Dear Ray Griggs,

My name is Richard McLean. Please see email below?

My can is 405689451x

I write with urgency because I again am at risk of homelessness and don't have enough to eat or to survived.

I have herre a federal court document satisfied I was employed by DSS.

Whether you want to acknowledge that or not you may beed to bring up with school Treadwell there.

In the meantime, it is certified I was employed with you because I have a DSS login and was contracted to the ndis and paid with government money.

I have suffered a brain injury the result of a suicide attempt.

I went to claim on my super but alas I had not filled the form out correctly when I started my role and as you can see below I need an account number with CSC in order to be able to claim my TPD and income assist.

I have been in a very difficult situation of a conspiracy.

\\All I need you to do is to acknowledge the fed court document and retrospectively place an account with CSC so that I may claim on my insurance.

I just spent over a month as a homeless vagrant and my treatment has been utterly brutal.

Can you please have some kindness for a person who may be a scapegoat but has spent the vasty majority of his life in this country helping others with mental illness and their carers?

Dr Mclean advocated against shame stigma and prejudice for most of his life. He has spoken from Parliament House in Canberra to The school of religious and philosophical studies in Montreal Canada. He has travelled the Australian continent speaking at local state and federal levels including Dubbo to Warnambool to Canberra Sydney and Melbourne.

Here is a list of places he has spoken:

I did all that by myself and believe on merit alone I have earned a place of insurance for a job in which I should have had a superannuation guarantee also.

I also earned a merit based phd scholarship and finished it to run by own business helping people before child sexual abuse injustice floored me and I could no longer work.

\

Please can you have some compassion for my situation and facilitate a way in which I can claim considering my employment status with DSS from fed court?

I will thank you with my life.

Ps please all note that:

I received a payout in 2008 and it states that I 'may be eligible for an insured benefit if my illness was before a certain date

I must say their own product disclosure statement states that two units were standard meaning another 83000 is due but alas ive never had a lawyer

Pss

I also inadvertently admit to you my relationship with Stefan Iasonidis

Evidence

was from 2010-15 and he tricked me into taking a DSP because he manipulated me

He said I would never be independant

But he tricked me and exploited me

I attach evidence of a carers payment he tried to claim that was exploiting my illness

I also attach evidence we were together:

That means I owe you 125000 or so

Please know I would pay it back if I could

Hes now been done for embezzlement and has threatened to kill me and my dog

If I get any of my justice issues over the line I will gladly pay you

The government and DSS has been reluctant to admit I owe the debt because a court will hear about my partner and the government has a preferred narrative of non acknowledgement when it comes to him

I almost want to say please come at me and sue me or fine me out me in a court so I can expose this corruption that protects him in favour of exploiting me

I don't know what to do I am an honest person trying to do the right things

When to request stapled super fund details

You will need to request stapled super fund details for new employees who start on or after 1 November 2021, when:

you need to make super guarantee payments for that employee

they are [eligible to choose a super fund](#), but don't. (This was me). This includes [contractors](#) who you pay mainly for their labour and who are employees for super guarantee purposes. (This was also me contract with the NDIS attached).

You may need to request stapled super fund details for some employees who aren't eligible to choose their own super fund.

This includes employees that are:

temporary residents

covered by an enterprise agreement or workplace (I have attached the enterprise agreement).

Please see attached:

NDIS DOES choose its own super fund. That fund is detailed in the NDIS enterprise agreement.pdf

Please also see:

5.26. The NDIA's default superannuation fund for new employees is the [Public Sector Superannuation Accumulation Plan \(PSSap\)](#). The NDIA will provide employer superannuation contributions to members of the PSSap of no less than 15.4 per cent of your fortnightly contribution salary.

5.27. Existing Public Sector Superannuation (PSS) and Commonwealth Superannuation Scheme (CSS) arrangements will continue in accordance with the relevant legislation and requirements.

5.28. Where you [exercise superannuation choice](#), the NDIA will provide employer superannuation contributions of no less than 15.4 per cent of your fortnightly contribution salary.

5.29. Employer contributions will not be reduced by any other contributions made through salary packaging arrangements. This clause does not apply where a superannuation fund cannot accept employer superannuation contributions.

5.30. Employer superannuation contributions will be paid during periods of paid and

unpaid parental leave (including maternity, parental, adoption and foster care leave) for periods of leave to a maximum of 52 weeks, or as otherwise provided in legislation.

5.31. The CEO may choose to limit superannuation choice to complying superannuation funds that allow employee and/or employer contributions to be paid through fortnightly electronic funds transfer using a file generated by the NDIA's payroll system.

5.32. Any fees applied by a **chosen fund** associated with the administration of superannuation contributions will be borne by you.

Superannuation allowance

5.33. The CEO may pay a superannuation allowance where the NDIA is no longer permitted to pay employer contributions to your superannuation fund (due to your age).

5.34. The superannuation allowance will be equivalent to the amount that the NDIA would have paid if you were entitled to **receive employer superannuation contributions**, less any contribution amount accepted to your superannuation fund.

That proves that I am an employee of DSS overseeing the NDIS who al have a Government contract to. This also enables me to make a PID under the PID act as a public official.

Employees are supposed to be paid a superannuation guarantee as per the legislation.

Please see attached file:

'A public interest disclosure can only be made by a **"public official"**; paragraph 26(1)(a) PID Act. The meaning of **"public official"** is defined and includes current or past Australian Public Sector employees: section 69 PID Act. Section 30 of the PID Act extends this meaning to

include employees of organisations which provide goods or services under a Commonwealth contract; subsection 30(3) PID Act. As a general principle an organisation which is a party to a contract that prescribes the terms for grant funding is not a contracted service provider for the purposes of the PID Act.

On the information you have provided me, I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate.'

Now that a Federal Court document has confirmed that I was an employee of DSS you can see why I should have been paid superannuation and insurance benefits for my time employed by DSS of the standard minimum as prescribed by legislation and the superannuation guarantee.

It is not permissible that your response says I was not an employee. This document is not merely an opinion that can be taken or left or argued into insignificance - but a fact stated on a Federal Court letterhead by an authorised person able to confirm it.

If you were to argue I was not an employee that would have to be decided at the AAT or indeed if that failed the federal court and that evidence is already existing.

Under the NDIS Commission, a worker is anyone who is **employed** or otherwise engaged to **provide NDIS supports and services to people with disability**. Workers can be **paid** or unpaid, and can be people who are **self-employed**, employees, **contractors**, consultants, and volunteers.

So according to that statutory Government authority, I am an employee and or a worker.

As I am an **employee** of the NDIA, I should have had a default superannuation fund.

This dis not occur.

. B.2 The appendix does not apply to any existing employee who has a claim against the employer which is subject to the provisions of workers compensation legislation or any provision of this Agreement relating to the rehabilitation of employees who are injured in the course of their employment.

Supported wage rates

B.3

You will be paid the applicable percentage of the relevant minimum wage according to the following schedule:

10% 10%

On 22/01/2021 I became ill from work because of complex reasons, and I was no longer physically able to attend to see my two year long client, who had extremely high needs.

I took provisions in order to reduce stress and risk with that situation as well.

I was not available because of a parallel magistrates decision linked to my validation of child sexual abuse, and that I had been unsuccessful in various VOCAT cases which I believe were actually a case of systemic oppression from Government agencies.

I also could not function in the emotional and critical thinking capacity for my role, and be the best support I could be for my important client.

It was only a short while after that whereby I was hospitalised in a psychiatric unit.

Whilst I was there, I very nearly died by suicide.

The FOI from the hospital states that it was a 'lethal injury', and a 'fatal' attempt.

It is recorded in the clinical notes from the FOI's that I was found unresponsive, having totally bled out with 'no observable pulse', If I were not freakishly accidentally discovered and rushed out lifeless in a code black - and revived with a refilling of my bodies blood and basic fluid, and dramatic oxygen pumps refilling my lungs - I painfully and eventually gained consciousness.

What killed me was not mental illness.

I will prove beyond reasonable doubt that it was the sum of prejudice stigma shame the non validation via a magistrate of my sexual abuse where I was the child victim, and a decades long consistent systemic government oppression that was conscious malicious and a sustained attack.

Further to that; I have an acquired brain injury arising from the toxicology of the carbon dioxide in my brain toxicology and the lack of oxygen.

Research shows that it destroys short term memory in the region of the hippocampus.

I struggle even day with my thoughts and my thought processors.

I changed my name to escape the systemic oppression and denial my name had within the Government and I could not remember what it was.

I can barely organise myself to get a new glasses prescription, or attend any kind of meeting or have the memory and drive to do simple things like get a haircut.

The amount to be paid per year is not less

. B.4 The **salary payable** under this table will **not be less** than the minimum amount determined by the **Fair Work Commission (FWC)**.

It also says

. B.5 Where your assessed capacity is 10 per cent you must receive a high degree of assistance and support.

In regards to the assessment of capacity:

'Assessment of capacity

- . B.6 For the purposes of establishing the percentage of the relevant minimum wage, your productive capacity will be assessed in accordance with the **SWS** by an approved assessor, having consulted you and your employer and if you so choose, your **representative**. *(My lawyer cc into this email)*.
- . B.7 Assessment made under this schedule must be documented in a SWS wage assessment agreement, and retained by the employer as a time and wages record in accordance with the *Social Security Act 1991*.

This needs to be urgently done On other terms of employment:

Other terms and conditions of employment

B.9 Where an assessment has been made, the applicable percentage will apply to the relevant wage rate only. Employees covered by the provisions of the schedule will be entitled to the same terms and conditions of employment as all other workers covered by this Agreement paid on a pro-rata basis.

the systemic oppression from Government agencies, my non validated child sexual abuse case, the stressors from work of completing a VOCAT assessment and

statement for my two-year-long-client-who was a survivor of child rape and incest, which triggered me.

The client was abusing and would call threatening me.

I put in place a new users agreement whereby he was banned from calling or texting - something I had allowed in case of an emergency in the past.

Our collection approach to unpaid super

If your **employer** doesn't pay the minimum amount of super into the correct fund by the due date, they may have to pay the **super guarantee charge (SGC)**.

We may investigate an employer's super guarantee compliance on our own initiative or in response to an employee enquiry. If we determine that your **employer (or former employer)** has not complied with their SG obligations for you, **(THEY HAVEN'T)** or we reasonably suspect this to be the case, we may disclose details of this to you.

From 1 April 2019, the law allows us to disclose an employer's non-compliance to affected employees even if they haven't lodged an enquiry with us.

We **prioritise** the collection of **unpaid SGC debts. (Please do this I am staring down the barrel of homelessness again)**. We'll work with employers who engage with us to address their debt. For those that don't engage, we'll take **stronger action**. This can include:

director penalty notices garnishee notices.

If you've chosen to report your employer, we'll keep you updated throughout the investigation. If we establish there is an SGC debt, we'll inform you of the **recovery actions we're taking. (Please do this)**.
