that you have made to Centrelink in relation to these matters. Therefore Finance encourages you to contact Centrelink directly to progress these specific issues, as it appears that you have not exhausted all avenues available to you in respect of these matters you have raised. Furthermore, if you consider that Centrelink has been defective in its administration of your applications for income support payments, you may apply directly to Centrelink for compensation under the *Scheme for Compensation for Detriment caused by Defective Administration* (CDDA Scheme).

Dear Dr McLean

Act of Grace Request

I refer to your application for an act of grace payment, received by the Department of Finance (Finance) on 19 August 2022. The request relates to allegations about the conduct of various private individuals and organisations, as well as complaints regarding your interactions with a number of agencies, including Services Australia: Centrelink and the Australian Securities and Investments Commission (ASIC).

The act of grace mechanism is generally a remedy of last resort and is not used when there is another viable remedy available to provide redress. Furthermore, the act of grace mechanism is generally only available to provide a remedy for the actions of a non-corporate Commonwealth entity (NCE). A list of NCEs is available on the [Finance website](#). If the entity you have been dealing with is not an NCE, it is unlikely that Finance can consider your requests that relate to those entities.

I have reviewed the large volume of material that you have provided in support of your act of grace application.

Non-Commonwealth agencies

I note that the majority of your matters relate to private individuals and organisations, state government matters, and Corporate Commonwealth entities – all of which fall outside of the scope of the discretionary payment mechanisms that are available under the *Public Governance, Performance and Accountability Act 2013* (PGPA Act). If a request relates to the actions of a state or territory government department, or a private organisation (i.e. does not relate to the acts or policies of a non-corporate Commonwealth entity), an act of grace payment is unlikely to be appropriate and you should contact the relevant organisation directly to discuss the redress or review options that may be available to you to resolve your circumstances.

- 59.** 28. That in protesting the harm caused me HCC, MHCC, The Ombudsman, Weribee Mercy Hospital cover up negligence,
- 60.** That I was violently attacked and had my nose broken by another patient - quite probably set up that way as a Government thug - and injuring me inside a hospital and nothing done about it,
- 61.** Tim Gos used his position of political privilege to delay deny and defer my valid financial settlements,
- 62.** APRA Peter Dunstan rejected my whistleblower statement citing I was not able to do so. When I replied with my Government login at DSS - he ignored me.
- 63.** Bankruptcy people know full well that my former partner owes me a settlement and that I should never have had to go bankrupt but they will not intervene nor act.
- 64.** HCF Sheena Jack is complicit in my financial destruction and did so with impunity and now I am banned from contacting them.
- 65.** IBAC Sue at IBAC is exceptionally aware of my abuse and does nothing about it - refusing my whistleblower statement and need for protections and following I lost the entire contents of my home and was needlessly incarcerated and run over by a Government car and ran out of my house by cops threatening me with the mental health act. I was additionally beaten up inside a hospital once and another violent assault in which I was hospitalised with broken bones and lacerations.
- 66.** Comcare are complicit in the victimisation with Paul Fowler rejecting my work cover. He was the old boss at work safe - and I was forced to comcare in an elaborate set up to be rejected.
- 67.** AAT member Purnell and Kate Watson act outside their professional remit and in spite of human rights charters and force my hearings when they know I am a scapegoat and can get no lawyer.
- 68.** Every lawyer that framed me. The legal fraternity especially the Australian legal bar are complicit in following Russell Ball's instructions of me never having equitable representation and all the main large law firms have psychometrically profiled me and rejected me.

- 69. AFCA.** I am banned here from commonwealth statutory authority as a member of the public for what? Threatening to call out a conspiracy which is actually happening.
- 70. AHRC.** Liz Lindsberg free kicks a 1.5 million dollar supposedly impartial decision to the opposition. Further they reject all my complaints.
- 71. APRA.** They refuse my whistleblower statement.
- 72. OPP** have rejected my reporting of a reportable death of me inside a hospital and refused to acknowledge me.
- 73. Weribbee mercy mental health** have further oppressed me and retraumatised me by keeping me a political prisoner in the same location I suffered a fatal injury.
- 74. Salt water Clinic** are supposed to care for me in the community but have only served to embolden my abuse and suffering and lock me away. I have only ever received two \$50 vouchers for Coles and one \$100 Kmart voucher from Kade Mollison - a gutless pawn who is an apologist for the hospitals neglect and malpractice.
- 75. NHPOPC - Preya MacKenzie** silenced my recording of malpractice and elongated my distress at not being acknowledged as a suicidal patient.
- 76. Police - especially in Footscray** elongate my abuse and oversaw the destruction of everything I own.
- 77. Federal Police** have ignored my many reports of my treatment and my business being destroyed.

These issues are a serious breach of the charter of human rights for a person with a disability.

Victimisation is against the law.

A conspiracy to pervert the course of justice has and is occurring.

Steve Iasonidis will likely kill me and has already threatened to do so because he was apparently done for embezzlement and he also has recently threatened to kill my dog Crystal - I demand protections from this profound abuse and family violence.

I demand enough compensations from either a gracias payment or the CDDC schemer by getting me a lawyer who isn't afraid to demand a settlement or any of my compensations being ruled to be paid in order to get me financially over the line that my basic needs are met including:

- *A home,*
- *Enough food,*
- *Enough Medicine,*
- *A psychiatrist I can afford to get my dexamphetamine so I won't have to resort to street drugs.*
- *A hidden location with surveillances to protect me from potential violence.*
